WHEAT BITTERS.

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by *fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as curealls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

The lecture of Mr. Herbert Welsh upon the Indian question given on Tuesday evening, the 13th inst., in the North church, was one of the most interesting and important ever given in our city. Mr. Welsh was greeted by a large and most attentive audience, and we hear the address everywhere spoken of with warm commendation as containing valuable information, given in a manner admirably adopted to interest an intelligent audience as well as to cause the greatest sympathy for a wronged and helpless people.

"Are you lonely to-night, Miss Ada?" "No sir! I wish I were lonelier." He bade her good night and went home, took a large dose of Dr. Bull's Cough Syrup, fearing her icy manner had given him a cold.

—Speaking of Joseph Cook's positiveness regarding Christian theology, the Hartford *Courant* recalls that "St. Paul knew in part and prophesied in part, but then—he didn't live in Boston."

Hon. P. T. Barnum and his combination give rare praise to St. Jacobs Oil.

—In the case of Miss Wilson of Baltimore, who died suddenly, the coroner's jury returned a verdict that "Caroline Wilson came to her death from cramp colic, produced by eating sausage, and, in the opinion of the jury, the sausage was good."

"Many ladies who had scarcely enjoyed the luxury of feeling well for years have been so renovated by using Lydia Pinkham's Vegetable Compound that they have triumphed over the ills flesh is said to be heir to, and life has been crowned with the added charm of a fresher beauty.

—"What is worse than freckles?" asks a young lady. Corns, my dear, corns. They don't show so much when you're dressed up, but then if you keep straight no one can step on your freckles.

Special Offer to Housekeepers.—A full-sized box of the noted silver polish, Electro-Silicon, and cook book, sent postpaid to any address in the United States on receipt of 15 cents, cash or stamps. Address Electro-Silicon Co., 72 Johnstreet, New York.

—Sunflower leaves are now used in the manufacture of cigars. If they have an antheticising effect on a man it shows itself very singularly in his discourse after he has tried to smoke one.

"When I publicly testified that I had been cured of a terrible skin humor by the Cuticura Remedies, I did so that others might be cured, and don't regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

—The Boston *Advertiser* states that Nantucket has a girl pilot only seventeen years old. Whether anybody is foolenough to risk himself in a boat under her guidance isn't stated.

Catarrh.—Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

—"Will Love Win?" is the title of a new novel. We feel authorized to say that love, properly backed with a bank account, will make its way with success every time.

"Horse-car conductors," says a spiteful writer, "should always be chosen with a view to personal courage, because 'None but the brave deserve the fare.'" It is pre-eminently true that "None but meritorious preparations deserve success." Everybody knows the nature and effects of catarrh. It is one of the most loathsome maladies, and has been pronounced incurable. Ely's Cream Balm may be described as a gigantic tidal wave which has submerged that theory. This Balm is a pleasant, popular, perfect preparation, and a certain cure for catarrh. It is not a liquid or snuff, and is easily applied. "I had catarrh for fifteen years," said G. Z. Warren, Rutland, Vt., "with distressing pains over my eyes, gradually the disease worked down upon my lungs. Ely's Cream Balm cured me." All who use it speak in the same grateful strain.

—First small girl—"I know what I'm going to be when I grow up?" Second ditto.—"What are you going to be when you grow up?" First small girl—"A widder."

That weak back or pain in the side or hips you will find immediately relieved when a *Hop Plaster* is applied. It strengthens the muscles, giving the ability to do hard work without suffering. Take none but this, 'tis sure.

—Philosophers differ. One says it is a waste of breath to swear when there is ice on the upper doorstep and you're the victim. Another says it's the proper thing to swear, and so get your mind relieved as soon as possible.

Somebody's Child.

Somebody's child is dying—dying with the flush of hope on his young face, and somebody's mother thinking of the time when that dear face will be hidden where no ray of hope can brighten it—because there was no cure for consumption. Reader, if the child be your neighbor's take this comforting word to the mother's heart before it is too late. Tell her that consumption is curable; that men are living to-day whom the physicians pronounced incurable, because one lung has been almost destroyed by the disease. Dr. Pierce's "Golden Medical Discovery" has cured hundreds; surpasses cod liver oil, hypophosphites, and other medicines in curing this disease. Sold by druggists.

"They who cry loudest are not always the most hurt." Kidney-Wort does its work like the good Samaritan, quickly, unostentatiously, but with great thoroughness. A New Hampshire lady writes: "Mother has been afflicted for years with kidney diseases. Last spring she was very ill and had an alarming pain and numbness in one side. Kidney-Wort proved a great blessing and has completely cured her."

—"Can you tell me," asked a Sunday school teacher of a little girl, "why the Israelites made a golden calf? "Because they hadn't gold enough to make a cow," was the reply.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

—It is the young girl of engaging manners who naturally becomes engaged first.

For four years I suffered agony from a skin disease. Dr. Benson's Skin Cure cured me." C. B. McDonald, Plantersville, Ala. $1, at druggists.

—A lady writes a story about "My Husband's Secret." He must have been a young husband to have admitted he had one. The old married man knows better than to do so.

If Nearly Dead

after taking some highly puffed up stuff, with long testimonials, turn to Hop Bitters, and have no fear of any kidney or urinary troubles, Bright's disease, diabetes or liver complaint. These diseases cannot resist the curative power of Hop Bitters; besides it is the best family medicine on earth.

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinnipiac Lodge, No. 1, the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sale use of Dr. Kennedy's FAVORITE REMEDY.

The Tale of the False Teeth.

False teeth may tell lies in a quiet way. But a real tooth tells the solemn truth when it sends its messages of pain through all the nerves and muscles of the face. "I have the tooth-ache!" is the almost audible howl. And the echo is, "Yes, and the toothache has me!" When the agonies of neuralgia settle in a decayed tooth, something must be done. Get Perry Davis's Pain Killer.

Superintendent Clark of Sawyer's Mills, Dover, has given notice to the spoolers in that establishment that they must leave the mills and attend the public schools for at least six months.

Contractors vs. Navy Yards.

The Philadelphia *Sunday Mercury* in commenting upon the saying of Major King of Philadelphia that "government ship yards are a thing of the past," and that he was in favor of doing government work in private yards, remarks:

His Honor also says that he remembers how long the old Pennsylvania was in course of construction, but does His Honor remember how long she lasted? Launched in 1836 at Philadelphia, she was perfectly sound when destroyed by the rebels at Norfolk in 1862; and does His Honor also remember the Chattanooga, built by contractors at an enormous expense to the government, and so badly constructed that she could not get beyond the capes? So much for contractors, government jobbers and private yards. None of the great naval powers of the world depend upon private yards. England has her Portsmouth, which, independent of the amount expended on vessels, has cost the government £126,000,000, or over $600,000,000. Yet this yard, erected at such an enormous outlay, is gradually being abandoned on account of the vast improvement in naval armaments, making it liable to attack from a foreign foe. But does she intend to send her naval works outside? No. On the contrary, Chatham yard, on the river Medway, is being made the grand naval depot for building and repairs. But notwithstanding the great outlay, which has been carefully considered, the work is being rapidly pushed forward in the interest of what has been fully demonstrated "true economy."

The *Mercury* then sets forth at length some of the advantages possessed by League island as a naval station.

The yard comprises over two miles of the best water front of the city, and has ample space for the erection of a suitable naval station for the construction, repair and safe anchorage of steel and iron vessels, government work for mounting heavy guns, etc., facilities for which it has no equal on earth, as its surroundings and close proximity to the two great motors, coal and iron, and all other requisites for a naval station, as can be readily shown under the following heads, which will be more fully set forth in future articles. Economy, security from an enemy, adequate depth of water, facility of ingress and egress, ample wharf accommodations, facilities for laying up vessels, security from storm, protection from ice, ample space for buildings, docks, etc., adapted for the construction of all requisite work, with the greatest economy, abundant supply of fresh water, facilities for securing stores and supplies, facilities for obtaining timber and coal, facilities for obtaining skilled labor in all departments, vicinity to a large and loyal city, location in fresh water for the safety and preservation of iron vessels, a position where a large military force could be concentrated on short notice against foreign invasion, security against domestic disturbance, impossibility of blockading the position, prevailing winds, and lastly, healthfulness.

This may be all true. But there exists around League island the malarious influence of the contractors. The germ of this insidious disease first shew itself among certain officers of the navy, who have stoutly maintained that navy yards were the means of great abuses, and that mechanical work could be done cheaper outside of government works. The contractors piped, and the officers danced. Soon in the navy department this new phase of political economy developed to a vast extent. The disinterested Delaware men were anxious to save the public money from waste, and kindly volunteered to build the government ships, for which they (the contractors) had better facilities than were provided in the navy yards.

Of what consequence is it, even if the government has convenient navy yards capable of doing all its work? the contractors have determined that the funds appropriated for increasing the ships of the navy shall come to their shops, or it shall not be expended at all. This is the reason why it is proposed to close navy yards, and why rumors are spread abroad as to selling such property. The plan is to pass the mechanical operations of the navy department over to the contractors, and to keep navy yards as retired and comfortable places of residence for officers, who will have no actual duty to perform, save perhaps, the efforts exerted in drawing their monthly stipend.

A House Divided Against Itself.

We are somewhat surprised to find in the Manchester *Union*, a paper of which we have been told that Geo. B. Chandler is part owner, the following dig at Mr. Chandler's private club, which was gotten up to engineer his return to Congress:

The New Hampshire club wrestled with the Lowell bankruptcy bill Wednesday in Boston, and after an hour of after-dinner exuberance it put its seal of approval upon it and transmitted it to Washington in a blaze of glory. The ablest statesmen of the country have been giving the bill two years of thoughtful consideration without coming to a conclusion, and yet one hour sufficed this club to digest the whole question. It will strike the average reader that this was not only a farce, but an uncalled for deception, because it carries to Washington the weight of a club that is supposed to represent some of the business ability of New Hampshire, and such an organization should not belittle itself by endorsing anything in such a hasty, ill-advised manner, much more one that affects the material interests of every state in the Union to such an extent as does a general bankrupt law.

A Large Cut Down.

Taking the figures of the *Navy Register* to Jan. 1st, 1882, to go by, Senator Rollins' late amendment to the naval appropriation bill proposes to drop from the active list of the navy the following officers:

Six rear admirals, fifteen commodores, ten captains, ten commanders, ten lieutenant commanders, forty lieutenants, thirty masters, thirty ensigns, ninety-six midshipmen and cadets, five medical directors, four medical inspectors, five surgeons, seven assistant and passed assistant surgeons, five pay directors, four pay inspectors, fifteen paymasters, fifteen passed assistant paymasters, ten assistant paymasters, five chief engineers with rank of captain, five chief engineers with rank of commander, five chief engineers with rank of lieutenant commander, fifty-five passed assistant engineers and twenty-eight assistant engineers, forty cadet engineers, twelve chaplains, six professors of mathematics, two naval constructors and three assistant constructors, seven civil engineers, twenty-two boatswains, twenty-four gunners, twenty-five carpenters and twenty-one sailmakers.

The New Hampshire Society for the Prevention of Cruelty to Animals prosecuted two men at Andover on Wednesday, Feb. 14th. Eliphalet Shaw was fined ten dollars and costs, for abuse of a horse; John Hazelton paid twenty dollars fine, and costs of prosecution, for beating a dog. Both men were put under bonds to the amount of one hundred dollars each to keep the peace for one year. The offenders submitted to their sentences without appeal, paid, and departed.

The schooner Northern Eagle, of Gloucester, Mass., a few years ago somewhat noted as being the first American fishing vessel to use codfish nets, recently went to New York to engage in the Long Island cod fishery, and was this week reported in New York with a catch of 18,000 lbs., a portion of which sold at eight cents a pound. The Northern Eagle fished out of this port two winters, several years ago.

The Portsmouth shoe factory is receiving many duplicate orders for shoes.

There are bright beds of April and blossoms o May
But they're not half so sweet as the breath of the maid

That gives teeth like the sun, and gives lips red as wine.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1jan6,84

Portsmouth parties are negotiating for the purchase of the schooner "Julia A.," owned by Mr. Wm. B. Keen of Malden, Mass.

The periodically-appearing surmises as to the choice of United States senator by our legislature next June, and the proposed business arrangement between the Eastern and Boston & Maine railroads, are in the newspapers again, but very much as usual in their predictions.

Messrs. James Janvrin and Horace A. Martin have been elected delegates from Langdon Colony, United Order of Pilgrim Fathers, of this city, to the Supreme Colony, which meets in Lawrence, Mass., next month. Mr. Albert A. Rand is chosen as alternate.

It is announced that Manager Tucker of the Eastern and Maine Central roads has arranged for the running of a fast train between Boston and St. John, which will be put on about the first of June. The run from Boston to St. John will be made in about fifteen hours.

Mr. William B. Keen, of Malden, Mass., has remodelled the old Keen homestead at Kittery, and will make an addition to it the coming spring, sparing no expense to make it a model cottage. The steamer Acushnet on her last trip from Boston brought down a quantity of lumber for this work.

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become very dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,

MRS. S. S. MOODY,

No. 75 Broadway,

POLICE COURT--BATCHELDER J.

FRIDAY, Feb. 16th.

Timothy Hennessey and Dennis Harrington were before the court, charged with brawl and tumult, but were let off on probation.

Jeremiah Couhig, for an assault on John Clark, was fined $2, costs $8.04.

All these cases, as also those of John Hennessey and Cornelius Reagan, fined the previous day, arose from the charivari serenade attempted to be given a newly-married couple on Deer street on the previous Tuesday and Wednesday evenings. The police took an active part in the serenade on the last evening, and for a while it seems there was considerable music in the air.

SELLING THE CITY'S STOCK.

Mr. Editor: I have been much interested from reading the report in your newspaper, of the proposed sale of a portion of the city farm under the theory that it is unprofitable to keep so much land to be farmed in competition with other producers, and the money is needed to pay a debt due in April. Of course, if such successful financiers as Dr. Potter, and Capt. Marcy, who is a director in the Dover railroad, have given this matter their attention, I should be slow to differ from their conclusions. Nor can I forget that an experience of four years in the mayor's chair would qualify Col. Sise to judge of the expediency of this measure. The only doubt I have is whether these gentlemen and the men who lent their names to the protest, have considered the fact that this year there matures $21,500 of our bonded debt. Also that a barn must be rebuilt on the city farm, to supply the place of an old one, the estimated cost of which is $1500; double that, and you have $3000, the usual result of building operations, I believe, and it will be seen how we should begin an inroad into our railroad stock, which is now kept to provide for the railway-loan bonds at their maturity.

I understand that one alderman suggested that maybe some of the protesting gentlemen (and all the signers appear to be men of wealth, bank officers, etc.,) might like to purchase the stock. This idea was ridiculed by another member, I was told, but still the latter may have been in error. This seems a happy thought. Let these solid men form a syndicate of their number and take this stock at the present market price. Then let the proceeds be safely invested in some undoubted securities upon which the city can realize when the bonds mature, and all will be well; our wealthy men will not have to seek in remote regions for an investment of their funds; the city will have no need of establishing a sinking fund to be ready for payment of these bonds in case the railroad should break down; the credit of the city, too, would be maintained; but more than all of these, the wish of the petitioners would be gratified, their fears allayed, and the city councils could have time to wrestle with the mill-pond question and kindred subjects, without the disturbing problem of finance coming in to distract the attention of members.

RUSTICUS.

SURPRISE PARTY.

KITTERY, ME., Feb. 15th.

Mr. Editor: Our friend George Washington Patch, Esq., of Kittery foreside, was agreeably surprised on Tuesday evening, the 13th inst., upon reaching home, to find his residence unusually illuminated, and the sound of unrestrained mirth and music from within. This was explained by the presence of a large number of friends who had conceived the idea of giving him a surprise party upon the anniversary of his birthday, and thereby showing their appreciation of his many genial qualities.

There was no lack of substantial viands to satisfy a ravenous appetite, or of frail confections to tempt the more fastidious. Vocal and instrumental music enlivened the moments when conversation flagged, if that was possible. Tales of hair-breadth escapes by sea and land paled many a matron's cheek, and giddy youth felt his pulses thrill at the recital of strange adventures.

Fifty-five years ago George first saw the light of day, and where the tides gladly yield themselves embraced within the arms of Kittery point, he heard the murmurs of the salt sea waves upon the pebbly beach. There in his early boyhood he saw the white sails of merchant's bark and fisherman go gliding by, homeward from the sea, and wondered whence they came; he saw them outward bound, and his young heart felt a desire to follow them. It is the same old story; his early inclinations were gratified, and for a score and one-half years he followed the "briney." Time may have furrowed his bronzed visage, but his eye, that has watched through many a lonely vigil on Banks and in stormy Bay of Fundy, is yet undimmed.

One old friend, unable to attend on account of the weather and suffering from rheumatism, the effects of exposure during the Florida and Mexican wars, was prepared to read a poem of fifty verses, and the following is a sample of what the company lost, much to the regret of every one:

VERSE V.

Amidst the fogs off Newfoundland,
Too thick to see a rod,
You stood with trumpet in one hand—
The other caught the cod.

VERSE VI.

One glance o'erhead,—your eagle eye
Beheld the wind's direction;
Foretold a change from wet to dry—
Or contrary, on inspection.

Our friend's early quick perception of approaching changes in the weather having been strengthened and confirmed by continuous observation up to the present time, his prognostications as to the weather in the near future have assumed the importance of prophecies—almost—and are as familiar in this community as "household words."

We cheerfully accept the correctness of the old adage that "comparisons are odious;" nevertheless we feel constrained to say that the gathering that occurred at our friend's house has never been excelled in numbers, respectability, and innocent hilarity (and there are those who have the temerity to say that it has never been equalled) within the confines of old Kittery, from the head waters of Spruce Creek even unto the extremest verge of surf-bound Kittery-by-the-sea.

Now, Mr. Editor, we are not aware that a surprise party is in store for us; indeed, we rather fear there isn't, for few indeed are the men in this, or, so far as we know, in any other community who by their manly attributes, obliging disposition, and the committal of numberless acts of neighborly kindness and generosity, have so endeared themselves to their neighbors and friends as has our esteemed fellow citizen, George Washington Patch.

KITTERY FORESIDE.

Ladies, do not forget that the Corinne Merrie Makers give an entertainment this afternoon at Music hall, for the especial convenience of children, and ladies who cannot attend in the evening. "The Magic Slipper" will be performed. Tickets at the Congress Block bookstore. See advertisement.

Mr. A. C. Amazeen has sold the horse "Yankee Locke" to a Mr. Channel of Salem, Mass., for about $200. The horse's last trot in this city was at the Rockingham trotting park in the races of last fall, when he took the second money in one race, time 2:47 1-2.

This evening, at Music hall, "Bijou, Our Company," will be performed by the Corinne Merrie Makers. See advertisement.

On Friday a team belonging to C. Sullivan & Co. was turning from Mulberry into State street when it capsized, the driver going into a snow drift, and the contents of the pung being distributed over a wide extent of territory. The house was stopped after a short run, no damage having been done to team or driver; somebody got a late dinner, however.

The fishing schooner St. Peters, netter, on Thursday last brought in 4000 lbs. of steak cod.

Mr. William E. Bonin, assistant to Mr. John E. Roberts, hair-dresser, was on Friday reported to be seriously ill with some heart trouble.

The Corinne Opera Co. will give a sacred concert in Music hall on Sunday evening. Prices low.

Assistant Marshal Gray was on Thursday last suspended from duty, pending an investigation into charges of improper conduct brought against him by Charles W. Coleman.

Snyder & Grau's Opera Company, advertised to appear in Music hall next Wednesday evening in "Iolanthe," includes the celebrated Philadelphia Church Choir company which made such a great hit in "Pinafore." The organization contains forty-five people, including the orchestra. Reserved seat tickets can now be procured at Goodrich's bookstore in Congress block.

On Thursday the wife of Mr. Michael E. Long had a paralytic shock, and on Friday it was stated that there were but slight hopes of her recovery.

The steamtug Knickerbocker, Clark master, which put into the lower harbor on the evening of the 11th inst., having in tow the ship Syren, bound from Portland, Me., to New York, and sailed on the 12th, arrived at Vineyard Haven on the 14th with her tow.

Rev. Dr. Spalding, in his examination before the ecclesiastical council assembled at the Franklin street church in Manchester on Wednesday, the 14th inst., in reply to a question "If he believed that it is evangelical to hope that good would ultimately triumph over evil" replied that he believed "that there is to be a perpetuation of evil, and an everlasting kingdom of darkness." The wicked in Manchester should take due notice thereof, and govern themselves accordingly.

SUNDAY SERVICES.

Elder E. McCulloch will preach in the Advent church on Sunday.

Rev. Henry E. Hovey, the new rector of St. John's parish, will fill the pulpit of that church to-morrow.

Rev. J. S. Thompsom of Gloucester, Mass., will preach for the South parish.

To-morrow evening at 7:30 o'clock, and on future Sundays untill further notice, services will be held in the Universalist vestry.

The Central Bakery, No. 91 Congress street, is open Sunday mornings from 6:30 to nine o'clock.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 50; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. It has generally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All most respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Western Floods.

The water in the Ohio river reached its highest point on Thursday morning—sixty-six feet and four inches above low water mark. At the same time the Monongahela was twenty-one feet above, and stationary; and the Allegheny twenty-two feet above, and still rising. In Pittsburg, Pa., many families have been compelled to desert their houses for the third time in ten days. In Cincinnati large districts are under water, and families are only reached by boats. In Louisville, Ky., extensive districts are overflowed and all manufactories near the river are closed, throwing thousands of workmen out of employ. From many other places there are urgent calls for aid. Large sums of money are needed for the relief of the suffering and destitute, and public and private charity is responding to the call. It is hoped that the worst is now over. In Cincinnati there are forty miles of streets that can only be traversed by skiffs; and in Cincinnati and Covington 50,000 workmen are out of employ.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

Mrs. Judith McFarland of Worcester, Mass., took her life by hanging on the 12th inst. She was eighty-four years old.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

Bob Toombs has disinherited a granddaughter because she married against his wishes. He pointed to a clause in his will giving her $60,000, and offered to make it $90,000 if she would promise not to marry a Mr. Colley. She refused, and he ordered her to leave the house. She went, and married her lover.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, worms, constipation. 25c.

A man, apparently demented, was found on the higway in East Greenwich, Mass., Feb. 14th, so badly frozen that he must lose his feet, if not his life. He had apparently escaped from some almshouse. His name is Michael Murphy, or Keith.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious kidney, urinary or liver diseases, as they only relieve for a time and makes you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Warren Tanner of Willimantic, Conn., a livery man aged seventy-five years, hung himself with a sheet from the piazza railing of his residence in that village at daybreak, Feb. 15th. He had been suffering from nervous troubles, and was partially insane.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material than all other forms of malt or medicine, while free from the objections urged against malt liquors.

The child of Mary O. Donnelly of New Bedford, Mass., aged three years, died Thursday evening, Feb. 15th, from the effects of drinking a quantity of whiskey, which Johanna Sullivan, grandmother of the child, is suspected of administering. The family claim that the child drank the liquor while alone in the room. Mrs. Sullivan is under arrest, and the matter will be investigated.

—That was an economical couple whom a Chattanooga justice of the peace found sitting on the doorstep of his office the other morning. They requested him to marry them as quickly as possible, as the groom did not want to be docked on his day's work, and had no time to lose.

Fresh air, exercise, good food and Dr. Benson's Celery and Chamomile Pills will, when used together, cure any case of nervousness, sick headache, or indigestion. They strengthen the nervous system. 5,000 physicians prescribe them.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's Industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical Jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

Naval Affairs.

The Yantic, Comdr. Wildes commanding, arrived at Vera-Cruz on the 13th inst., and intended sailing on the 15th for Galveston. Comdr. Wildes reports to the navy department under date of Belize, British Honduras, February 2d, that he visited Great Corn island, where large quantities of cocoanuts are raised for export, and banana cultivation is now being carried on. He also visited Mosquito Reservation, and had an interview with the authorities in regard to the kidnapping of Mosquito Indians by one Rawson Monasterio, a Spaniard and alleged citizen of the United States, which has been made the subject of a special report to the state department.

Rear Adm. Cooper, commanding the North Atlantic squadron, was at St. Thomas, West Indies, Jan. 22d, in the Tennessee, from Basse Terre, St. Christopher's. At the latter place the customary visits were exchanged with the governor and other officials, and the reception of the vessel was especially cordial. There is quite a brisk trade between St. Christopher's and the United States. All the flour and most of the food consumed on the island comes from American ports. The Tennessee was to remain at St. Thomas until the arrival of the mails, and then proceed to Santa Cruz.

Purity and Strength.

Shakespeare says: "Tis better to bear the ills we have, than fly to others that we know not of." But when a man is suffering from the exquisite torture of rheumatism, or neuralgia, or gout, he does'nt feel like flying, to any great extent. In such a case it isn't necessary for him to "bear the ills" he has, when he can secure immediate relief by using Sallcylica, which possesses purity and strength—two elements most essential to a perfect cure.

William Lewis, one of the heroes of the battle of San Jacinto and a bosom friend of Gen. Sam. Houston, died in poverty in the hospital at Dallas, Texas, Monday, Feb. 12th.

I am Proud

to say from personal experience that Sulphur Bitters, which advertisement will be seen in another column, is the best spring and blood medicine to be found. It is prepared by an honest firm who scorn to use cheap and worthless medicines, but use the best that money can buy.—*Editor.*

A family of eight persons in Pawtucket, R. I., were made violently sick Friday by soup containing a decoction of tobacco, sent by Providence enemies. No fatal results are anticipated.

Wheat Bitters have received the endorsements of medical men of the highest standing. These can be shown.

There are thirty-five wells dry in Barrington.

Advice to Consumptives.

On the appearance of the first symptoms—as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough—prompt measures for relief should be taken. Consumption is scrofulous disease of the lungs:—therefore use the great anti-scrofula, or blood-purifier and strength-restorer,—Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections, it has no equal. Sold by druggists the world over. For Dr. Pierce's pamphlet on consumption, send two stamps to World's Dispensary Medical Association, Buffalo, N. Y. *a*

The Swatara, at Norfolk, Va., is to go on a cruise to the West Indies.

A GOOD INVESTMENT.—One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

The latest congressional reform is seer in the house vote reducing the number of internal revenue collectors. At the n Congress is going on there soon will be no office holders, and no need of a civil service law. The reduction was made after the collector for New Hampshire had been seen in Washington.

A prompt way to ease asthmatic wheezing. Use Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. A remedy for indigestion, consumption, dyspepsia, weakness, fever, ague, etc., Colden's Liquid Beef Tonic.

The Alaska was put out of commission at Mare island Feb. 14th.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

The Ranger will be docked at the Mare island navy yard at once, and her repairs hastened to completion.

For four years I suffered agony from a skin disease. Dr. Benson's Skin Cure cured me." C. B. McDonald, Plantersville, Ala. $1, at druggists.

Lieut. John S. Abbott and Master R. H. McLean have been ordered to special duty in the navy department at Washington.

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinipiac Lodge, No. 1, (the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

Got Rid of Tooth-ache.

He suffered more than twenty years:—
Neuralgia pains—face, jaws and ears.
He might have suffered twenty more,
Had he not purchased at the store
Something which eased his frightful pain
And quickly made him well again.
That something 's made by Perry Davis,
From horrid aches and pains to save us.
Pain Killer, as the public know,
Was started forty years ago.
Thousands on thousands bless the hour
When first they knew its healing power.

The January report of the signal service officer on Mt. Washington shows it to have been an unusually severe month, the worst of any January since the station was established, with the exception of 1875. On the third the wind blew 152 miles an hour, as recorded, but the record is insufficient on account of a broken anemometer.

Murder on Tap.

In the court at Dublin, Ireland, on the 17th, James Carey, the town councillor charged with complicity in the murder of Lord Cavendish and Mr. Burke in Phenix park, made a full confession, fully corroborating the statements of Kavanagh, who drove the car on which the four actual murderers escaped. Carey exposed the details of the "Irish Invincibles" and "Society for the Extirpation of Tyrants," secret organizations whose object was the murder of British officials. Mr. Forster was dogged for many days by members of the murder societies, but they were unable to assassinate him. Carey swore that he and other members of the societies supposed the money for the murders came from the Land League.

The Western Floods.

Despatches from the flooded district, on Friday, indicated that the flood was probably at its worst, though there was little improvement as yet.

A Cincinnati despatch said: "Skiffs crossed the river freely yesterday, and one or two small steamers carried loads of sight-seers up and down between Newport and the suspension bridges. It will be several days before railway freight traffic can be resumed, even under the most favorable circumstances. The stock on hand of a number of articles is getting low, and prices are advanced beyond value."

A Louisville despatch reported twenty days' supply of water in the Cresent Hill reservoir. Fifteen houses from the Point floated out and went over the falls on Thursday. Already there is much sickness among the sufferers, and a sanitary commission will be formed at once.

In Dayton, Kentucky, which is under water, the people have abolished the practice of paying for boating services. If any demanded pay for carrying people or provisions to houses his boat was confiscated. The same is true in Columbia and other smaller suburbs.

At Lawreneeburg, Indiana, it was estimated that 200 houses had been overturned or washed away. Three thousand people had been driven from home with nothing but the clothes they wear. The loss must reach $500,000. No loss of life was reported. It was feared that the court house foundations might crumble. Four hundred people were sheltered there.

A Cincinnati despatch of the 17th reported 1200 houses surrounded by water at New Albany, Ind., and great damage done at Wabash. Louisville was entirely in the dark, so far as gas was concerned. At Rockport, Ind., the river was higher than ever known, and all the bridges were gone; Grandview and Troy were submerged, and Tell City and Connelton partly under water. Memphis, Tenn., was seriously threatened. The Little Miami river was five miles wide at Carrington, Ky., and all the houses on the "bottoms" had disappeared. It is the greatest flood ever known in that region.

New Hampshire Items.

A young man named Whitney Sinclair, residing in Lewisville, about two miles above Upper Bartlett, was fatally shot on Friday by a Frenchman named Willey. Jealousy was the cause. Willey was arrested.

In the supreme court at Dover on Friday, John McGinley and John Curtis, both of Somersworth, were tried for breaking, entering and stealing from John Cormier's store in Great Falls. Both were found guilty, and sentenced to four years in state prison.

A young son of Edwin Otis, of Strafford, while feeding one of his father's horses on Sunday, the 4th inst., fell under the animal, and received a double fracture of one of his legs.

Brackett academy at Greenland has reopened, Mr. A. A. Murch, a graduate of Yale college, being the principal.

Joseph Noone & Sons, of Peterborough, have closed a contract to furnish printers' blankets for the presses used in the printing and engraving departments in Washington.

The famous Walker homestead, in Concord, was built by Parson Walker, the first minister of Penacook, in 1733, and is the oldest residence in that city. The one hundred and fifuieth anniversary of its erection will be celebrated the coming summer. The house has always been in the possession of the Walker family.

News and Notes.

J. G. Hathaway of Lynn, Mass., had his left arm torn from its socket on the 18th inst. by getting it caught in a belt, and was otherwise so badly hurt it was supposed he would die.

The fog was so dense in New York and vicinity on Friday and the following night, that navigation was almost entirely suspended. No steamers went either way through the sound, and the ferry boats made but few trips.

A portion of the Verplanck hospital on Ward's island, New York, was burned Friday night; loss $75,000. Two hundred and twenty women, (twenty-six of whom had been confined during that day,) and thirty sick children, were moved through the fog and cold to an old building some hundreds of feet away, and it is feared many deaths must result.

A so-called "lightning-saw case" was decided Feb. 15th in the superior court at Portland, Me., in favor of the defendant. The note was for $250, and purported to be signed by Nathaniel Potter of Chesterville. It was one of the series of notes that have been obtained from farmers in Maine, it being represented that they would receive certain goods, by which they were induced to sign "contracts" which eventually turned out to be notes. The note in dispute was sold for $140 to an innocent party, by the swindlers.

Letitia Lawsen, a colored girl of fourteen, was accidentally shot at Springfield, Mass., Friday, by her half-brother, while he was cleaning his pistol. The bal struck the girl in the forehead, but glanced upward, and she will soon recover. The boy was arrested.

In the court of commissioners of Alabama claims at Washington on the 16th inst., the following cases were argued and submitted: Owners, masters and seamen of the whaling ship Edwin, destroyed by the Shenandoah before her arrival at Melbourne in 1864; the mate of the whaler Nile, destroyed by the Shenandoah in Behrings straits after leaving Melbourne in 1864; master and seamen of the Eben Dodge, destroyed by the Sumter in December, 1861; the master and mate of the B. Godfrey, destroyed by the Shenandoah before arriving at Melbourne, November, 1864; the fourth mate of the Hillman, destroyed by the Shenandoah after leaving Melbourne, 1864; a boat steerer of the Hector, destroyed by the Shenandoah at Ascension island in 1864. The court adjourned till Monday.

Judge Shipman, in the United States circuit court at New Haven, Conn., on the 16th inst. rendered a decision in the case of the Yale Lock Manufacturing company of Stamford against the Sceville Manufacturing company of Waterbury, for an infringement of a patent on post-office boxes, in favor of the defendants, holding that the lock box now being manufactured by the Scoville company is not an infringement.

Steamship City of Tokio arrived from China at San Francisco, Thursday, Feb. 15th, with dates from Hong Kong of Jan. 17th, and from Shanghai, of Jan. 16th. An armed force of several hundred men landed Dec. 29th, at Amoy, from two German frigates, and seized from the Chinese authorities certain wares manufactured by a German firm in Amoy, which had been confiscated by the Chinese, who allege that the manufactures are not permitted by the treaty. The Germans allege that the confiscation was illegal, and claim full right to manufacture. This is the second occasion that German ships of war have taken peremptory action to redress grievances. The island of Formosa continues to be shaken by earthquakes; there has been great destruction of property, and many lives lost. Several villages have been damaged by an eruption of Mount Futago, on the shore of lake Hakono, Japan. War preparations are going on in Japan, owing to the threatening attitude of China.

The Central Pacific railroad company are building a branch line from Madera, Cal., for the accommodation of the Yosemite valley travel. Twenty-five miles of the line is to be completed in May. This will materially lessen the stage-ride to the Big Tree groves and the Yosemite valley.

Willie Hoyt, the fourteen-years-old boy who was run over by an Eastern railroad freight train at Newburyport on the 20th of January while attempting to steal a ride, died on the 15th inst. He was an intelligent and well behaved boy, and the only child of his parents.

Stick to Your Trade.

There are now 2200 officers in the United States navy, and with only thirty-one old-fashioned ships, it is difficult to find anything for them to do. Hence, it has been proposed to turn the revenue marine service, the life-saving service and the coast survey over to the navy department. The trouble is, that naval officers are not trained for the work which is admirably performed in these branches of the public service. Admiral Rowan, who was detailed last year to act as superintendent of the naval observatory at Washington, has given a new illustration of the mischief which follows any attempt to supplant a body of trained public servants. He has been trying to push naval officers into the places heretofore occupied by trained astronomers, and the consequence is that the work of the observatory has become unreliable. This is no less than a public misfortune. The astronomers of the country look upon the prospect with dismay, and have united in a petition asking that an astronomer may be put in charge of the observatory. We must have a navy, but the naval officers must stick to their trade. The art of naval warfare is their profession, and they must not abandon that profession for other branches of the public service for which they are qualified.—*Portland Advertiser.*

WE DO NOT CLAIM

that Hoop's SARSAPARILLA will cure "everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as Hoop's SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,

MRS. S. S. MOODY,
No. 75 Broadway,
Lowell, Mass., Jan. 15, 1878.

How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from Ulsse Official State Reports, let the reader consider the DEFINITE Insurance Contract offered by THE

Mutual Life Insurance Co.

OF NEW YORK,

under which no "assessments" are possible, and the benefit to be received definitely decided at time of application, with such an annual return of the unexpired premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

— OF THE —

Assessments Collected.

Maximum Value of Certificates (or policies) upon which policies were paid in 1881.....	$2,395,525.00
These "Certificates" proved to be worth as claims.....	$511,384.36
But the collections for these claims were.....	$594,207.94
Difference between collection and disbursement, illustrating *Economy in Cost!*.....	$82,823.58 $511,384.36

ANOTHER WAY OF PUTTING IT.

These unfortunates held Certificates representing a supposed value to their beneficiaries of $2,395,525.

The real value proves to have been about 21½ per cent. or $511,384.36, they waiving their claim of $82,823.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company settling $2,395,525 of insurance, honestly contracted for, at a discount like the above and at such a cost?

TOO MUCH WATER.

The damage done last week to many of the finest residences in the city, by the "backing-in" under eaves and cornices of water from frozen-up gutters and conductors, was in many cases quite serious. We hear of several instances where elaborate frescoed ceilings were totally ruined, and elegant furniture and costly carpetings nearly spoiled.

The kitchen of a west-end residence was found one morning to be flooded to the depth of several inches, which necessitated the cook's paddling around in the hired man's rubber boots while she was getting breakfast; the flour barrel of a south-end family had to be elevated on stilts, to prevent its contents being turned untimely into dough; and in scores of houses in which no such trouble ever occurred before, the occupants were compelled to bail and mop up water, and cover up furniture, in some cases having to keep at the work the larger portion of the night.

But 'tis an ill wind that blows no one good, and many men found employment during the week at cleaning out gutters and shovelling snow off of roofs, who otherwise would have been idle.

SURPRISE PARTIES.

Hon. John S. Treat and family were agreeably surprised on Friday evening by a visit from some twenty-five ladies and gentlemen, mostly neighbors, who took that opportunity to welcome them to their new residence on Creek road. The mayor was on the point of leaving for his office when he found his way blockaded, but his pleasant features brightened at sight of the faces of his friends, and soon his house was made resonant with the merriment of true hospitality. All of the et ceteras incidental to an occasion of the kind were enjoyed, including music and a fine repast. The only regret was that the evening seemed too short. G.

Friends and relatives of Mr. Stephen B. Pearson and wife, to the number of nearly fifty, gave them a surprise party on Friday evening, Feb. 16th. After the usual congratulations had been gone through, the company amused themselves for a while with speeches, singing and games, after which supper was partaken of from bountifully spread tables. After supper the party returned to games, etc., until a late hour, when they returned home, all having had an excellent time.

LECTURE ON GERMANY.

Mr. Oscar Faulhaber, of Exeter, at the request of several of his scholars and others, will give his lecture on Germany in the Unitarian chapel on Court street, on Thursday evening, 22d inst., commencing at eight o'clock.

The lecture gives a brief historical sketch of Germany, with reference to events during the past thirty years, especially referring to its government, civil service, army and navy, education, religious training, national festivals, nobility, middle classes, peasantry, and other interesting topics.

Prof. Faulhaber's lectures are commended by such widely-known gentlemen as Gov. Bell, Chief Justice Doe, Carl Schurz, Prof. G. A. Wentworth, with many others. The lecture will afford us an opportunity to learn much concerning one of the great nations of Europe.

"IOLANTHE."

Gilbert & Sullivan's new comic opera, "Iolanthe, or the peer and the peri," was performed in Newburyport on Thursday evening last, by Snyder & Grau's company, by whom the same opera is to be given in Music hall on Wednesday evening next. The *Herald* of that city says that in this piece "Mr. Gilbert has given us a dialogue in which there is much of quaint, dry humor, plentifully mixed with satire, while Mr. Sullivan has * * given us on the whole a good opera, abounding in pretty melodies, and with not a few really fine harmonies." Tickets now on sale at the Congress block bookstore.

The arrivals of fish at this port last week aggregated 54,250 pounds, of which a large portion was shipped to Boston and New York. Prices ruled high, seven and eight cents being paid for cod all the early part of the week, down to five and one-half cents on Saturday.

The Corinne Merrie Makers, at Music hall on Saturday, met with good success, considering the day and the horrible condition of the travelling; the afternoon performance was well attended, and the evening entertainment had a larger audience than is usual in this city on a Saturday evening. The Sunday evening concert was quite liberally patronized.

On Saturday a sleigh in which were Dr. Francis E. Langdon and son, in turning from State into Pleasant street capsized, throwing both of its occupants out. The horse ran down Pleasant street toward the stable with the sleigh on one side, and when turning into the yard fell. The strangest part of all is that no injury was sustained by either Mr. Langdon, his son, the horse or the sleigh.

Travelling in the city on Saturday was precarious to both man and beast. Horses could not accelerate their pace beyond a walk, while the pedestrian ran risk of frequent snow slides from roofs, and wet feet from the rapid accumulation of puddles of water on the sidewalks and the sloughy condition of the crossings. Gangs of men were employed by the city, who with picks and shovels endeavored to make matters better; some of the narrow streets, through which there had been but little travel, were wholly avoided by teams, and in case of the necessity of their being used shovels were brought into requisition to dig a way through. The colder temperature of Saturday night did not improve the street travel, but the church attendants on Sunday found the sidewalks in better condition than had been seen for several weeks previous.

The janitor of the custom house building on Saturday cleared many tons of ice from the gutters and eaves of that structure, and the parts of the roof near the edges.

On Saturday afternoon Capt. C. Upton, of the steamer Three Brothers, accidentally stepped upon a piece of canvas which had been placed over a hole cut in the deck for the purpose of taking out the machinery, and fell through upon the engine, receiving a severe cut on the head, and other injuries.

The tug E. M. Winch, with the brig Ysidora Rionda in tow, left the lower harbor for Portland on Saturday.

Mr. Jefferson Lewis of Kittery was hauling a load of hay into this city on Saturday, but when near the foot of Deer street it took a notion to capsize, and did so, blockading the street about an hour before it was righted.

The arrivals of fish on Saturday, the 17th inst., were the schooner Daniel C. Baker with 1000 lbs.; the Annie W. Hodgdon with 600 lbs.; Sylph, 950 lbs.; Blue Jay, 1300 lbs.; Flying Cloud, 3800 lbs.; Storm King, 300 lbs.; Ev. Nichols, 2200 lbs.; Hattie N. Reed, 2400 lbs.; Ella M. Johnson, 2200 lbs.; News Boy, 600 lbs.; St. Peters, 500 lbs.; T. Herbert, 1300 lbs.; T. Leehe, 300 lbs. The price paid for market fish was five and a half cents.

Mr. Andrew J. Sides of this city was not one of the party of "Portsmouth bloods" who, according to a Dover paper, dined at a hotel in that city recently, on which occasion "Balm of Gilead was their favorite chorus."

If the recommendations of Secretary Folger respecting the consolidation of customs districts and the pay of the custom house officers are adopted by Congress, the collector of this port will receive a salary of $2000, the deputy collector $1200, and the three resident inspectors $1000 each. The salaries of the inspectors at Exeter and Colebrook will remain as heretofore.

The Newmarket *Advertiser* of Feb. 17th says: "Elder W. P. Israel of Portsmouth will preach in Club Room hall Sunday forenoon, afternoon and evening."

Rev. J. S. Thompson, of Gloucester, Mass., preached very acceptably for the South Parish on Sunday morning, to a good congregation. A vesper service also was held, at which Mr. Thompson officiated.

Rev. Henry E. Hovey, the new rector of St. John's Parish, occupied the pulpit of that church on Sunday, and after the morning services christened four children. Mr. Hovey announced that on Sunday next, the 25th inst., Bishop Niles will visit the parish, and that in the evening the new Christ church will be opened with appropriate exercises, the bishop preaching a sermon.

Hon. Frank Jones, Hon. John H. Broughton, Hon. Marcellus Eldredge and Mr. Daniel E. Leavitt of this city, and their wives, accompanied by Mr. Johnson of the Quincy house, Boston, and wife, will start to-day for the Hot Springs, Arkansas. They intend to be absent about five weeks, and will visit a number of places of attraction before returning.

The Methodist society will have a festival and oyster supper in their chapel on Daniel street this (Monday) evening at 7:30 o'clock. There will be tableaus, music, readings, etc. A novel feature of the entertainment will be the presenting of an elegant oil chrome to the gentleman paying the admission (10 cents,) of the greatest number of ladies.

A gentleman who has several times recently crossed the river in one or other of the passenger steamers, expresses surprise at not seeing any boats on board them. He thinks a small boat of some kind should be carried, as in case of a passenger falling overboard the steamers would be absolutely helpless to render aid.

The annual report of Chief Engineer Marston, of the fire department, shows that there were eleven fires during the year 1882 in this city, involving a total estimated loss of $24,890, with insurance of $23,858. The above does not include the fires which raged in the woods within the city boundaries. The department of Portsmouth is in an efficient state. The chief engineer suggests that a brick engine house with a small hall above be built on Hanover street, in place of the wooden structure now there.

Mr. Daniel Dalton of Rye, who was taken to the insane asylum at Somerville, Mass., about the first of last December, has returned home, having entirely recovered.

It is reported that Mr. E. L. Smith, of Boston, will assume the management of the selling out of the stock in the store Mr. Henry F. Gerrish, and will commence the disposal of the goods immediately.

A gentleman in this city received a costly rattan chair as a "valentine" on the 14th inst.

It is said that a lady residing on State street in this city has the finest private collection of sea shells in New England.

While a lack of water causes many manufacturing corporations of the state to run on short time, the Newmarket Manufacturing company is running overtime, and everybody is busy. More than half the power now used is steam, which is fast taking the place of water as a motive power.—*Newmarket Advertiser.*

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 85 per cent. cures in three days.

MANHOOD

KNOW THYSELF.

A Book for Every Man ! Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood invigorated.

126th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Clendening, startlingly says "one-third of my subjects above 40 have heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely a most abused little organ.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

A Mining Horror.

At Braidwood, Ill., twenty miles south of Joliet, a coal mine owned and operated by the Diamond Mine company caved in on the afternoon of the 16th inst., and a terrible loss of life resulted. The first account said:

Floods and the recent thaw had loosened the earth about the mouth of the pit, and a land slide began about three o'clock which, in a few minutes, imprisoned some eighty miners. Reports are very indefinite, but place the loss of life at from thirty to fifty. Two thousand men are ready to work at rescuing, but only a few can get at the place at once. The cave-in is nearly ninety feet square. Braidwood is one of the largest coal mining places in the state.

A Chicago despatch, giving an account of an interview with A. L. Swett, president of the four mines worked by the Diamond Mine Co., says:

Mr. Sweet's information is that 300 men were in the various shafts that afternoon, when the ground gave in under the weight of water that had at once saturated and loosened it. Sixty-two were in one shaft which caught the bulk of falling debris, and which was instantly flooded. Every one of them was either drowned or smothered inside of five minutes. Their bodies are now buried beneath many tons of earth. A hundred acres have been excavated, but the miners not in the one unfortunate shaft all escaped.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's Industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. Than physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE CUT in the middle.

THE LEGEND OF WALBACH TOWER.

(Scene, Fort Constitution, on the Island of Newcastle, off Portsmouth, New Hampshire.—Colonel Walbach commanding. Period, the fall of 1814.)

More ill at ease was never man than Walbach, that Lord's day,
When, spent with speed, a trawler cried, "A warship heads this way!"

His pipe, half filled, to shatters flew; he climbed the ridge of knolls;
And, turning spy-glass toward the east, swept the long reach of Shoals.

An hour he watched; behind his back the Portsmouth spires waxed red;
Its harbor like a field of war, a brazen shield o'erhead.

Another hour: the sundown gun the Sabbath stillness brake;
When lond a second voice hallooed, "Two warships hither make!"

Again the colonel scanned the east, where soon white gleams arose:
Behind Star Isle they first appeared, then flashed o'er Sauntyrose.

Fleet-wing'd they left Duck Isle astern; when, yonning full in view,
Lo!! in the face of Appledore three Britishers hove to.

"To arms, O townsfolk!" Walbach cried. "Behold these black hawk three!
Whether they pluck old Portsmouth town rests now with you and me.

"The guns of Kittery, and mine, may keep the channel clear,
If but one pintle-stone be raised to ward me in the rear.

"But scarce a score my muster roll; the earthworks lie unmanned,
(Whereof some mouthing spy, no doubt, has made them understand;)

"And if, ere dawn, their long-boat keels once kiss the nether sands,
My every port-hole's mouth is stopped, and we be in their hands!"

Then straightway from his place upspake the parson of the town:
"Let us beseech Heaven's blessing first!"—and all the folk knelt down.

"O God, our hands are few and faint; our hope rests all with thee:
Lend us thy hand in this sore strait,—and thine the glory be!"

"Amen! Amen!" the chorus rose; "Amen!" the piece replied;
And through the churchyard's rustling grass an "Amen" softly sighed.

Astir the village was awhile, with hoof and iron clang;
Then all grew still, save where, aloft, a hundred trowels rang.

None supped, they say, that Lord's day eve; none slept, they say, that night;
But all night long, with tireless arms, each toiled as best he might.

Four flax-haired boys of Amazeen the flickering torches stay,
Peopling with titan shadow-groups the canopy of gray;

Grandsires, with frost above their brows, the steaming mortar mix;
Dame Tarlton's apron, crisp at dawn, helps hod the yellow bricks;

While pilot, cooper, mackereman, parson and squire as well,
Make haste to plant the pintle-gun, and raise its citadel.

And one who wrought still tells the tale, that as his task he plied,
An unseen fellow-form he felt that labored at his side;

And still to wondering care relates, that as each brick was squared,
Lo! unseen trowels clinked response, and a new course prepared.

O night of nights! The blinking dawn beheld the marvel done,
And from the new martello boomed the echoing morning gun.

One stormy cloud its lips upblew; and as its thunder rolled,
Old England saw, above the smoke, New England's flag unfold.

Then, slowly tacking to and fro, more near the cruisers made,
To see what force unheralded had flown to Walbach's aid.

"God be our stay," the parson cried, "who hearkened Israel's wail!"
And as he spake,—all in a line, seaward the ships set sail.

—GEORGE HOUGHTON, *in Atlantic Monthly.*

—A physician said one day to Fontenelle; "Coffee is a slow poison." "Yes, very slow," answered Fontenelle, smiling; "for I have taken it every day for more than fourscore years."

—Why he did not go: "Didn't I tell you I wanted those boots for the grand reception last night?" he indignantly demanded of the placid shoemaker. "I perlief you didt." "And didn't you promise to have them done?" "I expect so." "Then why didn't you?" "Because I was present at dot grand reception myself. How can I make some boots and swell around at grand receptions, too?"

—"Be jabers," exclaimed an Irishman, "I've slept sixteen hours! I went to bed at eight and got up at eight."

Somewhere in Georgia there is a church, which is called the Sister's Church; all the members are women. The chief work of their missionary society is to send Dr. Bull's Cough Syrup to the Indians, who suffer largely with cough and colds.

—A marriage ceremony was proceeding at Atlanta, Ga., the other day, and just as the minister asked the question "Wilt thou take this woman?" an old flame of the colored bridegroom poked her head into the room, and exclaimed, "Henry, I jes dar' you to say yes!" Henry subsided into a chair with a deep-drawn sigh, and the company thoughtfully retired.

Mr. Richard Bosworth, R. I., while climbing a fence was struck in the small of the back by a heavy rail falling upon him. He was rendered helpless. St. Jacobs Oil was applied to the wounds, and in two days after Mr. Boswell was entirely well.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

—The public library of Macon, Ga., has received, from the man who excavated them in Florida, a breast-plate and arm pieces of what is supposed to have been the armor of one De Soto's soldiers. Probably some old colored lady in that vicinity is wondering what became of her stewpan and joint of stove pipe.

"Horse-car conductors," says a spiteful writer, "should always be chosen with a view to personal courage, because 'None but the brave deserve the fare.'" It is pre-eminently true that "None but meritorious preparations deserve success." Everybody knows the nature and effects of catarrh. It is one of the most loathsome maladies, and has been pronounced incurable. Ely's Cream Balm may be described as a gigantic tidal wave which has submerged that theory. This Balm is a pleasant, popular, perfect preparation, and a certain cure for catarrh. It is not a liquid or snuff, and is easily applied. "I had catarrh for fifteen years," said C. Z. Warren, Rutland, Vt., "with distressing pains over my eyes, gradually the disease worked down upon my lungs. Ely's Cream Balm cured me." All who use it speak in the same grateful strain.

—Mr. Buck, an old gentleman of Susquehanna, Penn., says he know Joseph Smith, the founder of Mormonism, and remembers the prophet's attempt to repeat the miracle of walking on the water, having built a submerged walk in the river. Somebody cut a section of the planking the night before, and the impostor barely escaped drowning.

***"They who cry loudest are not always the most hurt." Kidney-Wort does its work like the good Samaritan, quickly, unostentatiously, but with great thoroughness. A New Hampshire lady writes: "Mother has been afflicted for years with kidney diseases. Last spring she was very ill and had an alarming pain and numbness in one side. Kidney-Wort proved a great blessing and has completely cured her."

—It's rather embarrassing for a shopkeeper to be obliged to bluff a tax-assessor on the valuation of his stock, and on being burned out that night, have to face the same man as chairman of an underwriter's committee on valuation.

—It is said that Cincinnati has twenty-eight widows worth over $40,000 each. The circulation of this story looks like a scheme to encourage immigration to Cincinnati.

Dr. Pierce's "Favorite Prescription" is everywhere acknowledged to be the standard remedy for female complaints and weaknesses. It is sold by druggists. 6

—It is told of a colored preacher at Meyan City, La., that while marrying a couple recently he asked the man: "Wilt thou take this woman to be thy wedded wife and vote for the Hon. Taylor Beattie for congress?" The man readily assented, and "the twain were made one flesh."

That weak back or pain in the side or hips you will find immediately relieved when a *Hop Plaster* is applied. It strengthens the muscles, giving the ability to do hard work without suffering. Take none but this, 'tis sure.

—"I just went out to see a friend for a moment," remarked Jones to his wife the other evening, as he returned to his seat at the theatre. "Indeed," replied Mrs. Jones, with sarcastic surprise, "I supposed from the odor of your breath that you had been out to see your worst enemy."

*Many ladies who had scarcely enjoyed the luxury of feeling well for years have been so renovated by using Lydia Pinkham's Vegetable Compound that they have triumphed over the ills flesh is said to be heir to, and life has been crowned with the added charm of a fresher beauty.

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinipiac Lodge, No. 1, (the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

KIDNEY-WORT FOR THE PERMANENT CURE OF CONSTIPATION. No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it. PILES. This distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed. ☞ If you have either of these troubles PRICE $1. Got Rid of Tooth-ache.

He suffered more than twenty years:—
Neuralgia pains—face, jaws and ears.
He might have suffered twenty more,
Had he not purchased at the store
Something which eased his frightful pain
And quickly made him well again.
That something 's made by Perry Davis,
From horrid aches and pains to save us.
Pain Killer as the public know,
Was started forty years ago.
Thousands on thousands bless the hour
When first they knew its healing power.

Daniel Winkley, the oldest citizen of Strafford, died a few days since. He was born in that town May 26th, 1792, and was educated at Phillips Exeter academy; he served four years as a selectman, was a representative to the legislature in 1834 and '35, and was at one time a whig candidate for state senator. He had been for almost half a century a justice of the peace and notary public, and was an honorary member of the Webster Historical society.

Maj. Edward S. Sanborn of Boston has purchased a large tract of land in Kingston, his native town, as a site for the erection of a college building, to cost about $75,000. He intends to endow the college thus founded liberally with funds which will carry it on as a perfectly equipped educational institution.

"Sits the Wind in That Corner?"

Society in Washington is taking a rest, after the rounds of receptions, parties, dinners, lunches, breakfasts, calls and dissipations. It retires to its closet during the lenten season, and having shut the door, hangs up its dress suit until another period of festivity arrives. Its responses are now heard, full and clear sounding. With exquisitely attractive prayer-books it gaily trips to and fro for its conventional devotions, and devotes itself assiduously to seasonable worship.

But in spite of this apparently calm season of religious peace, society is mad. Society has lost its temper, and does not takes pains to conceal it. The fact is, that the failure to engraft a part of the noble scions of the navy upon the humane or practical portions of the treasury, is now charged upon Secretary Chandler, who was supposed to be in good faith attempting what he seemed to desire to accomplish in this behalf. But now, forsooth, it is said that the bad showing up which the navy has had at the hands of the treasury officials, was the result of a design to reduce the number of officers, under the Rollins amendment, and that Chandler's raid on the treasury was a mere feint. That he asked for the changes in a Pickwickian sense, knowing full well what would be the result, as to facts developed as they have been.

And now the best society in Washington will appeal to President Arthur to give them a new secretary of the navy, "One, you know, who has more regard for our set," who will if possible not be conversant with politics or favorably disposed toward congressmen, but who can appreciate the necessity of the wants of the personnel of the navy; and if President Arthur treasures up in his heart all the sweet things that will be said to him for the next three weeks, there will be no need to remove the duty on sugar, as far as the host of the White House is concerned.

Official List of Patents

Granted to citizens of New Hampshire, for the week ending Feb. 13th.

[Compiled weekly expressly for this paper.]

George D. Burton, New Ipswich; spittoon for railway cars and similar places.

Henry F. Campbell, Concord; barrel-hoop planing machine.

William H. Flynn, Nashua; door-lock.

Herman A. Miles, Concord; machine for turning carriage-seat spindles.

Naval Affairs.

The U. S. S. Lancaster, bound from Corunna, Spain, to Southampton, Eng., put into Plymouth, Eng., Feb. 18th, from stress of weather.

The report of the Jeannette board of enquiry is made public. The finding is, "Nobody to blame."

The squabble at the naval academy is not over yet. Four more cadet officers were reduced to the ranks on the 17th inst.

Captain C. C. Carpenter, commanding the United States steamship Hartford, reports to the secretary of the navy from Callao, Peru, January 21st, as follows: "I left Valparaiso on the 3d and made the passage under sail, having light weather. I found the United States ships Essex, Iroquois and Onward in port. I understand the flagship Pensacola, Rear Admiral Hughes, is on her way here from Panama. I called on our minister, Mr. Partridge, on my arrival, who informs me that there is no change in the situation of affairs in Peru. During the trip from Boston in this ship to this port, with the exception of the decks leaking (which were calked at Montevideo) and carrying away some construction ironwork, this ship has proved to be in all weather stanch and well fitted."

A general court martial met at Norfolk, Va., last week, to try Passed Asst. Surgeon W. G. G. Wilson on a charge of insubordination.

The Alliance sailed for Cuba from Key West on the 16th inst.

News and Notes.

Fifteen business firms in Bradford, Vt., were burned out early Monday morning, the 19th inst.; loss $75,000 to $100,000.

A sleigh containing William Myers, William Howe, Alice Franks and Etta Mottram was run down by a train on the New York, New Haven & Hartford railroad at New Haven, Conn., on the night of the 17th inst.; Myers was instantly killed; Howe lived twenty minutes; Miss Franks died in about five hours, and Miss Mottram was so hurt that she can live but a short time.

Efforts are being put forth by the citizens of Lynn, Mass., looking toward the securing of High Rock for a public park. The owners of the property ask a very high price for the land.

An inventor of a rope fire escape, who refused to give his name, tried his apparatus in Chicago, Saturday, and sustained fatal injuries.

The British ship Enoch Train has been abandoned at sea, her crew of twenty-three men being saved. She was built at East Boston in 1854, and registered 1779 tons.

James Brown, a colored man, aged seventy years, was Saturday morning found dead in the hayloft of Edward Hookaway, in Syracuse, N. Y., under circumstances showing that death resulted from injuries received at the hands of a gang of boys on the evening of Feb. 11th.

On Friday, Feb. 16th, two men took an immense load of oyster shells from Philadelphia to Camden, N. J., a journey of an hour. While unloading the shells their actions attracted attention, and when the bottom of the wagon was reached a heap was noticed covered with a blanket. A bystander lifted the blanket, and found a man apparently dying from exhaustion. The men with the wagon denied that there was any man there, and while a policeman was being sent for, dragged the form up to the front of the wagon, jumped in and drove off rapidly.

Mr. John Gilbert, the actor, will file papers in the circuit court in Milwaukee, Wis., in a suit for damages to the amount of $25,000 against C. D. Nash and the Newhall house company. Gilbert lost his wife in the Newhall house fire, and was nearly killed himself. A number of other suits will be commenced as soon as the grand jury completes its work. A city lawyer says he knows of suits for damages, the claims of which will aggregate over $300,000, that will be commenced if the grand jury indicts the owners of the hotel.

Oscar Richardson, an insane patient at the asylum in Brattleboro, Vt., turned on the hot water faucet in the bath room, on Friday, and sat in the boiling water until fatally scalded. He died during the night.

John Z. Mason of Pownal, Vt., aged seventy years, has just married Miss Anna Winslow, aged twenty-two. Mason is a wealthy farmer and old resident, has a son forty years old, and a large family. The mother of the young bride formerly kept house for Mason.

A North Bennington man went to Bennington, Vt., five miles distant, a few days since, taking his wife as company. When he was ready to return he drove home, leaving his better half, who was calling upon a friend, and did not discover his mistake until called to supper.

At Lowell, Mass., Saturday, Patrick Kennedy, an employe of the gas company, was drowned by the breaking of the ice in the western canal.

Fred Archer, the famous English jockey, was recently married to Miss Nellie Dawson, daughter of the well known trainer, John Dawson. Chief among the popular festivities was a substantial meal to the poor, an ox having been roasted whole for the purpose.

New Hampshire Items.

Senator Blair offered a preamble and resolution in the United States senate last week, the preamble setting forth the difficulty that exists in relation to the continuous representation of this state in the senate, resulting from the arrangement of the session of our legislature, and the resolution instructing the senate committee on judiciary to inquire and report what legislation, if any, is necessary to remedy the difficulty, to the end that there may be no vacancy in the representation of New Hampshire in the senate of the United States. Objection was made to the resolution being referred to committee, and Mr. Blair withdrew it.

Arrangements have been completed for the purchase of a cattle ranch at Pine Bluff, Wyoming territory, by a stock company backed largely by Concord capital. The purchase includes 5,500 head of fine cattle, and the range is said to be one of the finest in the territory. One gentleman takes $50,000 of the stock, and another, who resides in Concord, takes $25,000. The remainder of the $150,000 capital has been taken by Concord gentlemen in sums of $5,000 and less. The par value of the stock is $500 per share.

A $20.00 Biblical Reward.

The publishers of *Rutledge's Monthly* offer twelve valuable rewards in their *Monthly* for March, among which is the following:

We will give $20.00 in gold to the person telling us which is the longest verse in the Bible by March 10th, 1883. Should two or more correct answers be received the reward will be divided. The money will be forwarded to the winner March 15th, 1883. Persons trying for the reward must send 20 cts in silver (no postage stamps taken) with their answer, for which they will receive the April *Monthly*, in which the name and address of the winner of the reward and the correct answer will be published, and in which several more valuable rewards will be published.

He Ought to Know.

The late Lord Cardigan believed that all the world was an army, and everything therein was regulated by military precedence. One Sunday, at Deene, after the usual service, he sent for the local clergyman, and said to him:

"I wish to tell you that, in my opinion, the singing of the children to-day in church was disgraceful."

The clergyman replied, with due humility, that he was sorry to differ from his lordship, but that he could not agree with him.

"I repeat, sir," said Lord Cardigan, "that the singing was disgraceful."

"And I," said the clergyman, "regret to say that I cannot agree with you."

"I tell you, sir," repeated Lord Cardigan, "that the singing was infamous! I have been an inspector-general of cavalry for five years, and I suppose I ought to know something about it."

—Courtship is defined by a man who pretends to know, as "the skirmish before the regular battle."

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that I I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,
MRS. S. S. MOODY.

"IOLANTHE."

The comic opera by Gilbert & Sullivan, authors of "Pinafore," "Pirates of Penzance," "Patience," etc., which is to be presented at Music hall on Wednesday evening by Snyder & Grau's English Opera Co., will we do not doubt draw a large audience, the opera being bright and taking and the company one of much merit, besides which no similar entertainment has been given here for a long time.

The story of the opera may be described in a very few words. The Lord Chancellor of England has resolved to marry one of his own wards, (of whom the whole House of Lords is likewise enamored,) when he discovers that his son, of whose existence he was previously unaware, has forestalled him in the young lady's affections. It is then made manifest by Iolanthe, a fairy, that she is the Chancellor's long-lost wife, and the young lover, who is half fairy and half mortal, none other than their child. The father relents, and on being made acquainted with the fairy law which renders marriage with a mortal an offence punishable with death, in order to avert tragical consequences to Iolanthe suggests to the Queen of the Fairies an amendment of the statute. She hesitates, but as all her attendants thereupon confess that they have, one and all, on different times married dukes, earls and lords, it is then and there enacted that for the future every fairy who does *not* marry a mortal shall die. Thus the problem is satisfactorily solved for all.

Tickets now to be had at Goodrich's bookstore, Congress block.

POLICE COURT--BATCHELDER J.

MONDAY, Feb. 19th.

GOSSIPS SAY

That the city fathers will try the experiment of hiring the north millpond, opening the gates and letting the tide ebb and flow through them at will for one year, to see what effect pure salt water will have upon the now offensive cesspool.

That the Minneapolis fever is not so epidemic as it was.

That Miss Bartlett, the talented and accomplished young actress of this city, will be re-engaged by the Boston Museum for another year.

That Rev. Mr. DeNormandie and family will spend the summer in Portsmouth, and that their beautiful State street residence will not be closed.

That a promising young lawyer of the Rockingham bar is engaged to an accomplished young lady of the "Hub."

That the frescoing now being done at the Rockingham house will be handsomer than in any hotel in New England.

That it is a subject of remark by strangers—the splendid line of hacks sported by our Portsmouth jehus.

That the cavalry ball will be the event of the season.

That more improvements will be made to building property at Newcastle this year than ever before in the same time.

That a new sail boat of wonderful model will be added to the Portsmouth pleasure fleet the coming season.

That Brick Pomeroy and family will rusticate in the vicinity of Portsmouth this summer.

Rev. James DeNormandie preached in the Second Church, Boylston street, Boston, last Sunday forenoon, in the absence of the pastor. His text was from Hebrews III, 12: "Take heed, brethren, lest there be in any one of you an evil heart of unbelief in departing from the living God."

James M. Carr, Esq., and wife, left last week for New York and the west, to visit their children.

Dr. Rolla C. Grant and family on Monday took the cars for Rochester, N. Y., where the doctor proposes to make his home in the future.

The meeting of the board of aldermen, Thursday evening of this week, will probably be omitted out of respect to the memory of Washington.

Preparations for fitting out the steam tug Ann for the coming season's work were commenced on Monday last. She will go on the marine railway to be repainted, and will receive a new smokestack; in other respects she is now in good order.

Parties from Boston, interested in establishing a manufactory of silver-plated ware, were in this city on Monday, in consultation with some of our citizens with a view of locating a manufactory here. No definite arrangements were made, but there is good ground for expecting the success of the project.

Tickets for the performance of the "White Slave" at Music hall on Saturday evening, by Tompkins & Hill's Boston Theatre Co., will go on sale at Goodrich's Congress Block bookstore on Wednesday morning.

On Saturday last Hon. Frank Jones closed a contract with Messrs. Critchley & Whalley to build gas works and gasometer at the brewery to light those buildings and the Rockingham house. The works will be of the Tiffany patent, and with a capacity of 6000 feet. The work of getting the machine in readiness has already begun. The gas will be conducted from the brewery to the Rockingham house in a 3 1-2 inch cast-iron pipe, which will be cast at the foundry in this city. Everything will soon be in readiness, and as soon as the ground is open the works will be put in.—*Times.*

Smelts are reported as swarming in Great bay, but are uncatchable, as they cannot be induced to take the hook. One smelt fisherman from this city, tired of seeing the fish school around and among his hooks without touching the bait, constructed a spear about as big as a large darning needle, with wings on the upper end, but after jabbing away with it for a couple of days gave it up as a failure, and stowed it away with his hooks and lines to await a more prosperous season.

The Eldredge Brewing Co. have converted the lower floor of their storage building on Bow street into an office, which for beauty of finishing and fitting, and convenience of arrangements, is at least equal to anything of the kind in the city. A new front which has been put in the lower story, of glass and iron, the windows being formed of a single plate, adds much to the appearance of the building externally.

Mr. John H. Hutchinson, the Market square jeweller, has within the past year used up about nine hundred ten-cent pieces in the making of bracelets, pins, earrings, etc. One side of the coin is smoothed, and the initials of a friend's (generally the giver's) name engraved thereon; the cost of a single piece when finished is thirty-five cents, and it takes eight of them to make a bracelet, so with the value of the connecting rings and clasps added, the ornament is not such a very cheap affair. In some cases silver quarters are employed, and in one or two instances gold dollars have been used, the latter making a very neat and pretty ornament, but also a costly one, as more of them have to be used than of dimes.

The steamship Indiana, commanded by Capt. Sargent of Kittery, arrived at Liverpool, Eng., Feb. 16th, from Philadelphia, having lost a man and a boat on the passage, and had five other seamen injured, by the heavy seas.

The Rockingham house is undergoing extensive alterations and improvements in the interior. Every room in the house is being refrescoed under the direction of Mr. John Gannon of Manchester, whose skill as an artist in his line ensures a class of designs at once attractive and appropriate for a building of the kind. An elevator has recently been built by the Hawkins Machine Co. of Exeter, which will add greatly to the convenience of the hotel's patrons. The dining room, gentlemen's sitting-room and billiard room are to be refloored with English tiles, the work to be superintended by Messrs. Barker, Torrey & Co. of Boston, and Miller, Coach & Co. of New York. A new boiler will be put in, and steam pipes laid throughout the house, Mr. W. W. Carmen of Exeter furnishing and placing them. A set of electric bells of the lastest improved pattern will supercede those previously used, Mr. Seth W. Huller of Boston, who is well known in this line of business, having charge of the work. The billiard hall has been replastered, and will be made more attractive than ever in its decoration; and four new tables, built by Collender of Stamford, Conn., will replace the old ones. The Rockingham has long had an established reputation as being one of the best hotels—if indeed not the best—in New England outside of Boston; and with the improvements and fresh attractions now being added, it will far surpass in completeness, and in the ease, comfort and security offered its guests, any hotel of its size east of New York.

The barque Minnie Hunter, Laithwaite, bound from Cardenas for Delaware breakwater with sugar, went ashore on Cape Henlopen on Friday night in a dense fog, and filled with water. The vessel will be a total loss, though part of her cargo has been saved in a damaged condition. The Minnie Hunter made two or more trips to this port in times past, and her captain, Laithwaite, was in charge of the brig Clara J. Adams at the time the latter vessel went on the south beacon ledge several years ago.

Mrs. David Littlefield, of Ogunquit, has a piece of land fronting the water for which she has been offered a high price—$1000 it is said—but although the field is barren, and the owner's circumstances such that a thousand dollars would be a large sum to her, she declines to sell, saying if the field is worth that amount to others it is to her. Parties from Concord, N. H., and this city, have recently endeavored to purchase the lot, but without success.

Prophets Away From Home.

Newport and Philadelphia are both disturbed about their sewerage. Each numbers among its citizens an engineer whose advice other cities seek when their drainage is disordered. But Newport calls on an officer of the United States engineer corps to prescribe for its ills, and Philadelphia sends to Newport for Mr. Waring to instruct her common council in rudimentary principles, concerning which Mr. Hering had already given them excellent advice after a visit to Europe at their expense to collect data. Mr. Hering and Mr. Waring are both invited to report on Binghamton's sewerage. And so it goes around the circle. This is all right. Every city ought to get the best advice it can, and the most it is willing to pay for. It is a sign of a healthy feeling in a community when it has overcome petty local prejudice far enough to be willing to call in expert advice from outside. As we have before said in these columns, the opinion of an impartial outside engineer of experience and judgment is very often better than that of a resident of a city, no matter how able he may be. He is less likely to be warped be local prejudice and to have a hobby, and far less likely to be opposed by personal adversaries.—*Sanitary Engineer.*

What the Angel Will Exclaim.

A story of a Kentucky orator is told by the Louisville *Courier-Journal.* He had received $100 for defending McLarens, and only $10 from Ragg, who was on trial under the same indictment for larceny. Closing his appeal to the jury, he said: "And may it please you, gentlemen of the jury, when the last trumpet is sounded, and the quick and the dead arise in the presence of the Awful Judge, on that final day, when the earth and the seas melt away, the angel of the Lord will be seen kneeling before the throne, enclaiming, 'McLarens is innocent! McLrrens is innocent!'" and suddenly remembering his ten-dollar client, he added in a subdued voice, "and also Ragg."

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR **HEART SOUND?**

Now

Many people think themselves sick and doctor for kidney or liver trouble, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cundinning, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart trouble, including palpitation. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough treatise on heart disease.* (2)

John Johnson, Charles Nyborg, John Victory, Gustave Branting and Carl Wahlquist, members of the crew of the steamer Melita, who volunteered to go in the boat to save the crew of the schooner John Albert Smith, which was sinking during a terrific gale, are to be presented with a silver medal each by the merchants of Boston. The captain of the steamer is also to receive an elegant watch-chain and compass charm. On the face of each medal is the name of one of the crew, and "Presented by the merchants of Boston, January, 1883." The reverse side is engraved as follows: "In recognition of his heroic efforts in rescuing six seamen from the sinking sch. J. A. Smith at the imminent peril of his life." The captain's charm is inscribed: "Presented to Capt. John Calvert, of steamship Melita, by merchants of Boston."

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

The Morgan Monument.

To most people the fact of the existence of a "National Christian Association" was made known for the first time, the other day, by the unveiling of a statue erected by the association in honor of one William Morgan. Judging from the names of those who took part in the edifying ceremony, the National Christian Association consists chiefly of Blanchards, together with an occasional Taggart, but it is evidently an energetic and determined body of men, who are resolved to save their country if they have to erect a dozen monuments.

At first sight it may seem rather odd that a National Christian Association should take pains to honor the memory of a drunken vagabond whose one claim to fame lies in the fact that he either violated a dozen or more of the most solemn oaths or told a large collection of ingenious falsehoods. To add to the beauty and symmetry of his moral character, Mr. William Morgan always maintained that he violated his alleged oaths and betrayed the confidence of his associates from a sense of duty. He thus crowned his moral edifice with hypocrisy, and was as various and miscellaneous a rascal as our prolific country has produced. That such a man should have been honored with a monument by an association of Christians would certainly be a very singular fact were it not that the National Christian Association is engaged in a work of such tremendous importance that it cannot stop to inquire into the moral character of its great apostle and protomartyr.

From the proceedings at the unveiling of the Morgan monument at Batavia, N. Y., it appears that the National Christian Association has for its object the exposure and defeat of the hellish conspiracy against Christianity, morality and free government summarily comprehended under the name of Freemasonry. Mr. William Morgan was one of the first men who called the attention of Americans to the dangerous character of Freemasonry, and that either he or some one else was thereupon killed by Freemasons, or other persons, is, in the opinion of the National Christian Association, an undoubted fact.

Every one knows of the existence at the present day of Freemasonry, but had it not been for the National Christian Association few of us would have known what desperate and wicked men the Freemasons are. They are, beyond any question, the leading fiends of the nineteenth century, and their practices are as abominable as their principles are infamous.

Hypocrisy is one of the invariable characteristics of the Freemason. It is this that enables him to wear the expression of innocence and dullness which one always notes in the faces of Freemasons when an entire lodge stands up to be photographed with its aprons and horse-collars. The fat, amiable brother who wears his hat to denote that he is the Master of the lodge is apparently utterly incapable of murder and treason, and the rest of the brethren look as if they were on the point of singing hymns and giving five cents each to the missionary cause. Yet, thanks to the National Christian Association, we know that these men are the most skillful of hypocrites, for, in spite of their smooth and innocent faces, they are plotting the destruction of everything, except their villanous fraternity.

The Freemasons of the lower grades are sworn to bear eternal hatred to religion, morality and order. In the secrecy of their lodgerooms they commit the most fearful crimes. They inveigle upright men into their lodges and then cut them into fine slices, and dispose of them to the manufacturers of canned provisions; and they take turns in trampling on the Bible and in reading aloud selections from Talmage's sermons and Tupper's poetry. The Freemason who is a juryman always votes for the acquittal of a brother Freemason and the conviction of every prisoner who is not a Freemason. Contrary to the opinion entertained by many worthy Protestants, that the Jesuits are the instigators of every crime that has been committed for the last century, the Freemasons are really the guilty parties. They brought about our civil war merely to gratify their thirst for blood, and the recent Egyptian war was solely due to the hatred of Arabi, who is a leading Freemason, toward Gladstone, who has never joined the fraternity.

The higher grade of Freemasonry, known as the Order of Knights Templar, is simply an armed and drilled force with which the Freemasons propose, at the proper moment, to seize upon the government and establish a military despotism. These warriors present a most ferocious appearance. Clad in cocked hats, black coats and shoulder-straps—the uniform worn by the original Templars in the time of the crusaders—they march through our streets and fill the minds of the members of the National Christian Association with just alarm. It is now pretty well ascertained that prior to seizing the government of the country the Templars intend to poison nine-tenths of their fellow-citizens by putting arsenic in their beer, and thus rendering them incapable of resistance. It is with this purpose in view that the Templars have made themselves familiar with every beer saloon in the country, and have gained the confidence of every beer-seller. The proof that they have done this is simply overwhelming, and the act admits of but one interpretation, provided we rigidly exclude all others.

Fortunately, the National Christian Association is aware of the nature of Freemasonry, and will battle with monuments the wicked schemes of the Freemasons. The unveiling of the Morgan monument has already stricken terror to the hosts of Freemasonry, and if the association will only erect a few more monuments and make a few more speeches the Freemasons will disband and throw themselves on the mercy of the National Christians.—*N. Y. Times.*

—Money is called the great circulating medium because men have to circulate lively to get a medium amount of it.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

—"Yes," said the farmer, "a barbed wire fence is expensive, but the hired man doesn't stop to mend it when he has to climb it."

"When I publicly testified that I had been cured of a terrible skin humor by the Cuticura Remedies, I did so that others might be cured, and don't regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

Congestion in the cavities of the human heart generally proves fatal. It is necessary to restrain the action of the heart, when any disease of its valves manifests itself. All the combined research and wisdom of man, since Adam's day have never evolved but one certain cure for heart affections. Dr. Graves' Heart Regulator is the remedy, and the only one. $1. At druggists.

—A lady leaving home was thus addressed by her little boy: "Mamma, will you remember and buy me a penny whistle? And let it be a religious one, so I can use it on Sunday."

Purity and Strength.

Shakespeare says: "'Tis better to bear the ills we have, than fly to others that we know not of." But when a man is suffering from the exquisite torture of rheumatism, or neuralgia, or gout, he does'nt feel like dying, to any great extent. In such a case it isn't necessary for him to "bear the ills" he has, when he can secure immediate relief by using Salicylica, which possesses purity and strength—two elements most essential to a perfect cure.

—The sessions of state legislatures all over the country are opened with religious exercises, and many really devout people are in consequence beginning to doubt the efficacy of prayer.

"Wheat Bitters." A powerful invigorater in cases of weakness and debility, and is unequalled in female complaints. Price $1.00 per bottle.

—Courtship is defined by a man who pretends to know as "the skirmish before the regular battle."

Decline of Man.

Impotency of mind, limb or vital function, nervous weakness, sexual debility, etc., cured by World's Dispensary Medical Association. Buffalo, N. Y. Address, with two stamps, for pamphlet. c

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinipiac Lodge, No. 1, (the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

Got Rid of Tooth-ache.

He suffered more than twenty years:—
Neuralgia pains—face, jaws and ears.
He might have suffered twenty more,
Had he not purchased at the store
Something which eased his frightful pain
And quickly made him well again.
That something 's made by Perry Davis,
From horrid aches and pains to save us.
Pain Killer, as the public know,
Was started forty years ago.
Thousands on thousands bless the hour
When first they knew its healing power.

The story goes the rounds that Gov. Butler of Massachusetts insists upon making his exit from the State house by way of the front door, eschewing the rear door. This is quite natural. After his labor and outlay to rent a room for a year on Beacon street, it is quite natural that he should wish to enjoy the privilege of going up and down the big steps and to go in and out the big front door, with all the pride of any occupant of Beacon street real estate.

Phenix Park.

Phenix park, at Dublin, Ireland, the scene of the assassination of Lord Frederick Cavendish and Mr. Burke, for which so many prisoners are now on trial, contains 2,000 acres, and is entered, like Hyde park in London, by a stately gateway. It is surrounded by a solid coped wall, and is the playground of the Irish metropolis, civil and military, and contains bits of leafy bower and grassy glen, in which solitude, pure and simple, may be realized. It contains statues of Lord Carlisle and Lord Gough, and a hideous granite obelisk 200 feet in height, recording the exploits of Wellington. The spot where the assassination took place is about half a mile from the entrance, and is overlooked by the viceregal lodge, the semi-official home of the lord lieutenant. A little further on are the official residences of Mr. Trevelyan and other officers.

Naval Affairs.

Commander George Dewey, recently in command of the Juniata, who is now in the British hospital at Malta, has been ordered home, and if his health will not permit him to come at once he is given permission to remain in Europe to recuperate.

Capt. Higbee, U. S. M. C., at present stationed at the marine barracks, Boston navy yard, is order to command the marine barracks at the Washington navy yard on the 12th of March, relieving Capt. McLane Tilton.

The Powhatan, Capt. A. W. Johnson, sailed from Boston on the 19th inst. for a cruise in the West Indies.

New Hampshire Items.

Elder Ezekiel True, a retired Baptist clergyman of Rochester, died very suddenly Sunday night, Feb. 18th, at his residence in that town, of heart disease, aged seventy years. He leaves a widow but no children.

The Farmington *News* says that John Chadwick did not wish to be carried to his grave in a hayrack and buried with his pipe in his mouth, as has been stated in the papers.

News and Notes.

In the Court of Commissioners of Alabama Claims, Feb. 19th, judgments were rendered by Judge Wells, presiding judge, in thirteen cases growing out of the destruction of the whaling vessel Goodspeed by the Chickamauga, November 1st, 1864, for the aggregate sum of $23,550, with interest.

Ann Gerry, third daughter of Elbridge Gerry, formerly vice president of the United States, and a signer of the Declaration of Independence, died at New Haven, Conn., early on Saturday morning, Feb. 17th, aged ninety-one years.

Dr. H. J. Glenn, the largest wheat raiser of California, and who ran for governor on the democratic ticket in 1879, was shot in his ranche in Jacinto by H. Miller, his bookkeeper, a day or two ago. Miller refused to surrender until shot in the knee by R. M. Cochran, Glenn's superintendent, when he was arrested and confined. The only cause yet known for the shooting is that Miller did not give satisfaction as bookkeeper, and was discharged.

Mr. Arthur Fowles, a well-known English yacht painter, was killed recently, owing to the accidental discharge of a gun. Some of his paintings of the finish of yacht races were excellent, and, what is unusual in such pictures, correct.

William Lamson, who a few years ago was a manager in a store at Salem, Mass., is the inventor of devices, patented, for store service, carrying cash, messages and merchandise automatically, from which, it is stated, he realizes $100,000 per annum.

Kalloch, the preacher, who was once mayor of San Francisco, and who then cast a very dark shadow, is in further trouble. His congregation has decided to give him a year's vacation, without pay, because he let the church for a Sunday evening sparring match that was attended by a crowd of hoodlums, for whom the regular organist played sacred music before the sparring began.

William Walker, aged twenty-three years, was killed by a blast at Readsboro, Mass., Feb. 19th, while walking on the highway fifty rods from the place of blasting. A 3,000 pound rock flew from the blast across Deerfield river, and struck Walker, crushing him into jelly. A mother and two sisters were dependent on him for support.

Henry Douglas, thirty-five years old, with a wife and two children, fell from the wall into a wheelpit, at the Newton Brass Pulp mill, in Readsboro, Mass., Feb. 19th, fracturing his skull and receiving internal injuries. He will not live.

Workmen recently engaged in reconstructing the abutments of the Main street bridge of the Fitchburg railroad, in Watertown, Mass., found a quantity of old counterfeit coins bearing the dates of 1853 and 1857.

William H. Farrell of Pownal, aged twenty-two years, was crushed to death between an engine and freight car, at Mechanicsville, Vt., on the 19th inst. He had been braking on the Boston, Hoosac Tunnel & Western road six weeks, and was shackling an engine to a caboose, when another engine pushed the caboose upon him.

The March "Atlantic" has the third and concluding part of Mr. Longfellow's dramatic poem "Michael Angelo," occupying thirty-one pages, and so thoroughly good and characteristic of Mr. Longfellow that many readers will regret that it has come to an end. John Burroughs, who is a very hearty admirer of Carlyle, gives a very interesting account of a trip "In Carlyle's Country." Agnes Paton, who has contributed some very striking short stories to the Atlantic, this month has another of the same noteworthy character, entitled "Antagonism." "By Horse-Cars into Mexico" is a lively travel sketch by H. H. Mr. George P. Lathrop, Hawthorne's son-in-law, contributes an article, which all Hawthorne lovers will read with peculiar zest, on "The Hawthorne Manuscripts." Henry James writes in his best vein of "Tommaso Salvini," an article which the multitude of admirers of this great actor will read with great interest. Rev. J. H. Allen, an authority in matters of ecclesiastical history, has an essay full of information on "Port Royal." "The City of Earthquakes," by Horace D. Warner, is a paper of startling interest on the frequency and effect of earthquakes at Caracas, in Venezuela. The most noticeable brief poem of the number is by Dr. Holmes, "A Loving-Cup Song." Other poems and reviews of important new books, with a Contributors' Club of excellent variety, and brief notices of books of the month, conclude this admirable number of the Atlantic. It is announced in a Biddeford paper that "Work is progressing favorably on the Kennebunkport Beach railroad; over one-half of the roadbed is graded, and the building of the water front is progressing towards completion. The bridges are being built and the piles driven with a view of laying a double track in the near future. It is evident by the large water front that has been purchased that the Boston & Maine officials intend to use this place for their coal station."

—That was rather a handsome "send-off" given to a party of checker players who had had a prolonged game in a store in Rochester where they were in the habit of assembling. As they rose to depart the proprietor remarked, "Gentlemen, that is the best move you have made to-night."

WE DO NOT CLAIM

that Hood's Sarsaparilla will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring water into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,
MRS. S. S. MOODY,
No. 75 Broadway.

How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from these Official State Reports, let the reader consider the DEFINITE Insurance Contract offered by THE

Mutual Life Insurance Co.

OF NEW YORK,

under which no "Assessments" are *possible*, and the benefit to be received definitely decided at time of application, with such an annual return of the unexpired premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

— OF THE —

Assessments Collected.

Maximum Value of Certificates (or policies) upon which policies were paid in 1881.....	$2,395,925.00
These "Certificates" proved to be worth as claims.....	$511,384.36
But the collections for this year on claims were.....	$594,207.94
Difference between collection and disbursement, illustrating *Economy in Cost (?)*.....	$82,823.58 — $511,384.36

ANOTHER WAY OF PUTTING IT.

These unfortunates hold Certificates representing a supposed value to their beneficiaries of $2,395,925.

The real value proves to have been about 21¼ per cent, or $511,384.36, they waiving their claim of $82,823.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

QUERY.

Why ever heard of any respectable Life Insurance Company settling $2,395,925 of insurance, honestly contracted for, at a discount like the above and at such a cost?

POLICE COURT--BATCHELDER J.

TUESDAY, Feb. 20th.

James Welsh, for an assault on Mrs. David Welsh, was fined $5, costs being taxed at $8.92. From this sentence he claimed an appeal, and gave bonds in $100 to prosecute the same at the next term of the supreme court in this county, and to keep the peace in the meantime.

The case of Michael Welsh, charged also with an assault on Mrs. David Welsh, was continued to Feb. 21st.

THE ALABAMA CLAIMS.

The taking of testimony before William H. Hackett, United States commissioner, at the Circuit Court clerk's office in this city, has been going on this week. On Monday, the claims for war premiums paid by Gov. Goodwin, for himself and other owners of the ship Morning Glory, and on his interest in the ship Anna Decatur, were the subject of depositions. Frank Goodwin, Esq., of Boston, appeared as counsel for the claimants.

In the claim of the owners of the ship Rockingham, Capt. Edwin A. Gerrish testified on Tuesday. Capt. Gerrish commanded the Rockingham at the time she was taken by the rebel steamer Alabama. He and his wife were taken on board the rebel cruiser, which then fired into the Rockingham; but the ship was one of the staunch Portsmouth built vessels, and floated in spite of the target practice of Semmes' officers and men, and she was subsequently set on fire and burned. After that, Capt. Gerrish was landed at Cherbourg, France; and on the day of the fight between the Alabama and the Kearsarge, the late commander of the Rockingham had the satisfaction of watching through a spyglass from a sightly eminence on shore, the style in which the Portsmouth boys on board the Kearsarge handled their guns against the piratical steamer. One can faintly imagine the feelings of a shipmaster from whom had been captured one of the finest merchant vessels of the United States, as he witnessed from the shore the result of the Kearsarge-Alabama duel, and saw his captor sent to the bottom of the ocean by a vessel built and launched but a short distance from the ways from which the Rockingham a few years earlier had met the waters of the Piscataqua.

GOSSIPS SAY

That Hon. Frank Jones, before starting for the southwest, subscribed liberally to the silver-plate industry intending to establish itself here.

That the yacht Redwing is to be completely refitted this spring.

That during the present winter Portsmouth has been remarkably free from children's diseases.

That the little Akerman girl, of Spinney road, whose leg was so badly broken while coasting recently, is doing nicely, thanks to the skill and philanthropy of the attending surgeon.

That another sleighing party to Pocahontas point is not far away.

THE WHITE SLAVE.

On Saturday evening next, at Music hall, the stirring drama "The White Slave" will be presented by the Boston Theatre Co. Messrs. Tompkins & Hill have frequently catered for our theatre goers, and have always fulfilled their promises by giving what they advertised; and on Saturday evening we shall not see a thin, picked-up organization, but the genuine Boston Theatre Co., including William Redmund, Dan Maguinnis, Mrs. Thomas Barry, Miss Edith Kingdon, Miss Rachel Noah, Miss Grace Thorne, Mr. and Mrs. E. A. Eberle, and numerous other deservedly popular performers, many of whom are well known to our stage. Mr. Redmund has appeared here once, as "Michael Strogoff," in the play of that name, when he won most favorable opinions for the quiet power of his acting in a part wherein it was very easy to have ranted and blustered. Of him the Hartford *Post* says:

Probably no actor has ever appeared in America and achieved so instantaneous a success as Mr. Redmund. The reasons for this are obvious. He combines in himself the best qualities of several famous artists, possessing the grace and magnetism of Fechter; the easy manner and delicate refinement of Montague; the heroism and princely bearing of Rignold; the manly physique of Salvini. Blessed as he is by nature with all these requisites which tend to mark the successful actor, Mr. Redmund cannot but succeed.

Further than all this he is always conscientious, and never slights a part because of the inferior numbers in the audience, but with the ardor of a true artist works with an undiminished fervor and enthusiasm, which wins the admiration of the public. Both the public and press have been most generous to Mr. Redmund, the former with its patronage and applause, and the latter with its remarkable and unanimously favorable comment, which is probably without precedent in theatrical history.

He is looked upon to-day as the only successor of Fechter, that marvellous actor, who like a comet, flashed upon us and was gone. The romantic school is open to Mr. Redmund, and without a rival. That he must avail himself of it is most probable, as no man is likely to throw away such a golden opportunity.

Personally Mr. Redmund is a most pleasant and agreeable gentleman, with a frank, easy, social manner which puts one instantly at ease. * * Nature has lavishly bestowed her choicest gifts upon him, and he in return has returned the compliment by assisting her with the art and genius at his command.

While Mr. Redmund has been seen in Boston in little but melodrama, his inclinations are very decidedly toward the romantic drama, and he hopes some day to be seen in characterizations of that nature. * * Mr. Redmund thinks, after the rage for melodrama has subsided, that there will be a fine opening for the romantic school.

THE CITY'S RAILROAD STOCK.

Mr. Editor: While it is possible that much may be said in favor of and much against the proposed sale of a part of the city farm, I think no man of good judgment can hesitate for a moment to give his sanction to the sale of the stock in the Dover railroad which the city owns, in order that the bonds that were issued in 1872 to pay for 3000 shares of the railroad stock may be paid from the proceeds.

It is undoubtedly true that none of the bonds will be offered to the city for liquidation before the expiration of the time of their maturity; then, however, it will take three hundred thousand dollars to redeem them. They must be paid in cash on the day they fall due.

If the railroad stock is kept until the bonds are payable it will be impossible to realize anything near the par value of the shares, because it would be impossible to find purchasers for three thousand shares of stock in one short railroad if put upon the market in one huge block, or two huge blocks. Dover has nearly as large an interest in the road as we have.

The city can dispose of, perhaps, three hundred shares of the road per year, the proceeds of which should be invested in securities which could be realized upon at option, so that the city should not have $300,000 dollars in bonds to pay, and a *railroad to sell*, in one and the same year.

The city does not want to speculate in railroads; it is not its legitimate business. Stock may decline, but the bonds must be paid, dollar for dollar. It is true the stock is quoted at a premium to-day; now is the time to sell, therefore. Our staid old town does not want to speculate, but should wash its hands of the railroad stock and liquidate its bonds as soon as a judicious policy will permit. The public has the advantages of a railroad connection between the two cities. Let financiers own the stock and officer the road, otherwise there is danger that we shall soon have a President and Directors of the city, and a Mayor and Aldermen of the railroad. Let us get our hands out of the stocks, and our necks out of bonds.

EX-MAYOR.

A gentleman who has witnessed the production of "Iolanthe" at the Bijou theatre in Boston and by the Snyder & Grau company, (which will appear at Music hall this evening,) assures us that the latter organization is fully equal to Rice's, and the chorus he considers even better.

Wreckers have contracted to float the schooner Charles H. Mitchell, which recently went ashore on Fisher's island, at the entrance to Long Island sound, on the passage from this port to Baltimore, and to place her on the ways at Noank, for $4000.

It is reported that Capt. J. Touro Marcy of this city is to take command of the barque Furness Abbey.

Only about two thousand pounds of fish were received at this port on Monday and none on Tuesday.

Livingston's Fire and Marine Escape was exhibited in this city on Tuesday, being extended from a third-story window of the Rockingham bank building to the ground. It is a chute made of fireproof canvas, with ratlins on the upper side, so that persons can ascend while other persons are coming down by the run inside the chute. Lots of boys had a good time sliding down.

The big bell at Christ church was reset on Monday, and will ring with the other church bells in honor of Washington's birthday.

A number of persons went from this city to Rye Centre on Tuesday, to attend the festival given there that evening. Stoddard's big team took down a party of twenty ladies and gentlemen.

Dr. Sherburne, assisted by Dr. Hall, on Tuesday amputated a leg of Daniel Sullivan, an old man who had long suffered from cancer.

There was a dance in the town hall at Newington on Tuesday evening of this week. On Friday evening the regular basket-picnic sociable will come off in the same place.

The Boston *Post* of Tuesday says: "'Iolanthe,' of course, is the attraction at the Bijou. It lasts like a scandal. Folks don't seem in the least tired of it."

The passenger train from North Conway, Tuesday morning, was an hour and a half late, owing to the breaking of an axle under the tender.

Two carloads of fine young cattle, about fifty head, arrived at the Greenland depot on Tuesday, for the Peirce farm.

The Eldredge Brewing Co. finished cutting over their ice pond for the third time this season, Monday. The third crop has been stacked, and a house is being built over it. The ice this season is of very superior quality.

Hon. John Kelly of New York, the Big Injun of Tammany Hall, passed through this city on Tuesday, on the way to Boston from the eastward. One glance at his face explains how it was that Tilden could not back him down.

One of the bell ringers suggests that the time for ringing the bells on the 22d inst. be half an hour, instead of an hour as heretofore. He thinks the bells would be rung more vigorously, and the citizens be quite as well satisfied.

The Boston *Advertiser* has made a new joke since removing to its new Washington street location. It says that "the bells on Dr. Putnam's old church are now called the 'Chimes de Normandie.'"

It was telegraphed from Concord on Tuesday that Frank E. Brown of that city is to be general passenger agent, and Samuel Barrett of this city general freight agent, of the Concord railroad.

Uncle David Spinney, of Sturgeon Creek, Eliot, had a surprise visit from his neighbors, old and young, on Monday evening. The party passed a pleasant hour or two, and on departing left behind many indications of their good will.

SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is a diseased heart.

The renowned Dr. Cardinning, startlingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's ninety-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' Short and exhaustive treatise.* (1)

If you feel oppressed, discouraged, or out of sorts, Wheat Bitters will relieve 99 out of 100 cases. It is the great brain, blood and nerve food.

—In London, since his return, Oscar Wilde has been quite a hero. He is stared at as the Englishman who drank American whiskey, and lived.

A prompt way to ease asthmatic wheezing. Use Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. A remedy for indigestion, consumption, dyspepsia, weakness, fever, ague, etc., Colden's Liquid Beef Tonic.

—A Chicago man who flogged his daughter because "she had too many fellows, and they disturbed his rest and also kept the lamp and the fire burning all night," was fined $25. Parents in Chicago have to be taught who is boss.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

—"Pa, is it right to call a man born in Poland a Pole?" "Of course, my child." "Well, then, if a is man born in Holland, is he a Hole?" "Put, put! I'll answer no more of your silly questions."

For Thick Heads,

Heavy stomachs, bilious conditions, "Wells' May Apple Pills," anti-bilious, cathartic. 10 and 25c.

—The thing that now rejoices the heart of the New Yorker are the indications that he will get his ice cheap next summer. A heated future without ice is something he wants put off as long as possible.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

—"Father," said a wishful lass, about sixteen years of age, "I know something about grammar, but I cannot decline matrimony, nor see the reason why myself and Gilbert cannnot be conjugated."

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material than all other forms of malt or medicine, while free from the objections urged against malt liquors.

—An Oil City young man, who has been speculating on the wrong side of the market, received a letter from his Philadelphia sweetheart, the other day, asking why he did not write to her. He answered on a postal card: "Am waiting for the passage of the two-cent postal act."

Compare the dose and quantity of Hood's Sarsaparilla and you have conclusive proof of its superior strength and cheapness. Try it.

—The relict of the late Jesse James confirms the story that his hair turned prematurely white. It is suggested, therefore, that his hair has got the start of his soul by several hundred years.

Fresh air, exercise, good food and Dr. Benson's Celery and Chamomile Pills will, when used together, cure any case of nervousness, sick headache, or indigestion. They strengthen the nervous system. 5,000 physicians prescribe them.

—When old Captain Marlinspike heard that his friend the schoolmaster was in the habit of punishing the unruly lads by seating them among the girls, he shock his head as he remarked: "A misplaced boy is very dangerous, my friend."

The Commander-In-Chief,

of the Grand Army of the Republic, Major George S. Merrill. Few remedies are better known in this vicinity than Sulphur Bitters, their sale has been very general throughout this section, and the number of reliable and well attested cases of beneficial results and recovery by their use, is large and beyond dispute.

—Standing before a clergyman who was about to marry him a rustic was asked, "Wilt thou have this woman," etc. The man stared in surprise, and replied, "Ay, surely! Whoy, I kummed a puppus!"

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious kidney, urinary or liver diseases, as they only relieve for a time and makes you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's as their superior practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

Masons on Tap.

The Milwaukee *Sun* is responsible for the following: A middle-aged lady, with a black alpaca dress, worn shiny at the elbows, and a cheap shawl and bonnet, and her hands puckered up and blue, as though she had just got her washing out, went into the office of a Mason, a few mornings since, and took a chair. She wiped her nose and then the perspiration from her face on a blue-checked apron, and when the Mason looked at her, with an interested, brotherly look, as though she was in trouble, she said: "Are you the boss Mason."

He blushed, told her he was a Mason, but not the highest in the land. She hesitated a moment, fingered the corner of her apron, and curled it like a boy speaking a piece in school, and asked: "Have you taken the whole two hundred and thirty-three degrees of Masonry?"

The man laughed, and told her there were only thirty-three degrees, and that he had only taken thirty-two. The other degree could only be taken by a few who were recommended by the Grand Lodge, and they had to go to New York to get the thirty-third degree.

The lady studied a minute, unpinned the safety-pin that held her shawl together, and put it in her mouth, took a long breath and said:

"Where does my husband get the other two hundred degrees, then?"

The prominent Mason said he guessed her husband never got two hundred degrees, unless he had a degree factory. He said he didn't understand the lady.

"Does my husband have to sit up with a corpse three nights a week?" she asked, her eyes flashing fire. "And do they keep a lot of sick Masons on tap for my husband to sit up with the other three nights?"

The prominent Mason said he was thankful that but few Masons died, and only occasionally was one sick enough to call for Masonic assistance.

"But why do you ask these questions, madam?" said the prominent Mason.

The woman picked the fringe of her shawl, hung her head down, and said:

"Well, my husband began to join the Masons about two years ago, and he has been taking degrees or sitting up with people every night since. He has come home twice with the wrong coat on, and, when I asked him how it was, he said it was a secret he could not reveal under penalty of being shot by a cannon. All he would say was that he took a degree. I have kept a little track of it and I figure that he has taken two hundred and thirty-three degrees, including the Grand Sky Fugle degree, which he took the night he came home with his lip cut and his ear hanging by a piece of skin."

"O, madam," said the prominent Mason, "there is no Sky Fugle degree in Masonry. Your husband has deceived you."

"That's what I think," said she, as a baleful light appeared in her eye. "He said he was taking the Sky Fugle degree, and fell through the skylight. I had him sewed up, and he was ready for more degrees. After he had taken about a hundred and fifty degrees, I told him I should think he would let up on it, and put some potatoes in the cellar for next winter; but he said when a man got once started on the degrees he had to take them all, or he didn't amount to anything. Sometimes a brother Mason comes home with him along in the morning, and they talk about a 'full flush,' and about their 'pat hands,' and 'raising 'em out.' One night, when he was asleep, I heard him whisper: 'I raise you ten dollars,' and when I asked him what it meant, he said they had been raising a purse for a poor widow. Another time he raised up in bed, after he had been asleep, and shouted, 'I stand pat,' and when I asked him what he meant he said he was ruined if I told it. He said he had spoken the password, and if the brethren heard of it they would put him out of the way, even as Morgan was put out of the way. Mister, is 'I stand pat' your password?"

The Mason told her it was not; that the words she had spoken were an expression used by men when playing draw poker, and he added that he didn't believe her husband was a Mason at all but that he had been lying to her all these years.

She sighed and said, "That's what I thought when he came home with a lot of ivory chips in his pocket. He said they used them at the lodge to vote on candidates, and that a white chip elects and a blue chip rejects a candidate. If you look the matter up and see if he has joined the Masons, I will be obliged to you. He says he has taken all the two hundred and thirty-three degrees, and now the boys want him to join the Knights of Pythias. I want to get out an injunction to prevent him from joining anything else until we get some underclothes for the winter. I'll tell you what I will do. The next time he says anything about sky fugle degrees I will take a washboard and make him think there is one degree in Masonry that he has skipped. You have comforted me greatly, and I will lay awake to-night till my husband comes from the lodge with his pat hand, and I will make him think he has forgot his ante."

The lady went out to a grocery to, buy some bar soap, and the prominent Mason resumed his work with a feeling that we are not truly good, and there is cheating going on all around.

Advice to Consumptives.

On the appearance of the first symptoms—as general debility, loss of appetite, pallor, chilly sensations, followed by night-sweats and cough—prompt measures for relief should be taken. Consumption is scrofulous disease of the lungs:—therefore use the great anti-scrofula, or blood-purifier and strength-restorer,—Dr. Pierce's "Golden Medical Discovery." Superior to cod liver oil as a nutritive, and unsurpassed as a pectoral. For weak lungs, spitting of blood, and kindred affections, it has no equal. Sold by druggists the world over. For Dr. Pierce's pamphlet on consumption, send two stamps to World's Dispensary Medical Association, Buffalo, N. Y. *a*

***They who cry loudest are not always the most hurt." Kidney-Wort does its work like the good Samaritan, quickly, unostentatiously, but with great thoroughness. A New Hampshire lady writes: "Mother has been afflicted for years with kidney diseases. Last spring she was very ill and had an alarming pain and numbness in one side. Kidney-Wort proved a great blessing and has completely cured her."

Concerning Certain Relics of the Past

--Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinipiac Lodge, No. 1, (the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

Got Rid of Tooth-ache.

He suffered more than twenty years:—
Neuralgia pains—face, jaws and ears.
He might have suffered twenty more,
Had he not purchased at the store
Something which eased his frightful pain
And quickly made him well again.
That something 's made by Perry Davis,
From horrid aches and pains to save us.
Pain Killer, as the public know,
Was started forty years ago.
Thousands on thousands bless the hour
When first they knew its healing power.

There is criticism made on the ceremonious haste with which Gov. Butler notified Warden Earle of his removal. The celerity shown was doubtless attributable to a desire on the part of the governor to give the warden an official notification ahead of the newspapers.

Washington.

To-day is the anniversary of the birth of George Washington, who first appeared in Virginia near the banks of the Potomac, as if to get an early start for the presidency, one hundred and fifty years ago.

Had Washington lived later he would have received a larger salary as president, though some persons will think he had not an eye for this office. Although there were not so many bosses in Washington's day as in ours, yet if we understand history Washington liked to be boss. G. W. rather preferred to have his way and direct things. When a youngster, a midshipman's warrant was obtained for George to enter the navy. His trunk was packed, but his mother broke down in her feelings, broke up the arrangement, and the young hero had to go back to school. Thus we see how a man was saved to his country. Fancy Washington as a navy officer, trying to get orders to the Mediterranean, or taking part in the line and staff strife, or undertaking to pass away his time on a navy yard, or "waiting orders." No. Let us contemplate him in the more efficient and patriotic role of the army officer.

Washington, as a President, was number one. He never rode on a railroad pass, never sent his little package by Adams' Express Co. D. H., or carried the complimentary stamps of the "Western Union" in his pocket book; and for ought we know, even paid his fare when he crossed the Delaware, though we find no mention of it in history.

We have much to be thankful for in Washington,—G. W., we mean, not the city which bears his name. As to the latter, if the "First in peace" etc., could now visit it, and behold his incomplete monument, the unfinished business in Congress and the selfish conduct of Congressmen, and the wicked schemes of the contractors, if he could know of the delays in the departments, the coinage of silver dollars and the corruptions of the place, he would doubtless ask Congress to change the name of the Federal City. Thanks to the Mount Vernon association, we are spared this mortification. Yes, Washington was a good man, and he should not be blamed for what the city named for him contains, but commended for his wise projects as well as for his patriotic and unselfish public life.

Wholesale Murder.

A slight fire which started in a closet on the second floor of the school-house attached to the German church of the Most Holy Redeemer in New York, on the afternoon of Feb. 20th, caused an awful disaster, no less than fourteen girls losing their lives in a few moments, and others being fatally injured.

The building is five stories high, and very shallow. In it, 500 girls under the age of twelve years, and 200 boys, were in their several classes at the time the alarm was given, the teachers being nuns from the convent of Notre Dame, near by. The sisters behaved with great courage and coolness, and the classes were being rapidly and safely marshalled out of the building, when one of the nuns fainted from suppressed excitement, and instantly there was an uncontrollable panic among the children, who in crushing down the stairs broke the railing, and were precipitated in scores to the floor of the hallway below, where they were piled up six or eight deep. Police, firemen and citizens pulled out the suffocating children as fast as possible, but fourteen girls were dead when gotten out, and others were fatally hurt. Several of the boys were quite badly injured, and some of them will die.

An inspection of the building "shows that every precaution for safety in a school has been disregarded" in arranging the doors, stairs, benches and halls, and the disaster might easily have been many times more appalling.

The Civil Service Commission.

President Arthur on Tuesday, Feb. 20th, nominated Dorman B. Eaton of New York, John M. Gregory of Illinois and Leroy D. Thomon of Ohio, as civil service commissioners. Eaton is well known. Dr. Gregory was born in New York, graduated at Union College, studied law, edited the Michigan *Journal of Education* five years, served three years as president of Kalamazoo college, and is now president of the state industrial university of Illinois. Mr. Thomon is a lawyer of Youngstown, Ohio; has been probate judge, and editor of the Youngstown *Vindicator*; and is an active democrat.

News and Notes.

Fred. Osgood, of Berwick, Me., aged sixty years, married and the father of a family, was found on "the Plains" near some houses of disrepute, one mile from Great Falls, on the 19th inst., with one of his legs broken in four places, his face blackened as if he had been clubbed, and other evidence of injury on his body. It is supposed that while in one of the disreputable houses he was beaten and thrown out of doors, where he was found insensible. His injuries were pronounced fatal by the attending surgeon.

The New York *Tribune* says that Representatives Briggs and Ray of this state, and sixteen other republican representatives, have much to answer for in voting against the internal revenue reduction bill on the 19th inst.

The senate on Feb. 20th passed the tariff bill by a vote of forty-two to nineteen.

A despatch from Honolulu of Feb. 12th says: The coronation of King Kalakaua took place to-day. About 7,000 persons witnessed the ceremony, which passed off without interruption or disturbance. H. A. P. Carter was to leave that day, en route for Washington, as minister plenipotentiary to the United States.

A negro named Williams was hung by the citizens of Tellersburg, Ind., Monday evening, Feb. 19th, for outraging a white woman, Mrs. Taylor.

The house naval affairs committee has instructed Congressman Harris of Massachusetts, as chairman, to offer the bill for the sale of the Chelsea hospital as an amendment to the sundry civil appropriation bill.

There was a city election in Philadelphia, Feb. 20th. John Thompson, the republican candidate for police magistrate, beat Cobb, the candidate of the democrats and "committee of one hundred," by over eight thousand majority. Of the select councilmen elected six are republicans and five democrats. Of the forty-five common councilmen elected, thirty-three are republicans, eleven democrats and one independent.

The Boston *Daily Advertiser* of Monday, Feb. 19th, numbered twenty pages, largely devoted to a history of the seventy years of this newspaper and a description of its new and admirable quarters on Washington street. It is a notable number, without precedent in New England journalism.

On the 20th inst., in the afternoon, a dwelling at Lisbon, Me., owned by F. W. Dana, and occupied by D. B. Cotton, who was away, was burned. After the building fell the body of Mrs. Coffin was found in the ruins.

The sealing schooner Pilot's Bride, which sailed from New London in 1880, was wrecked on Desolation, in the Indian ocean. Her crew arrived at Cape Town in a vessel sent out to hunt for them.

The cases of Garrett S. Boice, Edward B. Shaw and John N. Beach, the defaulting officers of the defunct City bank of Jersey City, N. J., were called in the Hudson county court on the 19th inst. After a long consultation with counsel they decided to place themselves at the mercy of the court, and pleaded guilty. Judge Garretson sentenced them to terms at hard labor in the state prison as follows; Boice, ten years; Beach, six years; Shaw, four years. The prisoners were remanded to jail. The court room was crowded. This prompt action gives general satisfaction.

While depositions were being taken at Richmond, Va., Feb. 19th, in the contested congressional election case of John E. Massey vs. John S. Wise, an altercation between the two resulted in Capt. Wise slapping Mr. Massey in the face. The parties were arrested and bailed.

William G. Smith, express messenger for the Erie & New England Express company, was attacked by a robber on an Albany & Susquehanna train near Barnbridge, N. Y., about midnight on the 19th inst. He was shot twice. The robber escaped, after a fight, without securing any plunder. Smith had over $40,000 with him.

There seems to be but little doubt now that the star-route thieves will be convicted. One of the government's counsel is reported to have remarked that Rerdell's confession has fixed them. It appears that Dorsey planned the whole rascality.

Clifford Stowe, formerly possessing a large property in the livery business, was arrested in Providence, R. I., Feb. 20th, on a charge of slashing valuable carriages in a stable where he had been discharged. The damage to the vehicles was large.

The last visit we shall have this season from the Boston Theatre Co. will take place on Saturday evening, when a large audience will assemble in Music hall to see William Redmund, Mrs. Thomas Barry, Dan Maguinnis, Edith Kingdon, Rachel Noah, Grace Thorne and other favorites in the "White Slave," a sensational spectacular drama of the days before the civil war, the action of the play taking place in Kentucky and Mississippi in 1857. There are many strong situations in the play, and beautiful stage pictures and tableaus. Tickets can be secured at Goodrich's bookstore in Congress block.

The cavalry ball at Franklin hall this evening will be a big affair. The Salem Cadet band, Jean Missud leader, will give a promenade concert before the dancing commences. Also, the company will have a dress parade before the grand march is called. Brigadier Gen. Clough and wife will be present.

Osgood Lodge, I. O. O. F., have one of their popular entertainments this (Thursday) evening at their hall, consisting of instrumental music, singing, etc.

The Kittery just across the river from this city is not the only one in the world. The Newburyport *Herald*, speaking of the homestead of a man recently deceased, says: "The dwelling house is one of three situated at the terminus of a town way, one and a half miles from the village of Rowley, and called Kittery."

"Rev." Arthur A. Waite, formerly of Lynn, has been heard from again, this time at St. Paul, Minn., wheae he has rented a large store. He is known as "Andrew Arthur, the great natural Shaker healer."—*Times.*

Luck.

Is a word which should have no place in any vocabulary. A man must have ability to succeed, and a medical preparation, merit. There is no luck about SOZODONT. It was sure to succeed from the first, because it was good, and did all that was claimed for it.

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum ?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my hands, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 18 degrees above zero.

Sky clear.

PRESENTATION.

Alderman Benjamin Atwell, who has recently taken unto himself a youthful bride, was very pleasantly surprised on Tuesday evening of this week by receiving a call from the members of Kearsarge Fire Engine Co., No. 3, who had with them an elegant easy chair, which Alderman Willard J. Sampson, in a graceful speech on behalf of the company, presented to Mr. Atwell as a mark of their esteem, and their hearty good wishes for the permanent and always increasing happiness of himself and Mrs. Atwell. Ald. Atwell, in response, said he should ever highly value the gift as a token of their friendship and kindly regard, and for the pleasant memories it would bring up of his agreeable associations while a member of the fire department and the company. The visitors took their departure after a brief period of pleasant social intercourse.

RUNAWAYS.

On Tuesday, Feb. 20th, a horse belonging to Mr. Justin V. Hanscom made a fine run for home without a driver, going through Market, Congress and Islington streets, avoiding collision with any team or obstruction, and bringing up without any harm being sustained by himself or to the sleigh.

A quartette of ladies and gentlemen who were taking a sleigh ride around the city on Tuesday, in turning a corner broke one of the runners of the sleigh. The accident occasioned only the inconvenience of a return to the stable for another sleigh.

On Wednesday forenoon, the 21st, a span of horses belonging to Mr Herbert de Rochemont, of Newington, which had been left standing on Market square, got restive and took to the sidewalk, and hit against Mr. Gerrish's store; they then went up Market street on a run, striking a pung and hayrack on runners, doing but slight damage; turned into Green street, and ran through that, Vaughan and Elm streets to Christian Shore, where they were stopped by Mr. John Coleman of Newington, neither horses nor sled having sustained any injury.

A horse belonging to Stoddard's livery stable was on Wednesday sent out per order, by a young man who thought a ride around the city would not be amiss, but in turning from Hanover into Market street the horse became unmanageable, and taking the bit in his teeth ran down Market street to the square, where he brought up against an iron post in front of the city building. The only damage done was the breaking of a cross-bar of the sleigh.

NO MORE CINDERS IN YOUR EYE.

Locomotive 101 on the Eastern railroad arrived in this city on Tuesday of this week, hauling the noon train, and looked odd enough, having been fitted with a new-fangled smoke-stack and spark-arrester—new in this section of the country, at least, though it is in use on the Pennsylvania Central road. The smoke-stack is straight up and down, like a fathom of pump-water, having no swell or bell-muzzle of any kind; and all the smoke and cinders from the furnace pass though water before reaching the outer air, which of course obviates all danger of fires being set or eyes put out by sparks from the locomotive. The reservoir, or whatever it is called, is opened at the end of every run, and cleaned out. As No. 101 on Wednesday forenoon passed through the city hauling the eleven o'clock express train for Portland and the east, we judged that the new attachment was working satisfactorily.

POLICE COURT--BATCHELDER J.

WEDNESDAY, Feb. 21st.

Michael Welsh, for an assault on his mother, Mrs. David Welsh, was assessed $12.21. This case and that of James Welsh, fined on the previous day for assaulting Mrs. Welsh, grew out of a family squabble over the possession of some property near the Plains. The following cases were also all a part of the same squabble: James Welsh, assault on John McCann, and Patrick McCann, Robert Anderson, David Welsh, Jr., and Mary McCann, assault on Michael Welsh,—all these cases being dismissed.

Simeon Pickering, of Greenland, was before the court for drunkenness, but was allowed to depart on signing the pledge, which he faithfully promised to keep for a year. [Simeon was found drunk again before night, and the police put him in the cooler.]

Joseph Hussey, a one-armed man, acknowledged having been drunk but promised to leave the city if let off, so he was allowed to go on probation.

GOSSIPS SAY

That staid old Piscataqua Lodge of Odd Fellows, the oldest in the city and the richest in the state, is taking in many new members.

That the bonds of the Portsmouth & Dover railroad, with forty years to run, and interest at six per cent annually guaranteed, are as good as any governments, and a paying investment for the city.

That several families from neighboring towns have moved into this city during the winter months.

That one of the local jewellers will invest several thousand dollars in the silver-plate industry if established here.

That the coming season at the beaches in the vicinity of Portsmouth will be a lively and profitable one, from present indications.

That there are more handsome window-gardens in Kittery than in Portsmouth.

That there have been no graduates from our high school enter college since Lewis E. Smith was principal.

That Christ church has the handsomest interior of any sacred edifice in the state.

That the new chapel of the Middle street society will be erected early the coming spring.

That the Eastern railroad company are now doing a larger freight business than at any time in the history of the road.

That James Douglass, proprietor of the Railroad house near the Eastern railroad station, is to retire from business.

That Mr. Jerome Butler will build a new house on the site of his recently burned residence as soon as spring opens.

That the Marine Bicycle company will hereafter build their boats of yellow cypress, that wood being closer grained and less liable to warp and split than pine.

That Major Urch will rebuild and extensively repair the Newcastle bridges as soon as the cold weather breaks.

That a number of Portsmouth people are contemplating trips to Europe the coming season.

That a resident physician says he will guarantee for $5000 to rid the city of any offensive smell from the north mill pond for the next fifty years.

That the city fathers ought to close a bargain with the doctor at once.

That there are more marriageable and cultured young ladies in Portsmouth than in any city of its size in New England.

THE INDIAN ASSOCIATION.

We are sometimes asked to explain the aim of the National Indian Association, and tell of whom it is composed, and now take the opportunity of making this generally known. It is an association of women, having branches in twenty states, and having for its object the diffusion of important information concerning the Indian question through its own publications and through the public press, in order to the formation of a right public opinion concerning the need of better legislation in their behalf. It endeavors to obtain such legislation by appeals to Congress, and has already gained a powerful advocate in the endorsement of the senate of the United States, although it has only been in existence for a little over three years. A men's association has recently been formed, which will work in harmony with it, called "The Indian Rights Association." Both societies have their head quarters in Philadelphia, and are full of energy in their good work.

Our Portsmouth branch began on Jan. 17th of this year, and has already sent out 431 circulars and petitions to different deflominations in the state, addressed to their pastors, in order to obtain the names of all in sympathy with the next petition to Congress, for personality before the law, lands in severalty, and public education, among the Indians. It has also circulated over two thousand leaflets of the association, and sent articles on the subject of the need of its work to fourteen editors in our state, all of which were kindly received. Its principal officers are the president, Miss E. H. Pearson, secretary, Mrs. A. B. Wilson, and treasurer, Miss C. L. Martin, either of whom are prepared to receive the membership fee of one dollar annually, or to distribute the leaflets of the National Association. It has also four vice presidents,—Mrs. McGinley, Mrs. H. H. Ladd, Mrs. H. C. Knight and Mrs. A. K. Winder. It has a press and petition committee of six persons,—Miss K. M. Haven, Miss Victoria Vennard, Miss E. B. Haven, Mrs. J. H. Thatcher, Miss Bailey and Mrs. A. L. Jones. Its general committee consists of ten ladies, namely: Mrs. M. Kimball, Mrs. Robbins, Mrs. Chas. M. Laighton, Mrs. T. S. Tredick, Mrs. B. Niles, Mrs. Macomb, Miss A. F. Jenness, Mrs. Potter, Mrs. Ryder and Miss Hope Goodwin. K. M. H.

Holiday to-day; no CHRONICLE to-morrow.

The department of yards and docks at this navy yard, we are informed, has been placed under the ban, and the workmen instead of receiving their full wages, like those in the other departments, suffer a reduction of twenty per cent—the difference between ten hours and eight hours labor. With ten civil engineers paid to perform the duties pertaining to their office in the different yards, it seems strange that the whole duties should be usurped and the entire department run by the line officers of the navy, in their own interest.

"Iolanthe" drew a large audience to Music hall on Wednesday evening, the 21st inst. The opera was finely sung and acted, and the audience evidently enjoyed it greatly; but we do not consider it equal to either "Pinafore," the "Pirates of Penzance" or Patience."

The schooner Etta M. Barter finished discharging her cargo of hard pine lumber and timber on Monday of this week. The timber, which was for Mr. Wm. F. Fernald, was dumped overboard, rafted, and floated though the Noble's island bridge and the bridge of the Portsmouth & Dover railroad to the shipyard at Freeman's point.

The Portsmouth Brewing company are making an excellent quality of present-use ale; their stock ale and porter find a ready sale, and the additions made a year or two since to their original buildings hardly afford conveniences for the increased trade.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

62d edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physology ever published. There nothing that every adult, married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Clendinning, startingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

If you go through the hall you will be liable to wake up father, and if you leave by way of the back shed you'll be likely to wake up the dog."

Scrofula. A medicine that destroys the germs of scrofula and has the power to root it out is appreciated by the afflicted. The remarkable cures of men, women and children as described by testimonials, prove Hood's Sarsaparilla a reliable medicine containing remedal agents which eradicate scrofula from the blood. 100 doses $1.00. Sold by all dealers. C. I. Hood & Co., Lowell, Mass.

—"Fact is," said the physician, "you don't take enough exercise." "Don't take enough exercise!" exclaimed the patient in astonishment. "Why, doctor, I belong to the Episcopal church, and attend service every Sunday. For heaven's sake, what more would you have?"

"The Hindoo widow," chants the Boston *Transcript*, "is the only one that cremates. The others remate." A lady afflicted with a genuine and nauseating case of catarrh, whether she is single or married, probably longs for cremation (of the disease, if not of her person). The sickening, revolting breath, foul discharges, racking pains and other characteristics of catarrh, render life a burden. Ely's Cream Balm is a reliable, fragrant, yet certain cure for all such cases. This balm is not a liquid or snuff, and is easily applied. "My head and throat ached so severely from catarrh," said Major Downs, Military Instructor, Mt. Pleasant academy, Sing Sing, N. Y., "that I was obliged to give up everything and keep quiet. Ely's Cream Balm cured me." This exquisite preparation will cure any case of catarrh. 50 cents.

—A writer of broad experience and keen observation says a widow is most dangerous in her second year. That is probably a terrible fact. Between a two-year-old widow and a nineteen yearling girl you couldn't tell which of the pair to fly to or run from. Both are set down in the column of risks as "extra hazardous."

Avoid cheap goods. The Hop Plaster cures pains and aches where other plasters simply relieve, 25 cts at all drug stores.

—A lady who sat down very suddenly on a slippery sidewalk got little consolation from a gentleman who chanced to be passing by. The lady was scrambling to regain her feet when the gentleman soothed her with "Don't rise, madam; please keep your seat."

For Thick Heads,

Heavy stomachs, bilious conditions, "Wells' May Apple Pills," anti-bilious, cathartic. 10 and 25c.

—An Arkansas editor who was elected county judge some time ago did not approve of his own administration, and, in an able editorial written by himself, said: "It is with sorrow that we announce that the county judge of this county, and the editor of this paper, is a blanked fool."

—"When?" asked the superintendent, fixing his eye on the teacher of the young ladies' Bible class, "when does man most keenly and fully and conscientiously recognize and realize his own utter nothingingness?" And the young man, who had led himself to the altar only two short weeks ago, blushed painfully and said, with faltering voice, "When he's being married."

Fresh air, exercise, good food and Dr. Benson's Celery and Chamomile Pills will, when used together, cure any case of nervousness, sick headache, or indigestion. They strengthen the nervous system. 5,000 physicians prescribe them.

—One of Dean Ramsay's stories: An elder of the kirk having found a little boy and his sister playing marbles on Sunday put his reproof in this form—not a judicious one for a child: "Boy, do you know where children go who play marbles on the Sabbath day?" "Ay," said the boy, "they gang down to the field by the water below the brig." "No," roared out the elder, "they go to hell and are burned." The little fellow, really shocked, called to his sister: "Come awa, Jeanie, here's a man swearing awfully."

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious kidney, urinary or liver diseases, as they only relieve for a time and makes you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

Dr. WM. ROTH, Surgeon-General, Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

"Stripping Ship."

During the fall of 1814 Capt. Sam. Watson, having served well and faithfully on board the "Old Ironsides" during her splendid cruising and fighting under Hull and Bainbridge, concluded that he would have a rest. So, his term of naval service having expired, he went down to Kittery, where he had a fine schooner lying; he put the vessel in proper trim; shipped his crew; and set sail for the Grand banks, intending to load with fish. But, alas for human calculation! He had got fairly at the work of hauling in the fish—mostly cod,—when along came an English corvette of eighteen guns, and captured him. Resistance was out of the question; and he could not flee, for he had been run by the board in a fog, and had no time to get on sail.

A lieutenant (English) and ten men were sent on board the prize, with orders to take her into the most convenient port on the Nova Scotia coast. And the schooner was run into Port Medway harbor, where the English officer, fearing that the Yankee crew might rise and run their vessel off, resolved to strip her. So he set his men at work, and took off the sails; then sent down the lighter spars; and, finally, unstepped the masts, leaving the mere hull lying upon the water.

A few of the Englishmen smiled when they saw the disconsolate looks of the Yankees; and even the lieutenant, after he had seen the work of stripping completed, could not resist the temptation to put in a playful word. He approached the Yankee skipper, who was on his parole, and who stood near the taffrail, and said to him, with a touch of bantering in tone and manner:

"That's rather a neat job, Captain Watson. Considering how few men I had did you ever know a vessel to be stripped more quickly?"

Sam had from the first recognized in this lieutenant one of the younger officers of the English frigate Java, when she had been totally wrecked by the guns of the Constitution, but he had not alluded to the fact. Now, however, he let fall a hint.

"Well," said he, with a comical leer, "I have a faint recollection of having once helped to strip a full-rigged ship, and I think we rather beat your time. You've been over two hours. We weren't over half an hour at that job; and, mind you, we not only took out her three masts, but we ripped away her bowsprit."

"Impossible! It could not have been."

"But *it was*."

"Then, sir, it must have been one of your Yankee tricks."

"Well," returned Sam, with meek simplicity, "that's what you thought it was at the time, I reckon. *You were thar.* I speak of the time when Commodore Bainbridge, on board the Yankee frigate Constitution, fell in with the British frigate Java, Captain Lambert. Perhaps you recollect about how long we were in stripping that ship."

Yes, the Englishman remembered, and he walked away in a meditative mood. But later he returned, and talked over with Sam the events of the old battle, and their enmity, for the time, was forgotten.

Belgium is said to be the most drunken nation in Europe. Recent statistics show that since 1830 the consumption of alcohol has quintupled, and it is now forty litres per head of the adult male population. For the accommodation of the million and a quarter male adults in Belgium there are 102,000 public houses of various kinds, or one drinking-shop to every twelve persons. The medical officers at the Brussels hospital say that of every 100 cases under their care which terminate fatally, eighty are due to the effects of alcohol. While in 1875 there were 352 suicides in Belgium, there were 581 in 1880.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Hon. Andrew D. White, president of Cornell university, says the co-education of the sexes is a good thing. No scandals have arisen at Cornell growing out of the system. Concerning Certain Relics of the Past

--Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are peddled in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinipiac Lodge, No. 1, the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indisposed. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

"Dust:" by Julian Hawthorne, author of "Bressant," "Sebastian Strome," "Garth," etc.

It is noteworthy that this novel of English society in the early part of the present century, appears at so nearly the same time with Nathaniel Hawthorne's powerful posthumous novel, "Doctor Grimshawe," dealing with both England and America at about the same period. This affords opportunity for interesting comparison, or rather contrast, between the weird, inverted, poetic style of the father, and the direct, vigorous, picturesque style of the son. Julian Hawthorne has a marked individuality of his own; and the strong, romantic interest and graphic portraiture of "Dust," will add to his growing fame. With illustrations and portrait of the author, bound in cloth, decorated with green and silver, $1.25 For sale at Goodrich's.

Another War Ship Lost.

Secretary of the Navy Chandler on the morning of Feb. 22d received from Capt. Skerrett, commanding the U. S. S. Richmond, the following telegram dated Hong Kong, China, Feb. 21st:

Ashuelot total loss on Lamock island: eleven enlisted men lost; remainder on Richmond; Admiral Clitz in the Monocsay at the wreck.

The following is a list of her officers: Commander, Horace E. Mullan; Lieutenants, Richard M. Cutts, Charles Seymour and Dennis H. Mahan; Masters, F. S. Hotchkin, F. E. Sawyer; Ensign, E. D. Bostick; Mate, A. P. Callander; Passed Assistant Surgeon, E. H. Green; Paymaster, E. N. Whitehouse; Passed Assistant Engineers, James Entwistle, R. R. Leitch; Cadet Engineers, W. S. Sample, C. E. Manning; Pay Clerk, Davmoet.

The Lamock or Lommock islands are a cluster of rocks on the coast of China, eight miles from the land.

Speaking of the loss of the Ashuelot, the Boston *Advertiser's* Washington correspondent "wires:"

"She is one of the obsolete vessels of the navy, an old double-end vessel of the third rate, eighteen years old, and carrying six guns. She is of the same class as the Monocsay, Essex and Enterprise. She is the third naval vessel which has been in collision during the past few weeks. So many accidents are happening to our feeble fleet that at the Capitol this afternoon it was suggested that it was hardly worth while to build any new vessels until our naval officers learn to handle those which they now have."

This is hardly fair toward the navy as a whole. There are plenty of competent officers, but if we have but few ships, there of course is so much the more pulling and hauling to get orders for sea service. The result is, the officers who have the most influence or the more numerous friends at court are detailed for desirable sea service, instead of the selection being made solely from prudential reasons. Again, if a ship is lost, or mismanaged, the chances are that in a court of inquiry its composition will be found of such a nature that the "extenuating circumstances" will shield an officer tried by his peers, or even his superiors. There are good seamen and competent gunners and efficient navigators in the service, among the line officers, but if favoritism and influence are to rule in the detail, the new vessels as well as the old are likely to be jeopardized when under the charge of officers selected for these reasons.

A First-Class Death Trap.

The following description of the lofty, shallow school house in New York which was the scene of the shocking disaster Feb. 20th, when sixteen children were either killed outright or so injured that they died in a few hours, shows that the building was a death-trap of the very first class. "On the four floors there are nine classrooms opening into two hallways, with stairs, reaching either end of the building. Through the classrooms access can be had to either stairway, but the halls and stairs are separated. The classrooms are, in every instance, too closely packed with benches and seats. In nearly every room the doors open inward, and there is only one door in each room to afford egress for from thirty to eighty children, mostly young girls, and the doors are only two and a half feet wide. The stairways are likewise narrow, and at the top of the highest flight there is a stout wooden gate, not easily moved. Actual measurement showed that the inward-opening doors came within eleven inches of the end of the nearest benches, hardly affording room to squeeze through. The backs of the benches were within twenty-four inches of the rear wall, and a stove blocked all progress, at the junction of the passageway and centre aisle, between the rows of benches."

GOSSIPS SAY

That at the oyster supper and festival in the Methodist chapel on Monday evening, Feb. 19th, the gentlemen were ornamented with white aprons, and did the cooking, washed the dishes, etc., much to the amusement of the ladies.

That Internal Revenue Agent Larkin of New Hampshire is among the moonshiners of Tennessee.

That the patriotic airs, "Hail, Columbia," "Star Spangled Banner," and others, rung by Major Tilton on the chimes, Feb. 22d, were very appropriate and finely rendered.

That through the desire of the mayor and a number of the aldermen to attend the cavalry ball last Thursday evening a quorum of the city fathers failed to assemble.

That a party of business men from this city, natives of England, were entertained at the Direct Cable station at Rye beach on the 22d inst.

SUNDAY SERVICES.

Elder D. T. Taylor will preach in the Advent church on Sunday.

At the Methodist church, Sunday evening, there will be a Sunday school concert in place of the usual service.

On Sunday evening Rev. Mr. McGinley will preach a sermon to the young; subject, "The Power of Association."

The steady increase in the circulation of the Boston *Sunday Globe* still continues. There was a large gain in this city last Sunday, showing that advertising in the CHRONICLE always pays. The whole gain recorded last Sunday by the *Globe* was exactly 2960 copies over the previous Sunday. Try the *Globe* to-morrow, if you have never read it; if you ever have read it, you will know what to do without any advice.

The steamer State of Maine, at Portland Feb. 22d from Boston, reported having sighted eighteen miles east-northeast of Boon island the wreck of a 150-ton schooner, bottom up, with spars and rigging alongside.

The pastor of one of our churches officiated at four funerals from Wednesday to Friday of the week ending Feb. 17th, all within a radius of three-quarters of a mile.

The bells of the city were rung morning, noon and evening, and a salute was fired from the navy yard at noon, on Washington's birthday. The livery stables were well patronized, particularly during the afternoon. In the evening there was an entertainment at Odd Fellow's hall by one of the lodges, and a military ball at Franklin hall.

The annual inspection of the Portsmouth Cavalry will be held March 13th.

The Maverick Rifles of East Boston, accompanied by Adjt. Gen. Dalton and Col. Huegley of Gov. Butler's staff, passed through this city for Portland on Washington's birthday, to attend Gov. Robie's reception and ball on the evening of that day. They returned home on Friday.

Rev. C. L. Plummer has for several days past been holding protracted meetings in the Freewill Baptist church at Kittery Point. Several conversions are reported. Elder Jefferson of Newmarket has assisted at the services.

Mr. C. A. Grant, of the Sea Cottage, York, a few days ago killed a hog eighteen months old, which weighed when dressed 609 pounds.

Mr. Charles E. Hatch, a popular young gentleman of this city, is creating considerable of a furore as a comedian on the amateur stage. Professionals who have witnessed his performances say that his abilities in that line are particularly marked and natural, and destined to make for him an enviable reputation. We learn that Mr. Hatch's services are much sought for, and whenever he appears he receives flattering welcomes. His numerous friends hope that he may be induced to play on Music hall stage at an early day.

Edgar M. Howe, of Concord, has been appointed auditor of the freight department of the Concord railroad.

An indictment was found by the late grand jury at Bangor, Me., against the Maine Central railroad company for carelessly and negligently killing Dr. A. J. Pickard, at Carmel, Dec. 26th last, at the crossing of the railroad and a public highway. Dr. Pickard at the time was travelling along the highway alone in a sleigh. The alleged acts of negligence on the part of the railroad were excessive speed, and a failure to whistle and ring the bells. A verdict of guilty was returned; forfeiture imposed by the jury, $5000.

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & CO., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,
MRS. S. S. MOODY,
No. 75 Broadway.

Lowell, Mass., Jan. 15, 1878.

How the People Are Humbugged

By Co-Operative and Mutual Aid Societies.

The Insurance Department Reports of several States furnish interesting data for judging of the Real Economy, Insurance Reliability, and Business Prudence of placing money with these concerns, under the impression that it furnishes

CHEAP LIFE INSURANCE.

Having duly considered the "lesson" afforded by the following statement, taken from these Official State Reports, let the reader consider the DEFINITE Insurance Contract offered by THE

Mutual Life Insurance Co.

OF NEW YORK,

under which no "Assessments" are *possible*, and the benefit to be received definitely decided at time of application, with such an annual return of the unrequired premium as each year's experience shall develop.

Forty-three organizations, known as "Co-operative Companies," "Mutual Aid or Relief Associations," "Benefit Societies," &c., report to the State Departments of New York, Pennsylvania, Ohio, Indiana, West Virginia, Massachusetts, &c., the following

OUTRAGEOUS MISUSE

— OF THE —

Assessments Collected.

Maximum Value of Certificates (or policies) upon which policies were paid in 1881	$2,395,525.00
These "Certificates" proved to be worth as claims	$511,384.36
But the collections for these claims were	$594,207.94
Difference between collection and disbursement, illustrating *Economy in Cost (?)*	$82,823.58
	$511,384.36

ANOTHER WAY OF PUTTING IT.

These unfortunates hold Certificates representing a supposed value to their beneficiaries of $2,395,525.

The real value proves to have been about 21½ per cent. or $511,384.36, they waiving their claim of $82,823.58 of the amount collected ($594,207.94) and this is called *Cheap Insurance.*

QUERY.

Who ever heard of any respectable Life Insurance Company settling $2,395,525 of Insurance, honestly contracted for, at a discount like the above and at such a cost?

POLICE COURT--BATCHELDER J.

THURSDAY, Feb. 22d.

Simeon Pickering, the Greenland man who was let off on probation on the 21st, and was picked up in a drunken condition a few hours after being released, was ordered to Brentwood for six months, and to pay $5.76 costs.

Luella Marden,—steady customer of the court,—was sent to Brentwood for ninety days, and ordered to pay $6.90 costs for drunkenness.

Thomas H. Philbrook, for one drunk of unusual size and earnestness, was fined $20, costs $6.90. Jail in default of payment.

"THE WHITE SLAVE."

At Music hall this evening the Boston Theatre company (genuine article, no picked-up, sham organization, such as sometimes appears in small city to fill the advertisement of a first-class show) will perform "The White Slave," one of the sensational spectacular dramas for the presentation of which the Boston theatre has the name of standing far ahead of all others. With Redmund, Maguinnis, Coulter, Mrs. Barry, Mrs. Eberle, Edith Kingdon, Rachel Noah, Grace Thorne and other talented performers, even a poorly-constructed play would be rendered attractive; and "The White Slave," we are assured, so far from being poorly constructed, is full of strong situations and gives opportunity for excellent acting. Tickets can be secured at Goodrich's.

THE BALL.

The cavalry ball in Franklin hall on the evening of Washington's birthday was a "big affair" indeed, ninety-nine couples taking part in the grand march, which was led by Lieut. John S. Perry, and the galleries being packed with spectators. The Salem Cadet band gave a very pleasing and satisfactory concert of an hour's duration, previous to the grand march, and also furnished excellent music for dancing. The scene was a brilliant and lively one, and though the floor was too crowded for comfortable dancing in the early part of the evening, the participants seemed to enjoy it just as well. The party did not break up until about two o'clock.

EPISCOPAL SERVICES.

Bishop Niles is expected from Concord by the morning train to-day, (Saturday,) and will go directly to St. John's church, where there will be services at 10:45 o'clock A. M., it being St. Matthias' day, Feb. 24th. He will also attend the daily five o'clock afternoon service at the Episcopal chapel.

The services on Sunday will be as follows: Holy Communion in St. John's church at 8:30 A. M.; morning service, with a sermon by the bishop, at 10:30. At three o'clock P. M., Sunday schools—St. John's, in chapel on State street; Christ church, in room at Creek; navy yard, at the yard. At 7:30 P. M., opening of Christ church,—evening prayer, with sermon by the bishop.

PROFESSOR FAULHABER'S LECTURE

On Thursday evening, in the chapel on Court street, was listened to by a good audience, comprising many teachers and professional men,—indeed, in point of character it was one of the finest audiences which for many a day has assembled to listen to a lecturer in our city.

The professor seemed to appreciate the numbers present, and the very close attention given to the lecture. It was however hardly a "lecture." Mr. Faulhaber, with a glance at his notes, would extemporize upon each head in his discussion, and at the close of his talk would return to his desk and take up a new branch of his subject. It was colloquial, and we may say illustrated, for the professor put his mind upon it and gave the lecture his best efforts at oratory, and in one instance, song; the latter was generously applauded.

Prof. Faulhaber gives us not only accurate, and at the same time condensed, accounts of German history, especially in its political eras, but also affords us views of the domestic life, manners and customs of the faderland. The loved scenes of his childhood were depicted with the aid of enthusiastic memories of boyhood's happy hours, while his loyalty to the country of his adoption was continually suggesting the great improvements in many respects which the new world can boast in comparison with the old. The lecturer continued far beyond the conventional hour, but the audience seemed to be satisfied to hear all the bright things the professor had to offer. At the close, the audience gave unmistakable evidence of their appreciation of the evening's pleasure, by liberal applause.

CONCORD RAILROAD.

A circular issued from the superintendent's office of the Concord railroad states that the following appointments have been made, to take effect March 1st:

Samuel Barrett, general freight agent;
F. E. Brown, general ticket agent;
J. Frank Webster, cashier.

"On and after March 1st, 1883, all reports, accounts or communications pertaining to the freight traffic of the Concord railroad and branches subsequent to the above date, should be addressed to 'Sam'l Barrett, G. F. Ag't, Concord, N. H.;' and all ticket accounts and matters pertaining to the passenger traffic, to 'F. E. Brown, G. T. Ag't, Concord, N. H.' All money collected on account of the business of the road subsequent to March 1st should be sent to, or deposited in the name of 'J. Frank Webster, Cashier, Concord, N. H.'

The following appointments have also been made, to take effect March 1st:

John E. Dimick, agent at Portsmouth;
Henry T. Coombs, freight agent at Concord.

After March 1st Mr. Dimick will have charge of matters pertaining to the local business of the road at Portsmouth station, and Mr. Coombs of the freight traffic at Concord station."

Mr. Barrett's experience as agent in this city will be of especial advantage to the road in his new position.

OSGOOD LODGE ENTERTAINMENT.

It is seldom so much fine local talent is brought before an audience as was produced under the auspices of Osgood Lodge, I. O. O. F., on Thursday evening last. The entertainments are given about every four weeks during the winter, and seem to be a source of great enjoyment to all, who are fortunate enough to obtain tickets of admission.

The exercises last Thursday evening commenced with a charming piano solo by Mrs. Geo. Philbrick, whose talent as a pianist was displayed with remarkable effect, her fine music calling forth a shower of merited applause. On this occasion we also had the great pleasure of listening to the wonderful artiste Miss Fannie Hoyt, who displays such great skill on the violin, her music alone being worth more than double the price of admission; "Home, Sweet Home," as played by this lady, was perfection itself, the audience showing forth their appreciation of her rich music, by their not being satisfied until she had appeared before them several times. Mr. Wm. Betton surprised the audience by his excellent music on the flute and dulcimer; as a few words will sometimes speak volumes, we will say "he is a remarkable genius." "Rocked in the cradle of the deep" was sung by Mr. Jerome C. Butler with grand effect. The beautiful and spirited songs by Misses Fabyan and Critchley were produced with that ease and skill so prevalent with these ladies. "Call John" was sung by the quartette, and was met with tremendous applause. Miss Brown's songs were so beautiful and sweet that we could imagine ourselves sitting by a rivulet after a summer shower, the birds in the trees singing their evening songs.

The entertainment concluded by the song and recitation "Where can the soul find rest," by Mrs. Annie Kennedy and the quartette, which was very nicely rendered, everyone seemingly being well satisfied with their evening's enjoyment. C. H. C.

MEMORIAL RESOLUTIONS.

Peppereil Lodge, No. 35, of Good Templars, at Kittery Point, Me., has passed the following resolutions of respect to the memory of the late Rev. J. H. Rowell of that place:

Whereas, It has pleased our Heavenly Father to remove from our midst our beloved brother Rev. J. H. Rowell, an earnest member of our lodge; and

Whereas, Each member of the lodge feels our bereavment when we remember his kind and gentle nature and the interest he manifested for our prosperity; therefore, be it

Resolved, That in the death of our dear brother, we devotedly recognize the hand of a kind Father, who doeth all things well and knoweth better than we the best time to call His children home.

Resolved, That we bow in humble submission to the Divine will, and tender to the widow, children and friends of our brother our heart-felt sympathies, and pray that they may be sustained in their sad bereavement.

Resolved, That a copy of these resolutions be presented to the family, and one be sent for publication.

The sale of goods at Mr. Henry F. Gerrish's store will begin this day. Low prices will be the rule.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.
Thousands of testimonials sent on application.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

22th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheesbrough, startingly says "one-third of my patients have signs of heart disease."

The heart weighs about 12 ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Greaves celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained of your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

—The happiest boy in town, yesterday, had a machine that would make a noise like snow sliding off a roof, and when he stole up behind a man on the street and worked the contrivance, the victim would jump with the energy of despair, and spring two or three muscles, besides losing his wind.—*Post.*

—Of the fifty-four murderers who did business in Chicago, in 1882, only one was held subject to proper punishment. He must have been a fearfully virtuous fellow not to have some friends among the gamblers, burglars or police, to get him off.

Purity and Strength.

Shakespeare says: "'Tis better to bear the ills we have, than fly to others that we know not of." But when a man is suffering from the exquisite torture of rheumatism, or neuralgia, or gout, he does'nt feel like flying, to any great extent. In such a case it isn't necessary for him to "bear the ills" he has, when he can secure immediate relief by using Salicylica, which possesses purity and strength—two elements most essential to a perfect cure.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire News; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Daily Chronicle.

The "Art Amateur" for March contains admirable full-sized working designs of clover, azaleas and water-lilies for china painters; a South Kensington chair seat, and a chalice veil for embroiderers; a score of cupids, and a page of monograms, twenty-six in number, giving the letter "A" in successive combinations with the entire alphabet. The remaining letters are to be similarly given in future numbers. The leading article in this issue is a notice of the Water-Color Exhibition, by Edward Strahan, with illustrations of over thirty of the noteworthy pictures. Boughton's painting, "Snow in Spring," is finely reproduced, and there is a good portrait of Dore, with some well-chosen examples of his work. Flower painters, china painters and photograph portraitists are remembered in the practical articles, and there is talk of French furniture, Japanese art, new houses, old fashions, and a variety of other art topics. On the whole, the March number is an excellent specimen of this attractive magazine. Price thirty-five cents; $4 a year. Montague Marks, publisher, No. 23 Union square, New York.

Thirteen school children were thrown from a double runner sled at Milford, Mass., Feb. 22d, while coasting down Bear hill, and injured. The sled struck a tree, and nearly all were picked up unconscious. The principal injuries were: Mamie Murray broke her leg seriously, and amputation will be necessary; Edward Hogan, leg broken and internally injured; Lewis Crane and Willie Hickey, bruised about the face and eyes; Lucy Gleason sprained her leg and back; Mary Doherty, injured in the face.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

"The Hindoo widow," chants the Boston *Transcript*, "is the only one that cremates. The others remate." A lady afflicted with a genuine and nauseating case of catarrh, whether she is single or married, probably longs for cremation (of the disease, if not of her person). The sickening, revolting breath, foul discharges, racking pains and other characteristics of catarrh, render life a burden. Ely's Cream Balm is a reliable, fragrant, yet certain cure for all such cases. This balm is not a liquid or snuff, and is easily applied. "My head and throat ached so severely from catarrh," said Major Downs, Military Instructor, Mt. Pleasant academy, Sing Sing, N. Y., "that I was obliged to give up everything and keep quiet. Ely's Cream Balm cured me." This exquisite preparation will cure any case of catarrh. 50 cents.

A GOOD ODD FELLOW.

Mr. Cutler, of 21 Lyons St., New Haven, Conn.—How He takes Life Easy now and how He Obtained the Means to Regain his Health.

Mr. Cutler, of 21 Lyons St., is a faithful Odd Fellow, and for forty years a member of Quinipiac Lodge, No. 1, (the oldest organization of its kind in the State of Conn.) He is a man much respected in New Haven. Your reporter found him at his pleasant home on Lyons street one afternoon, taking life easy. "You see," he says, "I'm trying to make myself feel a little indispose!. I presume it's the lingering results of a Lodge dinner which I attended a while ago down at the beach. I have been, as many of my friends in New Haven know, a sufferer for years from indigestion and biliousness. When I have indulged in too hearty food I've had to suffer at times extremely. As a result I've had to place myself under my physician's care often, and I have taken a great many remedies, but I find after a thorough trial that Dr. Kennedy's FAVORITE REMEDY is the most excellent medicine I have ever had knowledge of for any of the disorders above mentioned. It leaves no exhaustive effects, but rather strengthens and regulates the digestive organs in a charming manner. We keep it as a household medicine, and I have recommended it to my friends, for it is an excellent preparation."

Mr. Cutler is a man whose word can be depended upon. His testimony is but a re-echo of the words of thousands in New England who have received relief from the sole use of Dr. Kennedy's FAVORITE REMEDY.

What is Diphtheria?

The name is comparatively new, but the disease is an old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way as to stop the air passages. The throat is violently inflamed, and a tough membrance, like leather, is very rapidly formed. Perry Davis's Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.

A hoisting engine on a Boston wharf exploded last Friday afternoon, instantly killing the engineer, F. Gookin, aged eighteen years, and severely injuring several other persons.

Kind friend, that nervous, hacking cough is dragging you to consumption, and the grave. Do not longer delay, procure Adamson's Balsam at once, it is an unfailing remedy for coughs, colds, and lung disease.

A man named Babcock was accidentally shot by a companion named Neddo while deer shooting, contrary to law, near Bangor, Me., Feb. 20th. His recovery is doubtful.

The All Rail Line to New York and the South.

We are happy to inform our readers that the transfer steamer Maryland has, after thorough repairs, resumed her service in connection with the New York & New England railway's through line between Boston, Philadelphia, Washington and the south. Those who have suffered the discomfiture in getting through New York by going by the Boston & Albany line, and landing far up town and being thence toted through the rough roads of New York city in the winter or spring, will appreciate the convenience of taking a parlor car in Boston at 6:30 P. M., and reaching Washington the next day at 11:10 A. M. *without any change of car whatever*. Most of the travel between this city and Washington goes by this route, because it is the shortest, the best and the most economical, as well as by far the most comfortable to travel.

The evening train from New York on this line leaves the Grand Central station at 11:35 P. M., arriving in Boston in season for trains for the east. This is by far the most convenient way to reach New York, Philadelphia, Washington and the south, and until some of the projected "air lines" between Hartford and Boston shall have been built, will be the shortest all rail line between Boston and New York. The station of the road is at the foot of Summer street in Boston, and horse cars are passing it continually. Tickets can be had and parlor seats or berths secured here, or at the office No. 322 Washington street, and of course may be ordered in advance by telephone.

[Compiled weekly expressly for this paper.]

Samuel S. Hickok, Rochester, fruit gatherer.

George A. Leighton, Manchester, circular knitting machine.

George A. Leighton, Manchester, knitting machine (two patents.)

George A. Parker, Marlborough, machine for twisting grass for fuel.

Samuel Shepard, Nashua, boot and shoe nailing machine.

George B. Wiggin, South Newmarket, machine for cutting tin etc.

AROUND HOME.

The churches were very thinly attended on Sunday, most people knowing too much to venture out in such abominable walking.

The schooner George L. Treadwell, Turpie master, from the West Indies for Baltimore, was on Saturday last reported to be on the Wolf Trap in Chesapeake bay. She was formerly owned at this port, but was sold to Baltimore purchasers some years ago, after being wrecked.

Mr. Freeman Peverly was on Saturday stated to be dangerously ill. Mr. Peverly is about seventy-eight years old, and was one of the California "49ers."

About 15,000 lbs. of fish came in on Friday, and 1500 lbs. on Saturday.

The following valuable piece of information is going the rounds of the press: "Soap bubbles are blown to a size two feet in diameter, and kept two days, by using a preparation of oleate and glycerine." The giver of this information forgot to mention of what possible use it could be to blow such a big bubble, or to keep it after it was blown.

Mr. Clark, of the firm of Moore & Co. of Concord, has met with good success in this city in taking orders for crayon portraits. Many of our prominent citizens have patronized him, and speak highly of the finish of the work and the correctness of the likenesses.

The Federal Fire Society have their annual supper at the Rockingham house on Thursday evening of this week.

A sleigh on the streets last Saturday attracted considerable attention. It had seen over a hundred winters, and was drawn by a span of horses whose ages were over twenty years each.

Mr. Lemuel B. Caswell, of Smuttynose island, Isles of Shoals, has disposed of all his fish, and has now remaining only twenty-five barrels of fish-oil, which will bring a good price in the spring.

The schooner Sarah, Wright master, from York for Boston with a load of bricks, was boarded by Newburyport pilots off the bar on Wednesday evening, Feb. 21st. She split her jib in the afternoon, and had to anchor near the bar in the evening. She proceeded on her way next day.

Dr. D. Fox Stoddard of this city last week cured two valuable horses of colic.

The wrecked schooner reported by the steamer State of Maine as having been sighted about eighteen miles off Boon island early last week, was seen on Friday, Feb. 23d, about twenty miles southsouthwest of Cape Elizabeth, by the schooner Mellow; the wreck was apparently of about 125 tons, was bottom up, with new spars and sails floating alongside, and was drifting to the eastward.

Manager Tucker of the Eastern railroad was in town on Saturday, and had a conference with Mayor Treat relative to a lease of the north millpond, preparatory to having it opened for the ebb and flow of the tide, and it is thought that a suitable arrangement to this end will be consummated.

The U. S. S. Tallapoosa arrived at the Washington navy yard on Saturday last from this port, with the remains of the late Rear Adm. Beaumont and child on board.

The American Unitarian association received last month from the executor of the will of the late Miss H. Louisa Penhallow of this city, as her bequest to the association and interest thereon, the sum of $5403.33.

Mr. Emmons, chief clerk at the Rockingham, has gone to Bermuda to engage the early vegetables for the Wentworth.

The present winter will be remembered for its stormy Sundays.

The staging used by the fresco painters at the Rockingham house was removed from the hall on Saturday evening. The frieze and centre decorations of the ceiling are rich and artistic. The effect seems to give the hall a more contracted appearance at first.

Capt. Garland, of the schooner D. K. Ham, and Capt. Coleman, of the Emily A. Staples, were in town on Saturday last; they report that in about three weeks active preparations will begin toward fitting out the brick fleet for the coming season's work.

It was reported on Saturday that Mr. N. D. Miller had been sick through the week, and confined to his house.

A largely-attended dance was given in Brooks' hall at South Eliot on the evening of Feb. 22d.

Capt. James, S. Brewster, of the schooner Hattie Lewis, has cut twenty-five cords of wood at his home in Cape Neddick, since his schooner was hauled up for the winter.

The act of the Maine legislature setting off the town of Old Orchard from the city of Saco was signed by Gov. Robie at noon on Tuesday, Feb. 20th; and twenty minutes later the people of the bran new town commenced cheering, firing guns, ringing bells, blowing horns, beating drums, and in other ways signifying extravagant delight, while flags were displayed from many of the hotels and private buildings. Charles H. Fiske, proprietor of the Fiske house, who had been very active and persistent in advocating the separation, arrived home from Augusta that evening, and was met at the railroad station by nearly a hundred people, four of whom carried him on their shoulders to a sleigh ornamented with a broom in each corner, and a rope having been attached to the sleigh, he was hauled to his hotel by the crowd. Later in the evening a reception was given in his honor, and attended by about 400 persons; clam chowder and coffee were served, after which dancing was kept up until late in the night, a Biddeford quadrille band supplying the music.

The report of the auditors of Kennebunk shows a balance against the town of $7,427.80.

A commandery of the United Order of the Golden Cross was instituted at Kittery on Friday evening by Deputy Commander Horace Mitchell.

The good wives of the fishermen at Gloucester, Mass., are frightened at the predictions of a new weather prophet; the prediction of one Wiggins, of a great storm at sea between the 9th and 12th of March, has deterred many fishermen from sailing for the Georges cod fisheries. As the women are urging the men to stay at home it is feared that this, the best time of the season, will be lost in the fisheries, especially as a number of crews have refused to sail.

News and Notes.

Despatches from Jefferson City, Mo., say that a serious fire occurred in the penitentiary at that place Feb. 23d. A mutiny took place in the horse-collar and harness shop, and a convict set fire to the shop; the fire department rushed to the building, but as fast as they laid the hose the convicts cut it, thus preventing the engines from doing any effective work for a time, but the guards finally overpowered the mutineers and locked them up in a blind cell. Meanwhile, the fire spread to the shoe shop of Geisecke and that of the Standard Shoe company, and the losses were: Strauss & Co., harness-shop, collar-shop and whip factory, $100,000; Giesecke boot and shoe company, $90,000; Mysenburg shoe company, $30,000; the State Weaving & State Machine shop, $40,000, and Excelsior Loom factory, $20,000. The total, with the damage to minor state buildings, will reach $300,000.

Seven inmates of the Western lunatic asylum at Staunton, Va., were fatally poisoned last Saturday, and five of them died in a few hours.

Announcement was received about midnight on Friday, Feb. 23d, at Harvard college observatory, of an independent, and probably simultaneous discovery, on Friday evening, by Prof. Swift of Warner observatory, Rochester, N. Y., and W. R. Brooks of Phelps, N. Y., of a bright comet in Pegasus. The discovery was cabled to Kiel, Prussia for distribution to European astronomers.

The prisoners charged with the Phenix park murders in Dublin, Ireland, are furnished with meals from the public house at which James Carey, "the informer," stopped to drink on his way from the scene of the murders on the evening of the 6th of May. A stranger calls at the house once a week and pays the bill.

John Lyons committed suicide at Bangor, Me., Feb. 23d, by taking arsenic. He leaves a widow.

Sewell Inman of Bangor, Me., has received a letter announcing that his brother, Austin Inman, recently of Bangor, committed suicide by drowning in the Hudson river some months ago.

Thursday afternoon Feb. 22d, Mr. Ira Morrill of China, Me., eighty-two years of age, while breaking snow in that town, was knocked down by a snow plough, receiving injuries from which he died in fifteen minutes.

A remarkable express package passed through Norfolk, Va., on Thursday, Feb. 22d, in charge of an agent of the Southern Express company. It was a beautiful girl, about nineteen years old, well dressed, and billed from Selma, Ala., to New York, with a tag marked: "C. O. D., $45," fastened with a blue ribbon around her neck. The young lady was very quiet and modest in her demeanor. The first class passenger fare from Selma to New York is only $33, but, this being the first time she had been so far from home, she elected to go as an express package, thinking that she could travel more safely. Her express receipt showed that her value had been placed at $5,000.

At four o'clock on Wednesday morning, Feb. 21st, the heart and other vital parts of the body of the late Pope Pius IX were moved, with solemn ceremony from the crypt in Rome, where they had been deposited since his death, and placed permanently in a marble urn, near the tomb of the Stuarts.

Luck.

Is a word which should have no place in any vocabulary. A man must have ability to succeed, and a medical preparation, merit. There is no luck about SOZODONT. It was sure to succeed from the first, because it was good, and did all that was claimed for it.

WE DO NOT CLAIM

that Hood's Sarsaparilla will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,
MRS. S. S. MOODY,
No. 75 Broadway.

--Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians, and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are paralleled in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

POLICE COURT--BATCHELDER J.

SATURDAY, Feb. 24th.

John Hutton was found guilty on a charge of brawl and tumult, he having tumultuously brawled on a tin pan with a big club one evening some little time ago, when a charivari serenade was given to a young married couple on Deer street, resulting in a grand rumpus, a dozen or so arrests, and several fines. He was let off on probation.

John Couhig, charged with an assault upon Mrs. John Clark, had his case continued to the 26th at ten o'clock in the forenoon, and was ordered to give bonds in $100 for his appearance at that time.

"THE WHITE SLAVE."

A large audience on Saturday evening witnessed "The White Slave" at Music hall, attracted doubtless by the wide repute of the Boston Theatre Co. Perhaps the author of this tragedy was justified in producing such a medly of passion, lust, brutality, gambling, drinking and slave-driving, as we were told in the antebellum days existed in some of the southern states. But this portrayal of it belongs to the dead past, and we ought to be bound to keep it buried in its tomb of oblivion, as was the secret of Liza's birth from the inmates of the Hardin household.

The company made the best of the play, but we prefer to see Mrs. Barry in a more ladylike role. Miss Noah sustained her part admirably; her dialect, gait and demeanor were a faithful representation of one of the old-time "aunties." Miss Muldener's part of Liza was also well sustained, and some of her best recitals elicited applause. Miss Kingdon's part was brief but difficult, calling forth perhaps the greatest display of the combined emotions of love, jealousy and disappointment, in the octoroon mother; she delineated the character well, and her invectives, as is the rule with her, seemed to be couched in the most positive tone, and delivered as if everything said, was meant.

Of the male characters, many were repulsive, yet as endurable as parts representing slave-drivers, beats, gamblers and such persons can be. Mr. Daniel J. Maguinnis, as usual, was excellent; indeed he is never anything else. It may be truly said of Dan, in relation to the parts he assumes, that "*Nihil quod tetigit non ornavit.*" The character of Patrick Henry Stitch was so finely represented throughout that even the anomalous Mrs. Lee was at last so charmed by his forensic oratory, as to award him the verdict for which he had so persistently been the suitor. The part of Mrs. Lee, by the way, was quite acceptably rendered; nor should we omit to mention the pleasing efforts of Miss Thorne, who early retired from the scenes, probably to keep office for Dr. Jack while he went out in search of a patient.

The spectacular scenes of course could not be given with such fine effect as the monster stage of the Boston permits, but the trips of the steamer on the Mississippi, and the boat and raft scenes, were well accomplished.

The White Slave portrayed in more than one sense the blot upon our escutcheon, for which we have so severely suffered. If it is part of the duty of history to revive this stain with all its gross accompaniments, then the "White Slave" has not been produced in vain; but we hope that the next welcome we extend to this celebrated company, will prove to be in a role which is more to our taste, and better meriting appreciation.

GOSSIPS SAY

That Portsmouth has twenty-three secret organizations, with an aggregate membership of three thousand five hundred and eighty-two.

That the temperance organizations, or any society in which ladies are admitted, are not included in the above list.

That the membership of local co-operative insurance organizations is sixteen hundred and ninety-five, carrying an aggregate insurance of $4,064,000.

That the above does not tell the whole story, as several hundred of our citizens are also insured in the Strafford County Odd Fellow's Relief and New Hampshire Provident associations.

That Market square presented a very lively appearance on Saturday last, owing to the several hundred teams from the country being packed in along the edge of the curbstones.

That the fire on the morning of the 4th of December, 1880, destroyed more property in money value than has been added to the city in improvements or buildings in the past fifteen years.

That our people feel a sense of relief since "a son of Portsmouth" took his "walk up State street."

That there is talk of petitioning the Chinese government to remove the Lumocks so that our navy may sail along the Chinese coast in safety.

That the dispatch was very suggestive—"Officers all saved; part of the crew drowned."

That Frank P. Ackerman, clerk for the Jackson Express company, is moving from Vaughan street to No. 91 State st.

That Rev. J. Herbert Yeoman, the popular pastor of the Pearl street church, will resign his pastorate in Portsmouth this spring, the climate being too rigorous for his invalid wife.

That sliding and skating on the crust in the suburbs on Saturday last afforded rare sport to hundreds of school children.

That a letter has been received in this city from a farmer living near Minneapolis, Minn., who says "We raise four hundred bushels of potatoes to the acre here, which would be a big thing if we didn't raise insects enough to eat 'em all up."

That a building for the accommodation of the bank watch is to be erected in the rear of the Rockingham national bank.

That the present quarters of the bank watch will be added to the police station, and fitted up as cells for the special accommodation of females who may be arrested, or may apply at the station for shelter.

That something of the kind ought to be done, as the present plan of putting men and women in contiguous cells is not creditable to the city.

That the Mutual Life of New York is the safest and most economical process of insurance in the world.

PORTSMOUTH MEDICAL ASSOCIATION.

The annual election of officers of the Portsmouth Medical Association was held at the residence of Dr. S. C. Whittier on Friday evening, Feb. 23d, resulting as follows:

President, Dr. Daniel W. Jones;
Treasurer, Dr. N. L. Folsom;
Secretary, Dr. A. B. Sherburne.

Previous to the election the members were entertained by a bountiful collation through the kindness of Doctor and Mrs. Whittier, that was enjoyed in a manner which is the rightful prerogative of this hard-worked and poorly-paid class of the community, to say nothing of the keen appetites which always appertain to conscious rectitude.

FREIGHT ENGAGEMENTS.

Among the freight charters reported last week was that of a schooner from Perth Amboy to this port with coal, at $1.30 per ton.

REAL ESTATE TRANSFERS.

The following are among the recent transfers of real estate left for record in the office of the register of deeds:

Portsmouth.—Abbie Odlon of Portsmouth, executrix of estate of Thos. H. Odlon, late of Portsmouth, to Benj. Russell of Portsmouth, land, $1300; Geo. G. Haven of New York to James W. Emery et al. of Portsmouth, land, $2500; A. W. Haven of Portsmouth to Elvira A. Haven of Portsmouth, land, $5400; Joshua R. Peirce et al., of Boston, Mass., to Margaret Mills of Kittery, Me., land, $800.

North Hampton.—Joseph A. Marston of North Hampton to Chas. C. Barton of North Hampton, land, $25; Benj. Crimbell of North Hampton to Chas. C. Barton of North Hampton, land, $700; Elivary Shaw of North Hampton to Chas. C. Barton of North Hampton, land, $15.

Hampton.—Ivory Bean of Boston to John M. Palmer et al. of Hampton, land, $350; D. A. Simons of Manchester to Lewis Simons of Manchester, land, $300.

South Newmarket.—Lucius S. Pease et al. of South Newmarket to Ruth B. Pease of Boston, Mass., land, $10.

Stratham—Geo. F. Piper et al. of Cambridge, Mass., to Chas. E. Gear of Stratham, land, $1400.

THREE SURVIVORS.

Capt. E. M. Stoddard, of Norfolk, Va., happened to be at the navy department in Washington, Feb. 17th, and there met Paymaster General Joseph A. Smith, U. S. N., chief of the bureau of provisions and clothing, and Medical Director John M. Browne, who was on special duty at the department on a board of survey. These three—Smith, Browne and Stoddard—are the only survivors of the wardroom mess of the Kearsarge at the time of her fight with the Alabama, and they celebrated the meeting by a "mess dinner," and a talk over old times. These officers not only sailed from this port in the Kearsarge, but Capt. Stoddard married, it will be remembered, a daughter of the late Hon. W. H. Y. Hackett.

On the evening of Feb. 21st a number of the pupils of Smith's academy gave a social party in Mechanics' hall; there was an excellent supper and a general good time, the assemblage holding together until a late hour of the night.

The Boston *Traveller* of Saturday announced it as probable that James W. Ricker, head clerk in the collection department of Boston, will be nominated for collector. Mr. Ricker is a native of this city.

The schooner Uncle Sam arrived at this port last Friday from Rockland, Me., with five hundred and fifty barrels of lime for John H. Broughton. She is of about fifty-two tons register, and carries a crew of only two men.

Mrs. Ann T. Shillaber died in Chelsea, Mass., last Saturday, at the home of her husband, B. P. Shillaber, Esq., in the 69th year of her age. The genial, kind-hearted writer was reported as being himself seriously ill on the same day. Mrs. Shillaber was a native of Newington, her maiden name being de Rochemont.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physology ever published. There nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Anthor.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

New Hampshire Items.

In the supreme court at Dover, Feb. 23d, in the suit of Betsey L. Head against the city of Dover to recover $5,000 damages, caused by injuries sustained by slipping on an icy sidewalk, in February, 1882, the jury returned a verdict for the plaintiff for $1,450.

Luther Roby, the oldest printer and publisher in New Hampshire, died in Concord, Thursday, Feb. 22d, aged eighty-three years. He was the founder of the *Statesman* in 1823, and had been engaged in printing Bibles and school books for twenty-five years; he had represented the town in the legislature and was an ex-chief of the fire department. He leaves six children.

At a late meeting of the governor and council Henry A. Shute was appointed judge of the Exeter police court in place of Judge Bell, resigned. Mr. Shute had held the position of associate judge for several months, and performed his duties in a satisfactory manner.

Mr. John Perry of the Cincinnati *Gazette* has sold his interest in that paper, and will remove to Exeter. He has leased the Gov. Gilman mansion, more recently known as the old Chadwick house, and will occupy it early in the spring.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's Industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of no more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE CUT in the middle.

What is Diphtheria?

The name is comparatively new, but the disease is an old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way as to stop the air passages. The throat is violently inflamed, and a tough membrance, like leather, is very rapidly formed. Perry Davis's Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.

The *News* of Fall River, Mass., tells of a cruel landlord in that city who broke the windows in one of his tenements last Thursday night, and took off the doors, so as to freeze out a poor woman who was too sick even to be carried to the hospital.

Gov. Butler's Fast Day Proclamation.

Gov. Butler's fast day proclamation is out. It is a very devout document, containing some interesting suggestions. In conclusion he says:

And it is recommended that all unnecessary labor and recreation be suspended upon that day; and I specially exhort the ministers of the Gospel on that day to feed their flocks with the divine word, and not discourse upon political and other secular topics, which may divert the serious thoughts of the people from humble worship of the Father.

News and Notes.

The St. Augustinian Society of Lawrence, Mass., a Catholic savings institution, nearly as old as the city of Lawrence, has failed, with liabilities amounting to $540,000, of which $430,000 are due to depositors, many of whom are poor people. The affair causes great excitement in the city.

A despatch from Helena, Ark., reports the killing of Major James Grant by convicts who were at work strengthening the levee at Williams place, near Helena. Twenty-five convicts disarmed the guard, and one of them shot Grant, who was pursuing them. They escaped to the hills.

Fifteen masked negroes, led by a notorious rascal named Bill Buck, broke into the house of Emma Dodd, a colored woman living near Milton, S. C., on the night of Feb. 23d, assaulted her with an axe, and then dragged her daughter, a girl eighteen years old, to the woods, and flogged her brutally with hickery switches. The attack was due to the fact that the young woman had repulsed the advances of several of the gang. Most of the villains are under arrest.

The Warren line steamship Glamorgan left Liverpool for Boston February 7th, and was abandoned Feb. 16th, the survivors of her crew being taken off by the steamship Republic, from Liverpool for New York. The captain, second mate, two seamen, second steward, a passenger and an unknown stowaway, were washed overboard by the sea which wrecked the steamer, and drowned. The Glamorgan was 1666 tons, brig rigged, and had 1080 tons of valuable cargo on board, nearly all consigned to Boston parties.

Secretary Chandler received a telegram on Sunday evening, Feb. 25th, from Rear Admiral Clitz, commanding the Asiatic station, giving the names of the lost on the United States steamer Ashuelot, viz.: George Valentine, George Ashton, Fritz Lachenback, St. Leger Crane, William Gronan, Benjamin Wohlrap, William Bronson, Andrew Scotland, Sum Shing, Ah Kind and Ah Dos.

John H. Gibbs, a negro of New Haven, Conn., seventeen years old, is in custody charged with criminally assaulting five women since October last. A companion named Ward, who was arrested at the same time, has confessed that they used chloroform to stupefy the occupants of houses which they entered, in order to accomplish their purpose.

A mong other curiosities of the census returns for the northwest province of India it appears that those provinces contain 1,100 actors, 3,000 ballad singers, 146 healers by incantation, 33 gamblers, 37 snake charmers, 50 match makers, four poets, 10,000 singers and dancers, four story tellers, and seven thieves. The cultivators of the soil number seven and a half millions, the landholders 10,900, and the money lenders 40,000. Only seven thieves to 40,000 bankers! Here is an opening for the professional thieves of Europe and America that ought to be well advertised.

The law court has rendered a decision in the case of the state of Maine vs. Benjamin Chadbourne and Benjamin Wallace Chadbourne on an indictment for murder. The Chadbournes were convicted of murdering Alvin Watson of Parkman, Me., June 26th, 1881. Watson was killed in his house, where he lived alone. At first Samuel Byron Chadbourne, a mute, was arrested, but afterward his father and brother were also arrested, charged with complicity in the murder. At the trial they were convicted of murder in the first degree. Exceptions were filed, and the court has just rendered a verdict that takes away all hope; the exceptions were overruled. Samuel Byron Chadbourne, the mute, is in the insane asylum at Augusta. It is proposed to educate him, in the hope that the mystery connected with this murder may be cleared up.

Mrs. Coyle, aged thirty-five years, married, with two children, committed suicide at Portland, Me., Sunday night, by taking laudanum. Domestic trouble was the cause.

A fire broke out in a three-story tenement house in Providence, R. I., last Saturday afternoon, occupied by Irish and Portugese families. Owing to the defective working of the fire alarm, three boxes pulled in succession failing to operate, the fire gained great headway. A five-month-old son of William Handley was burned to death. Seven other people were rescued with great difficulty.

Major Ben. Perley Poore is already at work on his next "Congressional Directory." His biographical sketchwork is progressing slowly, but as he has all summer to do it he is feeling quite easy in his mind over the prospect.

A South Carolina editor hung himself the other day. Now is the time to subscribe.

At a late meeting of the North Providence, R. I., Farmers' club, Mr. John Barnes related his experience in the exportation to Great Britain of Rhode Island apples. He has forwarded ten barrels, and received $4 a barrel over and above all expenses.

Farewell services were preached at Providence, R. I., Sunday, by two retiring pastors—Rev. Dr. Behrends, at the Union Congregational, and Rev. E. P. Farnham, at the Friendship street Baptist churches.

Congressman-elect Pusey, of Iowa, according to the *Commercial Gazette* of Pittsburg, was a schoolmate of Hon. James G. Blaine at Washington college, Penn. They belonged to the same literary society, and young Blaine became ambitious to be elected president of it. Canvassing for votes, he asked Pusey if he would support him. "Why," was the reply, "you don't know anything about parliamentary rules. You can't preside." "No, that's so," responded Blaine; "but I can commit Cushing's Manual to memory." He did so in a few days, and was elected president of the society.

D. J. Colson, a member of the police force at Bangor, Me., has disappeared from the city, leaving his family of a wife and six children.

Two former "scouts," who have been running a shooting gallery in Bangor, Me., have cleared out, leaving a large number of creditors to mourn their loss.

Mrs. Meaker, the Waterbury (Vt.) murderess, will be hanged at Windsor, March 23d.

Thirty million dollars are annually paid over the bars of Chicago for drinks. The United States spend $600,000,000 a year for their alcoholic drinks. It is estimated that more than 200,000 people are engaged in selling that amount of poison.

At Baku, Russia, a process has been successfully tried by which kerosene oil is solidified to look like tallow, and can be caused to revert to its natural liquid state. Other oils are said to be treated in the same way. The kerosene is to be made into candles, and the oil kings, Nobe Brothers, expect to undersell the candle dealers throughout the continent.

New Hampshire Items.

Superintendent E. B. Hodge has recently received and placed in the trays at the state fish-hatching house at Plymouth, 120,000 eggs of the landlocked Shoodic salmon, from Grand Lake stream, Maine, and 240,000 eggs from the Penobscot salmon breeding establishment, Bucksport, Maine.

By a vote of the board of fire engineers of Concord, a detail of firemen will hereafter be present at all public entertainments.

Capt. E. C. Woodruff of the 12th United States infantry station, Madison barracks, New York, has been detailed by Maj. Gen. Hancock as instructor at a four days' drill of officers of the New Hampshire National Guard, commencing Tuesday at Manchester, instead of Capt. R. S. Hall of the 10th infantry, detained by serious illness in his family.

Benjamin L. Merrill, of Exeter, died on Friday last after a long illness, at the age of fifty-nine years. He was president of the National Granite State bank and trustee of the Robinson female seminary at the time of his death; had been chief engineer of the town fire department, and had held various offices of trust for many years. He was in the wool business in the firm of Abner Merrill & Sons, in which he acquired a large fortune. He was well known in Boston and elsewhere.

The "North American Review" for March opens with an article on "Money in Elections," by Henry George, who brings to the discussion of that hackneyed subject a contribution full of originality and keen insight; he points out with admirable clearness one source of our political ills, and proposes a remedy that seems both practicable and efficient. Robert S. Taylor writes of the "Subjugation of the Mississippi," a work which, in his opinion, and in that of the Mississippi Commission, of which he is a member, can be accomplished only by employing, for the purpose of deepening and straightening the channel, the forces developed by the river itself. Moncure D. Conway contributes a striking study of Gladstone as a man and a statesman, showing how even the more or less sinister moral and intellectual traits of his nature, quite as much as his pre-eminent native force and elevation of character, conspire to make him the foremost Englishman of his time. Hon. George W. Julian's "Railway Influence in the Land Office" is a grave, judicial exposure of the practices which, against the manifest intent of the law and the determinations of the highest courts, have won for corporations millions upon millions of acres of the public domain. Richard A. Proctor writes of the "Pyramid of Cheops;" Prof. Wm. G. Sumner of "Protective Taxes and Wages;" Elizur Wright of "Some Aspects of Life Insurance;" and there is a symposium on "Educational Needs," by Prof. G. Stanley Hall, Prof. Felix Adler, President Thomas Hunter, and Dr. Mary Putnam Jacobi. Published at No. 30 Lafayette place, New York, and for sale by booksellers generally.

Luck.

Is a word which should have no place in any vocabulary. A man must have ability to succeed, and a medical preparation, merit. There is no luck about SOZODONT. It was sure to succeed from the first, because it was good, and did all that was claimed for it.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price **25** cents a bottle. coit|an5,84

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,
MRS. S. S. MOODY,

THE FIRST SERVICE.

Divine service was held in Christ church on Sunday evening, Feb. 25th, for the first time, by Rev. Mr. Hovey, rector of St. John's church, and Bishop Niles, of the Episcopal diocese of New Hampshire, the chorus of St. John's church taking part in the exercises. Though the streets and sidewalks were in about as bad a condition as they could possibly be for pedestrians, the church was filled, hundreds of people having to stand in the aisles. The bishop delivered a sermon, but there were no special exercises, as many persons had supposed there would be; the formal dedication will take place during the summer, on a date not yet set. In the meantime services will be held in the church each Sunday evening at 7:30 o'clock until further notice, by the rector of St. John's, evening services in the latter church of course being omitted; the running expenses,—for fuel, gas, care of building, etc.,—will be paid by collections taken at each service. The interior of the church presented a very handsome appearance.

POLICE COURT--BATCHELDER J.

MONDAY, Feb. 26th.

John Couhig, charged with an assault on Mrs. John Clark, (case continued from the 24th,) was discharged.

WRECK.

On Thursday, Feb. 22d, the steamer State of Maine reported having passed, on her trip from Boston to Portland, when about eighteen miles east-northeast of Boon island, a schooner floating bottom up, with her spars and sails alongside. On Friday, the 23d, the same wreck was sighted by the schooner Mellow, the location being give as about twenty miles south-southwest of Cape Elizabeth. On Saturday, the 24th, the schooner Flora Temple, of York, Me., fell in with the wreck about six miles from Boon island, and secured her mainsail and mainboom; she proved to be the schooner Teal, of St. John, N. B., and it was supposed had been capsized in a squall, as her topsail was set. The Flora Temple put into York, and intended to start in search of the wreck again on Monday morning, the 26th, and endeavor to right her and tow her in. The Teal was reported a week or more ago as having been lost in the bay of Fundy, with all hands.

GOSSIPS SAY

That there are two retired sea captains in Portsmouth, aged respectively eighty and eighty-four years, who may be seen daily on the streets together, in wonderful health and vigor, neither of whom has ever been ill enough to require the services of a physician.

That Johnnie Griffin has disposed of his tensorial rooms and fixtures to D. J. Holland, and will join the advance guard in the march toward the setting sun.

That Mayor Treat is taking good care of our streets.

That the city fathers will vote no money for the entertainment of "returning sons" this year.

That Hon. Frank Jones and party have arrived at the Hot Springs, Arkansas, and are in good health and much enjoying themselves.

That the ladies connected with the Methodist Sewing Circle have made, and disposed of at good prices, large numbers of album quilts since the winter mouths set in.

That the Christ church chimes never before sounded so clearly and distinctly down town as on Saturday evening last, when they were rung to call the first congregation to the church.

That sixteen hundred people waded through the slush to the new Christ church on Sunday evening, and four hundred waded back again without even getting a glimpse of the more than crowded auditorium.

That it would have been a most appropriate incident in the first service at the new church, if Rev. Chas. A. Holbrook could have been present and participated.

That the mural tablets to the memory of the late George M. Marsh and Albert R. Hatch in Christ church are elegant in design, and in perfect keeping with the decorations of this beautiful edifice.

That the exodus of the emigrants to "the far west" will culminate in a grand forward movement on the eighth of March.

That the number of distinguished guests at the Cavalry ball, including Gen. Clough and lady, and military visitors from Salem, Exeter, Dover and Great Falls, should have received some mention in the local press.

That many of the employees of the Portsmouth shoe factory are suffering from bad colds.

That there should be a hospital in Portsmouth for indigent patients; that there is a fine opportunity for some wealthy citizen or "absent son" to endow such an institution; and that a broad field of usefulness is open to our humane ladies in pushing the scheme for meeting this acknowledged requirement.

That Ex-Lieut. Comdr. Gorringe can write longer letters than the secretary of the navy.

That if the national house of representatives adopt the senate amendments to the naval appropriation bill, the navy yard will not be closed.

That applicants whose hazardous business or impaired health cause legitimate life insurance companies to decline their applications, are always in favor of the "co-operative plan."

That Gov. Butler is as willing to regulate the religion of the entire state of Massachusetts as he has been to run the politics of the democratic party there.

The schooner St. Peters, net fisherman, when about half way between Boon island and Whaleback on Monday last, was struck by a squall which parted her job sheet, and tore the jib its whole length. One of the crew in working around the sail was knocked overboard, the vessel going over him. The two upper dories were half filled with water, but one of them was put overboard, and the man was reached and held up until the other boat was bailed out, and arrived to the assistance of the first one. There was some quick work done, and the crew congratulate themselves on the saving of their shipmate.

Mr. Charles S. Drown is making a mainsail, jib and flying jib for the schooner General Grant, of Wells, Me. The mainsail contains three hundred and three yards of No. 3 duck.

About 20,000 lbs. of fish came in Feb. 26th; 12,000 lbs. were bought at three cents a pound. Twenty-seven codfish, brought in by one of the netters, weighed 1003 lbs.

The semi-annual dividend due stockholders in the Wolfeborough railroad will be paid at the office of Hon. Frank Jones on Market street, on Friday, March 2d, from three o'clock in the afternoon until six.

Charles L. Rolf, aged twenty years, and Miss Alice M. Goodwin, aged fifteen, both of Canaan, Me., arrived in this city by the Pullman train from the eastward on Monday morning, and called upon Col. D. J. Vaughan, the city clerk, who made them husband and wife. The young couple took the next train for the eastward, apparently well pleased with their brief visit to New Hampshire.

The Boston *Transcript* of Feb. 24th says: "Eastern railroad stock has been very firm of late at forty-six bid, while at the beginning of the year it stood at thirty-five. We understand from a reliable source that the joint committee appointed to consider the relations of the Eastern and Boston & Maine railroad companies have agreed upon the terms of a lease of the Eastern to the Boston & Maine, and have signed memoranda papers of the lease. It now only remains for the higher powers to ratify the lease. The terms are substantially those discussed for a year past."

Mr. James Douglas has had several applications to sell his saloon on the corner of Deer street and Railroad place; parties from Providence, R. I., from Dover, and three or four persons in this city, have made overtures for it, but Mr. Douglas will not dispose of it until he is prepared to move onto his little farm on the South road, near Lafayette road.

Literary exercises commemorative of the birthday of Henry W. Longfellow will be held at the high school Tuesday forenoon, Feb. 27th, at 10:45 o'clock, every pupil in attendance taking part. The parents of the pupils are invited to be present, the limited space not admitting of a general invitation to the public.

Mr. Uriah Blaisdell is seriously ill.

Some persons predict the erection of a mill and the establishing of locomotive works in this city within a year. Stock in the silver-plate factory was booming on Monday.

Over one thousand cords of wood has been cut in Newington this winter.

The Vaughan street crossing in this city is not the only one which freight trains sometimes obstruct. The Biddeford *Times* of last Saturday says: "The Eastern freight train was standing across Lincoln street, near the Somesville bridge, Saco, yesterday, for over half an hour, thereby preventing the passage of travellers and traffic. Complaint is made that this is a thing of frequent occurrence. In the interest of the public it should be prevented from occurring again."

Mr. Henry R. Stoddard is to repair the house on Vaughan street, formerly occupied by Mrs. Samuel Cleaves, and will take up his residence therein at an early date.

Mr. Shirley B. Cunningham, of the firm of Rider & Cunningham, left this city on Monday last for Minneapolis, Minn., to take possession March 1st of a store already rented.

Mr. John E. Harmon, formerly foreman of Kearsarge engine company, No. 3, represented the fire department of this city at the fireman's ball in Boston on Feb. 22d.

Mr. Henry E. Holmes, who has been affected for some time from the getting of a piece of steel in one of his eyes, went to Boston on Monday to have an operation performed.

Miss Emma G. Hall, late bookkeeper and cashier for James R. Yeaton & Co., has accepted a similar position in the extensive cracker manufactory of B. F. Kennedy & Co. at Cambridgeport, Mass., and enters on her new duties this week. A large number of friends wish her every success in her new position.

Concerning Certain Relics of the Past

--Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way crowning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are paralleled in name and style.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET !

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Richest Medical Academy of Paris reports 95 per cent. cures in three days.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion or the thoughtless errors of early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author who may be consulted on all diseases requiring skill and experience. Address,

Poems of N. P. Willis, with a memoir of the author by H. L. Williams; New York; Hurst & Co.

Mr. Willis was born in Portland, Me., Jan. 20th, 1807, and died Jan. 21st, 1867. In addition to his numerous prose writings, several volumes of his poems have before been published. The present edition contains scriptural poems, religious poems, college, city and miscellaneous poems. Mr. Willis' writings have in times past received much commendation from celebrated writers and reviewers, and although many of these refer to current events of earlier days, they have lost none of the freshness and vivacity with which they first gratified readers long, long ago.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputation thus do, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire News; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS.

Why suffer with Dyspepsia? Why suffer with Indigestion? Why have the blues? Why suffer with Headache? Why have Constipation? What makes you feel so miserable? Your nerves are all unstrung, and nothing seems to assist you. Your appetite is poor, your stomach out of order, your bowels costive, your blood impure to repair the damage which your excesses have caused. Sulphur Bitters is not a cheap rum, filled with poisonous oils and fusel oil, like other bitters, but is a pure, old, mellow tonic and stimulant, combined with the choicest medicinal properties which the vegetable kingdom affords, such as Dandelion, Mandrake, Stillingia, Yellow Dock, Sarsaparilla, Prickly Ash, Poke Root, Juniper Berries, Iodide of Potash, Sulphur, Nitrate of Potash, Iron, Quinine, Lithia, etc., etc., all of which are recommended by the most eminent physicians as the best remedies for the various diseases they are intended to cure. In fact, Sulphur Bitters is recommended by the faculty as a medicine for all those diseases and complaints for which a tonic or stimulant is required, such as Dyspepsia, Indigestion, Want of Appetite, Nervous Prostration, Nervous Headache, Female Complaints, Fever and Ague, Intermittent Fever, Chronic Diarrhœa, Kidney and Urinary Complaints, Diseases of the Blood, Liver and Kidneys, Diseases of the Skin, such as Eruptions, Blotches, Boils, Tetter, Salt Rheum, Scald Head, Ringworm, Scurvy, Erysipelas, Rheumatism, Neuralgia, Sciatica, Lumbago, Pain in the Side, Back and Joints, Nervous Debility, Sleeplessness, Depression of Spirits, Loss of Memory, Dizziness, Sick Headache, Jaundice, Dropsy, Tumors, Tetter

What is Diphtheria?

The name is comparatively new, but the disease is an old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way as to stop the air passages. The throat is violently inflamed, and a tough membrance, like leather, is very rapidly formed. Perry Davis's Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.

The Manchester *Mirror* affirms that Hon. O. C. Moore of the Nashua *Telegraph* is "about as good a specimen of the practical machine politician as this state can boast of," and consequently was not to be caught by a position on the civil service commission.

Boston, Jan. 3, 1879.

F. W. Kinsman, Esq.—Dear Sir: Adamson's Botanic Cough Balsam seems to give universal satisfaction, both as to quality and price. We sell more of it than of all other cough medicines combined and have yet to hear of the first intimation in which it has failed to give satisfaction. Yours truly, Rust Bros. & Bird.

Naval Affairs.

Surgeon Thomas Hiland has been ordered to appear before the retiring board.

Passed Asst. Paymaster John R. Martin is ordered to tempory duty at the New York navy yard.

Passed Asst. Surgeon William G. G. Wilson is detached from the Swatara.

Passed Asst. Surgeon D. M. Guiteras is detached from special duty at Washington, and ordered to the Swatara.

Comdr. Wm. Gibson is granted leave of absence for four months from April 1st, with permission to leave the United States.

Pay Inspector W. W. Williams is authorized to remain in Europe, after being relieved, until the 15th of June next.

The Lancaster arrived at Gibraltar Feb. 4th, from Villefranche enroute to Havre. Passed Assistant Engineer E. T. Phillippi and Passed Assistant Surgeon J. C. Boyd were left in hospital at Nice, sick.

Chief Engineer E. D. Robie has been ordered from Boston to temporary duty at Providence, R. I.

Chaplain Edward K. Rawson is ordered to the Boston navy yard.

Capt. Ralph Chandler, George F. Winslow, surgeon, W. L. Mintonye, naval constructor, and other officers of the Charlestown navy yard, appeared before the Boston board of health, Feb. 26th, to complain of an alleged nuisance, caused by Whittemore's petroleum works on Chelsea street, Charlestown.

A Panama despatch of Feb. 17th says: "Rumors have been circulated that cases of yellow fever have occurred on board the United States steamers Iroquois and Hartford in Callao, but good authorities assert that the three men who died had all acquired severe typhus fever on shore. Liberty had been given to a number of the crew, and they overstayed the liberty on a wild carouse, and the fevers from which they died were a consequence. The Essex and the Hartford at once placed themselves in quarantine, and on the arrival of the admiral in the Pensacola reported to him that no sickness was on board."

News and Notes.

Senator David Davis on Feb. 26th notified the senate that he will resign the presidency *pro tem.* of the senate at noon on March 3d.

Mrs. Esther E. Jewell, widow of Hon. Marshall Jewell, died in New York Feb. 26th, having survived her husband but fifteen days. She was a daughter of Wm. Dickinson of Newburg, N. Y.

The residence of Peter Dennin in Montague, Mich., was burned Monday morning, Feb. 26th. The hired girl and three children were burned to death.

A Lawrence despatch of Feb. 26th says: "Attachments continue to be placed on the property of the Augustinian society, despite the implied threat of the executive committee that no subscriptions would be called for unless the suits already entered were discontinued and no others instituted. Three attachments have been served on Archbishop Williams of Boston, who, ex-officio, controls the Catholic church property of this diocese. It seems now as though the Augustinian society would be forced into insolvency. Subscriptions thus far toward relieving the indebtedness amount to $3,350. Special attachments have also been made on the real estate recently conveyed by the society to Michael Carney, Peter Halihan, James McEvoy and J. D. Mahoney."

The deficiency appropriation bill as reported to the house is said to be the smallest deficiency bill ever reported. The amount for 1883 is $485,113, and the total $2,057,989. The largest amounts are for old claims, audited by the accounting officers of the treasury, and for back pay and bounties to soldiers.

In the national house, on Feb. 26th, "Richelieu" Robinson of New York introduced a bill "For the relief of England, the benefit of Ireland and the glory of the United States." The preamble, which is very long, sets forth the situation in Ireland as seen from an Irish standpoint, and requests the President to open negotiations with Great Britain for the acquisition of Ireland by purchase, as in the case of Louisiana and Alaska. The bill was received with much merriment, and referred to the committee on foreign affairs.

Cholera is reported on the Isthmus of Tecuantepec, and general small earthquakes have occurred at Aspinwall and on the Pacific coast.

Representative "Richelieu" Robinson has prepared a bill making March 17th a national holiday. The reason given by Mr. Robinson for honoring this day is that it is the anniversary of the day on which the British were driven out of Boston. It is also St. Patrick's day, which Mr. Robinson says nothing about.

At Milwaukee, Wis., Feb. 26th, the grand jury in the Newhall house case indicted Schiller, the former lessee of the bar-room in the hotel, for setting fire to and burning the Newhall house, causing the death of many persons. Schiller was taken before the court, pleaded not guilty, and was committed in default of $10,000 bail.

AROUND HOME.

On Monday evening last the public school teachers of Manchester held a meeting in the high schoolhouse, and organized a Teachers' Local Union association, choosing Edward P. Sherburne, a native of this city, as president.

The schooner Charles L. Mitchell, wrecked on Fisher's island, near New London, Conn., on the passage from this port to Baltimore about two weeks ago, is still ashore. The wrecking steamer Charles Pearson, Baker master, last week made an unsuccessful attempt to tow her afloat, and Capt. Baker reports that it will be necessary to wait for a high course of tides, and also to make some repairs on the schooner, before she can be floated.

The hackmen about the city did not care to face the freezing wind on Tuesday; sheltered places were sought for.

The work on the steamer Mystic, in connection with the putting in of her new boiler, is expected to be finished on Saturday of this week.

The cutters at the Portsmouth Shoe factory are having a chance for recreation; they have work ahead for six hundred cases of shoes.

Residents on Christian Shore were disguested, Tuesday morning, at finding the supply of aqueduct water stopped, owing to a break in the pipe somewhere on the main line. Pumps and wells were called into unwonted requisition. The break in the pipe was discovered in Sparhawk street, near the Creek.

On Tuesday evening Mr. Almon H. Jenness in turning his team around on Market square was thrown out on the ice by the capsizing of the sleigh, but was not injured.

The exercises at the high school on Tuesday in memory of Longfellow were very interesting, and gave much pleasure to the relatives of the pupils, of whom a large number were present. At the close, by request of Col. D. J. Vaughan, chairman of the high school committee, Rev. W. E. Gaskin made a brief address into which he compressed a large amount of good sense and judicious advice.

The closing entertainment in the Golden Cross course at South Eliot will be given in Brooks' hall on Thursday evening, March 1st, if it is fair weather on that date; if the evening is stormy, the entertainment will be postponed to the first fair evening thereafter. The programme will include songs and dances by Miss Grace Varrell of Portsmouth; singing by Mrs. W. H. Staples, Miss Abbie C. Remick, Col. Charles R. Littlefield and Mr. J. Wesley Remick, with accompaniment by Mrs. J. C. Lydston; concluding with a drama in three acts, "All's fair in love and war," by eminent amateur talent. At the close of these exercises a sociable will be held, when ice cream will be served to all who pay for the same.

"Ah," said an Irish gentleman to one of his countrymen, as the two were standing near the city hall last Thursday evening, "the city fathers are not meeting tonight." "No," said the other, "they are celebrating Washington's birthday." "Do you know," said the first gentleman, "why the republican members want the board to meet every fortnight instead of every week?" "Do they so?" asked his friend; why is it?" "Arrah," said the other, "because they have to stand Treat every time they have a meeting."

On Tuesday of this week, as Mr. Robert Moulton was crossing the Eastern railroad track in a pung, the bolt holding the shafts came out, letting them drop against the horse's legs. The animal started on a run, but was brought up before doing any damage.

The Eastern railroad wharf, at Noble's island, is to be lowered about four feet. The wharf will be worth much more after this improvement is effected, than it is now; it is far too high for convenience in unloading vessels.

On Tuesday evening last there was a row in a saloon at the lower end of Daniel street. Special Officer Anderson and Mr. Robert Marr did their best to quell the disturbance, and afterward assisted the police to arrest three of the brawlers, who were locked up to await trial. One of the party escaped, for the time being.

Mr. Samuel Shapleigh, Jr., and wife, of Eliot, were called upon at their home, "The Elms," on Friday evening of last week, by their neighbors in Eliot, and friends from South Berwick and Great Falls, to the number of 125 in all; it was a genuine old-fashioned surprise party, the visitors bringing music with them, and a very pleasant evening was spent in singing, dancing and other amusements.

Mr. Charles Cottle of Kittery has gone to Canada to purchase a lot of horses, which he will send or bring home by rail.

Messrs. Samuel Clark, George Hammond and William Hill of Eliot have cut large amounts of timber from their several woodlots this winter.

Mr. John Cook of Eliot recently purchased a horse for a half ton of hay, a rooster and a peck of turnips. The animal was broken-winded, and would roar, it is said, like a lion; he was found useless and was killed.

A Romantic Ragged $2 Bank Bill.

Many different stories are told about the prize which Underwood Fisher, of the Three Rivers House, drew in The Louisiana State Lottery. He stated the fac s thus: Dec. 12th he sent $2. and received in return two-tenths ticket No. 31,461. He put the ticket away, and thought no more of it until three days after the drawing, when he received a dispatch saying that his ticket had drawn $20,000, his share of which was $4,000. From M. A. Dauphin, Pres't of the L. S. L. Co., New Orleans, through the First National Bank, he received his $4,000. Little things make quite a difference. He had a $2 bill ragged, and he sent it for a ticket. The moral is, that you send for lottery tickets when you get a ragged two-dollar bill.—*From the Three Rivers (Mich.) Herald of January 13.*

TREASURY DEPARTMENT.
OFFICE OF COMPTROLLER OF THE CURRENCY,
WASHINGTON, February 2 th, 1883.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that The National "Mechanics and Traders Bank of Portsmouth," in the City of Portsmouth, in the County of Rockingham, and State of New Hampshire, has complied with all the provisions of the Act of Congress, to enable National Banking Associations to extend their corporate existence and for other purposes, approved July 12th, 1882.

Now, therefore, I, John J. Knox, Comptroller of the Currency, do hereby certify that The National Mechanics and Traders Bank of Portsmouth, in the City of Portsmouth, in the County of Rockingham, and State of New Hampshire, is authorized to have succession for the period specified in its amended articles of association, namely, until the close of business on February 24, 1903.

Currency Bureau, Seal of the Comptroller of the Currency, Treasury Department.	In testimony whereof, witness my hand and seal of office, this 24th day of February, 1883. JOHN JAY KNOX, Comptroller of the Currency. No. 461.

WE DO NOT CLAIM

that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we are naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.

Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,

Very truly yours,
MRS. S. S. MOODY.

GOSSIPS SAY

That several workmen in the Portsmouth Shoe factory, from South Berwick, Me., are moving their families to this city.

That S. Adams Wiggin, one of the "Poets of Portsmouth," and lately on the editorial staff of the Boston *Globe*, has been re-appointed to a clerkship in the treasury department at Washington, and is credited to Massachusetts.

That more than fifty young men of Portsmouth find employment in Boston, a dozen at least being engaged in the printing business.

That many of the finest shade trees along the banks of the Sagamore are being cut into timber for the schooner now being built at Freeman's point.

That the York Harbor & Beach railroad will have to get along without the $25,000 said to have been conditionally promised by a Portsmouth capitalist.

That a half-dozen cats left on Lunging island, Isles of Shoals, last fall, by local fishermen who cured fish there during the summer, were found fat, sleek and frisky last week by parties who landed at the island.

That it is not necessary that the S. P. C. A. should be nervous, as the island is known to be swarming with rats.

That "Portsmouth as seen from the *deck* of a marine bicycle" is being very graphically written up by a local writer, for a bicycle publication.

That the English sparrows are a great nuisance, and nearly as numerous in our midst as are the "paper" colonels.

That the Portsmouth fishermen are not like their brethren of Gloucester, in that they don't believe in the doleful prognostications of the "Prophet" Wiggins, respecting March weather.

That they are well aware that March is a blustering, "catchy" month on the ocean, and keep a good lookout accordingly; but they consider Wiggins a bigger windbag than the month he talks about.

That when the clergy assume the duties of bankers, they make as bad a mess of it as the naval officers would be likely to do with the life-saving and revenue-cutter services could they get hold of them.

That the Peirce mansion on Court street is the handsomest residence, architecturally, of all your "ye olden time" in New England.

That the principal fund of the free public library at Kittery, Me., has increased over seven thousand dollars since it came into the hands of the trustees eight years ago.

That a subscriber to the History of Rockingham and Strafford Counties has left his copy on sale at one of the bookstores, the proceeds to be devoted to the Children's Home.

That New Hampshire Lodge of Odd Fellows give one of their enjoyable basket-picnic dances this (Wednesday) evening.

NEWCASTLE SCHOOL REPORT.

Report of the Newcastle Grammar School for the term ending Feb. 24th, 1883.

Number of pupils registered, forty-three; average daily attendance, forty-one.

Pupils not absent over one-half day during the term: Alice L. Amazeen, Frank A. Brown, Lucretia L. Catlin, Alvah H. Curtis, Wilfred D. Garland, Lizzie M. Garvin, Orlando Libbey, Theresa M. Rand, Horace B. Rand, Lillian M. Urch, Ellie L. Urch, Nettie M. White, Florence A. White, Helen L. White, George W. White, Dottie M. Yeaton, Herbert Catlin, Charles S. Ruee.

Not absent nor tardy for the year, Alvah H. Curtis, Horace B. Rand, Lillian M. Urch.

The following list shows each pupil's average rank for the term; the asterisk denotes absence only on account of sickness:

Lillian M. Urch, 99.7; Nettie M. White, 99.6; Lizzie M. Garvin, 99.5; Helen L. White, 99.4; Florence A. White, 99.3; Ellie L. Urch, 99.2; Alice L. Amazeen, 99.1; *Bertha M. Yeaton, 98.9; *Seddie E. Straw, 98.9; Frank A. Brown, 98.7; Herbert Catlin, 98.7; *Mabel White, 98.6; *Lottie C. Melcoy, 98.5; Fannie L. Davidson, 98.4; *Justin H. Yeaton, 98.4; *Jennie B. Williams, 97.6; *Harry S. Yeaton, 97.4; Theresa R. Rand, 97.3; Alvan H. Curtis, 96.9; Wilfred D. Garland, 96.6; Edwin E. Whitehouse, 96.6; *Flora B. Brown, 96.5; *Lizzie C. Amazeen, 96; Lizzie E. Emery, 96; *Mary A. Preble, 95. 9; *Justin F. Hanscom, 95.5; George W. White, 95.4; Lucretia L. Catlin, 95; Horace B. Rand, 95; *Willis G. Meloon, 94.6; Dottie M. Yeaton, 94.6; Etta C. White, 94; Hiram J. Garland, 93.6; *Clarence O. Williams, 93; *Marion Bickford, 92; Orlando Libbey, 92; Charles S. Ruee, 92; *Webster Goodwin, 91.7; Pearl D. White, 91.5; *Henry A. Ruee, 90; Bernice D. Trefethen, 70.6; Bertie White, 70; Clarence Bickford, 67.6.

The three last-named pupils absented themselves from the closing examination, which fact accounts for the reduction in their rank.

The prizes offered by the superintendent, Capt. Geo. W. Towle, were awarded as follows: For punctuality, to the three mentioned above who were not absent nor tardy for the year: for the best percentages, to the following-named: Young ladies, Nettie M. White, Lillian M. Urch, Lizzie M. Garvin, Helen L. White, Florence A. White, Ellie L. Urch, Alice L. Amazeen; Young gentlemen, Frank A. Brown, Herbert Catlin.

To our many friends who were present at the examination we tender our heartfelt thanks for the cordial expression of their sympathy and appreciation; and not only to those, but to all who throughout the year have manifested a kindly spirit of interest. The success of a school is enhanced by such interest no less than by the efforts of teacher and pupils.

OLIVE BRANCH COMMANDERY.

Olive Branch Commandery, United Order of the Golden Cross, was instituted at Odd Fellows' hall in Kittery on Friday evening, Feb. 23d, by Dep. Sup. Comdr. Horace Mitchell, Jr., of Kittery Point, with the following officers:

Edwin C. Nealley, past noble commander;

Rev. E. A. P. Dearborn, noble commander;

Mrs. E. A. P. Dearborn, vice noble commander;

Mrs. Jessie Getchell, prelate;

Mrs. John R. Ball, keeper of records;

Wallace Jackson, F. K. of R.;

A. O. Goodwin, treasurer;

John R. Ball, herald;

Mrs. Betsey P. Lewis, W. I. G.;

Joseph Junkins, W. O. G.

Large delegations from Rising Sun Commandery of Kittery Point, Agamenticus Commandery of York, and Piscataqua Commandery of Eliot, were present, and assisted Dep. Comdr. Mitchell in instituting the new commandery, which starts out with every indication of success.

SCHOOL EXHIBITION.

KITTERY POINT, Feb. 26th.

Editor Gazette: Can you and *will* you help the good people here out of a dilemma?

Last Thursday evening, at the school house in district twelve, under the guidance of Mrs. M. J. West, an exhibition of rare quality for this place, consisting of readings, speeches, tableaux and singing by the scholars of the district, was given us *older* sinners to cheer our weary souls. Among the many good things was the singing "The old cabin home" by Master Willie and Miss Lizzie Berry, Miss Emma Berry playing an accompaniment on the melodeon. We also had the pleasure of hearing Miss Julia Duncan's beautiful soprano voice in "God bless our native land"—a rare treat. The room was very tastefully decorated with flags, pictures (one a very finely executed crayon of Mt. Vernon, by Mrs. West,) and wreaths of leaves and flowers. Mrs. West having taught the winter term in this district, and as usual inspired her scholars with her own zeal and scholarship, can feel a high degree of satisfaction for her labor when she calls to mind the birthday of Washington, eighteen hundred eighty-three.

Now as to the dilemma. The people here want this thing "told of," but it is such tough weather and walking that they can't get around, and I have suggested the GAZETTE as being "sharp shod on ice" and only five cents a copy, or $1.50 per year. Will write more when I get a new pen. PILOT.

Friends and neighbors of Mr. Charles N. Osgood and wife, to the number of about fifty, gave them an agreeable surprise party on Monday evening, Feb. 26th, it being the twenty-sixth anniversary of their marriage. After the usual congratulations and good wishes had been said, the party proceeded to present the happy couple with an elegant bouquet, which was pleasantly received by the pair; games and social chat were then indulged in for awhile, after which supper was served, and then games were again resumed and kept up until a late hour. During the evening some excellent singing was rendered by the South End quartette. S.

"Buffalo Bill" is coming, and will present his new play in Music hall about the middle of March. He has real Indians with him, and does some fancy rifle shooting on the stage. The boys will now commence to save up their coppers in preparation for the glorious event, and the noted scout will of course have a full house.

Four handsome horses driven by Harry Beacham on Tuesday evening hauled to the Union house at Hampton Mr. R. H. Beacham's big sleigh, containing a party of ladies and gentlemen, who returned at a late hour much pleased with their excursion.

On Saturday evening last, when the train due in this city at seven o'clock stopped at Newburyport it was boarded by five or six half drunken ruffians, who between that station and Seabrook, where they got off, assaulted and insulted a number of the passengers, one of whom is a resident of this city. One of the roughs is or has been a police officer of Seabrook. The officials of the Eastern railroad have taken the matter up, and the rowdies will be taught something.

The White Slave company, who played in Music hall last Saturday evening, have a special car to transport their baggage and the scenery.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A Common-sense Remedy.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physology ever published. There nothing what ever that can be learned by single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Dr. Robert Cook, surgeon of the Allan line steamer Nova Scotian, and John Whitley, purser of the same vessel, were arrested in Portland, Me., Feb. 26th, for attempting to smuggle on shore 104 ounces of muriate morphia, on which the duty is $1 an ounce. The drug was seized, and the men held for trial.

The suspended sophomores of Dartmouth college still refuse to tell the faculty where they were on the night of Feb. 17th. The faculty remain firm. Early on Sunday morning, Feb. 25th, the village was aroused by a tremendous explosion. Some persons hurried to the bank, but found everything all right there. An explanation was furnished when daylight came, in the shape of a large cannon, which the students had drawn from West Lebanon, a distance of four miles, during the night, and which was found standing near Reed hall. On Sunday evening it was taken home by the authorities, but before morning had found its way to Hanover again, and on to the chapel stage. What the final disposition of this flying artillery will be is unknown. [A despatch of the 27th says the suspended sophomores have surrendered, and been allowed to resume their relations with the college.]

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

Dr. WM. ROTH, Surgeon-General, Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

Daily Chronicle.

The Sioux Reservation.

We recently published an article in regard to the Sioux lands, and the proposition to open a portion of them to white settlers. We now publish the following communication upon the same subject, from Mr. Welsh, the gentleman who lectured here upon Indian affairs a short time ago.

It is, I suppose, inevitable that the report of the Commission appointed to treat with the Sioux in the matter, and the arrangements entered into by them with certain chiefs, be adopted in the main. I am told that the whites in the vicinity are most urgent and anxious for the reduction of the Sioux Reserve. Railroad communication with Deadwood must be secured sooner or later. I believe, however, that this report should be adopted only with certain modifications. First, by it the situation of the Santee Sioux is imperilled.

The object of the Sioux commission is to divide the present great Sioux reserve, which is now occupied by all the Sioux tribes as tenants in common, into reservations to be held separately by the several tribes. To effect this, each tribe has at the solicitation of the commission relinquished its claim to an undivided part of the present reserve and obtains in consideration of this a reservation set apart for it as a tribe. Each tribe has done this with one exception, the Santees. They, while relinquishing their right to an undivided part of the great reserve, have had no portion set apart for their use. This is, I presume, due to the fact that they at present occupy, as they have done for some years past, land set apart for them by Executive order in the northeast corner of Nebraska. We know from personal observation, as well as from the testimony of others, that the Santees are the most industrious and civilized of all the Sioux. They are extensively and successfully farming the land they now occupy. They have considerable property in houses, barns, &c., and were for years of most material service to the whites by standing between them and the wilder Indians on the north. As you know under Act VI of the treaty of 1868 these Santee Indians can take claims, obtain patents for land so taken, and they become on the acquisition of such patents, citizens of the United States. The first patent under this treaty has recently been granted by the General Land Office under a decision of the Secretary of the Interior and other Indians are ready to avail themselves of their opportunity to get title in this way. But this process is necessarily an exceedingly slow one. Some Indians have not yet taken claims, others have not occupied them a sufficient length of time, or made the prescribed improvements; others again cannot yet afford even the small expense of obtaining a patent. Meanwhile, they only occupy their Nebraska land on the uncertain sufferance of a presidential order, and by relinquishing at the instance of this commission, their certain rights in the Sioux reserve, are in danger of being absolutely homeless. Their danger is increased from the fact, that—as I am told—the neighboring whites are anxious for the land and are convinced of the uncertainty of the Indian tenure. It seems, therefore, of the highest importance that the Executive order setting apart this Nebraska land should be confirmed by congress. I would therefore suggest that a clause giving to the Santee Sioux absolutely the land held by them in Nebraska under executive order, be incorporated in the proposed bill, or that a separate bill be prepared to that effect.

2d. I also call your attention to the fact that Act XII of the treaty of 1868 provides that no treaty for the session of any part or portion of the reservation therein described shall be of any validity against said Indians, unless signed by at least three-fourths of all the adult male Indians occupying or interested in the same. The report of the commission shows that this consent has not been obtained. It is of course a matter of opinion whether, if it is desirable or inevitable the proposed division of the reservation be effected, any notice should be taken of this violation of the original treaty.

3d. Act XII of the treaty of 1868 provides that "no cession by the tribe shall be understood or construed in such manner as to deprive without his consent any individual member of the tribe of his rights to any tract of land selected by him, as provided in Act VI of this treaty." Sufficient provision for the fulfilment of this clause does not seem to have been made in the agreement reported by the commmission.

4th. The agreement also seems to contemplate a loss by all the bands treated with, of the privileges and compensation coming to them under the treaty, on its non-fulfilment by one band. This is manifestly unjust and impolitic. The bill should be so worded as to negative such a construction.

It Did its Work.

Recent disclosures in connection with the robbery of the Christiancy diamonds at a hotel in Washington many months ago, seem to leave no doubt that the robbery was planned by detectives, who shared in its proceeds, receiving some $2,000.

The Massachusetts legislature having passed a bill to incorporate the Union Safety Deposit Vault Co., Gov. Butler vetoed the bill. The reason for his action is supposed to be personal animosity to Henry Lee, one of the owners of the vaults and one of the proposed corporators, this animosity dating back to the time when troops were being raised for the war, and Mr. Lee, as a member of Gov. Andrew's staff, interfered with some of Butler's plans.

Can a Woman Keep a Secret?

A prominent physician asserts that a woman can really be made quite ill by trying to keep a great secret; yet, without wishing to cause any illness, but rather to cure it, we have a secret to impart, and that is, there is only one thing that will dissolve the poisonous uric acid which exists in the blood of rheumatic and gouty patients. Of course you are at liberty to tell the secret, which is called Salicylica. It strikes directly at the cause of rheumatism, gout and neuralgia.

—Cincinnati consumes 150,000,000 gallons of water per day, and the Oil City *Blizzard* man says he is fairly wild to know what they use it for. Under ordinary circumstances we would permit this to pass without notice, but when an oil country citizen shows a desire to know something about water it is the duty of everybody who makes a speciality of that subject to loose his flood gates of information. This water is used in Cincinnati for washing beer glasses.—*Rochester Post-Express.*

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.—We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter left Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz; Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stops it at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

What is Diphtheria?

The name is comparatively new, but the disease is an old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way as to stop the air passages. The throat is violently inflamed, and a tough membrance, like leather, is very rapidly formed. Perry Davis's Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.

The total loss of life by the mine disaster at Braidwood, Ill., is now put at ninety. Thirty-four women were made widows, and eighty children orphans, by the accident.

How a New Hampshire Man Lost $50.

Mr. Charles T. Chapman of Hopkinton, N. H., related his experience recently to a reporter. "I had," said he, "laid out $50 for medicine which never did me any good; had heart disease, and Dr. Graves' Heart Regulator was the only remedy I could find. I wouldn't be without it." This remedy is a certain cure for heart troubles.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

THE POWER OF GOOD BOOKS.

BY REV. W. E. GASKIN.

A saying of Carlyle's is: "Of all the things which man can do or make here below, by far the most momentous, wonderful and worthy, are the things we call books."

Lord Beaconsfield said: "We are now in want of an art to teach how books are to be read."

And Carlyle again said: "Readers are not aware of the fact, but a fact it is of daily increasing magnitude, and already of terrible importance to readers, that their first, grand necessity in reading is to be vigilantly, conscientously select; and to know everywhere that books, like human souls, are actually divided into what we may call sheep and goats—the latter put inexorably on the left hand of the judge; and tending, every goat of them, at all moments, whither we know, and much to be avoided, and, if possible, ignored by all sane people."

These three sayings but voice the thoughts of men who best know of the reading matter prepared by the press of to-day. Let me put the thoughts into the following form:

1. Books have a great power.
2. This great power of books is being wonderfully multiplied.
3. This great power is being wonderfully multiplied for good or bad.

In speaking to you on these thoughts, I can best gain my object by directing your attention first to this thought:

Books are good or bad. No doubt there are books, like people, to which the term indifferent can be well applied. But an indifferent man is not profitable company. The time spent in his presence is not well spent. It is wasted time. Just so the influence of indifferent books is bad. The time spent in their company is wasted. By their influence the mind of the reader fails to be stimulated so that he can appreciate the elevating and refining influence of our best books. Very true is this of the trashy, sensational stories that are published and sold thoughout our land. Many of these may not be positively bad, but with their foolish narrative they steal away the scholar's relish for earnest thought; with their unnatural descriptions of life they beget a craving for excitement which is unsatisfied with the routine of faithful work. In ways like these the foolish novel, or the sentimental story, tend to undermine and destroy the work of education. They are secret enemies to the work of our schools. No scholar can do justice to himself who lets his mind be open to the evil influences of that weak literature which is created for the sole purpose of killing time. Not only is *time* killed, but the desire to improve time suffers a decline, and at last dies in the minds of those who continue to waste their hours in aimless reading.

Indifferent books, therefore — books which can show no earnest object for their existence — must be classed with those books which are positively bad by all who would not lose their relish for earnest, faithful work. They are thieves, who unless they are sternly barred out of the mind, will surely steal away the rich furnishings of thought and leave only an empty clutter within.

A second thought:

Good books are abundant. Perfect avalanches of them are pouring from the press to-day. They fill our public and private libraries. They meet us at every turn. Our minds are almost in danger of being overcome with dismay and apprehension, as we look upon the abundance of good books we can read. The danger is, readers will seek to hastily read so much that they will have a smattering of many things, but know little well. The young student, who is intent upon reading only the good, is like one going into a vast garden filled with a thousand varieties of fruit. He needs a guide to lead him to those fruits which are best and help him seek what his taste most approves. And this is what you teachers are seeking to do in this great garden of literature. Emerson, apparently appalled at the accumulation of good books, expressed it as his opinion that the English reader would be the gainer if all the productions of English and American writers were lost, with the exception of Shakespere, Milton, and Bacon. Your present course of instruction wisely takes a somewhat wider sweep. Centering about such works as are represented by the names of Longfellow, Scott, Bacon, and Shakespere, you seek to develop correct tastes in the minds of your scholars, and making them familiar with certain well defined points in English literature, you prepare them to explore other fields, as their subsequent inclination or professson may dictate. You do not expect, in this four years course, to complete a work. You but open a door, lead the scholar in, show by a brief glance the best of books, and then leave the young mind to its own guidance.

And as the final thought:

Good books have great power. Speaking of the right use of books, Emerson remarks: "They are for nothing but to inspire." Milton also says: "Books * * * do contain a potency of life in them as active as that soul whose progeny they are." Volumes might easily be filled with illustrations showing the truth of these words. It is a Book that has reformed the world, making new that which was old and decaying in the civilization of the ancients. There are certain books that have moulded nations. And, speaking of individual lives, I venture to say that no thoughful man exists, but who, if questioned, would confess that his present course of life was largely caused by some one book, that caught and held his attention until its spirit passed into his soul, inspiring him with noble purpose. Such has ever been the power of books that come to us charged with the vitality of some noble spirit.

Would you, parents, have this power for good in your children's lives? Then here is a work for you. Give moral support to these teachers who endeavor to guide your children to that which is best in books. Follow up the work in your homes. Inasmuch as you are able, surround your children with the best standard books. Encourage them to make use of them. Seek to become interested in them yourselves. If you deplore the evil and sin caused by some of our bad literature, seek to implant a taste for the good and true words that have been written, and these vile weeds we would shun will not be likely to find lodgment in your children's minds.

Let me close by quoting words of James Freeman Clarke:

"Let us thank God for books. When I consider what some books have done for the world, and what they are doing, how they keep up our hope, awaken new courage and faith, soothe pain, give an ideal life to those whose homes are hard and cold, bind together distant ages and foreign lands, create new worlds of beauty, bring down truths from heaven—I give eternal blessings for this gift, and pray that we many use it aright, and abuse it never."

An Oyster War.

A despatch of Feb. 27th, from Norfolk, Va., says: "Gov. Cameron, Adjt. Gen. McDonald, and Maj. Carter of the first battalion state artillery, arrived here this evening to arrange an expedition against the illegal oyster dredgers in the waters of Virginia. The Norfolk Light Artillery Blues, with muskets and three cannon, the Norfolk City Guard (infantry,) Gov. Cameron, Gens. V. D. Greener and McDonald, Maj. Carter and Col. Hudgins, with the fourth artillery, will comprise the expedition. They will leave to-night in two steamers. It is understood that arms have already been sent to Onancock, Accomack county, anticipating another war against the piratical oystermen. From all appearances Gov. Cameron has determined that the depredators shall not escape as easily as last year."

News and Notes.

At Murphy's lumber camp, near Katahdin Iron Works, Me., Thomas Violet of Oldtown had his leg broken below the knee on Monday, Feb. 26th. Mr. Murphy had the injured man brought to the camp on a stretcher, bound his leg with bandages, prepared a box for it to rest in and took him to Oldtown, a distance of about fifty miles.

On Feb. 27th, at Dexter, Me., the game warden captured at an express office thirteen deer saddles, in barrels and boxes, addressed to parties in Boston. The shippers will be prosecuted.

Another of Lord Ardilaun's bailiffs, named Flynn, has been attacked brutally and left for dead, near Clonbur, county Mayo, Ireland. Three members of the Joyce family, who were witnesses in the Maamtrasora trial, while protected by five policemen were attacked in a public-house at Churchfield. The police were deprived of their firearms, which were freely used on the Joyces, one of whom was badly wounded.

The report of the commission appointed to consider the subject of selling some of the navy yards says the commission have not had time to collect data from all points and cannot make a full report or recommend the sale of any of the navy yards. The report recommends the sale of the Wallabout Bay lands of the Brooklyn navy yard and fixes their value at $1,530,000; also, the sale of the Chelsea hospital, fixing its value at $500,000.

Accounts from the district of Gweedore, county Donegal, in the northwestern part of Ireland, indicate that the condition of the people is most distressing. The medical officer of the district reports that the children are much emaciated in consequence of the scantiness of their diet and the general use of seaweed as the principal meal. There is a sick person in almost every house, owing to want of food.

In Manchester, Feb. 27th, a man named William T. Hague, who had been in the city but a few weeks, broke open a bureau at his boarding place and abstracted $420, the property of Peter Trudell, the proprietor of the house. Hague, who hails from Boston and claims to be in the show business, was arrested a few hours after the robbery at a house of ill-fame as he was preparing to leave the city.

STATE OF NEW HAMPSHIRE, Rockingham, ss.
By the Judge of Probate for Said County.

TO the heirs at law and creditors to the estate of Betsy H. Berry, late of Newington, in said County, widow, deceased, testate, and all persons interested in said estate. GREETING.

YOU are hereby notified that William H. Hackett, executor of the will of said deceased, has filed his account of administering said estate in the Probate office, for said County, and will present the same at a Court of Probate to be holden at Portsmouth, in and for said County, on the second Tuesday of May next, at 10 o'clock, A. M., for examination and allowance.

YOU are therefore hereby cited to appear at said court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the NEW HAMPSHIRE GAZETTE, a newspaper printed at Portsmouth, in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge,

WOODBURY M. DERBIN, Register of Probate.

Dated Feb. 27th, A. D. 1883.

TREASURY DEPARTMENT,
OFFICE OF COMPTROLLER OF THE CURRENCY,
WASHINGTON, February 3 th, 1883.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that The National "Mechanics and Traders Bank of Portsmouth," in the City of Portsmouth, in the County of Rockingham, and State of New Hampshire, has complied with all the provisions of the Act of Congress, to enable National Banking Associations to extend their corporate existence and for other purposes, approved July 12th, 1882.

Now, therefore, I, John J. Knox, Comptroller of the Currency, do hereby certify that The National Mechanics and Traders Bank of Portsmouth, in the City of Portsmouth, in the County of Rockingham, and State of New Hampshire, is authorized to have succession for the period specified in its amended articles of association, namely, until the close of business on February 24, 1903.

Currency Bureau, Seal of the Comptroller of the Currency, Treasury Department.	In testimony whereof, witness my hand and seal of office, this 24th day of February, 1883. JOHN JAY KNOX, Comptroller of the Currency. No. 401.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing medicinal agents which do positively cure scrofula and eradicate it from the blood.

DEXTER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.:
Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in Hood's SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

POLICE COURT--BATCHELDER J.

WEDNESDAY, Feb. 28th.

There was a great "boom" in police court business on Wednesday. The first batch of sinners were the promoters of the row in a Daniel street saloon on the previous evening, as reported in the CHRONICLE of Wednesday, and included Andrew Jackson Davis, who lives on the Sheafe farm, near the Plains; his son, George A. Davis; and a French Canadian, named Frank Cowin, who works on the farm. They were disposed of as follows:

A. J. Davis, drunk, fined $3, costs $7.67; paid.

Frank Cowin, assault on Robert Anderson, fined $3, costs $5.36; paid.

Frank Cowin, assault on John Marr, fined $3, costs $7.63; paid.

G. A. Davis, assault on Robert Anderson, fined $3, costs $5.36.

G. A. Davis, assault on John Marr, fined $5, costs $8.44.

A thirteen-years-old boy who was with the brawlers at the time of the row was allowed to depart without a trial.

In the afternoon five residents of South Seabrook were brought in by Sheriff Kent, charged with complicity in the rowdyism displayed on an Eastern railroad train on Saturday evening, Feb. 24th, between Newburyport and South Seabrook, as before reported in this paper. The members of this crowd were disposed of as follows;

Calvin Eaton, assault on John T. French, fined $8, costs $13.70; paid.

Calvin Eaton, assault on John W. Dow, fined $5, costs $13.70; paid.

Calvin Eaton, assault on Samuel S. Beckman, case continued to March 12th, accused being required to recognize in $100 for his appearance at that time.

Jabez Eaton, drunk, fined $3, costs $12.93; jail in default of payment.

Jabez Eaton, assault on John W. Dow, fined $5, costs $11.13; jail in default of payment.

Frank Merrill, drunk, fined $3, costs $13.70; paid.

Levi W. Collins, drunk, fined $3, costs $15.50; paid.

Scott E. Dow, charged with drunkenness, was lucky enough to get clear.

"LONGFELLOW DAY."

"Longfellow Day" at our high school deserves more than a passing notice. The marked ability in many directions calling for special attention,—the entire treatment of Longfellow and his works, showed the master hand. The essays and recitations were of no mean ability, and those we are assured were essays written in the ordinary line of work in English literature, and in some cases, required no correction.

The short selections from the various works of Longfellow, as given by each pupil, were of their individual choice, and surely nothing could better evince a growing cultivation of noble sentiment than the selections made. The essays opened with the ancestry of Longfellow, and from then to his death, every period of his life and work was happily portrayed. Each of his longer poems had a brief argument, followed by recitations. The essays on the style, versification and imagery of our poet evinced research, scholarship and conception. The closing scenes of his life were feelingly and poetically described.

The musical portion of the exercises was select and well rendered. The chorus of boys reflected great credit, in their happy combination of conception and effort, on both teacher and pupil. Indeed, the whole was a beautiful weaving of warp and woof, and the fabric was unique — choice, fine and perfect. The day will long be remembered, and the teachers have the sincere thanks of many friends for their beautiful tribute to the lamented Longfellow.

GOSSIPS SAY

That "harbingers of spring" are now daily observed on the side-walks in the shape of the numerous boy with marbles and the adventurous girl with roller skates.

That H. M. Putney, collecter of internal revenue for the district of New Hampshire, and his deputies, H. W. Putney, J. E. Dodge, F. C. Faulkner, and Col. J. E. French, and Postmaster Stevens of Manchester, were in this city on Wednesday of this week, on a tour of inspection of the several breweries and of Ward's distillery.

That the Manchester gentlemen found Portsmouth to be quite a lively Nineveh, after all.

That "Put" is a right good fellow, even though he did "give us away" on the curfew business.

That Tuesday, Feb. 27th, was the most disagreeable day the Portsmouth milkmen have experienced this winter.

That all the officers of the internal revenue service in this state met in Portsmouth custom house Feb. 28th, and that it was the first time they were ever all together.

That the city government will wrestle with the north millpond question this evening.

That the ice in the two millponds is thicker than ever known before.

That some of our legislative solons are getting ready to spread themselves.

That how they stand on the senatorial question is what no feller can find out—they don't know themselves.

That the *Times* man feels very sore to think that nobody will tell him what the "gossips say."

Now is the winter of our discontent made—something else.

The brief address made by Rev. W. E. Gaskin to the high school at the close of the exercises commemorative of Longfellow, was so satisfactory to the adult hearers that he was earnestly requested to permit its publication, and it will be found in another place in this paper. There is much common-sense food for thought in it, expressed in few words.

Mr. Editor: I was quite glad to see among the items which I read from your paper on the morning of Feb. 27th, the suggestion as to a hospital for poor persons. There are occasions when a domestic who has relatives in our city, or many a worthy person, could be greatly relieved by such an institution, and I trust that the timely hint in your columns will not be lost upon our community. A house at a moderate cost could doubtless be obtained, and the charity would be a commendable but not a costly work for our people. M. D.

The police court did a big business on the last day of February, the fines and costs collected amounting to $137.32. Of this sum one customer contributed $40.40, and has still another charge against him; another man presented the city with $19.99; and another went to jail $52.06 worth. Rum did it.

Mr. Geo. Washington Patch, the popular landlord of the "Centennial" house at Sea point, Gerrish's island, Kittery, entertained about seventy-five of his friends on Wednesday, Feb. 28th. The genial host, after making a very appropriate speech and in a feeling manner alluding to his relations with the company present, and expressing the hope that all the company were his friends, invited them to partake of the viands on the table, which consisted of an elegant clam chowder, of which there was abundance, with coffee and pickles without stint. All present turned to and did full justice to the repast, and all agreed that George was hard to beat when he chowdered his friends; stories were told and a general good time was had; and if ever George wants to have a *flag raising* at the Centennial, we think that one of the party who was present on this occasion might be induced to make the opening speech.

A full attendance is requested at the meeting of Rockingham Lodge, No. 37, I. O. G. T., this evening, as business of special importance will come up.

The Hot Springs, Ark., *Daily Sentinal* of Feb. 24th says: "Hon. Frank Jones and wife, Hon. M. Eldredge and wife, Col. J. H. Broughton and wife and Judge D. E. Leavitt and wife, all of Portsmouth, N. H., arrived last evening and are registered at the Arlington."

Two of our citizens who are interested in the establishing of a silver-plated manufactory here, went to Boston on Wednesday, the 28th ult., to interview parties there in relation to the matter.

The President on Feb. 27th nominated Jefferson W. Sargent to be collector of customs for the district of Kennebunk.

There was no work in the department of construction and repair at the navy yard on Wednesday.

Mr. John Hall, who died in Saugus, Mass., Feb. 26th, was a native of this city, but left it many years ago. In early life he made several whaling trips out of New Bedford, and later was long a resident of Boston, and a well known member of the fire department of that city in the days of the old hand-tubs. He leaves a wife and one son.

Rev. Rufus W. Clark, D. D., who many years ago was pastor of the Congregational church in this city, but who for more than twenty years past has been settled over the First Reformed church of Albany, N. Y., is about to retire from the active work of the ministry, on account of the infirmities of advancing age. Dr. Clark has been in the ministry forty-two years.

Mr. D. Horace Holman, formerly of this city but now of Lewiston, Me., has been appointed assistant adjutant general on the staff of Commander Elijah M. Shaw, Grand Army of the Republic, Department of Maine.

It is said that at the Kearsarge mill fire, at Portsmouth, N. H., two years ago, more property in money value was destroyed than has been added to the city in improvements or buildings since the close of the war for the union. This may be exaggeration, but it is not a great one. But Portsmouth can live for years on her beauty and her past history, the more easily because very many of her citizens have large bank accounts.—*Boston Post.*

The schooner Charles L. Mitchell, ashore on Fisher's island, Long Island sound, is a total wreck, her whole bottom being stove out.

The senate on Feb. 28th confirmed the nomination of Martin Parry Kennard to be assistant United States treasurer at Boston for another term.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with relics in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 96 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

BOSTON, October 19, 1870.
R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in youth or early life may be alleviated and cured. Those who doubt this should satisfy themselves by purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Charles Larrabee, son of Gilbert Larrabee of Machias, Me., while working in the logging woods on Monday, Feb. 26th, received the accidental blow of a fellow-laborer's ax, which struck him on the foot, completely severing it at the instep. He was conveyed by his companions to Machias, a distance of more than thirty miles, with the mercury nearly at zero, before medical aid was obtained.

Catarrh of the Bladder

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

A suit to recover $10,000 damages for slander has been commenced in the United States circuit court against Dr. Guy H. Gardner of great Falls, by Eliza S. Freeman of Norton, Mass., a single woman. The declaration in the writ is twelve feet in length. The writ is returnable at the next May term. Miss Freeman was nurse in a family at Great Falls, where the doctor was the attending physician, and he treated Miss Freeman.

The first real skin cure ever discovered was Dr. Benson's Skin Cure. It cures all rough and scaly skin diseases and makes the skin smooth and healthy. It is an ornament to any lady's toilet.

Mrs. Rolanda S. Rowell of Manchester fractured an arm and sustained other serious injuries by a fall down stairs recently.

The Commander-In-Chief,

of the Grand Army of the Republic, Major George S. Merrill. Few remedies are better known in this vicinity than Sulphur Bitters, their sale has been very general throughout this section, and the number of reliable and well attested cases of beneficial results and recovery by their use, is large and beyond dispute.

Greenfield is a modest town, but feels that it is proper to boast of two things, viz.: 100 cases of measles and forty residents who are seventy years old and over.

A GOOD INVESTMENT.—One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

A box car at Contoocook station accidentally ran into the engine house on a recent morning, demolished a large elevated water tank, and smashed the further wall of the building.

Can't Get It.

Diabetes, Bright's disease, kidney, urinary or liver complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only harm you.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's Industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

WHEAT BITTERS.

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These take in themselves a beat, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one miserable alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Drawing the Line.

The recent death of a woman who was the scourge of the Washington snobocracy, recalls the fact that one of the leaders of ton in that city was the daughter of a French cook, who, having worked her way successfully to the top round of the social ladder, was of course rabidly aristocratic and violently exclusive.

Talking to the snob-scourge one day this lady forgot the lamented *chef de cuisine*, her father, and complained feelingly of the mixture of classes in society, against which she said a "line must be drawn somewhere."

"Would you make it a sir-line or a tender-line?" sweetly inquired the exasperating snob-scourge. History does not record the answer made to this heartless allusion.

Some of Them Have Two Shirts?

When a democratic editor writes a two hundred line editorial on "The Susceptibility of the African Race to the Influences of Civilization," it means his colored washerwoman has agreed to take out her bill in old exchanges in lieu of actual cash.—*Texas Siftings.*

Gobble, gobble, gobble, Bah!—*Buffalo Express.*

"Bottle Train."

The famous "jug train" into Rutland from Whitehall, N. Y., has been put far into the shade by the "bottle train" out of Montreal, says a Vermont paper. The people returning from the Dominion carnival to the "States" took the occasion to bring several quart bottles each, of his or her favorite beverage. On the car the writer of this rode, one man had seven bottles all uncorked "for use," and because there were no two bottles of a kind the custom house officials were powerless. A couple of lads aged about sixteen, with girls accompanying, were possessed of sixteen bottles of "the ardent," in "use" because uncorked. Estimates were made of the amount of liquor on that particular car, and it was thought there was more than a barrel aboard.

This life is too full of work, of duty, and of pleasure to be wasted. But every body don't think so, or they would not trifle with a cold, or a cough, when Dr. Bull's Cough Syrup, the only reliable remedy, can be procured for twenty-five cents.

—"Neuralgia" is the name borne by a charming girl of lows. Her mother found the word on a medicine bottle, and was captivated by its sweetness.

Asst. chief engineer Matthew Brady, of the San Francisco fire dept., says: "I have been subject to an aggravating pain in my chest for over four years. Two weeks ago I commenced using St. Jacobs Oil; it has cured me."

—It was Chaucer that appropriately said: "There is nothing new but what has once been old." Chaucer evidently knew hash when he saw it.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

—One reason why so few travelers lose their lives at the burning of hotels, says the Detroit *Free Press*, is that the great majority of them stay out nights until it is too late for an incendiary barkeeper to burn a hotel.

"For the delicate and complicated difficulties peculiar to women, Lydia E. Pinkham's Vegetable Compound is the sovereign remedy.

—"Yes," said the tidy housekeeper, meditatively, "I think I will have to put some ashes on the pavement. Half a dozen people have broken their legs there this month, and to-day I came very near slipping down and spilling a whole dozen of eggs."

***"Old birds are not caught with chaff." Therefore seek and find the pure golden grains of health in Kidney Wort. Women, young or old, married or single, if out of health, will be greatly benefited by taking Kidney-Wort.

—Heard in a boudoir: "Will you wear a rose in your hair?" "No, indeed: roses have become too disgustingly cheap. I shall wear a strawberry set in a cluster of new Bermuda potatoes."

In the *Hop Plaster* are united the virtues of fresh hops and the strengthening and stimulating balsams, and it's cures of weak back, pain in the side, rheumatism and neuralgia or pain in the chest are simply marvelous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

—This item of Washington news will read queerly in history: "Books were placed on the free list, notwithstanding the protest of the New England senators."

"The Hindoo widow," chants the Boston *Transcript*, "is the only one that cremates. The others remate." A lady afflicted with a genuine and nauseating case of catarrh, whether she is single or married, probably longs for cremation (of the disease, if not of her person). The sickening, revolting breath, foul discharges, racking pains and other characteristics of catarrh, render life a burden. Ely's Cream Balm is a reliable, fragrant, yet certain cure for all such cases. This balm is not a liquid or snuff, and is easily applied. "My head and throat ached so severely from catarrh," said Major Downs, Military Instructor, Mt. Pleasant academy, Sing Sing, N. Y., "that I was obliged to give up everything and keep quiet. Ely's Cream Balm cured me." This exquisite preparation will cure any case of catarrh. 50 cents.

—The champion mean man of Boston was seen in a horse car a few days ago. Noticing that his neighbor, evidently a hardworking, poor woman, was about to pay her fare with six cents, he proposed to her to use one of his tickets and give him the money, remarking that he might as well make the profit as allow the company to make it. And the most remarkable part of the incident was that the woman accepted the offer.

"In a Decline."

Dr. R. V. Pierce: Dear Sir—Last fall my daughter was in a decline and everybody thought she was going into the consumption. I got her a bottle of your "Favorite Prescription," and it cured her. Mrs. Mary Hinson, Montrose, Kansas. Of all druggists. *b*

—The first thing a city man does when he becomes rich is to buy a farm, move into the country, and bankrupt himself trying to raise enough to keep him from starving. A rich countryman, on the other hand, buys a brown-stone front in the city, and becomes interested in stocks with a like result.

Answer This.

Can you find a case of Bright's disease of the kidneys, diabetes, urinary or liver complaints that is curable, that Hop Bitters has not or cannot cure? Ask your neighbors if they can.

—"By jove, there goes the last boat!" said Brown, as he reached the ferry the other evening, after a little racket at the "lodge." "All the better," said Binks; "we'll have some more circus, and we won't go home till morning." "Yes, that's all very fine," replied Brown, uneasily, "but you haven't a wife to encounter when you go home. I tell you s'cold day when I get left."

Try a bottle to-day of the invalid's friend, "Wheat Bitters." It may save your life; it has saved thousands. Your druggist has it.

"Rough on Corns."

Ask for Wells' "Rough on Corns," 15c. Quick, complete, permanent cure. Corns, warts, bunions.

—"Reach me down that Webster, Pat," said a lately-elected San Francisco judge to his clerk: "One of thim dog-goned thaving newspapers has been libelling me, and, be jabers, I won't stand it. The thaving blackguard calls me a forensic light."

"Dr. Benson's Celery and Chamomile Pills cured my wife immediately of severe neuralgia." H. M. Cocklin, Shepherdtown, Pa. 50c. at druggists.

—Poet—"But, my dear sir, it is now four years since you accepted my epic, and no steps have yet been taken to publish it." Publisher—"Don't be in a hurry, young man. Homer had to wait more than three thousand years before he got into print, and you will hardly claim that your poem is an Iliad."

"Penny wise and pound foolish" are housekeepers that neglect to use James Pyle's Pearline Washing Compound, which is in every way superior to soap.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.—We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but when you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter left Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz: Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stops it at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

E. A. KIMBALL.

Pure and simple poems, many of them religious all in smooth metres.—*The Independent.*

Some of these are real flowers of poetry.—*Golden Rule.*

Reflects the thoughts of one who has an interest in the world about her, and sees in nature that beauty and loveliness that art cannot obtain.—*Haverhill Bulletin.*

Among these poems is "Rye Beach," singing of childhood's early recollections, and "Star Island," in which is given a reminiscence of the sad loss of Miss Varrell of Rye.—*N. H. Gazette.*

The author has a remarkable gift.—*Merrimee Valley Prize.*

What is Diphtheria?

The name is comparatively new, but the disease is an old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way as to stop the air passages. The throat is violently inflamed, and a tough membrance, like leather, is very rapidly formed. Perry Davis's Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.

At Lem Stansberry's place, four miles from Evansville, Ind., Feb. 28th, a negro named Edward Cooper killed five persons with an axe. Cooper's divorced wife, a white woman, lived at the place, and was intimate with one or more of the men, which led to the crime. Only one inmate of the house escaped, a man named Resort, who fled in a skiff.

Buy "G. O. Taylor Old Bourbon" if you want a pure whiskey, and take no other. The genuine bears the signature of Chester H. Graves & Sons on the label and over the corks. Druggists and grocers have it.

That Alleged Lease.

That venerable and much-worn story of the completion of the negotiations for a lease of the Eastern railroad by the Boston & Maine is again on duty. One or two of the city papers have gone so far as to describe with minute circumstantiality the terms of the lease, and one has stated that a memorandum of the lease has been signed, and only awaits ratification by the directors. There appears to be nothing to justify any statement of this kind, except the fact that the committee of conference, chosen by the directors of the two roads, has been in consultation frequently, and the impression that "where there is so much smoke there must be some fire," or, in other words, that so much consultation must lead to some result. But President George C. Lord of the Boston & Maine, who is also a member of the committee of conference, said yesterday afternoon that the committee was not prepared to report, even to the board of directors, and that he had no information to give anyone regarding the reported agreement. Hence it will be safe for people generally to discount any stories of a virtual settlement of the matter for some time to come.—*Boston Advertiser.*

It is not at all probable that the president of the Boston & Maine road will be likely to divulge the plan of operations for achieving "a consummation devoutly to be wished" by the Boston & Maine management.

A glance at the situation will show how matters stand.

The Boston & Maine road has no considerable amount of business north of Lawrence, as to-day that traffic goes over the Lowell railroad, with which road and the Eastern it now shares the local business of Lawrence. The White Mountain business of the road is inconsiderable, as the Dover & Winnipesaukee road, with the steamer Mount Washington, etc., cannot more than pay expenses of operation. The business at Portland and the east also goes largely by the Eastern. Now the B. & M. managers want to establish a route over the line to Great Falls or Rochester, and then over the Portsmouth, Great Falls & Conway road to the White Mountain notch; and they want to do the great freight business coming over the Maine Central and its tributaries. The policy of the B. & M. then is, to obtain a lease of the Eastern road long enough to divert this traffic, and then if some one brings a suit to declare the lease invalid, and the courts so hold, this corporate Barkis will be willing to give it up as a squeezed lemon.

The negotiations to-day pivot upon the probabilities of proper legislation being obtained from the legislature of this state at the June session. The counsel and committee of the Boston & Maine now read with considerable interest the act passed by our legislature in 1867, which was prepared in the interest of the B. & M. as against the Concord railroad, and upon which act the Supreme court of New Hampshire have expressed an opinion in a suit when the proposed or previous relations of the Eastern and the Boston & Maine railroads were called in question.

Now desperate diseases require desperate remedies. The leasing of the Eastern by the B. & M. would of course be followed by a retrenchment policy, carried out by a somewhat narrow view of its duty to its patrons. The Eastern has been generous and broad in its treatment of its numerous summer passengers, furnishing excellent rolling stock, attractive stations, and frequent trains. The B. & M., in order to pay its dividends, has been compelled to use its ancient coaches, far behind in comfort and convenience those of any trunk line entering Boston. But it is not in this respect that the people of Lawrence, Newburyport, Dover, Salmon Falls, Rochester, Great Falls, Wolfeboro, North Berwick, Kennebunk, Saco, Biddeford, Portland and the state of Maine, will have the most reason to complain. Their grounds of objection will be found in advanced freights, less accomodation as to carriage, less promptness in delivery, and indeed in all the disadvantages of being subject to the power of the Boston & Maine railroad, from which no rival or competing route will afford a way out, save where ocean possibilities can in a measure aid them.

The question occurs then, are the people of New Hampshire ready to have their representatives in the legislature legalize a monopoly, which, once brought into existence, may last for all time, and cause the manufacturing interests of the towns and cities on the line of these roads to be as helpless as are those in regions where Vanderbilt or Gould rules supreme? This is a subject which comes home to all business men, boards of trade and manufacturers, as well as shippers and receivers of freight, between St. John and Boston, and the responsibility seems likely to rest upon the representatives in the legislature from the territory embraced in the thirty-seven miles of rail over which the Boston & Maine road runs in New Hampshire between the state lines of Massachusetts and Maine.

News and Notes.

Charles H. Cate, a married man thirty-seven years old, long separated from his family, on Wednesday evening, Feb. 28th, entered the room of Mrs. M. S. Anderson, a milliner of Lawrence, Mass., struck her over the head, and as she ran into a closet fired through the door with a revolver, hitting her in the leg. Thinking he had killed her, as she fell, he then put a bullet into his own head, and died in less than an hour; the woman is not seriously hurt. Mrs. Anderson is a widow, without children, her mother living in Manchester. She and Cate formerly kept company, until she last summer caused his arrest for blackmail, but the case never came to trial, he paying her a large sum. Since then the couple have been frequently seen in company, and last week visited the theaters in Boston together.

The schooner F. McGeear, at New York from Charleston, reports that on February 22d, when in the gulf stream, she passed a vessel of about 800 tons, bottom up, apparently some time in that condition. On the 26th, when between Hereford Inlet and Absecom, she passed a sunken three-masted schooner with her spars about ten feet out of water.

A dispatch from Malta says the steamer William Dickinson has been abandoned. Thirteen of her crew are missing. Fourteen were saved.

Henry E. Moulton, twenty years old, was found dead in a low boarding house in Worcester, Mass., Feb. 27th. A woman who occupied the room with him has disappeared. He had recently been in jail as a drunkard and vagrant.

Baron De Javary, the Brazilian minister at Rome, is dead.

Purser Whitty and Dr. Cook of the steamship Nova Scotian were again brought before Commissioner Rand, at Portland, Me., Feb. 28th, and bound over in $500 each for appearance at the April term of the United States district court for smuggling opium. Dr. Cook, who got the purser into the scrape, deposited $500 which released the purser, and lacking other means went to jail himself.

Lydia Camp, alias Annie Rose, a colored woman of bad character, is under arrest in Boston for killing Henry T. Brewster, a respectable colored man, by shooting him in the head.

Mrs. Nellie Welsh shot at three burglars who were plundering her apartments in New York city, Wednesday morning, Feb. 28th, shooting one in the face. They escaped, but the wounded man was subsequently found in the hospital.

Hickman, one of the convicts who killed Gant at Helena, Ark., was shot by his pursuers, and another of the gang has been captured.

Several feet of snow have fallen at Wausau, Wis. The roads are blocked, and business of all kinds is at a standstill.

A challenge has been issued by Hamm and Conley of Halifax to Hanlan and Lee for a double scull race for $2000 a side.

An investigation of the Manhattan Fire Insurance company's accounts in New York shows a deficiency of between $30,000 and $40,000. There seems to be no doubt that the author of the deficiency is the missing ex-secretary, Louis P. Chinman.

Jacob Hall, thirty-seven years old, was found dead in the paper mill of Hollingsworth & Co., in Brockton, Mass., Wednesday morning, Feb. 28th. The back of his head was broken in, and his clothing torn. It is supposed he got caught in a shafting early the previous evening, as his watch stopped about ten o'clock.

The fire commissioners of New Haven, Conn., have issued orders to the members of fire companies to give a military salute to the chief fire marshal and other officials on meeting them. The fire commissioners of New Haven are evidently a pack of asinine snobs.

Congress has passed a special act granting the widow of Rear Admiral John C. Beaumont, U. S. N., a pension of $60 a month.

Gilman Hooper, a man about forty-five years of age, cut his throat in Saco on Tuesday morning, Feb. 26th, and died on the 28th. Hooper had lived unhappily with his wife, whom he abused and was unfaithful to, and it was on account of his domestic troubles that he killed himself.

AROUND HOME.

Mr. Charles W. Andrews is to have the telephone connect with his place of business, No. 4 High street. Mr. Andrews commenced a few years ago to supply lobsters, fresh fish, clams, etc., to families in the city on orders. By hard work, persistence and close attention to business he has largely increased his trade, and now has an inviting market where all the varieties in his line of business can be found; and he sells below the usual market prices.

Sea-weed in great quantities has been thrown upon the beaches at Rye this winter, but only a small part of it has been saved, owing to the cold weather. Hauling weed from the beach is poor fun when the thermometer is near zero and a brisk gale is blowing. Boat fishing from the beach has also been greatly impeded during the season by the very unfavorable weather.

Rumors have been current, for a day or two past, that the body of Mr. Thomas R. Moore, who died a week or two since, had turned in the coffin. To set people who have thought such a thing possible at rest, we have been requested to state that the tomb has been visited, and the body was found in the position in which it laid when the coffin was closed.—*Times.*

At a meeting of the Grand Commandery of Maine, United Order of the Golden Cross, held in Portland on Wednesday evening, Feb. 28th, Horace Mitchell, Jr., of Kittery Point, was elected grand commander of the state, and E. C. Neally, past noble commander of Olive Branch lodge, of Kittery Foreside, was elected representative to the Supreme Commandery of the order, which holds its annual meeting at Knoxville, Tenn., on the 15th of May next.

There is a dispute as to whom the town of Eliot was named for. One of the Boston papers says it was one Eliot Frost that named it, and gave a lot of land for the privilege. But this is disputed, and it is asserted that the town was named for Robert Eliot, first of Newcastle, afterward of Kittery, a graduate of Harvard college, and one of the most prominent men in the early history of Kittery. Maj. Andrew P. Fernald represented the inhabitants of the new town (now Eliot) before the Massachusetts legislature, and suggested the name in honor of Robert Eliot.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain, very truly yours,
SARAH C. WHITTIER

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, March 1st, Mayor Treat in the chair:

Present the full board.

The records of the last meeting were read and approved.

Bills to the amount of $8000 were approved.

Richard Cate, of Dover, presented a claim of $150 for a horse killed, as alleged through a defect in the highway, and in consequence of there being no barrier at the head of Sise's wharf; referred to the committee on claims.

A photograph of the city of Portsmouth, Ohio, with a letter from Mayor George W. Crawford of that city, was accepted, and Mayor Treat was requested to acknowledge the same.

The state fish and game commissioners called attention to the provision of the law making the appointment of fish and game wardens by towns and cities obligatory, under a penalty of $50.

In convention, John W. Caswell, Andrew B. Sherburne and Charles W. Norton were elected fish and game wardens.

The report of the chief engineer of the fire department was accepted and ordered to be printed in the city book.

Alderman Martin, for the committee on the north millpond, said they were not ready to make a full report; but the Eastern railroad would lease the pond to the city at $500 a year, though better offers had been made. The mayor was authorized to hire the pond for five years, at the annual rental specified.

The committee on police, in the case of Assistant Marshal Charles A. C. Gray, reported recommending that he be dismissed from the force.

The printing of 1000 copies of the city accounts was referred to the committee on printing.

Voted, that the raising of $19,000 required to pay city bonds due in April, be referred to the committee on finance to draw up an ordinance to meet the exigencies of the case.

Adjourned for one week.

GOSSIPS SAY

That the Goodwin mansion at Gerrish's island, the most elegant residence in the town of Kittery, will be finished this week.

That the unassuming and gentlemanly private secretary of one of Portsmouth's prominent capitalists receives a salary of $5000 per year.

That this sum is the salary of the average congressmen,—and that while the average congressman is greatly overpaid, the gentleman above referred to isn't.

That Samuel Barrett assumed the position of general freight agent of the Concord railroad on the first inst.

That Jos. G. Knights, formerly superintendent of the Portsmouth shoe factory, who was dangerously ill a few weeks ago, is well again and at his business in Lynn.

That Mr. John Swett, formerly in the grocery business in this city, and a member of several relief organizations in Portsmouth, is very ill at his residence in Malden, Mass.

That our city can boast of more generals—commissary generals—than any other city or town in the state.

That many improvements to residences about town will be made this spring, and that carpenters and house joiners are quite busy even at this inclement season.

That the propriety of abolishing the names of the steam fire engines, and designating them by their numbers only, is being discussed.

That such action would be sensible, as orders are never given to the engines other than by their numbers when they are in actual service.

That the next piratical expedition organized by the "Algerines" of South Seabrook will probably not be directed against the passengers on an Eastern railroad train.

That a former hardware dealer in this city is now advance agent of an Uncle Tom's Cabin troupe on the road in Vermont.

That evening tea parties are quite the thing in fashionable society, and that several prominent ladies have entertained that way this week.

That the interest with reference to the establishment of a hospital in this city is increasing, especially among our philanthropic ladies.

That a silver-gray fox was shot on the Gosling road, Newington, on the 26th ult.

That Ex-Police Officer Besselievre will remove with his family to Philadelphia.

That the best time of the season will be had at Congress hall next Tuesday evening, when the grand apron and necktie party will take place.

That Postmaster Peirce returned on Thursday from a visit to Albany, N. Y.

It is reported that the old hulks in "rotton row" at the navy yard are to be removed, and moored at the dry dock piers, to enable the Constitution to be moored where the Sabine formerly was, at the time the latter vessel was used as a schoolship.

The schooner Ruth Robinson, which arrived at the Concord railroad wharf Feb. 26th, from Wood's Hole, Mass., brought a cargo of 750 tons of guano, of which 1200 barrels, 1000 sacks of 200 lbs. each, 3000 sacks of 100 lbs. each, and 865 sacks of fifty lbs. each, were for landing here, the remainder of the cargo being destined for Portland. The portion for this port goes to Mr. H. A. Blake of Sutton, Vt., who distributes it among the agents in New Hampshire and Vermont. Mr. Samuel J. Gerrish is the agent in this city.

On Thursday afternoon a horse belonging to Mr. Hosea Q. Mason started on a runaway from the upper part of Middle street, going through Congress and into Market street, where he struck a sled at the foot of Green street, clearing himself of the sleigh, and then turned into Call's lumber yard, where he was stopped by Mr. Charles Tetherly. When caught he had the whiffletree and cross-bar of the sleigh dangling about his heels, but fortunately escaped injury. The forward part of the sleigh got pretty well demolished, shafts, harness, dasher, etc., being broken. [After the foregoing was in type we were informed that the horse started to run near Ald. Caswell's residence, and threw out Mrs. Mason, another lady and a child, without seriously harming either.]

Jabez Eaton, the South Seabrook rough who was committed to jail on Wednesday, Feb. 28th, for non-payment of $32.06, fine and costs assessed against him in the police court for his share in the drunken ruffianism displayed on an Eastern railroad train Saturday evening, Feb. 24th, was liberated on the 1st inst., the needed funds having been supplied.

On Thursday morning, the 1st inst., at Salem, Mass., Mrs Lydia Lane, a widow lady of Greenland, dropped dead from heart disease at the residence of James Shatswell, Esq. She was about fifty-five years of age.

The great question around town on Thursday evening was, "Who held the fortunate number which drew the big prize in the Canadian lottery?"

A needle was set floating in a globe of water in a Market street place of business some time ago, and on the first inst. had been floating twenty-one days.

The persons who went to Boston on the 1st inst. in the interest of the proposed silver-plate manufactory, report everything favorable.

The *Humane Journal* of Chicago offered three prizes for the best description of a picture published on its first page last month. Miss Anna Abbot Throop, of Portland, Me., won the first prize, Harry G. Marvin of Portsmouth the second, and William D. Tanner of Starke, Florida, the third. The *Journal* offers similar prizes for essays, next month.

The committee on railroads of the Maine legislature, having considered the proposition to allow the consolidation of the Boston & Maine and Eastern railroads, reported "leave to withdraw."

The number of entries at the custom house during the month of February was eighteen, — five steamers and thirteen schooners. Four vessels brought 3851 tons of coal, seven vessels brought fish, and one cargo each of lumber, lime and phosphate arrived.

One hundred and five names were entered on the police books in February; of these thirty-three were lodgers, twenty-nine drunks, and twenty-eight assaults. The amount of fines and costs collected exceeded the total for any month within the experience of the present city marshal.

Ladies in want of Hamburg edgings, or anything in that line, can find what they desire at M. C. Foye's, No 26 Market street.

A man who came into this city on Thursday, the 1st inst., from Wells, reported that on the morning of that day people on the beaches at Wells and York could see a vessel on shore at Boon island, and men working at her. It was supposed to be the wrecked schooner Teal, of St. John, N. B., previously reported several times as having been seen floating bottom up in the vicinity of the island.

An Indian family, consisting of husband, wife, four young children and a pet cat, attracted considerable attention at the Eastern railroad station on Thursday last. They were a part of the company that camped out in Frenchman's lane last summer, and during the winter the husband has been at work in Newington, chopping wood for Mr. Charles H. Hayes, where he met with an accident, cutting the instep of one of his feet, disabling him from labor. He had built a little hovel of boards in the woods, which made a comfortable home, and was loath to leave it, but being unable to work he was compelled to start with his family for his home in Nova Scotia. The poor people were kindly cared for by charitable persons, and sent on their way with lightened hearts.

The gross earnings of the Eastern railroad for January, 1883, were $247,033, an increase of $22,408 over the corresponding month in 1882, when the total was $224,625.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

Cuticura

THE NEW BLOOD PURIFIER

Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, as he has been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

SALICYLICA.

No more Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.

Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 50; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Antiglass.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

—Professor Young of Princeton college says: "Take a railroad from the earth to the sun, with a train running forty miles an hour without stops, and it would take about 265 years and a little over to make the journey." He estimates the fare, at a cent a mile, to be $930,000. These figures kill the project.

Catarrh of the Bladder

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

—Some noted dairyman has just given out that "the present system of handling milk should be reversed." We do not think, however, that it will make any difference to consumers whether the man goes to the pump first and the cows afterward, or follows the old plan of stopping at the well on the way back from the barn.

The first real skin cure ever discovered was Dr. Benson's Skin Cure. It cures all rough and scaly skin diseases and makes the skin smooth and healthy. It is an ornament to any lady's toilet.

—It is related of Gustave Dore that many years ago, while on a tour in Switzerland, he happened to lose his passport. Arriving at Lucerne, he asked to be allowed to speak to the mayor, to whom he gave his name. "You say that you are M. Gustave Dore," replied the mayor, "and I believe you; but," he added, producing a pencil and a piece of paper, "you can easily prove it." Dore looked round him and perceived some women selling potatoes in the street. With a few touches he cleverly reproduced the home scene, and appending his name to his sketch presented it to the mayor. "Your passport is perfectly in order," remarked the official, "but you must allow me to keep it as a souvenir and to offer you in return one in the ordinary form."

—There is a prosperous farmer in Kent county, Del., named Jonathan Longfellow, who, as Artemas Ward would say, is a "numerous father." He has just taken unto himself in his seventieth year a third wife forty years his junior. Number one bore him six children, and number two the amazing total of twenty-two. The proper cultivation of so many olive branches was an expensive matter, but being by nature thrifty and ingenious, Mr. Longfellow hit upon an economical device which has served him well. He built a school house for his family, and employed a young woman to superintend the wholesale education of his children; and now, his second wife having departed from the world which she had done so much to populate, he has married the teacher.

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 57 terrible scrofulous sores.

—An advertiser in the Aroostook *Pioneer* announces: "I am still to be found at my palatial residence on King street, where I shall dispense my favorite 'Bow and Arrow' remedies for the healing of all the ills that flesh is heir to, and 'when the spring-time comes, gentle Annie,' I purpose lifting up my voice in dulcet strains upon the street corner in elucidation of above points. Suffice it to say at this writing, that I am the genuine half-breed Indian doctor of the Penobscot tribe, descended from Dr. Lola, whose pedigree dates back two hundred years into the misty realms of antiquity, and who was the original Indian doctor of the Penobscot Indians. I also wish it to be distinctly understood that I was *not* a scout with Kit Carson, Jr. Come and see me, and I will do you good,"

Can't Get it.

Diabetes, Bright's disease, kidney, urinary or liver complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only harm you.

—The gamblers of Boston are having a run of bad luck. Their games win about as usual, but the losers have fallen into a habit of demanding their money back. This has been especially true of a faro bank in Tremont street, said to be the handsomest gaming establishment in the country. It was frequented by Harvard students, and whenever President Eliot heard of a loss he compelled restitution. Several merchants pursued the same course as to their clerks, and in one instance the gamblers had to give up $4,800. Following these setbacks comes so strong a movement to close the hells altogether that the police deem it best to enforce the law.

Are you ill? Dr. Russell prescribed Wheat Bitters for me and I never felt better. Try it at once.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

Dr. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

SULPHUR BITTERS. Why suffer with that terrible Headache? Why look so pale? Why have that dull feeling? Why let your blood get so impure? Why let your system get so clogged with Rheumatism? Why let your nerves ache and jump? Why let your digestive organs get so out of order? Why let your liver become torpid? Why let your kidneys become so deranged? Why let your bowels become so costive? Why let your whole system become so deranged? Why let your blood become so impure? Why let your whole system become so deranged? Why let your blood become so impure? Why let your whole system become so deranged? Why let your blood become so impure

What is Diphtheria?

The name is comparatively new, but the disease is an old as sin itself. It is a condition of the throat something like croup, only worse, because it attacks the sufferer with such rapidity and in such a way as to stop the air passages. The throat is violently inflamed, and a tough membrance, like leather, is very rapidly formed. Perry Davis's Pain Killer has cured thousands of cases of diphtheria. It acts so promptly, and so efficiently, that no family can afford to be without it.

It is said that the spot on the Ohio river where the greatest damage was done by the flood, and where there is the most extensive and distressing need at this moment, is Lawrenceburg, Ind. The whole town was under water, and more than two hundred houses were rendered uninhabitable since the flood. A gentleman who passed through the town on the cars counted sixty-five houses tumbled over on one side of the road. The school-house at Lawrenceburg is a hospital, and there are more than two hundred persons in it, the greater number of them children, and many cases of illness. Low feversare prevalent, and pneumonia is doing its work. There have been eleven deaths in Lawrenceburg since the flood, traceable to it directly.

Boston, Jan. 3, 1879.

F. W. Kinsman, Esq.—Dear Sir: Adamson's Botanic Cough Balsam seems to give universal satisfaction, both as to quality and price. We sell more of it than of all other cough medicines combined and have yet to hear of the first intimation in which it has failed to give satisfaction. Yours truly, Rust Bros. & Bird.

All the lasters, numbering seventy-five, employed in the shoe factory of E. P. Dodge & Co. of Newburyport, Mass., struck March 1st on orders received from the Lasters' union. Tibbets & Couch's shoe factory in the same city has shut down by reason of disagreement between the partners.

Scientific Information.

In this age of progress people are constantly searching for something new, whether it be in the domain of domestic industry, or in the wider field of science. Twenty learned scientists have experimented long and carefully with a new discovery called "Salicylica," and have deduced from their observations that it is the greatest remedy for rheumatism, gout and neuralgia ever known. Its success has been certain in every case.

Hank Monk, the stage driver who drove Horace Greeley on his famous ride over the Sierra Nevada mountains, died in Carson City, Nev., Feb. 28th.

Buy "G. O. Taylor Old Bourbon" if you want a pure whiskey, and take no other. The genuine bears the signature of Chester H. Graves & Sons on the label and over the corks. Druggists and grocers have it.

The Gloucester Fisheries.

Eleven arrivals were reported at Gloucester, Mass., during February, from Fortune bay, with 4,385,000 frozen herring, and twenty from Grand Manan, with 4,035,000; total, 8,420,000. The number of Georges arrivals was fifty-nine, with 1,109,000 pounds codfish and 161,300 pounds halibut; five Western bank arrivals were reported, with 131,000 pounds codfish and 29,000 pounds halibut, and there were six Grand bank arrivals with 110,000 pounds halibut. Other codfish receipts, 26,800 pounds from Nova Scotia, and 4,000 pounds from the shore grounds. Total codfish, 1,270,800 pounds; halibut, 300,300 pounds. Other fish receipts, 47,000 pounds haddock, 538 barrels mackerel, one barrel swordfish, 450 barrels pickled herring.

In February of last year the receipts were 1,177,000 pounds codfish, 568,900 pounds halibut, 142,000 pounds haddock, 6,704,000 frozen herring, and 712 quintals cured hake. In February, 1881—2,609,000 pounds codfish, 1,364,200 pounds halibut, and 4,260,000 frozen herring. In February, 1880—1,801,000 pounds codfish, 605,300 pounds halibut, 5,600,000 frozen herring. In February, 1879—1,255,000 pounds codfish, 1,101,000 pounds halibut, 4,660,000 frozen herring.

The total receipts of codfish, halibut and frozen herring for the first two months of 1883, as compared with the corresponding period of the last four years, were as follows:

	Codfish lbs.	Halibut lbs.	Herring No.
1879	1,267,000	1,556,000	3,750,000
1880	1,200,000	1,110,000	9,900,000
1881	2,608,000	1,647,000	10,610,000
1882	1,848,000	955,000	12 619,000
1883	2,218,000	647,000	12,500,000

News and Notes.

A semi-annual dividend of four per cent was paid last Thursday, by the American Electric & Illuminating Co., at their office in Boston. They have been in working order only about six months. Such evidence of prosperity augurs well for the company and its management.

The Augustinian fathers of Lawrence, Mass., have made a statement of the financial condition of the churches under their guidance, from which we take the following: "Liabilities — personal accounts, $405,406.32; interest outstanding to January, 1883, $31,946; mortgages, $130,000; total, $567,352.32. Assets—St. Mary's church and grounds, $300,000; parochial residence, $33,000; convent and grounds, $18,000; St. Mary's schools and grounds, $65,000; Immaculate Conception church, $65,000; Immaculate Conception residence, $10,000; St. Lawrence church, $50,000; St. Augustine's chapel, $8,000; cemeteries, $20,000; total, $569,000. This leaves apparently a surplus of $2,647.68, but as the market value of the assets is much less than the cost, there is a deficiency rather than a surplus."

The schooner Enoch Robinson, 574 tons register, from Baltimore for Providence with coal, was sunk off Cape May, N. J. on the night of Feb. 26th, by collision with the schooner Maggie J. Smith. Crew saved.

Senator Tabor of Colorado was married in Washington on Thursday evening, March 1st, to Mrs. Elizabeth B. McCourt of Oshkosh, Wisconsin, who is twenty-three years old. The wedding was a quiet one, owing to the bride being in mourning—presumably for her first husband. The Boston *Traveller's* Washington correspondent says that in the bridegroom's "trousseau" were a dozen nightshirts costing $250 apiece, which were "exhibited to a few gentleman friends" before the ceremony. Yet Senator Tabor is not an idiot, as might be suspected, as he knows enough to be worth $7,000,000, which accounts for the ardent affection bestowed upon him by a charming young woman.

At a largely attended caucus held in Gardiner, Me., last Thursday evening, the republicans renominated William Perkins for mayor.

The Michigan legislature on March 1st elected Thomas W. Palmer of Detroit, republican, to the United States senate, he receiving seventy-five votes to forty-two for Stout, fusionist, and two for Ferry. Eighty-one ballots, spread over several weeks, were taken during this senatorial contest, which was unprecedented in the history of Michigan politics.

Dr. A. M. Garcelon, the democratic candidate for mayor of Lewiston, Me., is a son of Ex-Gov. Garcelon, of state stealing notoriety.

A despatch of March 1st from Lawrence, Mass., says: "Mrs. M. S. Anderson, whose murder was attempted by Charles H. Cate last night, now lies in a critical condition. A post-mortem examination of Cate's body to-day reveals the fact that he did not shoot himself, as at first supposed, but committed suicide by beating in his skull with the butt of his revolver."

Wednesday night, Feb. 28th, at eleven o'clock, as a party of nine Grand Army of the Republic members belonging in North Hoosick, N. Y., were returning to that place from a camp-fire in Hoosick Falls, their horses ran away, throwing them out and breaking the neck of a man named Burke, who was formerly of Bennington. All the others were more or less injured. They were in a three-seated wagon, and the horses ended by jumping into the Carpenter mill flume, killing themselves instantly.

New Hampshire Items.

James Brophy, Francis Ham and John Farish, employes at the Salmon Falls Manufacturing company's mills, were seriously scalded last Thursday by the boiling over of hot starch, Ham and Farish being supposed fatally injured.

At a recent meeting of the senior class of Dartmouth college, to express a choice for commencement orator, Col. Robert G. Ingersoll received a majority of votes. Subsequent to the meeting, it was learned that this year the right of choosing commencement orator vested in the Alumni association, and not in the senior class; consequently the action of the latter is void.

At a meeting of the governor and council March 1st, Thursday, April 5th, was fixed upon as Fast day. Charles S. Whitehouse of Rochester was appointed auditor of accounts of the state treasurer; and the petition for the pardon of John J. Belford of Laconia from the penitentiary was denied.

David Foster, one of the oldest residents of Warner, died recently after great suffering, from mortification, caused by the bite of a horse.

The new depot of the Manchester & Lawrence railroad, at Derry, now open to the public, is 24x46 feet, and one story in height. It contains two large waiting rooms, a ticket office, baggage and dressing rooms.

A medical examination of G. A. Ayer, of Peterborough, was made Feb. 27th by a council of physicians, preliminary to a suit for $50,000 against the New York & New England railroad, for injuries received at Waterbury, Conn.

The shoe factory of Messrs. Bartlett & Doak, of Lynn, Mass., at Barnstead, will soon be greatly enlarged. The pay-roll is now $500 a week.

A Maine Central train was speeding along near Waterville the other day when a man was discovered on the track, who proved to be a crank. The train was stopped and the man rescued. He said the Lord "commanded him to pray on the railroad track." The engineer informed him that if he was going to pray in such places he needed a time table.

The steamer Pamlico, of the Virginian navy, returned to Norfolk on the night of Feb. 28th with six prisoners, a white man and six negroes, and the oyster pungy Palmetto, of Crisfield, Md., captured while pirating oysters in the Potomac river. Gov. Cameron's fleet found twenty-six vessels dredging in Virginian waters, but captured only one, and her captain and first mate escaped in their yawl. Seventy-five rounds of musketry and twenty-six cannon shot were fired at a vessel that got off up the river, and took shelter on the Maryland side. The steamer Victoria J. Peed, with the governor of Virginia and detachments of infantry and artillery on board, remained on the scene of war during the night of the 28th.

Another GREAT WEEK FOR The Sunday Globe

and also the Boston Daily Globe. The phenomenal success of The Globe, daily and Sunday, continues every week, and no efforts will be spared to make every improvement which time and experience shall demonstrate are necessary. The circulation of The Globe is steadily increasing every day. Last Sunday there were

to the circulation of The Boston Sunday Globe, in addition to the extraordinary increase of the previous Sunday. We have many hundreds of complaints from people who could not buy The Globe last Sunday morning because the dealers had sold out early. Information received from various sources shows that on Monday morning nearly all the newsdealers in Boston told customers that they had not a single copy of The Globe left. We have repeatedly urged the people who desire to make sure of The Globe on Sunday to order it in advance of their newsdealer or carrier.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

FARMER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

SARAH C. WHITTIEF

Sleighing was hard on Friday, and the heavy teams went back to wheels.

The docks are free of ice.

The crew of the York fishing schooner Flora Temple on the 2d inst. reported the schooner Teal, ashore on Boon island, as being pretty thoroughly smashed to pieces, her masts, deck, stern and bow being gone, and only a small portion of her hull amidships left. She was loaded with long cedar spiles. A few men were at work on her, Friday, saving what they could from the wreck.

The Boston common council on Thursday evening last, in concurrence with the board of aldermen, elected James W. Ricker as city collector. Mr. Ricker is a native of this city.

On the arrival of the 7:15 P. M. freight train on Thursday, a brakemen in setting a brake on the top of a box car was thrown off, striking alongside the track; a large gash was cut in his head, and he was considerably shaken up, but he was able to be at work on Friday.

It is hard to imagine anything meaner in the shape of a sneak thief than a person who will steal a paper from a subscriber's door, thus for the sake of saving a few cents causing much annoyance to the rightful owner of the paper, and rendering the carrier liable to be unjustly blamed. We have been considerably pestered by such petty thieves for some time past, and have been more than suspicious concerning three persons, one of whom our watchers this week detected in the act; we refrained from prosecuting him on account of his family, but the next one we catch will catch all the law will give him. Some of these fellows would look astonished at having to pay a $50 fine for stealing a three-cent paper.

A Gravelly Ridge schoolboy about eleven years old, son of Mr. Louis de Rochemont, was painfully but it is hoped not permanently injured on Wednesday, Feb. 28th, while jumping over a picket fence not far from the schoolhouse. Just as he jumped the snow bank under his feet gave way, and he struck upon the fence in such a manner that the point of a picket was driven into one of his legs, through his thick clothing. A companion hauled him on a sled to a neighboring house, where the hurt was attended to, and the boy was taken home in a team.

Dr. W. L. Hawkes of York was elected grand herald of the Grand Commandery of Maine, United Order of the Golden Cross, at the late meeting of that body in Portland.

The petition of residents of Kittery for a charter for a steam ferry between that town and this city, lately introduced into the Maine legislature, and sent to the committee on interior waters, has been referred to the next legislature with order of notice.

Mr. Ephraim Anderson, who last season was mate of the schooner D. K. Ham with Capt. Garland, arrived home from New York this week. Since the D. K. Ham hauled off from the brick-carrying trade last fall, Mr. Anderson has made a trip in the schooner Cocheco, Capt. R. H. Seaward, going from Baltimore to Jacksonville, Florida, with a cargo of railroad iron, and from there back to New York with lumber; Mr. Anderson left the schooner in the latter port, in good condition. Besides Capt. Seaward, the Cocheco has in her company the following-named persons hailing from the Piscataqua; Charles M. Seaward, mate; Lewis Luther, steward; Ephraim Manson, Herman Smith, Charles White, William Frisbee, seamen. Mr. Anderson has come home to join one of the "brickers," which will shortly be fitted out for the season's work.

SCHOOL FESTIVAL IN YORK.

YORK, ME., Feb. 28th.

The scholars of Dist. No. 1 gave an exhibition in the Town hall last evening, under the auspices of their teacher, Mr. C. S. Flanders. The programme consisted of recitations, dialogues and singing. Prayer was offered by Rev. D. B. Sewall; Miss Edith Lowe then recited a piece entitled "Suppose," and Georgie Webber told us "How Cyrus laid the Cable." Ralph Lowe made his first appearance as a soloist in "The Man behind the Plough." Miss Alice Stevens favored us by reciting "Mother's Fool," and was followed by the laughable farce of "The Enrolling Officer." "The Seminole's Reply," by J. Perley Putnam, and "The Old Surgeon's Story," by Miss Carrie Staples, were both finely rendered. A recitation by Miss Willie Grant came next, followed by Miss Susie Thompson in a song entitled "Sleeping for the Flag." The next on the list was a charade, called "Mad-Cap;" there was some fine acting in this piece, the part of Margaret drawing especial attention. Miss Fannie Baker (who is a fine reader) read "King Robert of Sicily," and Miss Mary Putnam came next with "How He saved St. Michael's." The *joke* of the evening came in right here, in the shape of a tableau of the York Narrow Gauge Railway. A miniature train of cars was run across the stage, propelled by an attachment in the ante-room; passengers were given twenty seconds for refreshments at York harbor. "The Dutchman's Dilemma," recited by Miss Florence Varrell, elicited peals of laughter. The dialogue entitled "Jemima's Novel" was "wery amoosin," and Sam was badly given away.

"Auld Lang Syne" was sung by the Misses Varrel, Thompson and Putnam, dressed in "ye olden style." A dialogue entitled "That Naughty Boy" was very laughable, and quite exciting when the widow found that she was being squeezed by her son instead of her lover; Miss Fannie Baker, who took the part of the widow, was at her best, as she usually is in a play of this kind. Master Jonn Dennett, Jr., (who was chairman for the evening) made a short speech in which he asked for fourteen dollars to buy a globe for the school. While the collection was being taken up the curtain was raised on a tableau of "Blind Man's Buff." The last piece on the programme was recited by Miss Emma Nowell, and the exhibition was closed with a Scotch song by Miss Mary Putnam. The hall was filled to repletion, and the exercises were highly appreciated. S.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Ballard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

PSORIASIS.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful case on record. Cure certified to before justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

SALT RHEUM.

Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally.

MRS. WM. PELLINGTON, Sharon, Wis.

A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

26th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing which ever disturbed the married or single, either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Antiquary.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

"Dr. Benson's Celery and Chamomile Pills for the cure of neuralgia are a success."—Dr. G. P. Holman, Christianburg, Va. 50 cts., at druggists.

In an argument in the United States circuit court at Baltimore the other day, Gen. Bradley Johnson, an ex-confederate general, said: "When a judgment has been obtained in a United States court and an execution issued to the marshal to be levied on property in the possession of the trustee, no state court or chancellor can stop the execution of that process by injunction. You have heard of thunderbolts, but you never saw such a thunderbolt as would descend if such an attempt were made to arrest the arm of a United States court stretched out under authority of the constitution of the United States."

The closing sentence of Gen. Jubal A. Early in his address before the Association of the Maryland Line in Baltimore on the evening of Washington's birthday, was as follows: "I trust that every faithful soldier of the Army of Northern Virginia is ready to exclaim with me, 'If I ever disown, repudiate, or apologize for the cause for which Lee fought and Jackson died, let the lightnings of heaven blast me, and the scorn of all good men and true women be my portion!'" The Baltimore *Sun* says that at this sentiment "the hall roared with wild cheers, which coming largely from comrades in arms, reminded the hearer of that inarticulate battle-cry with which the Confederates were wont to advance to the charge a score of years ago."

Admonition! Cure your cough thoroughly with Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. Colden's Liquid Beef Tonic is endorsed by physicians. Ask for Colden's; no other. Of druggists.

We are in receipt of a letter from our old friend S. Sherson, Esq., at present a resident of the town of Rawlings, in the far-off territory of Wyoming. "Dr. Graves' Heart Regulator has helped me right along," says Mr. Sherson. Glad to hear it, old fellow. Yours was an aggravated case of heart disease. The remedy you mention does the same thing in this section, too; and better still, it always cures heart disease.—*Nast's Weekly Letter-File.*

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

The Iroquois and the Hartford have left Callao for a cruise in southern waters. The Iroquois will touch at Juan Fernandez. The Onward remains at Callao.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

Captain Wilson, commanding the Lackawanna, reports the arrival of that vessel at Honolulu January 25th, and that the usual courtesies were exchanged. The Lackawanna intended to sail for San Francisco about March 1st. The Wachusett arrived at Honolulu February 3d.

Can't Get It.

Diabetes, Bright's disease, kidney, urinary or liver complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only harm you.

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's Industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE CUT in the middle.

Opposition is what it wants. That will make it solid; we mean Dr. Bull's Cough Syrup. It has entered the lists and come out far ahead in the ranks of legitimate household remedies for the cure of coughs and colds, Dr. Bull's Cough Syrup stands first. Price twenty-five cents.

Solomon A. Siedlinger, a ship carpenter of Waldoboro, Me., who had made two attempts to commit suicide within the last three months, disappeared from his home Monday night, Feb. 26th, and on the following Wednesday afternoon was found dead under the ice in the Madomak river a short distance from his house.

Hon. Edward Madden, Louisville, Ky., member of the state legislature, says: "I suffered with rheumatism for some time; finally I began to use St. Jacobs Oil, which at once relieved and in a short time cured me."

A New York paper says Mr. Gebhard has led a very retired life since his return from hunting the Lily. A club man remarked: "Freddie seems to be off color lately. He very rarely puts in an appearance, except at the Union, and even there he appears to be distrait, as if something was weighing upon his mind." "Is the report true that he is financially embarrassed?" "I scarcely think so. He has been spending a good deal of money, but I don't think he is badly pushed. He has probably taken an economical turn." It is reported that Mrs. Langtry, at the end of her theatrical engagement, intends to take up her permanent abode in New York city. She has recently been the purchaser of real estate there.

***"Neglect old friends for the sake of new, and lose both." But remember that Kidney-Wort is a friend you cannot afford to neglect. Plasters may relieve, but they can't cure that lame back, for the kidneys are the trouble and you want a remedy to act directly on their secretions, to purify and restore their healthy condition. Kidney-Wort has that specific action.

—Conversation overheard in a street car: First young debutante—"Oh, I am so sorry Lent is here." Second ditto—"Oh, how wicked; I'm real glad, for my ball dresses were getting frightfully shabby, and, besides, mamma says I am looking a little worn with the late hours and brilliant lights, and I am glad to go to bed early, and stay a good deal during the day in the dimly-lighted church. Lent is really a great comfort to me," and the dear thing sighed piously.—*Herald.*

*Women are rapidly finding places in the learned professions and the more lucrative occupations from which they were formally excluded. Many are graduating in medicine. Mrs. Lydia E. Pinkham, of Lynn, Mass., is a minister of health to thousands who may never touch the hem of her garment or behold the genial light of her modest countenance.

—"John, what is that peculiar smell?" asked an Austin man's wife, when he came home very late. She expected he would say that it was the incense they used in the lodge-room, or that he would tell some other lie, but she was mistaken. "It's whiskey, that's what it is," he replied defiantly. "Miserable creature," retorted his wife, "you have at last got down so low that you have not got decency enough left to try and lie out of it."

In the *Hop Plaster* are united the virtues of fresh hops and the strengthening and stimulating balsams, and it's cures of weak back, pain in the side, rheumatism and neuralgia or pain in the chest are simply marvelous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

—An Ithaca paper tells of a little four-year old child, who, upon retiring the other night, began to say her evening prayer as usual, and after repeating "If I should die before I wake" paused a moment and added: "What a rumpus there would be in this house?" Then she recited the concluding line of the prayer and scrambled into bed.

"The Hindoo widow," chants the Boston *Transcript*, "is the only one that cremates. The others remate." A lady afflicted with a genuine and nauseating case of catarrh, whether she is single or married, probably longs for cremation (of the disease, if not of her person). The sickening, revolting breath, foul discharges, racking pains and other characteristics of catarrh, render life a burden. Ely's Cream Balm is a reliable, fragrant, yet certain cure for all such cases. This balm is not a liquid or snuff, and is easily applied. "My head and throat ached so severely from catarrh," said Major Downs, Military Instructor, Mt. Pleasant academy, Sing Sing, N. Y., "that I was obliged to give up everything and keep quiet. Ely's Cream Balm cured me." This exquisite preparation will cure any case of catarrh. 50 cents.

—A college paper claims that writing college songs seems to be a lost art, and complains greatly thereat. If it could be definitely ascertained that no more songs like "Bingo," "Saw My-Leg Off," and "Cocachelunk," would ever be written, many hesitating parents would pack their sons off to college instanter.

Are you ill? Dr. Russell prescribed Wheat Bitters for me and I never felt better. Try it at once.

This agreement, it is claimed, has been violated by the company.

General Debility and Liver Complaint.

R. V. Pierce, M. D., Buffalo, N. Y.: Dear Sir—My wife has been taken your "Golden Medical Discovery" and "Pellets" for her liver and general debility, and has found them to be good medicines, and would recommend them to all sufferers from liver complaint, sour stomach, and general debility. Yours fraternally, N. E. Harmon, pastor M. E. church, Elsah, Illinois.

Concerning Certain Relics of the Past

--Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.—We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter I ft Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz: Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stems in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

Twenty Years ago.

In 1863, Mr. Wilson, now of Lawrence, Mass., was in the commissary department in Washington. Somehow or other, he was taken with a violent soreness of the throat. Several army surgeons examined his throat and decided that it was a case of diphtheria, and that it was hopeless. After they had given him up, he tried Perry Davis's Pain Killer. The next day the scales began to come off his throat, and in two or three days he was well.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

End of the 47th Congress.

The 47th Congress has expired by limitation, having during its continuance done some good and some bad things, and failed to do some good and some bad things which were attempted.

In the senate, on Saturday morning, March 3d, the river and harbor bill was killed by the objection of Senator Ingalls to its consideration, which sent it over to the next day, which was Sunday. At noon David Davis resigned the presidency *pro tempore* of the senate, and George F. Edmunds of Vermont was elected to the position.

In the house the tariff bill was passed just as it came from the conference committee, and as the senate had previously passed it, the vote being 152 to 115. The reduction of revenue effected by the bill is estimated at $70,000,000 per annum, and from that down to $35,000,000.

The Moon.

The widely-known astronomical writer of the Providence *Journal* says;

The March moon falls on the 23d at twenty minutes past one o'clock in the evening. The full March moon plays an important part in the affairs of men. For as she falls three days after the vernal equinox, she determines, in accordance with the law, that Easter shall fall on the following Sunday, the 25th, and Easter in turn determines the other movable feasts and fasts of the church. The short time intervening between the vernal equinox and the full moon, brings Easter this year within three days of the earliest date the festival can occur. In 1818, Easter fell on the 22d of March, the earliest possible. Such will not be the case again either in this or the following century. The moon pays her respects to the planets as follows: The old moon is near Venus on the 5th, and near Mercury and Mars on the 7th. The new moon of the 8th is in conjunction with Neptune on the 12th, Saturn on the 13th, Jupiter on the 15th, and Uranus on the 22d. She presents five phases during the month, being seen in the last quarter on the 2d and on the 31st.

News and Notes.

A despatch of March 2d from Evansville, Ind., says: "Fred H. Winess of Springfield, Ill., who was sent by Governor Hamilton to investigate and report upon the state of affairs at Shawneetown, arrived here from that place yesterday and at once telegraphed to the governor that help for the sufferers was imperatively demanded, and that to be effective it should be immediate. He says the situation there is terrible and beyond his power to describe. There are between 500 and 600 houses in the town, every one of which is under water. Only thirty are inhabitable, and these only in the upper stories. More than 100 houses have floated from their foundations. About 500 persons are receiving relief. From one-half to two-thirds of Gallatin county is flooded. Fences are gone, corn has been destroyed, stock drowned and people driven from their homes. Dysentery, pneumonia and malarial fevers prevail and are increasing."

Additional agrarian outrages have occurred in Andalusia, Spain. Eleven anarchists confined in jail at Espera have declared that they, with 223 others, were pledged to murder landlords and to commit robbery and arson at the bidding of their leaders. A Madrid despatch says the names of the entire committee of the "Black Hand" society, and its documents and statutes, including a list of the members, who number 7,000, are in the hands of the government. A special tribunal has been constituted to try the prisoners; all who are convicted of murder, probably fifteen, will be hanged, and the most culpable of the remainder, probably 300, will be sentenced to life-long penal servitude.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolute pure and healthful.—*Hall's Journal of Health for April, 1882.*

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove Hoon's SARSAPARILLA to be a reliable remedy, combining remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & Co., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in Hood's SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. Was thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of Hood's SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

PASTORAL RESIGNATION.

Dr. Alden Resigns as Minister of the Baptist Society.

At the close of his Sunday morning service, Rev. Wm. H. Alden, D. D., pastor of the Middle street Baptist church, read his resignation as pastor, to take effect on the last Sabbath in June.

To many in the congregation the announcement was an unwelcome surprise, and considerable emotion was seen throughout the pews. Lewis W. Brewster, Esq., was then made chairman for the purpose of the parishioners' taking some definite action in regard to the resignation. Remarks were made by Mr. C. H. Clough, Lewis E. Staples, E. B. West, Esq., and others. A motion was made by Geo. W. Plumer that the pastor be requested to withdraw his resignation. This was seconded by Col. Charles A. Sinclair, who made a few pertinent remarks, and it was unanimously adopted. A committee of five were then appointed to confer with Dr. Alden upon the subject, as follows: L. W. Brewster, George W. Plumer, Wm. A. Hodgdon, E. B. West and Charles A. Sinclair; the committee were requested to report next Sabbath.

The resignation has been tendered because Dr. Alden is professionally advised that his health requires a rest from his labors, which can only be attained by a cessation of pastoral duties. It was prepared and intended to have been offered several weeks since, but was postponed by reason of the death of the late Deacon Ackerman. The society will probably vote the good doctor a long leave of absence, with a supply of the desk, and will use all available efforts to retain him as pastor.

POLICE COURT--BATCHELDER J.

SATURDAY, March 3d.

August Hett was before the court on a charge of cruelty to animals, preferred by the anti-cruelty society, and was bound over in $100 to answer at the April term of the supreme court.

GOSSIPS SAY

That the apron and necktie party in Congress hall to-morrow evening will be the best thing in that line ever gotten up in this city.

That Mayor Treat, having on Friday last communicated to General Manager Tucker, of the Eastern and Maine Central railroads, the city's offer to lease the north millpond for five years at $500 per year, on Saturday received from Mr. Tucker a notice that the city's proposition was accepted

That John H. Lowry, for some time past in charge of the gates at the south millbridge, took charge of those at the north millbridge also on Saturday.

That Ex-City Marshal Gray declares that henceforth he will act with the democrats.

That the "matter of economy which citizens will appreciate," according to the *Times*, produces very large smiles on the faces of those conversant with city affairs.

That a fifty-cent scrip wont be saved, inasmuch as there are a half-dozen supernumerary watchmen who are taking turns in filling the vacancy, and accordingly receiving the salary which would otherwise have gone to Mr. Gray.

That notwithstanding the bother attendant upon the renovation and adornment of the Rockingham house, the proprietor thereof has his eye upon the cuisine, and that this is unanimously attested by ye members of ye ancient "Mechanics' Fire Society," who performed wondrous gastonomic feats at the regular quarterly supper of the society on the night of the second inst.

That although the captain of the Portsmouth Cavalry attained great proficiency in the art of manipulating his sabre in the three days' drill at Manchester, he does not use said sabre in carving quail.

That 351 books were given out from the Public library on Saturday—the largest number ever issued in any one day.

That over fifty men were on the Concord railroad wharf Saturday, on the arrival of the steam collier Allentown, to get a chance to assist in discharging her.

That the Eastern railroad will sink two more wells near the gravel pit at the Plains this spring.

That the first down-river excursion of the season was made on the 4th inst.

That some of the workmen on the Goodwin mansion at Gerrish's island gave a chowder dinnner to a few of their friends from this city, at the island on Friday.

That there actually exist in this city persons of such confiding disposition as to send money for tickets to "The Royal New Brunswick Distribution of Cash Gifts," at St. Stephens, N. B.,—an institution which advertises (by circular) that "every ticket wins a prize," and that the "smallest prize is $5," the price of tickets being $2.50.

GOLDEN CROSS ENTERTAINMENT.

Piscataqua Commandery, No. 189, U. O. G. C., of Eliot, Me., have just closed a successful and very interesting course of entertainments, the last of which was given at Brooks' hall in that town last Thursday evening before a large and appreciative audience. Miss Grace Varrell of Portsmouth appeared in several selections, and was received with loud and prolonged applause, and highly praised by all present. A quartette composed of Col. Chas. R. Littlefield, basso, Mr. J. Wesley Remick, tenor, Mrs. W. H. Staples, soprano, and Miss Abbie C. Remick, alto, sang some very interesting pieces in their usual pleasing and finished style; a duet by Mrs. Staples and Miss Remick attracted very close attention, and the sweet strains produced glicited warm commendation. "All's fair in love and War," a drama in three acts, was presented by amateurs with good effect. After the exercises an hour was spent eating ice cream, after which the seats were removed and dancing enjoyed until midnight, when the company dispersed, declaring that the last entertainment had been the most enjoyable of all. A glass table-set awarded to the person who made the nearest guess to the number of beans contained in the spoon-holder of the set, was won by Mr. Henry M. Paul. The commandery will realize a net profit of over sixty dollars from the course. Y.

A special meeting of the Woman's Relief Corps, G. A. R., is called for this (Monday) evening at Grand Army hall, when business of importance will be brought up.

The Portsmouth Gas Light Co. pays a dividend of four per cent on the 5th of March.

Among the freight engagements reported last week was a schooner from South Amboy to this port with coal at $1.60 per ton.

Joseph G. Roberts, formerly of Dover, was indicted at the October term of the Circuit court of the United States for being a wholesale liquor dealer without paying the special tax. He was arrested in Maine last week, and gave bail before United States Commissioner Rand at Portland for his appearance before the Circuit court to be held in this city on the 8th of May.

The Swampscot Machine Co., of South Newmarket, paid a dividend of three per cent on the 1st inst.

On Thursday of last week, as Mr. Christopher Moore of North Hampton was driving his two-horse team from this city with a load of brewery grains, when on Lafayette road he got too close to a loaded sled which was ahead of him in the road, going in the same direction, and one of his horses struck a fore leg against the leading sled with such force as to break the bone, necessitating the killing of the animal, which is said to have been a valuable one.

Persons living on Christian Shore have recently lost large numbers of hens through the depredations of dogs. Twenty-three fowls belonging to the city farm were found dead last week; Street Commissioner Ham has had nineteen killed, Mr. Joseph T. Elliott four, and Mr. B. F. Rice eleven; Mr. Robert B. Johnson lost about forty dollars' worth of choice game fowls; and the coops of several other persons have suffered in a similar manner. It has been stated that two large setter pups were the criminals, but enquiry of the victims—the owners of the dead hens, not the hens themselves—fails to develope any positive grounds for the statement.

An article has been inserted in the warrant for the town meeting at Hampton Falls to see if the town will petition the legislature to change its name to Atlantic or some other name; this change is desired because of the inconvenience arising in correspondence, and transportation of freight and baggage, from so many towns having names beginning or ending with Hampton. Another article is to see if the town will change the name of Great hill to Whittier's hill, in honor of the poet Whittier, whose ancestors lived in that town.

On Saturday afternoon a horse belonging to Mr. George Berry, of Greenland, hitched in front of a store on Congress street, being frightened by a dog which ran under him broke loose, and ran away up Congress and Islington streets to Spinney road, through the latter to Middle road, and by Middle and Greenland roads to Greenland parade, there turning into the road leading to Rye, and keeping on till he arrived at his home, where he dashed through a narrow passage into the barn, making a run of six miles with no other damage done than the breaking of the bridle. The pong was twice upset, but righted itself again without injury. One of the men on the place put a fresh bridle on the horse and drove him into town, on the way meeting Mr. Berry, who was driving out in another team.

In the United States circuit court at Providence, R. I., last Friday, an injunction was granted on petition of D'Oyley Carte, restraining George B. Snyder and Robert Grau from producing the orchestral accompaniment to the music of "Iolanthe." The defendants did not appear. It was the Snyder & Grau company which produced "Iolanthe" at Music hall in this city on the evening of Feb. 24th.

Sunday, March 4th, was the 15th anniversary of the beginning of the labors of Rev. W. H. Alden, D. D., as pastor of the Middle street Baptist church, and at the morning service a sermon especially appropriate to the occasion was preached. Rev. James DeNormandie preached in the Unitarian church on Sunday. There was a Sunday school concert at the Methodist church in the evening, the attendance being large.

BRIGHTON CATTLE MARKET.

For week ending Wednesday, Feb. 28.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 1735; Sheep and Lambs 8707; Swine 15,080; Veals 65; Horses 80.

Prices of Beef Cattle ℔ 100 lbs, live weight—Extra quality $6 75 @ 7 12½; first quality $6 00 @ 6 62½; second quality $5 25 @ 5 87½; third quality $4 25 @ 5 00; poorest grades of coarse oxen, bulls, etc., $3 12½ @ 4 12½.

Brighton hides 8½ @ 9c ℔ lb.

Brighton tallow 7½ @ 8c ℔ lb.

Country hides, heavy ones 8 @ 8½c ℔ lb; light ones, 6 @ 6½c ℔ lb.

Country tallow 4 @ 4½c ℔ lb.

C. H. skins 12 @ 12½c ℔ lb.

Sheep skins $1 25 @ $1 50 each.

Lamb skins $1 25 @ $1 50 each.

Extra skins $1 75 each.

The quality of the western cattle brought in this week was of a very good grade of beeves, and quite higher at the west than they did the previous week. The trade for them was slow at an advance equal to ½c ℔ lb over those obtained one week ago. There were but few cattle sold for more than 6½c ℔ lb. prices for most of those sold ranging from 5½ @ 6½c ℔ lb live weight. There were some very nice Connecticut river cattle brought in, which were taken by H Bird & Co for their stall in Faneuil Hall market, estimated to cost 8c or more ℔ lb dressed weight; their live weight was nearly 2600 lbs per bullock.

Working Oxen—There was demand for working oxen in improving each week as the season advances. During the spring months there is usually a very fair trade for workers for several weeks. Those in market range in prices from $85 @ $175 ℔ pair.

Store Cattle—Sales range $8 @ $13; 2-year olds $14 @ $25; 3-year olds $24 @ $45 ℔ head. Farrow cows $15 @ $35 ℔ head. Prices for small cattle depend much upon their value for beef.

Milch Cows, Springers, &c—Extra $55 @ $80; ordinary $20 @ $50; springers $18 @ $65 ℔ head. Good milch cows and springers are in demand at fair prices; common grades not in so good demand.

Veal calves sell quick at 3 @ 7½c ℔ lb, live weight.

Sheep and Lambs—Those from the west were mostly owned by buts. Sheep cost from 5½ @ 6½c and lambs 6½ @ 8c ℔ lb, live weight, landed at the yards. There are but few lots of western sheep or lambs offered in the markets for sale, most of them being bought by agents at the west for butchers.

Swine—Store pigs sell slow at 6 @ 9c ℔ lb for small pigs and shoats, or from $2 @ $10 ℔ head. Western fat hogs cost, landed at the slaughter houses, from 7 @ 8c ℔ lb, live weight.

DIPHTHERIA

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

PSORIASIS.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful case on record. Cure certified to before a justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

SALT RHEUM.

Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally.

MRS. WM. PELLINGTON, Sharon, Wis.

CUTICURA

and Cuticura Soap externally and Cuticura Resolvent internally will positively cure every species of humor, from a common pimple to Scrofula. Price of Cuticura, small boxes, 50c.; large boxes, $1. A Common-sense Remedy.
SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is full explained.—*London Lancet.*

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author. who may be consulted on all diseases requiring skill and experience. Address

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

THE ART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for Kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Clendinning, startlingly says "one-third of my patients show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Reports from West point, Va., say that "Governor Cameron, in command of his ship-of-war, the Victoria J. Peed, attempted on Thursday morning, the 1st inst., to surprise the remainder of the Plankatank squadron of Admiral Jim Skaggs' fleet of oyster pirates, but the perfect system of signals in use by the pirates rendered the governor's approach impossible, and one after another of the piratical crafts moved out of his way without trouble, and made the neutral waters easily. The exciting event was the chase of the pirate sloop Dancing Molly. The captain and his crew of two men had gone ashore in search of wood, when another pirate boat signalled the fact that Gov. Cameron's steamer was approaching, and gave warning to move quickly. The captain's wife and two daughters were the only persons on the Dancing Molly. They called in vain for the crew. The plucky females determined to attempt to run the blockade, and reach neutral waters. The mother took the helm and the two daughters unreefed the sails, and the Dancing Molly, which was forced to do much tacking in order to reach the mouth of the inlet, moved off. The remainder of the vessels of the pirate fleet were safely out. The breeze was not in favor of the fleeing craft, and the steamer succeeded in gaining rapidly on her for a short while. The race was nip and tuck between the Virginia gunboat and the piratical sloop. The Victoria J. Peed began to send solid shot over the water as a warning to surrender, but the Dancing Molly and her crew did not take in their sails, and safely got out of the inlet, and then, with the stiff breeze in her favor, left the big steamer far in the wake, and easily joined the balance of Admiral Skaggs' fleet in neutral waters."

Much distress and sickness attributed to dyspepsia and chronic diarrhœa is occasioned by humor in the stomach. Hood's Sarsaparilla is the remedy.

The Bangor *Commercial* says potatoes are now being shipped from northern Aroostook in large quantities. The farmers are anxious to sell. There is no danger of a potato famine in Maine this year, judging from the crop in Aroostook. Some farmers in that county have from twelve to fifteen hundred bushels in their cellars.

A shooting affair occurred in Thompsonville, Conn., on the 2d inst., the circumstances being as follows: For six months Walter J. Hosford, aged twenty-five years, of Hartford, has been courting Belle Young of Thompsonville. About six weeks ago she found that Hosford had a wife and child living in Hartford, and refused his offer of marriage. Hosford has been troubling her since, and went to her house on the morning of the 2d, and first assaulting Mrs. Young, then fired several carelessly-aimed shots at Belle, until she begged him to stop, saying, "I'll marry you." Hosford then ran out of the house and entered an out-house in the rear of the schoolbuilding near by, where he fired three balls from his pistol into his own head. He was taken to the Thompsonville lockup in a dying condition.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

Scientific Information.

In this age of progress people are constantly searching for something new, whether it be in the domain of domestic industry, or in the wider field of science. Twenty learned scientists have experimented long and carefully with a new discovery called "Salicylica," and have deduced from their observations that it is the greatest remedy for rheumatism, gout and neuralgia ever known. Its success has been certain in every case.

A board of survey consisting of Captain Kimberly, Naval Constructors Webb and Hichborn and assistant Constructor Hoover has been appointed to ascertain the cost of placing the United States steamship Nipsic, now at the port of New York, in good repair.

The Ashuelot, recently wrecked in the China seas, was built in East Boston by Donald McKay, and launched April 23d, 1865. The Ashuelot was intended for a double-ender, but before completion was altered into a boat with stem and stern, notwithstanding that her rigging was for a double-ender. She had a heavy battery, having in all twelve large guns. After she was sent out to China she was completely re-arranged and built anew. When she went down the other day she had only six guns.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's relaxes its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.--We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter left Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz; Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY stops in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

E. A. KIMBALL.

Pure and simple poems, many of them religious all in smooth metres.—*The Independent.*

Some of these are real flowers of poetry.—*Golden Rule.*

Reflects the thoughts of one who has an interest in the world about her, and sees in nature that beauty and loveliness that art cannot obtain.—*Haverhill Bulletin.*

Among these poems is "Rye Beach," singing of childhood's early recollections, and "Star Island," in which is given a reminiscence of the sad loss of Miss Varrell of Rye.—*N. H. Gazette.*

The author has a remarkable gift.—*Merrimack Gulch prise.*

Handsomely printed.—*Newburyport Herald.*

Twenty Years ago.

In 1863, Mr. Wilson, now of Lawrence, Mass., was in the commissary department in Washington. Somehow or other, he was taken with a violent soreness of the throat. Several army surgeons examined his throat and decided that it was a case of diphtheria, and that it was hopeless. After they had given him up, he tried Perry Davis's Pain Killer. The next day the scales began to come off his throat, and in two or three days he was well.

George Bork broke the skull of a widow, Mrs. Finster, at Buffalo, N. Y., with a clawhammer several days ago, from the effects of which she died; he was arrested Saturday. Bork said he was drunk and did not know what he was doing.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

Two German families, comprising six persons, have been arrested in Bridgeport, Conn., for many burglaries committed the past winter. A large amount of goods was recovered, and the prisoners have confessed their guilt.

Buy "G. O. Taylor Old Bourbon" if you want a pure whiskey, and take no other. The genuine bears the signature of Chester H. Graves & Sons on the label and over the corks. Druggists and grocers have it.

The steamer Yazoo, bound from New Orleans to Tensas, La., was capsized and sunk near Red Church on the night of the 4th inst. Sixteen persons were drowned.

"Penny wise and pound foolish" are housekeepers that neglect to use James Pyle's Pearline Washing Compound, which is in every way superior to soap.

George W. Coburn, a young man who was recently employed as a clerk in a hotel in Boston, was arrested in New York, March 2d, at the instance of Mr. Charles R. Thorne, for passing an alleged forged check on the Mt. Vernon national bank of Boston. Within a few days checks amounting to about $550, and bearing the forged signature of Mary E. Coburn, the young man's mother, have been sent to the Mt. Vernon bank by New York banks for collection. Young Coburn has heretofore born an excellent reputation.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

The Dates of Revenue Changes.

The bill "to reduce the internal revenue and for other purposes," which includes the revision of the tariff, repealed on its passage the taxes imposed on the capital and deposits of national banks, leaving the tax on circulation the only one upon banks. On and after July 1st, 1883, the stamp tax on bank checks, drafts, orders and vouchers, and the taxes on matches, perfumery and medicinal preparations, cease. On and after May 15th the manufacturers of matches may place matches without stamps in government warehouses, to be withdrawn after July 1st. All of the changes in the tariff go into effect July 1st, 1883, except those imposed upon sugar, which will be in force June 1st, 1883. The aggregate of revenues received last year on the articles from which the internal tax has been either abolished or reduced was $41,890,000. The two-cent postage law goes into operation October 1st, 1883.

The Avery Lactate Co.

The stockholders of the Avery Lactate Co., accompanied by several of the officials of the Fitchburg railroad, recently visited the company's works at Littleton, Mass., Dr. Charles O. Thompson, the consulting chemist of the company who had just returned from Europe, was present, and explained the process by which cream of tartar is made from corn, and described the various stages and conditions of its operation. The works were then inspected.

The building and machinery having been examined, the visitors repaired to the spacious counting-room and partook of a bountiful lunch, to which the stockholders and scientists, as well as the railroad officials, devoted a good share of attention. President Nowell then gave the company present a comprehensive review of the rise and progress of the company, and predicted for it a brilliant career. He paid a generous tribute to the efforts of Ex-President Waters, exerted to develop the company. Dr. Thompson then gave a clear and practical exposition of this process of manufacture, and predicted a great success in this undertaking. He was followed by Aaron Hobart, Esq., of Boston, director in the Tremont bank, S. S. Sprague, Esq., of Providence, R. I., J. C. Coomes, C. F. Fairbanks and others.

The company returned on the afternoon express train, which by especial arrangement stopped for their accomodation at Littleton. The works are now in operation with most satisfactory results, and their product finds a ready sale in the market.

A Noted Man Gone.

Hon. Alexander H. Stephens, governor of Georgia, died at Atlanta, Ga., early Sunday morning, March 4th. Almost his entire life was passed in the public service, he having at a very early age been sent to the Georgia legislature, and being repeatedly re-elected. Following this he was sent to Congress for six terms. In the early days of secession he strongly opposed the movement, yet he afterward became vice-president of the rebel confederacy, and after the close of the war was for some months confined in Fort Warren, Boston harbor. In 1873 he was again elected to Congress, and was four times re-elected without opposition; he resigned his seat in the 47th Congress (which expired a few hours after his death) in September last, having been elected governor of Georgia.

Freddy and the Lily.

It was announced on the 3d inst. from New York that "Mr. Fred Gebhard and Mrs. Langtry have signed a contract for next year. He engaged the Lily for a season of thirty-three weeks, beginning in September, and he agrees to give her forty per cent of the gross receipts of the theatres at which he plays her. The terms Mr. Abbey gives her are thirty per cent of the gross receipts. She demands more from Mr. Gebhard, first, because he is not a manager by profession; and second, because he has got more money about him than Mr. Abbey. But under such an arrangement as this Mr. Gebhard can make money, supposing that the Lily does anything like the business she did when she started. In the meantime she will go to Paris in the summer and study under Regnier, of the Theatre Francais. She expects to come back here a finished actress, and to show Americans what she can do.

The reports about Mrs. Langtry selecting New York as her future residence are true. She has made up her mind to this, since Mr. Gebhard has proposed to build her a theatre here, of which she shall be lessee and manageress. She likes this idea very much, as it will give her a permanent home. She will endeavor to gather about her the best English and American talent, and so cloak her own shortcomings. But she will remain her own leading lady. Mr. Gebhard will offer the position of author and stage manager to Mr. Steele Mackaye. He will be employed, too, in coaching Mrs. Langtry in her parts. Mr. Schwab will remain probably Mrs. Langtry's personal representative.

This plan will not be carried out next season—not until the season after. During the year to come, for which the contract between Mr. Gebhard and Mrs. Langtry was signed on the 2d, she will travel as a star in the same way that she does now, in her own private palace car."

Representatives Crapo, Candler, Stone and Harris of Massachusetts voted for the river and harbor bill, while Leopold Morse voted with Briggs and Hall of this state and Bowman and Ranney of Massachusetts, in opposition to its passage.

Wm. Josslyn died in Gorham, Me., March 1st, aged 100 years.

B. F. Coblelgh, of Roslindale, Mass., on the 2d inst shot the panther which has been prowling round in that vicinity for the past two months.

Trains between Nashville, Tenn., and Evansville, Ind., on the St. Louis & Evansville and Louisville & St. Louis railroads, which were withdrawn on account of the floods, have resumed, the damage occasioned by water having been repaired.

Among the lately-announced transfers of real estate in York county are the following: Kittery—Albert A. Hayes et al., of Kittery, to John Pennell of Boston, Mass., land and buildings for $1; Paschal M. Langton et al., to Joseph Langton, two-thirds of a field in common and undivided, for $200; Charles E. Langton to Joseph Langton, land for $400; Joseph Langton to Charles E. Langton, real estate for $800; Benjamin Seaward to Joseph H. Seaward, land for $25. Eliot—Franklin B. Bartlett et al., of Kittery, to George A. Hammond et al., eleven acres of woodland on Rocky hill. Eliot, for $900. York—Oliver Clark to Edward S. Marshall, two lots of land in York for $1300. Wells—Melinda Allen to Julia A. Cole, real estate on Ball Hill road in Wells for $1.

H. S. Paul, architect, has been engaged to make plans for an extension of the Pepperell house at Kittery Point. The plans provide for an addition on the east end of the house, thirty-five feet in length and three stories high, with a tower. The first floor of the addition will be used as a dining hall, and the upper floors will make fifteen extra sleeping apartments. Work will be commenced as soon as possible, and the building will be ready for occupancy this season.

The tinning of the roof of the house which has been built over the receiving ship Constitution is pronounced a specimen job, that cannot be surpassed at any other navy yard, or by any private establishment. One of the men employed on it was Mr. Joseph Davis, son of Mr. Richard Davis, who tinned the steeples of the churches in South Berwick, Me., some fifty years ago.

Dr. John W. Barney, a retired physician of Concord, died March 4th at the age of sixty-seven years. He was the proprietor of the beautifully-situated summer cottage at Kittery Point, near Fort McClary.

Mrs. Sullivan Clark of Berwick, who was seriously and it was feared fatally burned on Friday, the 2d inst., was on the 3d reported as being more comfortable, hopes of her recovery being entertained. She is about seventy-five years old, and formerly resided in Portsmouth.

From two to four extra freight trains are run over the Eastern railroad daily. There are now at the wharves in this city 1600 tons of coal awaiting shipment to Biddeford, Me.

John F. Snow, forty years old, a shoemaker, was struck by an Eastern railroad train while walking on the track at Lynn, Mass., about twelve o'clock Saturday night, and was horribly mangled and instantly killed. The dead man is said to have a family at Beverly Farms.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.3 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.
MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,
SARAH C. WHITTIER

VACATION TRIP TO EUROPE.

Miss A. C. Morgan has issued her circular giving the programme of her vacation tour for next summer. The party will leave New York by the Red Star line of steamers on June 23d, arrive at Antwerp July 2d, visit Germany, Italy, Switzerland, England and Scotland, leaving Liverpool Sept. 1st, and expecting to reach New York Sept. 11th. This will afford a tour of eighty-one days, at an expense of $600.

BAD BIRD-DOGS.

Among the fowls recently killed in the vicinity of Gravelly Ridge, by two dogs supposed to be of the setter breed, was a rooster belonging to Mr. Francis R Johnson; this bird was a cross of the White Earl Derby and Irish Game breeds, and was valued at $60, Mr. Johnson having refused an offer of $40 for him. An elderly lady looking from a window saw one of the dogs and the rooster engaged in a fight, which lasted a considerable time, the rooster not being conquered until the second dog came up and snapped him by the head as he was bravely confronting the first assailant. From the description given there is no doubt that the maranders are "bird dogs;" several shot guns have been heavily loaded, and a watch is being kept in the vicinity of their recent depredations, in hope that they may be caught, or marked with buckshot, but this is not likely to happen, as the owners of such dogs will now most probably keep them on the chain awhile.

GOSSIPS SAY

That a grand surprise party was had at the Methodist parsonage on Monday evening of this week.

That the occasion was the tenth anniversary of Mr. and Mrs. Robins' marriage.

That very many valuable and serviceable presents, to the amount of more than a hundred dollars in value, were contributed by the Ladies' Circle.

That a mammoth tin watch, eighteen inches in diameter, was fastened to the reverend gentleman; while his estimable lady sported tin bracelets us large 'round as keg-hoops.

That the affair was a genuine surprise, and nicely gotten up.

That our doctors are much exercised over a curious case of skin disease at the west end.

That the cottage at Newcastle, nearly completed by Messrs. Yeaton & Hodgdon of this city, for Jacob Wendell, Esq., of New York, will be the most elegant summer residence in New Hampshire.

That a story is going about to the effect that Manager Whitcomb of the Portsmouth Shoe factory is to start a large shoe concern in the south.

That the excuse of a Sunday school scholar for his absence on a recent Sunday, that "he had to assist his father in selling beer," is worthy of the son of Bushrod Washington; but then George wasn't tempered with beer—'twas cherry juice.

That Great bay is teeming with smelts of wonderful size, and that large numbers are being caught.

That our ministers have the resignation fever, and that vacations and going abroad help them.

That the high board fence around the Cleaves lot on Vaughan street is being cut down to three and a half feet in height.

That the sleighing on the York side of the Piscataqua river was never better than it was found to be on Monday of this week, by the few persons who cared or dared to drive out in such biting weather.

That the gunners ought to call a mass meeting and hunt up and shoot the man who has seen the first robin—or else "shoot" the weather.

That the first robin is an unbeliever in Wiggins, and his knowledge-box is too small to constitute him—the robin—a prophet in the good time coming.

That those pugnacious little villains, the English sparrows, which have shown themselves in numbers numerous on our streets lately, will fight pigeons, and have even been seen to attack hens.

That the sparrows are here to stay, notwithstanding the talk about their driving off the native song birds, and in spite of the act of the Massachusetts legislature outlawing them.

That seventy-five pounds of smelts were caught by a local fisherman on Great bay one day last week.

That the Portsmouth greenhouses are being forced to their utmost capacity to supply the great quantity of flowers which have been ordered for Easter.

The apron and neck-tie party—the event of the kind for this season—comes off in Congress hall this evening.

The "Ladies' Aid Society" are going to give a good supper and entertainment as guests of the pastor at the Pearl street vestry on Wednesday afternoon and evening—admission free, but the hat will be passed around during the evening, so be prepared.

The steamer Three Brothers, which has for some time been beached at Badger's island to have her propeller and shaft taken out, has hauled over to this side of the river to complete her repairs.

About 3000 lbs. of fish arrived on Monday.

The steamer Mystic came off the marine railway at Kittery on Saturday evening at six o'clock. The new boiler which was put into her while on the ways was made by the Swamscot Machine Co., of South Newmarket, and is eight feet long, four feet six inches in diameter, made of three-eighths iron, and double rivetted. The iron was made by the Pottstown Iron Co. of Pottstown, Penn., stamped 45,000 lbs. tensile strength; the boiler has been tested to 150 lbs. hydrostatic pressure, and is licensed to carry 100 lbs. steam pressure to the square inch; it has a new pop safety valve, and is decided by Mr. Andrew J. Savage, local inspector of steamboat boilers, to be all right. The Mystic will probably make her "workmen's trip" this evening from Kittery to this city.

Charles E. Lane, of Exeter, died at the Insane asylum in Concord recently. He was formerly a well known insurance agent, and married his wife in this city.

The number of marriage licenses issued by the city clerk in January was twelve, five of the couples being from Maine; in February he issued four licenses, of which three were to Maine couples.

The tide-gates of the north millpond were opened on Saturday, and lashed open to allow the tide free ingress and egress.

Another of the series of surprise parties arranged by the South End Surprise Party club came off on Monday evening, March 5th, the recipients of the surprise this time being Mr. James Sanborn and wife; over forty members of the club were present, and the usual social chat, games and supper took up the time until a late hour. The quartette belonging to the club gave some excellent selections, in which their vocal abilities were well demonstrated. S.

Miss Belle Fernald, daughter of Mr. Wm. F. Fernald, has so far recovered from the effects of her terrible fall from the Portsmouth & Dover railroad bridge that she has been out of doors.

The receipts from internal revenue in this district during the month of February, 1883, were $19,650.61, against $19,560.19 in February, 1882.

The installation service of Rev. James DeNormandie as pastor of the First Religious society in Roxbury, Mass., will occur on Wednesday, the 14th inst., at three o'clock in the afternoon. Doctors A. P. Peabody, James Freeman Clark and Edward Everett Hale, and Rev. Edward Hall, will participate; the sermon will be preached by Dr. Clark.

There was a dance in the town hall at Newington on Tuesday evening of last week, but owing to the inclement weather the attendance was not large. On Friday evening there was a roller-skating frolic in the same place, which was fairly well patronized.

The schooner Ruth Robinson, having discharged that part of her cargo of guano which was destined for this port, was towed to the lower harbor last Saturday afternoon on her way to Portland, where she will discharge the remainder.

We have been shown specimens of the new five-cent nickels, about which so much has been said, and upon which the speculators tried to realize something handsome by the statement that the coinage of them had been stopped, owing to their fancied resemblance to a five-dollar gold piece; if somebody will now show us a five-dollar gold piece we shall be able to say whether the resemblance is dangerous or not.

Mr. Henry G. Watson, of Newmarket, is repairing his gondola, the Fearless, which has wintered at Goodrich's wharf in this city, and will have her in readiness to start when navigation opens. It is said there is plenty of transportation work ahead for the gondolas this spring.

The Boston *Sunday Herald* says it is reported that Miss Norah Bartlett will not remain at the Museum next season.

The crew of the schooner W. L. Bradley, which arrived at this port on the 2d inst. with a cargo of coal, left her on her arrival, and went to Boston, there being no chance of shipping from here. The mate was in charge of the vessel when she got here, and remained so until the arrival of the captain (who is part owner) on Saturday afternoon.

A steamer and three schooners have arrived at this port within less than a week, with 3978 tons of coal to J. Albert Walker.

The checklist of Newmarket, as posted by the selectmen, bears the names of 551 legal voters.

No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is full explained.—(London Lancet.)

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.)

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheeseman, startlingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves's celebrated physician has prepared a specific for all heart troubles and kindred disorders. His known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help half answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice respectfully answered, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

Dr. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST PLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

IN MINNESOTA & DAKOTA

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human

Nature.--

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seemed to love to be swindled, adulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied to an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Liquor in Maine.

An examination of the books of the collector of internal revenue at Portland shows that the number of licenses to engage in the wholesale and retail liquor business granted by the United States authorities to citizens of Maine during the year beginning May 1st, 1882, was as follows:

Towns and Cities.	No. of licenses.
Augusta	22
Bath	11
Belfast	21
Biddeford	86
Bangor	154
Brunswick	11
Eden	11
Ellsworth	10
Gardner	16
Hallowell	10
Houlton	18
Lewiston	62
Oldtown	13
Old Orchard	12
Portland	212
Rockland	33
Richmond	11
Saco	16
Skowhegan	19
Waterville	20

The total number of such licenses issued in the 172 towns and cities included in the examination, is 1,162.

Allowing two men in each instance, we have a grand total of 2,324 men engaged in the licensed liquor business in Maine.

No absolutely correct estimate can be made of the number of persons engaged in the business, to a greater or less degree, without a license, but good judges put their number as high as 200 in Portland alone, and at about 1,000 in the state at large.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

In Portland, Me., on the 5th inst., John W. Deering, the democratic candidate for mayor, was elected by 220 majority over Charles F. Libby, the republican candidate. Last year Libby was elected by a plurality of 460, though he was in a minority of sixty-seven as against all others. The democrats elected four aldermen and the republicans three; common council, fourteen republicans and seven democrats. Until about a year ago Deering had been a republican.

Concerning Certain Relics of the Past

--Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parcelled in name and style.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.--We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter left Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz: Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY steps in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

Twenty Years ago.

In 1863, Mr. Wilson, now of Lawrence, Mass., was in the commissary department in Washington. Somehow or other, he was taken with a violent soreness of the throat. Several army surgeons examined his throat and decided that it was a case of diphtheria, and that it was hopeless. After they had given him up, he tried Perry Davis's Pain Killer. The next day the scales began to come off his throat, and in two or three days he was well.

John O'Neil, a liquor dealer who has been sending the ardent into Rutland, Vt., from Whitehall, N. Y., surreptitiously, has been fined $9000, and sentenced to the house of correction for one month.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

All the Mutual Union telegraph wires in Chicago and Milwaukee were cut by the police Friday, because the company had not put them under ground as per agreement. The time for the Western Union to put its wires under ground in those cities will expire in about a month.

From the cradle to the grave all are subject to coughs and colds. Adamson's Botanic Cough Balsam is a certain cure in the most obstinate cases. New trial size, 10 cts.

The "Society for the suppression of blasphemous literature," a British organization, propose to prosecute Professors Huxley and Tyndall, Herbert Spencer, the publishers of John Stuart Mill's works, John Morley and others, "who by their writings have sown widespread unbelief, and in some cases, rank atheism." The editor, publisher and printer of the *Free Thinker* have already been sent to prison for "blasphemous libel," whatever that may be.

A Miss Buchanan, once rallying a brave soldier on his courage, said: "Now, Captain Johnson, do you really mean to tell me you can walk up to the cannon's mouth without fear?" "Yes," was the prompt reply, "or a Buchanan's either," and he did. It may be safely assumed that the lady, to whom the gallant captain thus paid his respects, hadn't the catarrh. This malady is as loathsome as it is painful. It's cure has heretofore been considered impossible. Ely's Cream Balm, however, never fails to cure it. Mr. Nathan Fegley, with E. F. Montz, Merchant, Wilkesbarre, Pa., says: "I've had catarrh for fifteen years. Ely's Cream Balm has opened my nostrils and reduced the inflammation. My eyes, too, can stand strong light." This balm is a marvel of fragrance, and curative powers.—is not a liquid or snuff, and is easily applied.

In Chicago, on the 5th inst., the Mutual Union Telegraph company began an action in the United States court against the city of Chicago, asking for an injunction to restrain the municipal officers from interfering with the company in reconnecting its wires, which were cut by order of the mayor some days previous.

Not So Very Bad.

It is the fashion to growl at Congress; and each one, at its end, is ordinarily denounced as "the do-nothing Congress," and stigmatised by the opposition, and the men whose pet jobs have mis-carried, as the worst Congress that ever met. The 47th Congress, just expired, has been sharply criticised; yet its record is bright indeed when compared with any or all of the congresses since the war in which the democrats had a majority.

The late Congress passed over 800 bills and resolutions which required the President's signature, and among them all were no private "jobs" of any magnitude, all important schemes for depleting the treasury having failed, with the exception of the perennial river and harbor bill,—and even that, for this Congress, was less than that of the 46th, which was democratic. The act providing for the extension of national bank charters, which undoubtedly saved the country from wide-spread financial disturbance and disaster; acts providing for the relief of the overworked supreme court, by referring cases to the court of claims; for the distributing to actual sufferers by the Anglo-rebel cruisers, of the remainder of the Geneva award; for the reduction of letter-postage to two cents; for the repeal of all war-taxes excepting those on liquors and tobacco; for the reduction of the revenue by the revision of the tariff; and for the reform of the civil service, were all passed, and all commend themselves to the best element of the country.

Contrasted with this record, how does the work of those democratic Congresses appear? What measures of national importance did either or all of those congresses pass, excepting the bill to make eighty-eight cents in silver a legal dollar?

True, there are large sins of omission to be charged against the 47th Congress. It should have repealed the democratic silver-coinage bill, but failed to do so. The duty on raw sugars should have been put very low, but the southern democrats insisted on "protection" for the Louisiana sugar planters. The burdens of American shipping should have been removed,—and many of them would have been but for the action of the democrats, who under the leadership of Sam. J. Randall defeated the excellent measure proposed by the republicans, and by them carried almost to success. And the bankruptcy, electoral - vote-counting, and other important measures, were not passed. But with all these failures, the late Congress must stand immeasureably higher in the estimation of thinking citizens than either of the three which preceded it.

Important Decision.

A decision was rendered March 5th by the United States supreme court in the cases of the state of New Hampshire and the state of New York against the state of Louisiana and her executive officers. These were suits on repudiated Louisiana bonds, which individual bondholders of New Hampshire and New York transferred to their respective states, that they might bring original suits in the supreme court against the state of Louisiana to compel the latter to fulfil its obligations. The court holds that the suits are, in effect, not the suits of the states of New Hampshire and New York, but the suits of individual citizens of those states against another state; that the states of New Hampshire and New York are merely endeavoring to act as collecting agents for their citizens, and that this cannot be allowed. The judicial power of the United States does not extend to suits commenced and prosecuted, as these in effect are, by individuals against one of the states of the Union. The action cannot be sustained, and the bills are dismissed. Opinion by Chief Justice Waite.

A Happy Failure.

One of the good things done by the late Congress was the *not* doing anything to aggrandize the navy at the expense of the revenue-cutter and life-saving services. In particular is the maritime world to be congratulated that the latter service was not ruined by the change which was at one time so ardently advocated by a certain class. There is nothing whatever in the education of a naval officer to fit him for the command of a life-saving station. For this service it is absolutely necessary that the officer in command, and each of his men, should be a skilled boatman, which very few deep-water sailors are; and further, they should be (and under the present rule are) acquainted with every eddy and trick of the tide and sea along the stretch of coast covered by their patrol. These qualifications can be secured in no other way than by securing the local fishermen or other "beach-combers" for life-saving crews; and these men would never consent to serve under naval rules and regulations, touching their hats every time a bit of gold lace hove in sight, even though the wearer might enjoy their thorough contempt. The American life-saving service, as at present constituted, is the best in the world by long odds, and it is to be hoped it will be allowed to remain so.

An Important Political History.

Hon. James G. Blaine has been for some time past engaged in preparing a work of political history under the title of "Twenty years of Congress; from Lincoln to Garfield. A History of National Legislation from 1861 to 1881." This is not to be in any sense a work of reminiscence, and Mr. Blaine has told friends with whom he has talked on the subject that whenever it becomes necessary to allude to his own share in the events of this period the allusion will be simply historical, and not personal. In other words, whenever the author appears in the book, it will be as "Mr. Blaine," and not as "I."

It is expected that the book will make two octavo volumes. There will be an elaborate introduction, reviewing the causes which led to the political revolutions of 1860. The main work will probably be divided into two parts: First, the eight years of Lincoln's and Johnson's administrations, dealing with the war, emancipation and reconstruction; second, the twelve years of Grant's and Hayes' administrations, dealing with the southern state governments, the wrongs upon the ballot box, the enforcement acts, currency and railroad questions, the Alabama claims, annexation, civil service reform, etc. The main portion of the book will have the aid of Mr. Blaine's intimate personal knowledge of the men and events of the time which it treats of. This will make its appearance an event of national importance, especially as it is understood that the history is to be a comprehensive one, and is not to be confined to any particular side or phase of the anti-slavery conflict and the civil war, as has been the case with most of the histories written thus far. No one who remembers the discriminating and analytical tone of the eulogy on Garfield, though it was delivered under circumstances that would have led most orators into profuse and unvarying eulogy, will need to be assured that Mr. Blaine's book will be written in the spirit of the historian—for the future more than the present.

It is in the preparation of this book, and other historical writings which Mr. Blaine is said to be contemplating, that he finds it necessary to reside in Washington, where he can have access not only to the vast stores of documents in the Congressional library, but to many original papers, only to be found in the unprinted archives of the government. No time is assigned for the publication of the book, but it is stated that it is to be brought out by the Henry Bill Publishing company of Norwich, Conn.

The rolling mill of Potts Brothers, at Pottstown, Pa., which has been stopped for five weeks past on account of uncertainty about the tariff, was started Monday, March 5th, but after one heat the puddlers and their helpers refused to work, and went home. The cause of the strike was a notice of a reduction to $3.50 per ton for puddlers, and of eight per cent in the wages of the other workmen. In consequence of the stoppage of the puddle mill, the plate mill was compelled to stop at noon. The proprietors say that they started the mill solely to give the men work, as they have not a single order on hand.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod1jan8,84

Cases of Fair Dealing in the Desert of Human Life.

In some cases recently the newspapers are speaking of equity ruling where the law does not give a remedy—especially in the case of a corporation (corporations are often soulless). The Louisiana State Lottery Company—a lady complained her ticket (winning one-half of No. 43,713, which drew the first prize of $30,000) had been fraudulently obtained; after litigation the contestants compromise amicably, each taking half. A lady residing in New York city had lost her ticket in the mail, but on application to M. A. Dauphin, president of the Louisiana State Lottery Co., at New Orleans, La., obtained the number, learn it had drawn $10,000, filed a caveat, proved her right, and after a proper delay had her money paid to her. Such acts make one think that there are oases of fair dealing in the desert of human life.

FOR SALE BY

C. E. LAIGHTON & SON,

Call and See the Flour, Ask for a Circular. Try it, and you will not be Without it.

The American Medical Weekly, published by E. S. Gaillard, M. D., LL. D., New York city, issue January 7th, 1882, contains an able, interesting and instructive illustrated article entitled, "Cereal Foods Under the Microscope," written by Ephraim Cutter, A. M., M. D., Harvard and University of Pennsylvania, Principal of the Medical Department of the American Institute of Micrology, author of "The Clinical Microscope," and other medical and scientific papers. The object of the paper is to place before physicians and the public in their true light, as revealed by microscopic and scientific investigation, the real value of the many cereal foods, which are advertised and offered for sale, and recommended as especially adapted for the promotion of health and prolongation of life. In order to make the subject clear and comprehensive to the reader, the author made a careful microscopic examination of forty-four different brands of cereal foods, including Patent, New Process, Superfine and entire Wheat Flour, Wheat Meal, Graham, Cold Blast, Gluten Flour, and several of the leading advertised Infant foods, and the result of these examinations are clearly presented in microscopic drawings made by Dr. A. T. Cuzner, of New York city, one of the most competent and skilled artists in that department of scientific art.

Chief among the 44 products examined by Dr. Cutter and illustrated by Dr. Cuzner, magnified 200 times, is mentioned Franklin Mills Fine Flour of the entire wheat, manufactured only at Lockport, N. Y., with the following comment: "The field is filled with products. Repeated examinations prove this to be the best flour examined. So long as the makers maintain such a proportion of gluten cells they confer a blessing on mankind. It produces a light, spongy bread. It is a reliable infants' food."

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

FARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in Hood's SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. Our thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

SARAH C. WHITTIEF

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 13.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.48 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and state in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April, 1882.*

GOSSIPS SAY

That the high schoolhouse is not properly heated, and that scholars take cold and are kept from school on that account.

That the "first down-river excursion of the season," on the 4th inst., was taken afoot, the excursionists walking to Newcastle,—and stopping there.

That the loud-mouthed, slangy young man who invariably at parlor sociables, sewing circles, tin weddings, etc., manages to get a seat nearest the whatnot and to spill therefrom the costly knick-knacks, is a nuisance, and in his own parlance should be "fired out."

That the storm of Tuesday was much more severe in Boston than in this city.

That a brilliant alderman suggests that if, when the north millpond is free from ice, the steamer Fearless be placed within the pond, having in tow a huge long-toothed harrow, the filth on the bottom would become so mixed with the water that it would run off through the gates into the river, and thus obviate the necessity of dredging.

That the millpond gates were closed again on Tuesday for some purpose.

That the gates should be opened, and not closed for any purpose whatever.

That Newcastle was thought many years ago destined to be a great summer resort, in that the Newcastle Bridge corporation in 1822 applied for and received from the New Hampshire legislature a charter to build a summer hotel in that town.

That a large number of shares were sold and a committee appointed to contract for the building of said hotel, but for some reason the project never was consummated.

That from 1821 to 1860 this bridge corporation declared forty-nine dividends, amounting to over $20,000.

That the popular drive over the harbor road to Newcastle will be more attractive than ever this summer, owing to the artistic and somewhat æsthetic decorations that will be placed on the new third bridge.

That seafaring men are petitioning for the transfer of the signal station in this city to Newcastle,—where it should be.

That if an agent of the N. H. S. P. C. A. had been on State or Middle streets Tuesday afternoon, he might have seen cause to arrest the driver of an old and wretch-looking horse which, attached to a heavy load, was moving at a snail's pace toward Rye under the cruel lashings of his unthrifty master.

HOW TO FIGHT FIRE.

The following advice from the Home Insurance company may not be needed—possibly may be regarded as no good—by local firemen, but will no doubt prove interesting, and perhaps useful, to the general reader:

Firemen would do well to bear in mind that one gallon of water at the bottom of a fire will do more to quench it than ten gallons at the top. "Play low," is the true motto for the fireman. To play on the roof of a house on fire is to waste water; be sure to play low; get the water near the fire, and then you need not pour on a river. A few gallons at the bottom of a fire will rise in clouds of steam when the fire is rising, and will quench it. A gill of water thrown into the bottom of a grate equals a quart thrown on top. For a similar reason water on the windward side is more effective than on the leeward. The big blaze on the leeward looks fearful, but it cannot be affected by playing on that side. Throw water in the bed of coals under the retort that is sucking them, and it will go out—that is to say, play at the bottom of the windward side of a fire, and you take the surest and speediest way to quench the whole leeward side, blazes included.

Pensions are being paid this week. By a recent order, all navy pensioners in Maine, New Hampshire and Massachusetts are now paid by the pension agent in Boston, instead of those in this state being paid at Concord, and those residing in Maine being paid at Augusta. This order will continue in force till some one succeeds in having it changed.

Among the talked-of improvements of the Eastern railroad on Noble's island is a wharf which will extend along the face of the island from the present wharf nearly to Portsmouth bridge.

The steamer Mystic was inspected on Monday, and passed a very favorable inspection. She has been lengthened four feet, and will present a much improved appearance. The bursting of a pipe through the freezing of the water in it prevented her from making her "workmen's trip" on Tuesday evening, as she had intended to do.

Congress having made $64,000 of the naval appropriation for the year commencing July 1st immediately available for the use of the bureau of yards and docks, there will be no closing of the navy yards at present.

Capt. Upton, of the steamer Three Brothers, has under consideration a contract to do the towing for four gondolas from the opening of navigation to the 1st of July, and from Sept. 1st to the end of the season, the steamer having another engagement for the months of July and August.

About 30,000 lbs. of fish came in this week up to Tuesday night, prices ruling from 2 1-4 to 3 1-2 cents a pound.

The railroad commissioners of Massachusetts have authorized the Eastern railroad to build a half-mile branch at Danversport.

The persons who have been running a roller-skating rink in Franklin hall have given it up, and gone to Springvale, Me.

The Boston Theatre "White Slave" Co. passed through this city for Newburyport on Tuesday.

Parties in Eliot purchased last fall a ten-acre wood lot near Dover, which has been nearly stripped this winter.

Hon. E. C. Moody, of York, who has been ill with pneumonia for several weeks, was in this city on Saturday last, the first time for two months.

The town debt of Wells on Jan. 1st, 1882, was $1621.10; on Jan. 1st, 1883, $697.18.

In Kennebunk, one day last week, Mrs. Joshua Littlefield had her right arm so badly burned that it is feared she will lose the use of her hand. Her sleeve took fire from the stove over which she was singeing a fowl.

Mr. A. H. Morrow and others have purchased the mill and water privilege at Cape Neddick belonging to the estate of Col. Samuel Webber, and will erect a new mill thereon, and put in machinery for planing, jointing and matching.

Since the set off of the locality known as "Hog Point" from Berwick to South Berwick about two years ago, the former place has been paying taxes on its former full valuation. By a recent act of the Maine legislature, however, the valuation of Berwick has been reduced $72,000, and that of South Berwick increased a like amount.

Hon. Hiram H. Hobbs of South Berwick, who graduated at Bowdoin college in the class of 1824, is the oldest living member of the York county bar, having been admitted in 1827, fifty-six years ago, and is still in excellent health.

Mrs. Solomon Clark, of Berwick, died from her injuries at 10:30 o'clock Saturday night.

On Monday, the 5th inst., Saco elected George F. Owen, republican, mayor, by 198 majority, the republicans carrying six out of seven wards. Last year the republicans had 101 majority.

Last Saturday afternoon while a lady from Dover was driving in a sleigh in Somersworth accompanied by her sister, the horse attached became frightened near the railroad track and overturned the sleigh, spilling the two ladies, who were badly bruised about the face, but otherwise fortunately escaped injury. The driver and her travelling companion picked themselves up, and after the necessary shaking out started on a pursuit of the horse, which, the sleigh having righted, had ran toward the place of destination, and passed up a lane where there was no passage through, and here was found waiting to be secured by his late owner. A liberal supply of court plaster from Rackley's drug store enabled the ladies to be in some degree presentable, but there are many curious unbelievers in Great Falls and Dover, as to the origin of the facial marks upon the otherwise fair dames.

Farm Work for March.

Hiring Men.—The problem of hiring labor is not an easy one for the farmer. On any farm where two or more hired men are needed during the growing season, it is usually best to have one man work by the year. In this way good help may be secured for a long term of years, and will also lead to a profitable planning of the labor for the whole year. The amount of work done during the winter can be largely increased, greatly to the relief of the workmen in the busy months of spring. The necessary wood for the household should be provided in winter, with a sufficient stock on hand, so that only well-seasoned fuel need be used. It is a slipshod and unprofitable method that provides the wood fresh from the log on the day it is burned, besides being a fruitful source of bad breakfasts and worse tempers. There are scores of other jobs that may be done in winter, turning both man and team to good account.

Fences have been laid by the winter storms should be rebuilt so soon as the ground will permit. Manure may be drawn out before the frost is out of the ground, and either put in small heaps or spread from the wagon. This work can be done with greater speed if there is snow upon the ground, and a sled can be used. It is especially convenient to use a sled in an orchard under the spreading branches of the trees. All surface stones may be taken from the fields so soon as the frost is out enough to set them loose.

Tools.—Every implement needed on the farm should be overhauled before the time for using them arrives. Sharpen all edged tools, and oil the various parts of the farm machinery. Look well to the bolts, that none may be missing when the day for using the implements is at hand. The little things of the farm are very important, and no one can hope to succeed without paying strict attention to them.—*American Agriculturist.*

This wonderful remedy has saved the lives of many, many children who were almost dead with

DIPHTHERIA.

S. Henry Wilson, Lawrence, Mass., says: "The surgeons pronounced my case Diphtheria, and decided that no remedies could reach it. Perry Davis's Pain Killer saved my life."

Libeus Leach, Nashua, N. H., says: "I had relitera' colic and diphtheria soon threw very severely. Pain Killer drove both away."

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

PSORIASIS.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by the Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally. The most wonderful case on record. Cure certified before justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

SALT RHEUM.

Those who have experienced the torments of Salt Rheum can appreciate the agony I endured for years, until cured by the Cuticura Resolvent internally and Cuticura and Cuticura Soap externally. MRS. WM. PELLINGTON, Sharon, Wis.

CUTICURA

and Cuticura Soap externally and Cuticura Resolvent internally will positively cure every species of humor, from a common pimple to Scrofula. Price of Cuticura, small boxes, 50c.; large boxes, $1. SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

368th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR **HEART SOUND?**

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Clendinning, startingly says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention. Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings had presumed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It comes only $1, per bottle, or six bottles for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. Pinkham, with stamp for reply at her home in Lynn, Mass.

For Kidney Complaints of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its specific lines and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Oyster War.

To persons unaware of the facts in the case there seems something ludicious in the extreme in the action of Gov. Cameron of Virginia, in fitting out two big steamboats with artillery and infantry to attack a lot of oyster sloops; but the following, written from Fortress Monroe on the evening of the day Gov. Cameron's expedition started, indicates that the Virginian commander-in-chief knew very well what he was about:

The unlawful and piratical depredations of both native and foreign vessels on the Virginia oyster beds threaten their total destruction. The full pirate fleet numbers about one hundred vessels, composing the fleets of the Potomac, Rappahannock, and Plankatank. Each vessel is armed with two swivel guns, fore and aft; every man has a long-range Enfield rifle. They have been on the lookout for some weeks, apprehending an attack, and have also a regular and well organized system of signals and night patrol boats, which communicate with the fleet and give timely warning of the approach of the enemy. The governor's armada sailed first for the Plankatank fleet, his his design being to surprise the pirates operating in that vicinity. They are, however, prepared against a surprise, having, among other precautions, a scout boat stationed far out in the bay, its occupant this morning being the ex-convict Turk Abou Ben Medjed, known among the pirates as "One-eyed Medj," who had a spyglass as well as a signal flag.

The pirates on Sunday evening elected Jim Skaggs, a one-legged sailor and noted contraband, as admiral of their entire fleet. Skaggs is sixty years old, and lost his leg on the coast of Africa, when on a slave trader, in an engagement with English vessels. His plan of action was to escape if possible, but if either fleet should be caught up in a bay, they were to move together and fight their way out. His plan was carried out admirably, and resulted in his completely out-witting Gov. Cameron's expedition.

One-eyed Medj, with his spyglass, discerned the Cameron fleet, which consisted of two big steamers, steaming toward the bay. He signalled to the watch on Admiral Skaggs' vessel, and in less than fifteen minutes the entire fleet of the pirates was moving, with a splendid breeze behind them, and before the governor's steamboats were within four miles of t e bay the fleet was well out. Everything was in favor of the pirates. The breeze was almost a gale, which, while it made against their enemy, sent their small craft dashing over the water. The signal flag of One-eyed Medj was a red flannel shirt, and he defiantly laid out in the bay after the entire fleet had gone out, and let the enemy get almost within shooting distance. Then he signalled at them, and, pulling up anchor, moved easily away from them, followed by shot from the governor's vessel, which how ever did not reach him. The unfortunate oyster craft which was captured ran aground. It was a victory for the pirates.

Did you read how Josiah Pitkin of Chelsea, Vt., was cured of a terrible sore leg, by Hood's Sarsaparilla, the blood purifier?

There was a triangular contest for mayor of Bath, Me., March 5th, the result being no choice; the independent republican candidate led, with the regular republican candidate second.

"Dr. Benson's Celery and Chamomile Pills for the cure of neuralgia are a success."—Dr. G. P. Holman, Christianburg, Va. 50 cts., at druggists.

Postmaster General Howe has under consideration a plan for issuing of an entirely new system of stamps, of different colors from those now in use, to go on sale when the two-cent postage comes in.

Answer This.

Can you find a case of Bright's disease of the kidneys, diabetes, urinary or liver complaints that is curable, that Hop Bitters has not or cannot cure? Ask your neighbors if they can.

A despatch from Madrid, Spain, says "a band of masked and armed men, supposed to be members of a secret society, entered a farm at Puerto Serrano in Andalusia, and murdered the men, outraged the women and destroyed everything on the place. Several plantations in Andalusia have been partially destroyed by similar bands. Some emissaries of a secret society, who have been arrested, were found with fresh orders from their chief. A schoolmaster has also been arrested. Thirty-eight arrests have been made in Malaga, including that of an ex-mayor of the city."

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

One of the last official acts of Speaker Keifer was to call up Stenographer Tyson and demand his resignation. Benjamin Gaines, who is Mr. Keifer's nephew, was appointed to fill the vacancy. This will allow Mr. Gaines to draw about $4,000, for which he will not be compelled to do a single stroke of work.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. W.M. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your collar, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blocks, or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 3,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

THE WAY OF LIFE.

The warrior frowned and pressed his temples gray:
"Enough," he cried, "away with love—away!"

A boy from play by fondest kiss beguiled,
"Mother, I'll love thee ever!" spake the child.

A maiden gazed into the night sky wide—
"Oh, I will love him when he comes!" she sighed.

These three moved on along the way of life:
A fair face lured the soldier from his strife.
Upon a tomb we read the sweet child's name.
The lover to the maiden never came.

To Give Housekeepers an opportunity to test the merits of Electro-Silicon, the noted silver polish, we send postpaid, on receipt of 15 cents in stamps, a full-sized box, sufficent for a month's use, and a cook book. Electro-Silicon Co., 72 John street, New York.

The trustees of Columbia college have declared it inexpedient to educate the sexes together in that college. They deem it expedient, however, to take measures to raise the standard of female education by proposing courses of study to be pursued outside the college, but under its authorities and with suitable academic honors. Among the signers was Rev. Dr. Dix. A committee will prepare a plan for this purpose.

We are in receipt of a letter from our old friend S. Sherson, Esq., at present a resident of the town of Rawlings, in the far-off territory of Wyoming. "Dr. Graves' Heart Regulator has helped me right along," says Mr. Sherson. Glad to hear it, old fellow. Yours was an aggravated case of heart disease. The remedy you mention does the same thing in this section, too; and better still, it always cures heart disease.—*Nast's Weekly Letter-File*

Scientific Information.

In this age of progress people are constantly searching for something new, whether it be in the domain of domestic industry, or in the wider field of science. Twenty learned scientists have experimented long and carefully with a new discovery called "Salicylica," and have deduced from their observations that it is the greatest remedy for rheumatism, gout and neuralgia ever known. Its success has been certain in every case.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

Minnesota has passed a liquor bill which raises the license fee from the present minimum of $25 to a minimum of $200, and from the present maximum of $100 to a maximum of $500, with a provision that it shall not be less than $100 in cities of less than 2,000 population.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters were good for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession falsehood makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE CUT in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.--We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter left Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz: Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stands in at this point. It is not expensive and it is efficient. For all diseases of the blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

Twenty Years ago.

In 1863, Mr. Wilson, now of Lawrence, Mass., was in the commissary department in Washington. Somehow or other, he was taken with a violent soreness of the throat. Several army surgeons examined his throat and decided that it was a case of diphtheria, and that it was hopeless. After they had given him up, he tried Perry Davis's Pain Killer. The next day the scales began to come off his throat, and in two or three days he was well.

—An Irishman took a Yankee friend to church with him on Christmas day. The music was magnificent and the decorations gorgeous. On their way out of church he asked the Yankee how he liked it. "Why, it beat the devil!" said the down-easter. "That's the intuitions," dryly remarked the gentleman from Tipperary.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

The steamer Victoria J. Peed, of the Virginian navy, under command of Gov. Cameron, during the recent raid on the oyster pirates captured six oyster pungys and forty-eight men. The vessels and their crews were turned over to the authorities of Accomack county, Va.

A lady of Fairhaven, Vt., recently became possessed with the conviction that she was going to die, and at the time appointed dressed herself in thin, white garments and went to the graveyard, so as to be on the ground and save hearse-hire. She waited impatiently for Azrael until long after the hour set, and was quite indignant because her friends found her out and carried her home before she froze to death. She is to be taken to the insane asylum.

The Portland *Advertiser* wants the Maine state capital removed to Portland. The *Kennebec Journal* thinks it had better remain where it is. The Bangor *Commercial* shows plainly enough that Bangor is the proper place for it. The Lewiston *Journal* has no doubt but Lewiston is the best place of all.

Seventy-five machine girls in the Union Straw works at Foxboro, Mass., struck on Monday, the 5th inst., for an increase in their pay. Their work was by the piece, but the amount of labor had been increased lately without any increase in price, so they struck, and in a body waited on the treasurer. Their demands were acceded to and they returned to work.

The barn of Wm. Braman, in Winchendon, Mass., was burned March 4th, and the body of Russell Hale found in the ruins. At first it was supposed that he went home drunk, and set the barn on fire while smoking. Later developments indicated foul play, and the town has voted to investigate. Blood was found about the premises, and two men who carried Hale home are of doubtful reputation.

A man named Parl was shot at the Bay State house in Gloucester, Mass., on the 5th inst. The ball entered his abdomen. The affair is involved in mystery, as he refuses to give any particulars.

The body of Farrell McGowan of Lowell was found on the track of the Boston & Maine railroad in Lawrence, Mass., Tuesday morning, the 6th inst., with the head severed.

When Senator Voorhees said in debate on Wednesday that New England had opposed the Mexican war and had little or no [illegible] here in it, he forgot that the democracy went to New Hampshire for a military hero in that war—Gen. Franklin Pierce—and made him their candidate for the presidency at the election in 1852. He overlooked, also, the military career of Gen. Caleb Cushing, of Massachusetts, who "fit into" the Mexican war, and who was furnished to the southrons to preside over their secession fragment of the national democratic convention at Baltimore, 1860. The voice of New England was a little uncertain during the war, for its cause was not deemed a worthy one; but Mr. Voorhees ought to remember that the anti-war party joined in electing Gen. Zachary Taylor in 1848, and gave its vote to Gen. Winfield Scott in 1852.—*Washington Republican.*

AN OLD-TIME HOME-PICTURE.

Who remembers our New England fire, such as it was fifty years ago? There was the huge chimney filling the centre of the house, in which was the big fireplace, where the children, dressed in their homespun woollens, could sit and look up to the very heavens. Close by, the patient housewife struck the flint and steel, to get the spark that would set the big logs ablaze, by which she must cook supper for her household. Her Indian meal, with a little salt, she softened with water, and spread her bannock on the sheet of iron or tin and tipped it before the fire to cook; woe to that bannock if she mixed it a little too thin! The potatoes were put in the ashes to roast, and there the children popped their corn. The good man of the house, meanwhile, was close by, with feet out-stretched to catch the heat, with great iron-bowed spectable on nose; the light stand at his elbows held the tall tallow candle in its iron rest, which gave out a dim, misty light, as he plodded down the columns of the GAZETTE of those times, learning the doings of Congress in that far away District of Columbia,—"news" which had been several weeks on its way to the man of the newspaper, and had now reached the subscriber. He thought that system of mail-coaches really wonderful, by which he could learn so quickly what had transpired in that distant region, and he fervently exclaimed, "Thank God for the privileges of to-day." G.

The Modern Red Riding Hood.

The subject of this sketch was a clever little girl, who derived her odd name from wearing on her head the sleeve of her father's old red flannel shirt. She was an independent little piece, and when asked why her mother didn't buy her a new bonnet said she wished "just sleeve wear what she had on." When one of the neighbors' children sneeringly said, "your pa gets drunk," Little Red Riding Hood responded: "Your pa would too, but he can't afford it;" and when the next door boy ill naturedly said, "your mother takes in washing," Little Red Riding Hood answered: "She don't take in much when your mother gets the first whack at the line."

It will be seen from these incidents in her life that though little read, she was well posted, and the confidence with which her mother despatched her to carry codfish in a dinner pail down into Stoors township to her sick grandmother is easily understood.

Holding the lead dime which her mother had given for car fare tightly in her hand, Little Red Riding Hood started for a street car, and having a few minutes to wait, improved the opportunity by setting up a howl that attracted the attention of a benevolent old gentleman, to whom she explained her cause for grief. She was going, she said, to her poor, sick grandmother, and had been put off a car because her dime was a counterfeit. The gentleman gave her a quarter, and put her on the next car. The conductor in due time called on Little Red Riding Hood for a fare, when she produced her lead dime. "This is counterfeit," said the conductor; whereat Red Riding Hood fell to sobbing as if her heart would break, the conductor passed her, and an old lady gave her a dime, and a boy shared some gingerbread with her. Arrived at her grandmother's house, Little Red Riding Hood sat down and ate the codfish balls. Then she bought some milk from a drunken milk-man, upon whom she passed the counterfeit dime, receiving sixteen cents in change, after which she proceeded to her grandmother's, and stayed with her for three weeks.

In contrasting this story with the original Little Red Riding Hood, the reader should bear in mind the disadvantage our heroine labored under in being her own wolf, a role which she sustained with signal ability. There does not appear to be anything more to add, except that the town is full of our kind of Little Red Riding Hoods. — *Cincinnati Saturday Night.*

Fashions in Ships.

Fifty years ago could be seen what was then called the pink-stern vessel and the sloop, the former having two masts and the latter one. They did the common coasting business on the New England coast. There was also a peculiar shaped vessel called the Marblehead banker, usually about 100 tons, with a very high quarter-deck and deep waist. Then came a schooner and hermaphrodite brig, that were termed low-deck vessels, carrying large deck loads, doing our West India business and in the lumber trade. The schooners were all rigged with square topsails. Then came the full-rigged brig and the bark. Each was of 350 to 500 tons, and with very deep hold, pinched in at the waist to reduce the tonnage, that being the measuring line, and half the breadth of beam constituting the depth of hold, by law of admeasurement. Next came large ships—800 to 1000 tons were called very large—with round hulls, for cotton carrying. Some Boston ships carried 6000 to 6500 bales. Later came the Pacific trade, and we built some very large ships of peculiar model, entirely differing from the above, as sharp as a wedge. This class of ships made the passage to San Francisco, both back and forth, in a time that never since has been equalled.

In the meantime the smaller vessels have changed, so that no pink-sterns or low-deck vessels are to be found and hardly ever a sloop, and the Marblehead fisherman has entirely changed; the schooner has changed from a topsail to what is termed a fore-and-aft rig. As long as forty years ago the Eastport packets were "two top-sail schooners." Then followed the three-masted schooners and a few four-masted ones, and the size has materially increased—say from 95 to 100 tons to nearly 1000 tons, some of them being employed in the East India business.

One peculiar difference in the construction of the larger vessels is noticeable. Some early ones it took many tons of ballast to stand up at the wharf, and now the largest vessel will stand up and be moved safely from wharf to wharf without ballast. The form of ship at present constructed has an up-and-down bull instead of swell, and is moderately full, about midway between the very sharp and the cotton carriers. There has been no particular change in the model of the smaller craft. As regards the fishing vessels, instead of the pink-stern a casual observer would think he had got among a class of wealthy men's yachts. They are really beautiful vessels.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

FARMER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

N. H. S. P. C. C.

At the annual meeting of the New Hampshire Society for the Prevention of Cruelty to Children the following officers were elected for the ensuing year:

President—Charles W. Gardner;

Vice Presidents—Mrs. Ichabod Goodwin, Mrs. Charles W. Pickering, Mrs. Albert L. Jones, Miss Eliza A. Haven, A. H. Ladd, John S. H. Frink, Frank Jones, D. B. Macomb;

Directors — Mrs. John J. Pickering, Mrs. A. W. Haven, Miss E. H. Pearson, Miss M. A. Foster, Miss A. F. Jenness, Miss Hope Goodwin, Miss M. R. Lyman, C. W. Gardner, T. E. O. Marvin, A. W. Odiorne, J. R. May;

Secretary and Treasurer—J. R. May;

Counsel—Charles E. Batchelder;

Trustees of Permanent Fund—Charles W. Gardner, T. E. O. Marvin, Mrs. J. J. Pickering.

The treasurer presented his report, showing the expenses of the past year to have been $40.50, and the receipts $163.-84, leaving a balance on hand of $123.-34. This report was accepted, and on examination by committee, declared correctly cast and properly vouched.

The society has been instrumental in remedying many cases of neglect, abuse and suffering during the past year, without recourse to legal prosecutions, although the liability of offenders to arrest and public trial on charges of cruelty has greatly facilitated the society's efforts to aid the helpless victims of ill usage, and to bring about a change in their condition.

A laborer in a neighboring town habitually neglected his five children, and cruelly treated his wife. They were reduced to the verge of starvation, when complaint was made to the society. Two of the directors immediately visited the home of the offender, stated the law to him and threatened to apply its salutary discipline if a radical change was not effected at once. By the exercise of a little tact and persuasion a complete reconciliation was made between the man and his wife. He found employment and went to work after months of wasteful idleness, and now maintains his family in respectability.

A good home was found for a motherless girl fourteen years of age, in the family of a wealthy and benevolent lady who has been appointed legal guardian of the child during the remaining years of her minority.

Several cases of harsh and cruel treatment of small children have been reported, and upon investigation they proved to be worthy the notice of the society, but in every case the rigor of the law, when explained, seemed to bring the offending persons to a sense of their duty and responsibility to their dependent offspring or wards, and kindly-administered reproof or friendly advice has had a satisfactory effect.

The duties of an officer of this society are of a responsible and delicate nature, requiring the exercise of patience, firmness, sound judgment and active benevolence.

SELLING THE FARM.

In the common council, at the meeting March 1st, the following joint resolution was introduced:

Resolved, That a special committee consisting of the mayor, two aldermen and two councilmen, to be appointed by the board of aldermen and by the common council respectively, be empowered and authorized hereby to sell such portions of the city farm as they may deem expedient, at such rates and upon such terms as in their judgment shall be for the best interest and in furtherance of the true welfare of the city.

In support of the proposition to sell a portion of the farm, Councilman Clough made a speech setting forth that the expense of carrying on the farm from 1877 to 1881, inclusive, was $23,476.54, while the receipts from the products of the farm amounted during the same time to only $18,248—an average loss of $1045 for each year. The average value of stock, etc., necessary to carry on the farm, is put at $7800; the land, 170 acres, is valued at $200 per acre—$34,000 for the entire farm—making the investment $41,-800, on which there is a net loss (including interest at five per cent on land and stock) of $3135 a year. The figures presented also gave the cost of supporting each pauper at the farm as $181, against $155 as the average cost of supporting a pauper by the overseers of the poor, off the farm.

Notwithstanding this showing, so apparently unfavorable to the city farm, the council by a decisive vote refused to pass the resolution, on the ground that the powers it proposed to place in the hands of a committee were too sweeping to be judicious.

GOSSIPS SAY

That a portion of the houshold goods of Rev. James DeNormandie were moved to Roxbury on Wednesday, the 7th inst.

That a gentleman in this city who had been at work some months evolving in his mind a single-track elevated railroad, with cars suspended beneath, and had prepared models and plans with reference to getting his invention patented, was somewhat surprised a week or so ago to learn that he had been forestalled by a Frenchman in Paris, who has been granted a patent on precisely the same railway.

That the roads in this county were much drifted by the light snow and heavy wind of Tuesday, the 6th.

That the "disclosures" promised by the ex-assistant marshal do not frighten the aldermen worth a cent.

That the family of Gen. S. C. Lawrence of Boston are spending a few weeks at Cape Neddick, York.

That the average coal pile intended to last until the 1st of April, melted away by the 1st of March, thereby elongating the smile on the face of the coal dealer.

That on the face of the householder, as his gaze roved unobstructed around his coal-bin, there was no smile to elongate.

That George Byron Chandler, the democratic reform candidate for congressman in this district last fall, has sat upon and "stamped out" the Manchester *Times*, the soldiers' paper, presumably because it supported Mart Haynes instead of "Gentleman George."

That the Portsmouth Savings bank has more deposits than any other banking institution in this state.

That were its affairs wound up to-day, these would be nearly $100,000, in principal and interest, that would never be called for by the original depositors.

That it is almost time the defunct. Ten Cents Savings bank paid another dividend.

That George Manning, living on Court street, has his household goods all packed and will remove to San Francisco, Cal., where he has children living, as soon as spring opens.

That Hon. Daniel Marcy is recovering from the severe lameness with which he was suffering previous to his departure for New Orleans, where he and his family are visiting his brother, Hon. Peter Marcy.

The fishing fleet remained in port on Wednesday, the 7th inst. There was one arrival, with about 5000 lbs. of fish.

Mr. David Welsh left for Minneapolis, Minn., on Tuesday of this week.

Parties from Great Falls were in this city on the 7th inst., looking for a place to open a saloon.

The storm of Tuesday evening, the 6th inst., did not deter the young people from turning out in good numbers to participate in the apron-and-necktie dance which was held in Congress hall. There were about sixty present, who entered into the full enjoyment of the occasion, and the morning hours were encroached on before the party broke up and the participants walked home in the snow. Harlow's orchestra furnished the music.

New five-cent nickels. Any one having boots or shoes repaired at No. 12 Hanover street, will receive one or more of the new five-cent nickels *free*. All work warranted first-class, by J. W. Young.

The mayor and aldermen are daily receiving suggestions in regard to the improvements of the north millpond, all of which are examined to see if there is anything in them worthy of adoption. The matter will be throughly considered before final action is taken.

Mr. Albert T. Pickering, formerly conducter on the Portsmouth & Dover railroad, but now filling a position in the Jones brewery in South Boston, was in this city on the 5th inst., and was warmly greeted by many friends.

A worthy couple of Berwick, after sixteen years experience in the bonds of wedlock without being blessed with any children, were agreeably surprised at the unexpected appearance of a daughter recently. The lady in question has not enjoyed the best of health for some little time; becoming uneasy she visited several of the leading physicians of Dover, but not one of them could give any satisfactory explanation of the lady's illness. They have been surprised at learning that she has given birth to a bouncing baby.

The Boston & Maine railroad company have settled with nearly all the persons who were injured in the bridge accident at Cole's Corner, Wells, a year or so ago. The average sum paid was $350.

Mr. Abram Holmes, living on the Ocean road, was eighty-six years old on the 5th inst.

The steamer James Sampson will be taken off the river on the 1st of April, to be put in order for the summer's work. The Fearless, which has been laid up during the winter, will run in her place.

FINE FLOUR
OF THE
Entire Wheat!
FOR SALE BY
C. E. LAIGHTON & SON,
Call and See the Flour, Ask for a Circular, Try it, and you will not be Without it.

The American Medical Weekly, published by E. S. Gaillard, M. D., LL. D., New York city, issue January 7th, 1882, contains an able, interesting and instructive illustrated article entitled, "Cereal Foods Under the Microscope," written by Ephraim Cutter, A. M., M. D., Harvard and University of Pennsylvania, Principal of the Medical Department of the American Institute of Micrology, author of "The Clinical Microscope," and other medical and scientific papers. The object of the paper is to place before physicians and the public in their true light, as revealed by microscopic and scientific investigation, the real value of the many cereal foods which are advertised and offered for sale, and recommended as especially adapted for the promotion of health and prolongation of life. In order to make the subject clear and comprehensive to the reader, the author made a careful microscopic examination of forty-four different brands of cereal foods, including Patent, New Process, Superfine and entire Wheat Flour, Wheat Meal, Graham, Cold Blast, Gluten Flour, and several of the leading advertised Infant foods, and the result of these examinations are clearly presented in microscopic drawings made by Dr. A. T. Cuzner, of New York city, one of the most competent and skilled artists in that department of scientific art.

Other among the 44 products examined by Dr. Cutter and illustrated by Dr. Cuzner, magnified 80 times is mentioned Franklin Mills Fine Flour of the entire wheat, manufactured only at Lockport, N. Y., with the following comment: "The field is filled with gluten cells. Repeated examinations of this to be best flour examined. So long as the makers maintain such a proportion of gluten cells they confer a blessing on mankind. It produces a light, spongy bread. It is a reliable infants' food."

No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

that **SALICYLICA** is a certain cure for **Rheumatism, Gout and Neuralgia.** The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

This elegant, cheap Article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE!

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while it is the truth only that ails them, the weakness of the heart.

The renowned Dr. Clendinning, startingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart trouble and kindred disorders. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES!

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists, or may be sent by express on receipt of price, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver.* Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Mr. Dingley's Disappointment.

A Washington despatch says that Representative Dingley has been the enemy of the river and harbor bill ever since he came to Congress. The other night when the bill was under consideration, Mr. Dingley having been up until midnight for several nights, went home and to bed, first receiving assurance all around that the bill would not come to a vote before morning. Very unexpectedly, the bill about midnight came to a vote. In the morning Mr. Dingley was disappointed to find that the bill had been passed and that he had not had the satisfaction of voting against it, after his long fight.—*Portland Advertiser.*

Mr. Dingley is one of those good, quiet temperance men of Maine who retire regularly at nine o'clock P. M., and sleep the gentle sleep of steady habits. Had the ex-governor been of the kind of congressmen who occasionally "make a night of it," his record on the roll call might have been more satisfactory in some respects, but perhaps less in keeping with his cherished ideas upon the subject of temperance.

Do sandwiches come from the Sandwich islands? Of course not, but consumption always comes from neglected colds. And a bottle of Dr. Bull's Cough Syrup, taken in time will save much suffering.

At Woodsville, March 6th, a house and outbuildings belonging to Ezra Kimball, known as the old Deacon Kimball place, were totally destroyed by fire. Most of the household goods were saved. Loss about $3,000; partially insured.

Capt. John J. Dawson, late of the British Army, residing on Love street between Mandeville and Spain, New Orleans, La., says he used St. Jacobs Oil with the great possible advantage when afflicted with rheumatism.

The town of Claremont will vote on the 13th upon what steps shall be taken to collect the $40,000 left to the town some years ago, (and now amounting with interest to over $60,000) by the late Paran Stevens.

A Generous Firm.

We are informed that the proprietors, Messrs. A. P. Ordway & Co., recently sent three dozen of their reliable medicine, Sulphur Bitters, to the Catholic home for the aged, which is highly appreciated by the directors and the inmates. "As ye sow so shall ye reap."—*Editor Catholic Union.*

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. The physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of diseases, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human Nature.

There have always been quacks—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be done in style.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no mere electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert in electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Not less than 5,000 marks on Cincinnati houses stand as records of the deluge of the Ohio river in the third week in February, 1883. The owners and occupants point to them with pride, and it is said that a spirit of rivalry leads to frequent raising of these lines, until the historical accuracy of them all is doubted.

Bogardus, the rifleman, has a twenty-acre home in Logan county, Ill. There is a small orchard, a house that needs painting, and some rather dilapidated outbuildings. Bogardus is not rich. He made a few thousands on his foreign trip, but is saving that to bet on future matches. One son-in-law farms the place in summer, and tends bar for another man in winter. A daughter is the wife of a saloon keeper in Chicago.

Joseph B. Loomis on the 7th inst. confessed the murder of David Levett on the 1st of December, 1881, near Springfield, Mass. Loomis shot his victim through the head while they were riding through a covered bridge, threw the pistol overboard, drove the team to a wood and hitched it, robbed the body, and left. He was hanged on the 8th inst.

M. St. Paul a Paris physician has offered the French academy, the sum of $5,000 to found a prize for the discovery of a cure for diphtheria. He has evidently not heard of Dr. Bull's Cough Syrup, which has cured hundreds of cases of this awful disease.

Fred Gebhardt arrived at Milwaukee a day or two since, and it is said that when Manager Deakyn requested him to withdraw from behind the scenes, Gebhardt said that he was to act as Mrs. Langtry's manager next season.

"I consider St. Jacobs Oil an excellent remedy, and one that ought certainly to find its way into every household," says Hon. Peter Bowe, sheriff of New York city.

Rev. S. H. Emery, city missionary at Taunton, Mass., was given $150 in gold by his friends on Wednesday night, March 7th, on the 46th anniversary of his marriage.

A Miss Buchanan, once rallying a brave soldier on his courage, said: "Now, Captain Johnson, do you really mean to tell me you can walk up to the cannon's mouth without fear?" "Yes," was the prompt reply, "or a Buchanan's either," and he did. It may be safely assumed that the lady, to whom the gallant captain thus paid his respects, hadn't the catarrh. This malady is as loathsome as it is painful. It's cure has heretofore been considered impossible. Ely's Cream Balm, however, never fails to cure it. Mr. Nathan Fegley, with E. F. Montz, merchant, Wilkesbarre, Pa., says: "I've had catarrh for fifteen years. Ely's Cream Balm has opened my nostrils and reduced the inflammation. My eyes, too, can stand strong light." This balm is a marvel of fragrance, and curative powers,—is not a liquid or snuff, and is easily applied.

The British steamship Gloucester City has foundered at sea. Crew saved.

From the cradle to the grave all are subject to coughs and colds. Adamson's Botanic Cough Balsam is a certain cure in the most obstinate cases. New trial size, 10 cts.

The Maine legislature has passed the bill to restore the death penalty for murder.

*Women are rapidly finding places in the learned professions and the more lucrative occupations from which they were formally excluded. Many are graduating in medicine. Mrs. Lydia E. Pinkham, of Lynn, Mass., is a minister of health to thousands who may never touch the hem of her garment or behold the genial light of her modest countenance.

A paper at New Haven, Conn., says of the Chinese students at Yale ordered home two years ago, that Mun Yew Chung, who was coxswain of the crew of 1881, is in the office of the United States consul general at Shanghai; Wong is in partnership with Spencer Laisem of the class of '79, they having opened a translating agency; Chang of the class of '83 is at leisure, and desirous of returning to America, and Low, of the class of '84, is married to a daughter of a merchant prince, and is likely to attain official honors. Tsoy Sin Kee is also married.

*** "Neglect old friends for the sake of new, and lose both." But remember that Kidney-Wort is a friend you cannot afford to neglect. Plasters may relieve, but they can't cure that lame back, for the kidneys are the trouble and you want a remedy to act directly on their secretions, to purify and restore their healthy condition. Kidney-Wort has that specific action.

Mr. Albert Hamm and P. H. Conley, the Halifax oarsman, have challenged Edward Hanlan and George W. Lee to row a double-scull race, five miles, for $2,000 a side and the championship of America, the race to be rowed in June.

Bed-Ridden and Cured.

W. E. Huestis, of Emporia, Kansas, says that his wife had been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists. 6

Among the items of appropriations stricken out of the sundry civil bill in conference committee was an item giving Charles Reed $5,000 for conducting the defense of Guiteau. Reed therefore fails to get his fee.

Ladies should wear a *Hop Plaster* over the small of the back, as it cures all pains and aches. 25 cts at any drug store. All ready to apply.

In paying out $700 in wages to his workmen, a manufacturer at Marseilles, Ill., privately marked all the bills. Within two weeks $342 of it was deposited in the local bank by saloon keepers.

"Five Dr.'s; no end of medicine; no relief. Dr. Benson's Skin Cure has driven away all eruptions and I'm nearly well." Ida C. Young, Hamilton, Ill., Druggists keep it, $1 per package.

Alfred Tennyson was arraigned in a Baltimore police court, Monday, for assault and battery.

Can't Get it.

Diabetes, Bright's disease, kidney, urinary or liver complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only harm you.

John M. Rodocanachi, Esq., has been promoted by the Greek government to the office of consul general in the city of Boston.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

Emma Abbott has been matched to run a race in Vermont for $100 a side. This is not Miss Abbott, the singer, but a mare of the same name.

Mother Swan's Worm Syrup.

Mr. Charles Daly, formerly of Lewiston, Me., who went to Colorado a year or two ago, has recently "struck it rich." He is reported to have taken $50,000 out of a silver mine. He is expected to arrive in Lewiston in about two months.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's results are due to a happy means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.--We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter left Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz; Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stops in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

Twenty Years ago.

In 1863, Mr. Wilson, now of Lawrence, Mass., was in the commissary department in Washington. Somebow or other, he was taken with a violent soreness of the throat. Several army surgeons examined his throat and decided that it was a case of diphtheria, and that it was hopeless. After they had given him up, he tried Perry Davis's Pain Killer. The next day the scales began to come off his throat, and in two or three days he was well.

Charles Haskell of Troy has a pair of young grizzly bears, sent to him by a friend in the west when they were smaller than now. They now weigh about seventy-five lbs. each, and are perfectly tame and good natured. Owing to their sharp teeth and claws, however, a thick pair of gloves are needed to avoid accidental injury in playing with them.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

The Florida alligator sent to the Keene Natural History society, after being on exhibition for two weeks, has been despatched and placed in the hands of a taxidermist, to be stuffed and mounted. The northern climate or the excitement evidently did not agree with him, as he showed signs of approaching dissolution The Natural History society received $50 net as the proceeds of his exhibition.

Dr. H. L. Bowker, Massachusetts state assayer, purchased himself from several wholesale druggists the samples he analysed of "G. O. Taylor Old Bourbon" whiskey. It cannot, therefore, be said that the samples were different from the article sold by Chester H. Graves & Sons, Boston. He pronounced it of remarkable purity and excellence. Buy it of your druggist or grocer.

In the Rochester police court March 7th a tramp answering to the name of Samuel Brown was held in $1,000 for trial at the September term of the supreme court, for stealing a purse containing notes and bills for $210, from the residence of Eben E. Berry of New Durham, where he applied for food, and stole the wallet while the house girl went to procure some food for him. After the trial he was identified by Hiram Goodwin of Rochester as the person who stole a watch from his house under similar circumstances. He was arraigned and held for another $1,000 for trial. He was committed to the county jail in Dover.

"Penny wise and pound foolish" are housekeepers that neglect to use James Pyle's Pearline Washing Compound, which is in every way superior to soap.

An Eastern view of Navy Yard Results.

The Lewiston *Journal*, in a long article which swings around the circle in describing the "outs" of public patronage, thus instances—whether correctly or not many of our readers can judge—the case of our city; Kittery, in the state where the *Journal* is published, seems to escape:

The disadvantage of advantages we have never seen more strikingly illustrated than in the history of Portsmouth, N. H. Portsmouth used to be a city of considerable activity, but within a few years its population has shrunk 1500, and today there are twenty-two vacant stores and one hundred vacant tenements in the city, and it is stated that not a house has been erected in the city limits within the past year. Looking about the city and its environment one finds no adequate cause in commerce or in the natural change of trade or of manufactures. But on inquiring a little more definitely and carefully, it is found that the decay of the city dates from the year in which the hobby of eight hours a day's work was enforced in the navy yard. In that government establishment by an entirely artificial straining of economic laws, under which no business enterprise could be successful, workmen are paid large wages for little or no work—for it is notorious that a workman who would work smartly by the day for a private employer, generally will do next to nothing for the government. Everybody knows that it is almost certain the Brooklyn bridge will cost ten times more built by municipalities than it would, if built by an individual. So that when we return to Portsmouth we find the city lazy; a "government" atmosphere envelops it; the hammer rises slowly and the workman stops and yawns and looks at his watch. He will work for nobody but government; for no private enterprise can stand government competition. The shop, the factory which undertakes the 8-hour system and the fat pay of the navy yard, finds itself distanced by outside competition. Hence, no new enterprise can be created; no old enterprise but must languish. The fact again has a painful illustration that the artificial removal of disadvantages, of the average hours of contemporaneous business, the artificial abolition of those stimulants to good work which exist in private business enterprises, really has ended in the paralysis of what else would be a thriving city. No doubt, Portsmouth was delighted when that navy yard was located under the eaves of her warehouses; no doubt, she reckoned on a great boom and felicitated herself that "government patronage" was a fine affair. She was counting on patronage and free-and-easy-circulating funds, plenty to eat and little to do. She counted without wisdom. A large city may survive such a shock, but a small city itself is shocked and when it is dying it hardly know what ails it. Probably Portsmouth can't herself tell just what the trouble is. But those who most have diagnosed her complaint declare that she is dying of navy yawn! Again we have an apt illustration of the ease with which we mistake all-pay-and-no-work for good luck.

We more than half suspect that some indolent down-easter sent to "work" on the navy yard at the personal request of one or the other of the Maine senators, and for whom some place had to be made where there was no occasion for anyone to be employed, has been held up to the Maine editor of Senator Frye's region as a shocking example of the demoralization of employment upon public works. When such men are forced upon the rolls, of course mechanics and skilled artisans have to suffer. It is a sufficient answer to make to the *Journal's* article to say that when the work at the yard, by reason of meagre appropriations had materially become reduced, that most of the best mechanics in certain kinds of work found ready employment in leading private establishments elsewhere, while one of the foremen who had "yawned" on the navy yard was solicited to become the agent of one of the most important iron companies of New England, and demonstrated clearly that he had not been laid up where moth and rust corrupt and where contractors break through and stain, but was just as valuable after his navy yard experience as the company which employed him desired. Perhaps the blighting influence of a place owned and managed by corporate wealth has had the effect to cause our eastern cotemporary to look upon the results of navy yard patronage with a jaundiced vision, and the better way will be for him to step over a train some day, and see for himself whether his statement as to the great loss of population tallies with the facts, or whether Portsmouth has, since the decline in its great industry of shipbuilding, been more a city of quiet repose than have been many similarly situated localities upon the coast of Maine.

It is stated that the river is open for navigation as far up as Dover point.

The directors' car of the Eastern railroad passed through this city at 5:30 P. M. on Thursday, for Boston.

The schooner Hattie Lewis, which has been hauled up for the winter at the Raynes shipyard, has commenced to fit for the coming season's work at brick carrying between this port and Boston; she will go on the marine railway to be put in complete order, before making a start. Mr. Ephraim Anderson, who last year was mate of the schooner D. K. Ham, will this season go with Capt. Brewster as mate of the Hattie Lewis.

Mr. Joseph Norton, a fish dealer, was driving from Newburyport to this city on the 5th inst., and as the day was bitter cold he comforted himself by vigorously smoking a pipe. When in Seabrook he found his clothes on fire, but put out the conflagration without much trouble. Arrived at Hampton he took another smoke, and found his clothes again on fire; he extinguished the second conflagration as easily as the first, and drove into town without smoking again, fearing he would not have clothing enough left to escape the law if he smoked any more.

Mr. Dennis Holland has purchased the hair-dressing saloon of John H. Griffin on Congress street, and assisted by Mr. Frederic F. Randall will continue the business heretofore carried on. As both are known to be practical workmen they will no doubt get their share of patronage.

Mr. George Manent is said to be the oldest resident in the city; he was eighty-nine years old on Saturday, the 3d inst.

Thomas Ryan, who on the 1st inst. was brought before the police court in this city as a tramp, and committed to jail in default of $100 bonds for his appearance before the supreme court, has been identified as Thomas Buchanan, who escaped last October from the jail in Rockland, Me., where he was waiting sentence for an assault with intent to kill, having cut a man with a razor. He has acknowledged that he escaped from the jail at Rockland, but says that he was wrongfully convicted. The Maine authorities have been notified. Mr. Ryan may have been wrongfully convicted in Maine, as he says, but the evidence produced against him in the Portsmouth police court proved him to be a bummer of the meanest variety,—just such a fellow as the New Hampshire tramp law was intended to discipline.

Mr. Frank P. Ackerman, of Jackson & Co.'s express, on the 7th inst. drew from the Portsmouth Savings bank, on a deposite book owned by an out-of-town person, the sum of $1200, leaving in the bank to the same person's credit the sum of $824.41 as a nest-egg. Of this total of $2024.41 the original and only deposit was $247, made Jan. 20th, 1847.

James R. Kendrick, formerly superintendent of the Old Colony & Fall River railroad, has been appointed general manager of the line, a position for which no one better qualified can be found. Mr. Kendrick has been superintendent since he left a similar position on the Concord railroad, and the departments of the Fall River line under his management have been operated with remarkable ability.

Among the acts of the Maine legislature approved by Gov. Robie during the week ending March 3d was one "to authorize Frank P. Emerson to build a dam and convey water by aqueduct or canal in the town of York," and one "to make valid the doings of the members of the First Congregational parish in the town of York, in remodelling and repairing their house of worship."

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

SARAH C. WHITTIER

HOOD'S SARSAPARILLA

Is a skilfully-prepared compound, concentrated extract, *by a process peculiarly our ours*, of the best remedies of the vegetable kingdom known to medical science as alteratives, blood-purifiers, diuretics, and tonics. Sold by all druggists. Price $1, or six for $5. C. I. HOOD & CO., Lowell, Mass.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder" and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.3 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.—*Hall's Journal of Health for April*, 1882.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, March 8th, Mayor Treat in the chair:

Present the full board.

The records of the last meeting were read and approved.

The committee on accounts reported bills to the amount of $1671, which were ordered to be paid.

An ordinance sent up from the common council, providing for the issue of bonds to redeem the bonds maturing next month, was passed under suspension of the rules.

A very handsome portrait of Ex-Mayor Jones was presented to the city, to be hung with the other portraits in the aldermen's room, Ald. Caswell acting on behalf of the donors.

In the Common Council, an ordinance providing for the issuing of bonds to raise $19,500, to redeem bonds falling due in April, was considered. After some discussion, the rate of interest on the proposed bonds was fixed at four per cent.

Ald. Hackett appeared before the council, and stated that he had seen parties in regard to the matter; that money was held at high rates, but he had no doubt the bonds could be placed at four per cent.

On motion of Councilman Billings, the ordinance was passed, and sent to the aldermen for concurrence.

There was discussion as to whether a portion of the city farm or part of the city's stock in the Portsmouth & Dover railroad, had better be sold, but no action was taken.

Both boards adjourned for one week.

FATAL ACCIDENT.

Miss Brookings of Hampton was so severely burned on the 6th inst. that she died the following morning. She was a person in middle life, whose mind had become impaired by disease, and was inclined to destroy whatever she could reach. Several times she had tried to set fire to the house, and on the 6th it is supposed she made another attempt and set fire to her night clothing in which she was dressed, and was burned beyond recognition. She had been kindly cared for during the years of her misfortune by her sister, Mrs. John Pearl.

GOSSIPS SAY

That sixteen freight trains pass over the Eastern railroad track in this city every twenty-four hours—fourteen by night and two by day.

That railroad men declare that the storm of the night of March 6th was the most blinding and disagreeable of the winter thus far.

That teams from the city farm were on Thursday breaking out the streets on Christian Shore.

That the families living in Sparhawk street, Christian Shore, have to lay in their winter's coal and flour in the early fall, as that street is never broken out in winter.

That William Betton has a flattering offer from Barnum to join "the greatest show on earth" for the season of 1883.

That the tea party given by the ladies of Storer Relief Corps in Grand Army hall on Wednesday evening, the 7th inst., was finely gotten up and successfully carried out.

That Hett Brothers had their teams at work all day Thursday, engaged in moving furniture about town.

That Capt. W. O. Sides, while closing his stable door on Tuesday of this week, badly broke one of the fingers of his left hand.

That the big store in National block, occupied ever since the block was built by Rider & Cunningham, will after its evacuation by that firm be occupied as a branch store by an extensive grocery firm of Boston, whose agent here will be a Portsmouth man long familiar with the grocery business.

That "Put," of the Manchester *Mirror*, hasn't yet got over being sore at finding out that a collector of internal revenue, even tho' a Manchester man, can't be sure of running the republican party of Portsmouth just when he wants to make it go.

That his hurt will feel better after it is done aching.

That the barometer danced up and down at an unusual rate in this city this week, falling seven-tenths of an inch in the twenty-four hours ending at nine o'clock A. M. on the 7th, and rising eight-tenths of an inch in the following twenty-four hours.

That all the hotels have been well patronized by drummers the past fortnight.

That the ladies of the Methodist society will hold an Easter sale with an entertainment at Congress hall on Wednesday evening, March 21st.

That the Manson boy who ran away from his home in Kittery on Sunday night, the 4th inst., stole his father's best overcoat and eighteen dollars in money, lowered himself from a chamber window by a bed quilt—and is supposed to have gone to Minneapolis.

That Strawberry Bank Lodge, I. O. G. T., will have a supper and entertainment in their hall next Wednesday evening.

HAMPTON ACADEMY.

A correspondent at Hampton writes: "The academy in this town has made a good move in obtaining a sightly and healthful location. Another evidence of progression would be seen if the trustees would take the fund which is deposited in a savings bank out of the state at a low rate of interest, and properly invest it, as was intended by the donors; at present it is exposed to the risk of loss, and draws but a mere nominal interest."

INFORMATION ASKED.

Mr. Samuel G. Hooper has received a letter from Mr. A. L. Bonnell of St. John, N. B., owner of the late schooner "Teal," earnestly enquiring if anything has been learned as to the fate of the unfortunate vessel's crew, and in particular if any bodies have been found. The master of the schooner, who is described as being twenty-four years old, five feet eight or nine inches in height, with dark whiskers and moustache and very prominent nose, was a brother to Mr. Bonnell, who will gladly reimburse and liberally reward whoever may recover and return the body. It is hardly possible that any sign of the crew or indication of their fate remained on the wreck at the time she was thrown ashore on Boon island; but if anything of the kind was noticed by any of the persons who boarded the wreck, the information will be forwarded to Mr. Bonnell at once if left with Mr. Hooper.

SELLING THE FARM.

Mr. Editor: I think you must have mi-understood Councilman Clough, when you report him as making statements of the "expense of carrying on the farm," showing "an average loss for each year" of the past five, of $1045. The figures you give show the gross payments for working the farm and supporting the inmates, and the sum given as the average loss is really the cost to the city of supporting an average of thirty inmates for each year. This shows a cost to the city of $34.83 per year for each inmate, or as near as may be, sixty-seven cents per week. These figures are simply for the running expenses, and have no relation to interest on the cost of the farm. B.

PRESENTATION.

Bro. Geo. Washington Patch, at noon on the 8th inst., was caned in the "head house" on the navy yard by Calvin L. Hayes, Esq., who, presented him, in behalf of his friends, with an elegant ebony cane, one of Hutchinson's best, having a solid silver head on which Mr. Patch's name was handsomely engraved. Mr. Hayes' speech was in his happiest vein, and was responded to by Mr. Patch as follows:

Gentlemen—I accept this beautiful cane, not for its intrinsic worth on value alone, but as a memorial of your friendship, and in rememberance of the clam chowder, and of the remarkable oration delivered on that occasion by Captain "Pitt" Moses; the occasion, the surroundings and the speech, and more particularly the cane, will be cherished by me, as long as I live, and will be handed down—the cane I mean—from generation to generation. Allow me to give you as a sentiment—

"Captain Moses:—Long may he live, be Robust, strong and stout, And never in the dark, E'en should the Light go out."

NORTH PARISH.

The annual meeting of the North Parish was held at the chapel on Tuesday evening, March 6th. John Knowlton was chosen moderator; John P. Sweetser parish clerk; Charles E. Myers, John S. Rand, Marcellus Bufford, Newton Johnston and William G. Billings wardens; and Lafayette S. Butler and Edward C. Matthews auditors. The treasurer's report was presented, and the usual appropriations for the current year were voted.

BUFFALO BILL.

Tickets are now on sale at the Congress block bookstore for the entertainment at Music hall next Monday evening. Buffalo Bill appeared in Bangor, Me., last week, and the *Whig* says:

Hon. William F. Cody, the celebrated scout and actor, appeared on the stage of the Opera House last evening in his latest sensational drama entitled "Twenty Days, or Buffalo Bill's Pledge." Buffalo Bill still holds a warm place in the hearts of all lovers of stirring plays, and the large audience which greeted him with vociferous applause shows that he is as much of a favorite as ever. A very novel feature of the entertainment was a dance by a tribe of Indians from the plains of the Far West. The fancy shooting by Buffalo Bill, during which he holds the rifle in twenty different positions, was marvellous in the extreme, and called forth most enthusiastic demonstration. Superior music was discoursed between the acts by an orchestra of excellent artists.

Miss Margaret Mather, the young actress who has within a brief period fairly taken the stage and the dramatic critics by storm, is booked to appear in Music hall early in April. Her "Juliet" is acknowledged to be a wonderful piece of acting.

The report made on the 6th inst. that Miss Belle Fernald had been out of doors was incorrect; she has not yet been out, but has so far recovered as to be dressed daily, and go from room to room without help; and she is gaining steadily day by day, which very many persons will be pleased to hear.

Some of the company interested in the steamer "City of Bangor" were in York on Wednesday, the 7th inst., to further arrangements for the running of the boat between that place and this port next summer.

DIPHTHERIA
HAS
NO CHANCE
WHEN TREATED WITH
Perry Davis's Pain Killer

This wonderful remedy has saved the lives of many, many children who were almost dead with

DIPHTHERIA.

S. Henry Wilson, Lawrence, Mass., says: "The surgeons pronounced my case Diphtheria, and decided that no remedies could reach it. Perry Davis's Pain Killer saved my life."

Libeous Leach, Nashua, N. H., says: "I had petitors' colic and diphtheritic sore throat very severely. Pain Killer drove both away."

FINE FLOUR
OF THE
Entire Wheat!
FOR SALE BY
C. E. LAIGHTON & SON,
Call and See the Flour, Ask for a Circular, Try it, and you will not be Without it.

The American Medical Weekly, published by E. S. Gaillard, M. D., LL. D., New York city, issue January 7th, 1882, contains an able, interesting and instructive illustrated article entitled, "Cereal Foods Under the Microscope," written by Ephraim Cutter, A. M., M. D., Harvard and University of Pennsylvania, Principal of the Medical Department of the American Institute of Micrology, author of "The Clinical Microscope," and other medical and scientific papers. The object of the paper is to place before physicians and the public in their true light, as revealed by microscopic and scientific investigation, the real value of the many cereal foods which are advertised and offered for sale, and recommended as especially adapted for the promotion of health and prolongation of life. In order to make the subject clear and comprehensive to the reader, the author made a careful microscopic examination of forty-four different brands of cereal foods, including Patent, New Process, Superfine and entire Wheat Flour, Wheat Meal, Graham, Cold Blast, Gluten Flour, and several of the leading advertised infant foods, and the result of these examinations are clearly presented in microscopic drawings made by Dr. A. T. Cuzner, of New York city, one of the most competent and skilled artists in that department of scientific art.

Chief among the 44 products examined by Dr. Cutter and illustrated by Dr. Cuzner, magnified 200 times is mentioned Pillsbury's Best Flour, one of the entire wheat, manufactured only at Lockport, N. Y., with the following comment: "The field is filled with gluten cells. Repeated examinations prove this to be the best flour examined. So long as the makers maintain such a proportion of gluten cells they confer a blessing on mankind. It produces a light, spongy bread. It is a reliable infants' food."

No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five years established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.
SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Hahnemann Medical Academy of Paris reports 95 per cent. cures in three days.
REMEMBER
that SALICYLICA is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion then in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE: OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2.; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most exhaustive work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sound and sound for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart. The renowned Dr. Cheshusing, startlingly says "one third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a lifetime study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the womb, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her house in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

THE MORNING KISS.

Up at the window a frost of lace
Held away by a wee, white hand;
Up at the window a little face,
Sweet as thought of fairy land.
Down below in the sleet and snow,
Waiting a moment, a manly form,
Heedless of winds that to and fro
Sullenly drive the winter storm.

Quick! the car is coming in sight!
One swift glance at the face above,
Dimpled now with a smile so bright,
Answering back that look of love.
"Good-bye papa!" the darling cries,
Waiting a kiss from her finger tips,
Pure as the light in her soft blue eyes,
Sweet as the bloom of her dewy lips.

He to the cob-webbed office dim,
And to the cares of a busy day;
She to her lessons and morning hymn,
Braided together by bits of play.
He of many a step afraid,
In the slippery paths of town;
She with never a darker shade
Than the fear of a mother's frown.

He in the restless race for gold,
Down where the money-changers meet,
Feels the breath of the tempter bold,
Sees the pitfalls near his feet.
Well for him that the clouded skies
Clear when he lifts the latch of home;
We'll that into this paradise
Never the tempter dares to come.

Every night in her robe of white,
Low she kneels by her little bed;
Every night the angels bright,
Hover unseen above her head.
There is his anchor! God, who hears
That dear baby will hear him, too;
Out of the dust of forgetful years
Struggles his prayer to the Father true!

Down in the street, in the snow and sleet
Waits the man in his middle age;
Up at the window, sheltered, sweet,
Watches the child on her first white page.
He to the cares of a busy day,
Winning bread in the eager town;
She to her lessons and her play,
After she throws her kisses down.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.
J. H. THOMPSON, A. M., M. D., Washington, D. C.
C. B. WHITE, M. D., New Orleans.
ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the least Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

I CURE FITS!

When I say I cure I do not mean merely to stop them for a time and then some have them return again, I mean a radical cure. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a free bottle of my infallible cure. Give Express and Post Office. It costs you nothing for a trial, and I will cure you.

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, adulating and that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity at the slightest use as a medical agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet there is a very fact like the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.--We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter 1 ft Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz; Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE EMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stows in at this point. It is not expensive and it is efficient. Twenty Years ago.

In 1863, Mr. Wilson, now of Lawrence, Mass., was in the commissary department in Washington. Somehow or other, he was taken with a violent soreness of the throat. Several army surgeons examined his throat and decided that it was a case of diptheria, and that it was hopeless. After they had given him up, he tried Perry Davis's Pain Killer. The next day the scales began to come off his throat, and in two or three days he was well.

Henry W. Lesco, a Frenchman who died in Monterey, Mass., a few days since, on his deathbed confessed the murder of John Burns, a stone cutter, at Great Barrington, Mass., on Oct. 17th last. Burns boarded with Lesco, and disappeared at the time mentioned. It is said Burns attempted to assault Lesco's little daughter, which led to the murder, Burns being beaten to death, and his body cut in pieces and thrown into the river.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

In London, Eng., on the 8th inst., the trial of an action brought by a Miss Hyland against Mr. Biggar, member of parliament, for damages for breach of promise of marriage, was held. Counsel, in opening the case, said the parties were introduced to each other in Paris by Mr. Patrick Egan. Miss Hyland, on being questioned, said Mr. Egan was mainly responsible for her action in bringing suit against Mr. Biggar. The jury rendered a verdict against the defendant, the damages being fixed at £400.

From the cradle to the grave all are subject to coughs and colds. Adamson's Botanic Cough Balsam is a certain cure in the most obstinate cases. New trial size, 10 cts.

Judge Drummond in Chicago on last Thursday afternoon heard the plea of the Mutual Union Telegraph company for permission to re-connect its wires. It was shown that if the application is refused the company will be finally barred entrance to the city, no legal redress being open to it.

Dr. H. L. Bowker, Massachusetts state assayer, purchased himself from several wholesale druggists the samples he analysed of "G. O. Taylor Old Bourbon" whiskey. It cannot, therefore, be said that the samples were different from the article sold by Chester H. Graves & Sons, Boston. He pronounced it of remarkable purity and excellence. Buy it of your druggist or grocer.

News and Notes.

Wednesday evening, March 7th, an east-bound train on the Little Rock & Fort Smith railroad was boarded by forty men, two miles west of Mulberry station, and 140 miles from Little Rock, Ark. The robbers ordered the passengers to throw up their hands, and began firing pistols. The conductor, John Cain, who was in the rear car, was fatally shot. A brakeman named Lester was also shot. The robbers then rushed for the engine, but before they could reach it Engineer Rogers started the train and prevented the robbery. The highwaymen jumped off while the cars were in motion. Superintendent Hartman offers $5,000 reward for the capture of the robbers.

William Sprague, the ex-governor of Rhode Island and ex-husband of Kate Chase Sprague, was married in Staunton, Va., on the evening of March 8th, to Mrs. Dora Inez Calvert of Greenbrier county, West Virginia. There was some difficulty in obtaining a license, neither party being actual residents of Staunton, and the ex-governor was considerably perplexed for some time before the necessary papers were procured. The bride is a native of Connecticut, but has been living in West Virginia fourteen years. The couple left for the north at one o'clock that night.

In Lawrence, Mass., on the evening of the 8th inst., the Catholic congregations of the city met to consider plans of relieving the Augustinian society from indebtedness. There were large gatherings at the various churches. At each, five receivers were appointed, consisting of the parish priest, two depositors of the savings institution, and two disinterested persons. These are to have full control of the church revenues, make collections monthly, and invest the funds for the interest of depositors. It was decided to continue St. Mary's schools, the parents of pupils to be assessed twenty-five cents monthly for their maintenance. Nearly $10,000 has already been subscribed for the payment of depositors—but this is only a small percentage on $500,000.

A Washington despatch says a report is current that a short time before the adjournment of Congress an attempt was made by some unknown person to assassinate Ex-Secretary Blaine by shooting into a carriage in which he was seated, while returning from one of the night sessions at the capitol. Mr. Blaine treats the matter lightly, and says that the hole through the window of the landau in which he rode was probably made by a pebble thrown by some boy with a "Devil's sling." His family, however, are said to take a more serious view of the affair.

John Monahan was stopped on the street in Pittsburgh, Pa., on the night of March 4th, and was asked by a man unknown to him if he was an Orangeman. He said it was nobody's business what he was, and the stranger stabbed him several times. Monahan died from his wounds Thursday, the 8th. He identified a man named Ross, now under arrest, as his murderer.

At Washington, D. C., on the 4th inst., Judge Lilly, aged seventy years, called on Stephen W. Dorsey, the great star router, and in the course of a dispute was knocked down and kicked by Dorsey. It is suggested that Mr. Dorsey wouldn't have been afraid to knock him down and kick him if he had been ninety years old.

Gov. Butler on Thursday last removed Julius L. Clarke from the office of insurance commissioner of Massachusetts.

At Mount Carmel, Pa., on the 8th inst., nine dwellings were hastily vacated on account of the caving-in of the old workings of the Rehance colliery. Twenty other houses, a public highway and the Reading railroad tracks and station were in danger.

William Lyon, fifty-five years old, went to a dwelling in Cleveland, Ohio, on the 7th inst., occupied by a woman who was divorced from him five years ago, and asked her to make a bowl of soup for him. While she was preparing to comply with the request he drew a revolver and shot her in the face, inflicting a severe, perhaps fatal wound. Then he put the pistol to his right temple and fired, killing himself instantly. Lyon had been drinking freely of late.

A life convict named Samuel Ulam has just been pardoned out of the Michigan state prison, where he has been confined twenty-nine years for the murder of a man named Estabrook in St. Joseph county in 1853. There is now little doubt that Ulum was entirely innocent of any connection with the murder.

In recognition of the great bravery displayed by the rescuing crew of the British steamer Republic, who at the utmost peril to themselves saved forty-one lives from the foundering steamer Glamorgan, the Life Saving Benevolent Association of New York have made the following awards: Capt. Irving and the first and second officers, gold medals; to the boatswain $50 and a silver medal; to those of the crew who made four trips, $35 each; and to those making two trips, each $25.

"American Statesmen — James Munroe, in his relations to the public service during half a century, 1776 to 1826; by Daniel C. Gilman, president of the Johns Hopkins University. Baltimore." Boston; Houghton, Mifflin & Co.; sold by Mercer Goodrich at his stores in Market and Congress streets; price $1.25.

The biography of the fifth president of the United States contains the annals of Mr. Munroe's life, his political history, a brief account of the Munroe doctrine, and interesting personal reminiscences. The appendix, which is quite extended, has Washington's notes upon the appendix to Munroe's views "on the conduct of the executive," now first printed. It is from the copy by Mr. Sparks, owned by the library of Cornell University. There is also a list of Mr. Munroe's writings, and an index of persons and prominent events mentioned in the memoir.

These biographies of American statesmen, as we have before asserted, are valuable reading for all who desire to be informed of the men who in the earlier days of the republic were statesmen before being politicians, and to whom we of the present day are so much indebted for their efforts in giving shape and stability to our republican form of government. They are excellent reading, and are written without prejudice, in the most impartial and candid style.

The subject of divorce is to be treated in the April number of the "*North American Review*" by Judge Jameson, the well-known divorce judge of Chicago, and Rev. Dr. Theodore D. Woolsey, the life-long opponent of divorce.

A beautiful edition of the "Lowell Birthday Book" has been issued by Houghton, Mifflin & Co., after the manner of their Longfellow, Emerson and Whittier birthday books. This volume has four hundred pages, with an index of names and events, and a good likeness of our poet-minister to the court of Saint James. The alternate pages on which are not found illustrative scenes from Mr. Lowell's poems have selections from his verses, and opposite are blank spaces for the entry of names or autographs. The work is well worthy of our New England poet, and shows the good taste of our Boston publishing friends in its compilation and execution. For sale by M. Goodrich; price $1.00.

A large number of birds have been shot at the Isles of Shoals this winter; one of the residents on Appledore island has secured a large proportion of them.

Two dancing schools have been held in York this winter, one in the town hall and the other at the hotel Bartlett; it is said there has not been a dancing school in the town before for seventy years.

SOUTH BERWICK, ME., March 7th.

Mr. Editor: The article in your paper referring to Mr. Robert Davis as the person who tinned the church steeples in this place, leads to the following reminiscences of the affair: It was intended to cover the roofs with copper, but at the suggestion of Mr. Davis tin was substituted, he guaranteeing that it would last fifty years. He took a contract for the work, and being unable to find any person willing to undertake so hazardous a job, was obliged to do it himself; and with only a ladder to work from, and with the rough tools used in those days, he turned his stock and performed the work successfully. The Calvin Baptist church was tinned in 1832, and the Congregational church in 1835, and but slight repairs have been made since those dates. Mr. Davis is now eighty-two years of age, and looks with pride upon the work of his younger days. X.

Mr. George W. Webber of York says that in consequence of the extremely cold and unfavorable weather this winter, the shore fisheries of York have been but feebly prosecuted, and when the fishermen have ventured out they have found the fish much farther off shore than in ordinary winters—that is, when they found any fish at all. Large quantities of seaweed have been thrown up on the beaches, but only a small part of it has been saved, as it has been frozen into a solid mass almost as soon as beached; henclams and quahogs have also been thrown ashore in considerable numbers, which is not a common circumstance on that beach.

Services have been held in the Methodist church at York, Rev. Mr. Andrews pastor, for the past two months, by an evangelist, Mr. McConney, and considerable religious interest has been aroused. It is said that the meetings will continue as long as two dancing schools, which were started in the town early in the season, are kept up.

Mr. Brillante, a well known Cuban pedestrian, will give an exhibition walk at Franklin hall on Wednesday evening next. He is to walk fifteen miles in two hours and a quarter.

WHITE PAPER

WAS USED LAST SUNDAY IN PRINTING

The Sunday Globe

THAT is to say, the presses of THE GLOBE that morning printed FIFTY MILES of paper, three feet in width, which, if laid out flat in any one direction would, on the Boston & Lowell Railroad, go ten miles past Nashua and half way to Manchester; it would extend beyond Worcester on the Boston & Albany, or nearly to Spencer; on the Providence Railroad it would make a white carpet three feet wide, six miles beyond Providence; on the Old Colony it would reach to Fall River; on the Boston & Maine to Exeter, N. H.; on the Fitchburg, to Fitchburg; on the Eastern, nearly to Portsmouth.

Fifty Miles of Paper

means 480 furlongs, or 16,000 rods or perches, 88,000 yards, 264,000 feet, 3,168,000 inches, or 2,504,000 barleycorns, the width being 3 7 ct. This paper weighed nearly NINE THOUSAND POUNDS, or FOUR AND ONE HALF TONS. The increase in circulation last Sunday was **2450 Copies** in addition to the great increase of the previous four weeks.

Mr. C. R. Clark, agent for H. P. Moore's copying house of Concord, has been doing a successful business in this city. He has received orders for portraits from many of our leading citizens, and in some cases has made several copies of one person. Mr. Clark is thoroughly conversant with the business, but it being of a private or family nature makes no public exhibition of the copies.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

GARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

SARAH C. WHITTIER

WIGGINS' BIG BLOW.

For some time past a person named Wiggins, who either does or does not do something in Ottawa, or somewhere else in the British provinces, has been making a big blow about a big blow which he predicted nature was to make from the 9th to the 12th of March. Of course every person of common sense knew that his blowing was the most ridiculuous bosh; that while it is quite reasonable to expect severe gales in March on this coast, that even the most advanced science does not pretend to be able to predict with certainty what the weather will be at any specified time, many days ahead; and that when this fellow Wiggins so loudly proclaimed himself able to so predict, he simply proved himself a blower, a windbag — what the Scotch call "a mouth."

There would be no harm in any crank, anxious for brief notoriety, setting up for a prophet, were it not that when he makes such awful predictions a great many ignorant or weak minded people are frightened thereby, sometimes to their serious detriment. It is an actual fact that most of the Gloucester fishing crews have refused to leave port on account of Wiggins' storm, and that several people in different places have gone crazy with fear.

The fishermen at this port seem to have taken little stock in Mr. Wiggins, running out of and into port according as the weather might serve them, the entire fleet putting out early in the morning on the 9th, and only five vessels coming in during the day. Capt. David L. Grogan, keeper of the Isles of Shoals light, ran in on Friday in his small boat, and reported the sea uncommonly smooth; and the day was the pleasantest one for weeks.

GOSSIPS SAY

That invitations are out for a grand "pie sociable" in Mechanics' hall next week.

That the Portsmouth man who is to have charge of the new grocery store which Cobb, Bates & Yerxa of Boston are to establish in National block is John E. Rider.

That when the Lewiston *Journal* said that Portsmouth had lost 1500 of its population, and had a hundred tenements to let, its arithmetic man must have gone out to drink.

That fifteen in a family is a little too many even for the prolific sons and daugeters of Portsmouth.

That but for the outside capital invested in Lewiston, it would hardly be of consequence enough to have a place on the map of Maine.

That a staid old farmer of Newington has prepared a boat in which he and his family intend taking a trip inland on Wiggins' tidal wave—when it comes.

That the steamer Acushnet will not run on the route between Boston and Portsmouth the coming summer.

That a number of lasters were discharged from the shoe factory on the 9th inst.

That Senator Blair of New Hampshire is stopping a few days at the Quincy house, Boston.

That the old Tucker house, near the pound, is receiving an additional story, and its outbuildings being improved.

That a flock of robins were seen in the orchard at the Langdon place on Lafayette road, Friday afternoon.

SELLING THE FARM.

Mr. Editor: If I could have room enough in your paper to insert the actual running expenses of the city farm for the five years from Jan. 1st, 1877, to Dec. 31st, 1881, together with the receipts, perhaps it would appear plainer to the public that the city farm is a costly luxury. If there are any parties who are not supplied with a copy or copies of Reports of Receipts and Expenditures of our city, our gentlemanly city clerk would be pleased to furnish them, if they are to be had at the city hall. I think, Mr. Editor, you made no mistake in the figures you inserted on a previous date; but I will simply say that when it takes the average amount of $7800 to work the farm, and it (the farm) being valued at about $34,000, there is certainly so much money in the property, and the interest on that amount would be, at five per cent, $2090; and it costing the city an average of $4695, would make the expense per year $6785, to support about thirty inmates, which would be about $226 each. I think this is about as near the truth as it can possibly be; if not I am willing to be corrected. C. H. C.

SUNDAY SERVICES.

Elder L. Boutelle will preach in the Advent church on Sunday.

Rev. J. D. Waldron will preach in the Court street Christian church Sunday forenoon.

Rev. Dr. A. P. Peabody, of Cambridge, Mass., will preach for the South Parish, morning and evening.

The subject of Rev. Mr. McGinley's lecture in the North church, Sunday evening, will be "Probation."

At the Pearl street church there will be preaching by Rev. J. D. Waldron of Amesbury, Mass.

LENTEN SERVICES.

Episcopal services during Lent: At St. John's church, morning prayer Sundays at 10:30; holy communion every Sunday in Lent.

At Christ church, evening prayer Sundays at 7:30,—every day in Holy Week at 7:30; Sunday school at 3:00 P. M.

At St. John's chapel, evening prayer every day in Lent at 5:00 o'clock; Sunday school Sunday afternoon at 3:00 o'clock.

Sermon at each Sunday service; baptisms at any service. The rector is always ready to visit the sick and administer the offices of the church. Strangers are cordially welcomed to the services, and will be provided with seats.

PRIZES AT POOL.

At. S. A. Preble's Eureka Pool Rooms, No. 31 Congress street, quite a lively interest is being exhibited in regard to the possession of a fine meerschaum pipe and cigar holder, to be given to the players making the best score during the present month; the table is one of Came's best, with watch-spring cushions, and gives the utmost satisfaction. In the hair-dressing saloon, Mr. Preble and his assistant, Mr. Hersey, continue to attend to all branches of the business in the best manner, as heretofore.

Rev. Andrew P. Peabody, D. D., will give a lecture on "The People of Italy," for the benefit of the New Hampshire Society for the Prevention of Cruelty to Animals, next Monday evening at half past seven o'clock in the Middle street (Congregational) chapel.

It is said that New York parties will run a sidewheel steamer between Boston and this city the coming summer, the boat to be a fast one, making the round trip in one day, taking five hours for the run each way. Captain Bird, who was in command of the steamer Acushnet several months last season, was in this city on Thursday of this week to secure wharf accommodations for the boat.

Mr. George W. Watkins, whose death is noted in another place, though not a very aged man was one of the "old set" of mechanics for which the Piscataqua region was famed forty or fifty years ago. He was a native of this city, coming of an old family, and always resided here, though he spent many winters in Mobile as a stevedore in the days when all the cotton transportation was done in sailing ships. He learned the trade of a calker, and worked at it as occasion offered until within a few years. He was a very industrious, quiet man, and always wielded a considerable influence in the local councils of his political party (the democratic) though never making himself conspicuous; he was at one time selectman in his ward for two years, which we believe was the only public office he ever held. He married Miss Nutter, of Barnstead, who with five children survives him. One of their sons, George, is a proof-reader on the New York *Sun*; the other children are John F., driver of Jackson & Co.'s express team, Edward, a stevedore, and two daughters, both of whom are married.

Of Buffalo Bill and his company, who are to play in Music hall on Monday evening, the Chicago *Times* says: "A house so crowded that hundreds failed to gain admittance, and an audience wholly captured by the remarkably effective performance of Mr. Cody and his company, attested the hold he has acquired upon the affections of Chicago theatre-goers. To day he gives a matinee, as well as an evening performance, and it may go without saying that both will draw crowded audiences. It is folly to moralize upon Mr. Cody's plays and his playing. He has captured the popular heart, knows how to keep it, and if that is not an actor's 'business' we know not what that business is." Tickets at Goodrich's Congress-block bookstore.

Friday morning was cold, but not very uncomfortable, owing to the absence of wind. The thermometer at the CHRONICLE office, at four o'clock in the morning, indicated four degrees below zero; at the Eldredge brewery, about sunrise, it was eight degrees below; in Newington, twelve below. At the *Herald* office in Newburyport, where the temperature, which is taken at three o'clock A. M., rarely varies more than a degree or two from what it is at this office, the thermoneter stood at three above zero.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, as it has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

SALICYLICA.
No more Rheumatism, Gout or Neuralgia.
Immediate Relief Warranted.
Permanent Cure Guaranteed.
Five cures established and never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

SECRET!

THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.

SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

REMEMBER

FOR SALE BY

C. E. LAIGHTON & SON,

Call and See the Flour, Ask for a Circular, Try it, and you will not be Without it.

The American Medical Weekly, published by E. S. Gallard, M. D., LL. D., New York city, issue January 7th, 1882, contains an able, interesting and instructive illustrated article entitled, "Cereal Foods Under the Microscope," written by Ephraim Cutter, A. M., M. D., Harvard and University of Pennsylvania, Principal of the Medical Department of the American Institute of Microbiny, author of "The Clinical Microscope," and other medical and scientific papers. The object of the paper is to place before physicians and the public in their true light, as revealed by microscopic and scientific investigation, the real value of the many cereal foods, which are advertised and offered for sale, and recommended as especially adapted for the promotion of health and prolongation of life.

In order to make the subject clear and comprehensive to the reader, the author made a careful microscopic examination of forty-four different brands of cereal foods, including Patent, New Process, Superfine and entire Wheat Flour, Wheat Meal, Graham, Gold Dust, Gluten Flour, and several of the leading advertised infant foods, and the result of these examinations are clearly presented in microscopic drawings, made by Dr. A. T. Cuzner, of New York city, one of the most competent and skilled artists in that department of scientific art.

Chief among the 44 products examined by Dr. Cutter and illustrated by Dr. Cuzner, magnified 500 times, is mentioned Franklin Mills Flour of the entire wheat, manufactured only at Lockport, N. Y., with the following comment: "The field is filled with gluten cells. Superfine Flour and other preparations prove this to be the best flour examined. So long as the makers maintain such a proportion of gluten cells they confer a blessing on mankind. It produces a light, spongy bread. It is a reliable infants' food."

Beautiful, healthy Hair is the sure result of using Kathairon.

HEART DISEASES

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while it derives more honors, the real cause is quite distant.

The renowned Dr. Clendening, startingly says "one-third of my subjects show signs of heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

HEART TROUBLES

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the testimonials of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

"The Battle of the Moy: or, how Ireland gained her independence, 1892-1894." Boston: Lee & Shepard.

This is an imaginative recital of how Ireland, while England was mixing in a continental controversy and was in no condition to quell a rebellion in the Emerald isle, won and achieved her independence by a decisive battle on the river Moy. The narration is after the style of the Battle of Dorking, and reads well. The scenes on the battlefield are graphically described, the general commanding the Irish forces having drawn his military experience from service in the United States army. The book is readable throughout, and will have a good run.

The Slippery Foothold.

The *Press* of Peabody, Mass., publishes the following: A lady who till recently resided on Central street, in this town, had for more than ten years suffered with pain in her back, which at times was very severe. One morning as she was leaving the house she slipped and fell, striking her back on a stone step. She was assisted into the house in great pain, and it was feared seriously injured. She used the great pain-cure, St. Jacobs Oil, instead of what the doctor ordered, and experienced great relief. By continued use of it, she has fully recovered, and now for the first time for years, she is without any pain in her back whatever.

At Nashville, Tenn., March 7th, there was a fire attended with loss of life. In searching the debris the remains of three men were found, all of whom were killed while endeavoring to remove goods from a building not on fire, but which was crushed by a falling wall.

Delicate Females.

The exactions of society, added to the cares of maternity and the household, have tested beyond endurance the frail constitutions which have been granted the majority of women. To combat this tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of Malt Bitters. They enrich the blood, perfect digestion, stimulate the liver and kidneys, arrest ulcerative weaknesses, and purify and vitalize every function of the female system.

The New York police were on the 8th inst. notified of the mysterious disappearance of twelve persons in different parts of the city.

Answer This.

Can you find a case of Bright's disease of the kidneys, diabetes, urinary or liver complaints that is curable, that Hop Bitters has not or cannot cure? Ask your neighbors if they can.

Carlos A. Farnsworth of Fairfax, Vt., deputy sheriff, was found dead in the road last Thursday morning. It is supposed his horse got off the road into deep snow, and in trying to extricate his team Mr. Farnsworth was injured, and from this cause and the severe cold was unable to help himself, and perished. The body was much frozen. He was found only about fifty yards from a house. Farnsworth was about sixty years old, and leaves a wife and one son.

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the profoundest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE CUT in the middle.

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

"Yes," was the prompt reply, "or a Buchanan's either," and he did. It may be safely assumed that the lady, to whom the gallant captain thus paid his respects, hadn't the catarrh. This malady is as loathsome as it is painful. It's cure has heretofore been considered impossible. Ely's Cream Balm, however, never fails to cure it. Mr. Nathan Fegley, with E. F. Montz, merchant, Wilkesbarre, Pa., says: "I've had catarrh for fifteen years. Ely's Cream Balm has opened my nostrils and reduced the inflammation. My eyes, too, can stand strong light." This balm is a marvel of fragrance, and curative powers,—is not a liquid or snuff, and is easily applied.

There was a very heavy gale on the British coast on the 8th and 9th insts. The steamer Navarre, bound from Copenhagen to Leith, foundered during the gale; there were eighty-one persons, mostly emigrants, on board, only sixteen of whom were saved. Owing to the gale the water in the Clyde was very low on the 9th, and the steamers Devonia, Circassia, Manitoban and several others were at one time aground. The Hull fishing fleet suffered seriously by the gale; eighty vessels of the fleet arrived there in a damaged condition, and twelve of them lost members of their crews. Three vessels foundered, one of them with all hands. Similar accounts have been received from the Yarmouth fishing fleet.

NO USE FOR THEM.

Concerning Certain Relics of the Past --Dogs that have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track, while the Benson goes on its way winning golden opinions from all sorts of people.

Yet is this very fact lies the leading danger to the people who buy and use the worthless and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are paroded in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.—We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter visited Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz; Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for Dr. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY steps in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

In Lumber Camp in Winter.

The men who cut and haul lumber are fearfully exposed in severe weather, and, although hardy and rugged, are sometimes laid aside from duty. Mr. Randall, of Augusta, Maine, who is extensively engaged in the lumbering business, writes that one of his men was attacked with a terrible sore throat, so that they thought he would die. They administered Perry Davis's Pain Killer, both internally and externally. In an hour the sufferer was relieved, and the next day he was at work as usual.

Captain J. H. Higbee, U. S. M. C., who has been on duty at the Boston barracks nearly two years, has been detached and ordered to the command of the marine battalion at the Washington navy yard.

Spring Medicine.

Why does everybody take a spring medicine? For three good reasons, viz.: I—Because one bottle of a blood purifier taken at this season will do more good than two at any other. II—Because the blood is in a more impure condition than at any other season. III—Because the system is so weakened by this impure state of the blood that it has not sufficient vitality to withstand the debilitating effects of spring weather. Hence, by common consent, people seek relief in medicine. The combination of Hood's Sarsaparilla commends it to our judgment as a good spring medicine and blood purifier. Such things as Sarsaparilla, yellow dock, mandrake, &c., compounded by competent druggists like Messrs. Hood & Co., warrant us in suggesting that all in need of a medicine of this kind give Hood's Sarsaparilla a trial.

Commodore James E. Jouett has been appointed president of a board to visit the principal naval and mercantile vessels arriving at New York, for the purpose of examining and reporting upon their dimensions, etc.

Dr. H. L. Bowker, Massachusetts state assayer, purchased himself from several wholesale druggists the samples he analysed of "G. O. Taylor Old Bourbon" whiskey. It cannot, therefore, be said that the samples were different from the article sold by Chester H. Graves & Sons, Boston. He pronounced it of remarkable purity and excellence. Buy it of your druggist or grocer.

The United States steamer Alliance arrived at Key West, Fla., March 8th, three days from Baracoa; all well.

From the cradle to the grave all are subject to coughs and colds. Adamson's Botanic Cough Balsam is a certain cure in the most obstinate cases. New trial size, 10 cts.

Portsmouth Chronicle.

MONDAY, MAR. 12, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

GOSSIPS SAY

That Wm. C. Robinson, formerly clerk with the Portsmouth Brewing company, will leave this city on the 21st inst. for Fargo, Dakota territory.

That Mercer Goodrich has just placed in his store on Market square the handsomest show-case in New Hampshire.

That the Perkins Railway Chair company will place their invention upon twelve of the principle railways of the country as soon as spring opens.

That at their manufactory in this city they have a machine capable of turning out 1200 chairs per day.

That Major Tilton has already selected fourteen young men for the surpliced choir at Christ church, which number will be increased to twenty or more.

That a family of four persons residing at the west end went to Newington on the 9th inst., presumably to escape that "tidal wave."

That some of the families living near Water street last week moved their furniture from the lower floors into the second stories, in anticipation of Wiggins' tidal wave.

That when the stiff breeze of Saturday got well agoing, and they looked at the high tide lipping over the low places on the edges of some of the wharves, they commenced to shift their furniture into the third stories, and to select such pieces as would answer to make rafts of.

That there was a high tide anyway.

That the Portsmouth fishermen, though they paid small heed to Wiggins' blowing, did show respect enough to the blow of Saturday afternoon to run into port, sell their fish and make ready for a fresh start.

That it was hoped Wiggins would at least send a tidal wave big enough to remove the obstruction on New Vaughan street, which probably will never be removed unless by some such convulsion of nature.

That the entertainment and supper to be given at Temperance (formerly Grange) hall on Wednesday evening next, will surpass anything in that line given here this winter.

AROUND HOME.

Two car-loads of timber came in over the Eastern railroad on Saturday last, for Fernald's shipyard.

Rev. Charles B. Pitblado, well known in Portsmouth, and one of the most eloquent and humorous speakers now on the rostrum, will deliver his new and best lecture "Odd Folks," at the Methodist church this Monday evening, admission twenty cents. Mr. Pitblado has delivered nearly fifty lectures since Dec. 1st, last.

All but four of the carpenters employed in the construction department at the navy yard were suspended until further orders on Thursday, the 8th inst., and on the 9th the ship joiners were served likewise. The pay of laborers in the department of yards and docks has been reduced to $1.20 per day.

About all the fishing vessels arrived in by noon on Saturday, bringing a total of 20,000 lbs. of fish. Prices ranged low during the day, the highest offered being 2 3-4 cents per pound.

Mr. James W. Ricker, formerly of this city, was qualified as collector of Boston on Saturday afternoon last, and assumes the duties of the position to-day.

The crew of the schooner Charles H. Morse left her on Saturday, but were replaced by other men from Boston.

A pool tournament is to be held at the saloon of James G. White on Fleet street, commencing on Monday, the 12th inst., and ending April 11th. A prize of $5 for the largest run, and one of $3 for the next best, will be awarded.

A horse belonging to Mr. Alden Foster, of Eliot, Me., took fright in the vicinity of the Eastern railroad station on Friday of last week, ran down Vaughan street, and when turning into Congress threw a girl about eight years old out of the sleigh into a snow pile. The horse was stopped in front of the city building. Fortunely the child and team both escaped injury.

The schooner D. K. Ham, which hauled up at C. E. Walker & Co.'s wharf last fall when the brick fleet gave up business, and has lain there ever since, has had her cabin utilized during the winter as a sleeping place by some unknown volunteer, who gained access by drawing a staple which secured the cabin companionway. Nothing has been taken or injured, so far as has been discovered, the only trespass being the forcible entry and unauthorized occupation.

Abraham Bray, who served as a private in Capt. Moore's company of New Hampshire militia in the war of 1812, and was stationed in the Sir Wm. Pepperell house at Kittery, and who was granted a pension July 31st, 1878, has been directed to return his certificate to be cancelled, on the ground that he served as a waiter and not as an enlisted man. Mr. Bray was crippled by the parting of a hawser at the launch of the U. S. S. Ossipee, Nov. 16th, 1861, while he was engaged as a laborer on the navy yard. Congressman Reed has exerted himself to aid his aged constituent of Kittery Point, but as the law reads there is no help for him, so the octogenarian must in consequence do without his pension.

There was something of an epidemic of entertainments, public and private, in Newington last week. On Monday evening there was a social gathering at the house of a widow lady; Tuesday evening there was a roller-skating performance in the town hall—poorly attended, on account of the weather; Thursday evening there was a "majority party" at Elias Frink's, and on Friday evening a school festival in the town hall. For Saturday evening a private sociable was arranged for, but did not come off on account of the storm.

As an illustration of how Florida is increasing in business, we may mention that a few years ago, when Capt. John L. Amazeen of this city entered the service of the DeBary Merchants' Line of St. Johns river steamers, at Jacksonville, Fla., the "line" consisted of a single boat, whereas the company now run seven fine boats, including the "H. B. Plant," which is commanded by Capt. J. W. Fitzgerald, another Portsmouth man; and not only do these steamers have plenty to do during the winter, which is the season of "summer travel" in Florida, but several of them are kept running throughout the year.

An exchange says "There are gravestones in the old cemetery at Wells three hundred years old, it is stated." Those stones must have been well along in years when they were placed in the cemetery, as the town of Wells was not settled till about 1640—less than 250 years ago.

The shoe manufactory at Hampton Falls is run by Mr. Webber of Lynn, Mass., and employs about thirty-five hands; shoes are made for C. P. Tibbetts of Lynn.

Several citizens of Laconia and Lake Village have given notice in the *Tocsin* of their intention to apply to the legislature for a charter for a railroad from Laconia to Alton, which is the Lake Shore road. It is understood that as the Boston & Maine road wants to consolidate with the Eastern, it is not all anxious for the charter of this new route at the present time, and will not appear as an advocate of the measure, but will allow the Lacopia folks to go it alone this time.

HISTORY REPEATS ITSELF.

The fierce dispute in this city a few months since, between the few who wished to discontinue the curfew without having anything said about it, and the many who were determined that the bell should ring or they would know the reason why, is not yet forgotten. A very similar state of affairs—minus a considerable proportion of the excitement—appears to exist in Gloucester, Mass., if we may judge from the following, which we extract from a communication written by "Native" to the *Cape Ann Advertiser:*

And then that nine o'clock evening bell, proclaiming that the hour of rest was at hand, giving warning to the social gatherings that it was time to think of going home, hinting to the storekeeper that he might put up his shutters, and to the good housewife that her husband, who was down street, would soon be at home. There was music in its honest sound as it pealed forth on the evening air. There was also a sociability about it which was enjoyed by all. But this ringing of the bells has for some reason been discontinued, much to the regret of the citizens generally, to whom it had become a time-honored and very pleasant custom. We now have in its stead the striking of the bell, which compared with the merry peals of ringing is a mere sham, a shallow pretence, and might as well be dispensed with, as it cannot be heard half of the time. I hope the old custom will soon be revived. Will some one introduce an order into the city council to that effect, and if the city hall bell is not available, make arrangements for one of the church bells? Let not one of the old-time customs be thus summarily disposed of, but continue it, and thus gratify the many.

The French Spoliation bill met its usual fate during the session of Congress just ended. About sunrise of the last day when the members were merry over the question whether whiskey was a proper subject for discussion on Sunday morning, Mr. Walker tried to bring up the French Claims bill, but an objection ended the effort, and the measure relapsed again into the list of postponed subjects, as it has done during sessions for generations. This relief bill is rarely opposed or denounced; it is simply neglected.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove Hoop's SARSAPARILLA to be a reliable remedy, and among remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cures, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

SARAH C. WHITTIEF

N. H. S. P. C. A.

The President and Directors of the New Hampshire Society for the Prevention of Cruelty to Animals held their regular monthly meeting at the office of the society on Monday evening, March 4th. The president, secretary, Mrs. A. W. Haven, Mrs. John J. Pickering, Miss E. H. Pearson, Miss Annie F. Jenness, Miss Mary R. Lyman and A. W. Odiorne, Esq., were present.

The state agent reported the number and character of the cases of cruelty and neglect that had claimed the attention of the society during the quarter ending March 5th, viz.:

Horses found dead of starvation	3
Horses cruelly beaten by drivers or owners	7
Horses suffering from lack of food	9
Horses suffering from exposure to cold	6
Horses suffering from long standing in streets	4
Horses suffering from overwork	26
Horses suffering from harness galls	4
Horses blanketed by agents	24
Cows suffering from lack of food	36
Cows suffering from exposure to cold	20
Colt abused by owner	1
Swine suffering for food	4
Cattle cruelly beaten	10
Cattle cruelly overworked	20
Lame horses taken from work	4
Dog beating and torture	1
Torture of cat	2
Overdriving of horses stopped	11
Animals humanely killed	12
Pet rabbit neglected	1
Dogs homeless and suffering provided for	3
Cats homeless and suffering provided for	3

Towns and cities visited in the prosecution of the work:

Dover, Concord, Manchester, Saco, Biddeford, South Berwick, York, Kittery, Plymouth, Rumney, Canaan, Franklin, Andover, East Kingston, Kensington, Lee, Wadley's Falls, Epping, Orange, East Canaan, Factory Village, Newington, Lebanon, Hampton Falls, Newmarket, Lake Village, Gilford, Weirs, Potter Place, Greenland, Tilton.

Number of miles travelled 784; number of prosecutions on charges of cruelty, nine.

The state agent reported that owing to the improvidence and avarice of their owners many cattle, cows, sheep and horses, in various parts of the state, were suffering the pangs of starvation, and some had actually died for lack of proper food. Several exposures of such cruel negligence had been made by him, and prompt relief afforded the suffering creatures.

Special donations have been received for and appropriated to the distribution of humane literature throughout the state.

The society's gold medal, given by Mrs. John J. Pickering, was awarded to Miss Jennie L. Kidder of Bethlehem, author of the essay on Kindness to Animals, to which a committee voted the prize.

Miss Mary E. Kimball of Lebanon was unanimously elected a life member of the society.

The seventeenth annual report of the American Society for the Prevention of Cruelty to Animals—Henry Bergh's,—the thirteenth annual report of the Woman's Buffalo Branch of the Am. S. P. C. A., and the sixth annual report of the Am. Humane Association were received and placed on file.

RAILROAD ACCIDENT.

At extra freight train which left Portland at twelve o'clock P. M. on Friday, on the Eastern railroad, just before arriving at the Eliot station had one of the couplings break, separating the train. The engineer soon made discovery of the fact, slacked down, and whistled to put on brakes. The steep down grade at this point made it impossible to slacken the speed of the rear section enough to prevent a collision of the two parts, which when meeting made considerable havoc with the train. Three of the cars were thrown off the track, twenty-three drawbars were broken, and sixteen cars had their forward trucks displaced, and some of them had their sides and ends broken in. Some of the cars were thrown on top of those forward of them. The wrecking train from this station was sent for, and succeeded in getting the cars onto the side track, preventing any delay of regular trains. It was expected to get the cars in condition on Sunday to bring them into this station. One of the hands in the buggy car was thrown some feet, but escaped without receiving any injury.

WILLIAM RUSSELL FOSTER.

Only son of Joseph Hiller Foster, treasurer of the Portsmouth Savings bank, died at the residence of his father on Middle street, Saturday morning, of Bright's disease, at the age of twenty-eight years.

Mr. Foster was a young man of much promise. In our high school and at Exeter academy he was accounted one of the best scholars of his class. He possessed a wonderfully retentive memory, and mastered his studies much easier than does the average pupil. He graduated at Harvard university, and studied law with John S. H. Frink, Esq., was admitted to the bar in 1877, and commenced the practice of his profession in this city. He was admitted to the bar of the United States court in May, 1879. He has served for three years as city solicitor, and in November last was chosen solicitor for Rockingham county.

Mr. Foster was held in high esteem by his school fellows; his kindly traits of character always brought him a large acquaintance, and many close friendships. By his former associates in the high school he was chosen recording secretary of the High School association; with the members of the bar his relations were always honorable and gentlemanly; indeed, every one had the fullest confidence in his integrity and uprightness in all his professional duties. He was a member of DeWitt Clinton Commandry of Knights Templar, and an officer of St. John's Lodge of Freemasons.

For some time past Mr. Foster had shown the effects of impaired health, but the announcement of his death on Saturday morning was a painful surprise to our community, which caused on every hand expressions of heartfelt regret at the untimely bereavement.

The funeral occurs on Tuesday afternoon.

DR. PEABODY'S LECTURE.

This evening, in the Congregational chapel on Middle street, Rev. Dr. Peabody will give a lecture on Italy and its people, a subject with which he is intimately acquainted, for the benefit of the anti-cruelty society. It will be one of the most instructive and interesting lectures delivered in this city for years. Tickets at Preston's and Goodrich's.

WIGGINS' BIG "BLOW."

As those persons who had sneered at the prediction of "Professor E. Stone Wiggins, M. A., LL. D.," concerning a storm and tidal wave which were jointly to sweep to tarnal smash the entire universe, came down town on Saturday morning, they looked askance at the ominous storm-warning displayed on the government flag-staff, and asked themselves if it could be possible that the "prophet" who failed so egregiously in a previous instance had managed to guess right this time?

As the barometer went down, down, down, until a fall of an inch and sixtenths in thirty hours was recorded, and the mercury stood lower than at any time for a year past, even those who knew that Wiggins was either a crank or a scamp feared that such a storm was pending as would give the fellow, with superstitious and ignorant people, such standing as a prophet that he could work incalculable injury in the future by his "blowing" about storms whose approach he alone of all the world could foretell months ahead. The wind arose, and grew stronger and stronger until it was a very fair gale—not a tornado indeed, nor even a great storm, but such a sharp blow as is to be expected at any time in February, March or the first half of April, on the New England coast.

When the storm was at its height, along in the afternoon, a man who estimated Wiggins at his true value entered a store near the water side, in which were several men who pinned their faith to the prophet. "Well," said one of the latter to the anti-Wigginsite, "what do you think of it now?" "Think of it!" was the answer; "why, just what I did before. You don't call this the biggest storm ever known, do you?" "Oh! but to-morrow is the day; the 11th was the time set by the professor"—"Professor be blanked!" rudely interrupted the unbeliever; "he puts 'A. M.' and 'LL. D.' after his name, I see; if he is entitled to those letters, he simply proves that an educated ass is an ass still—that is, if he really believes in his own predictions; otherwise he is a consummate scoundrel, and ought to be hung for the fright and the injury to business occasioned by his ridiculous prophecies." There was but little chance for a compromise here, and the parties separated, each firm in his own belief.

About sundown the wind died away, and before nine o'clock the stars were shining brightly, and the wind blowing moderately from the westward. The first "great storm" was over, and no damage reported beyond that of ordinary March blows. Sunday opened bright and clear, with little wind, the barometer still keeping very low, though rising slowly; and up to midnight there was no indication of such a storm as would save the credit of the weather-prophesying imposter with his believers, though the heavens were overcast early in the afternoon, and the wind breezed up briskly after three o'clock.

BUFFALO BILL.

Buffalo Bill and his company at Music hall to-night, in "Twenty Days," of which the Norwich (Conn.) *Bulletin* says:

The play is the best that has ever been written to represent life on the frontier, and the plot is gradually and agreeably developed. It is well interlarded with villany, and the thrilling scenes are plentiful. The humor begins with "Jerry" the trained donkey, and ends with Miss Cornelia Cranberry, the delicate flower from the granite hills of New Hampshire. The cast is as strong as talent can make it. The Indian scene, with three chiefs and a squaw in camp, gave a practical illustration of savage life on the plains. The scenery was fine, and Buffalo Bill's rifle practice was a marvelous display of marksmanship. Miss Lole Fuller as Miss Pepper, the deserted waif, and Jule Keen as Yaweob Boomblebeck, the Dutchman, in their songs and characters were vivacious and mirth-inspiring. The entertainment was the best that Mr. Cody has ever given here. The audience was delighted with the performance.

Tickets can be procured at Goodrich's bookstore in Congress block.

A GOOD WORK.

The work of the New Hampshire Society for the Prevention of Cruelty to Animals extends all over the state, but the means at its disposal are entirely inadequate to do all that it is called upon to accomplish. However remote the place from which the cry of suffering comes, it never fails to investigate the case, and if possible bring the offender to justice, thereby exerting an influence over the whole neighborhood.

The economical manner in which its affairs are carried on is apparent to all who have read its annual published reports. The extent and importance of its operations are in very satisfactory proportion to the amount of money expended in the beneficent cause, and have elicited high encomiums from those who have given it their attention.

For ten years the management of the society has been vigorously, judiciously and prudently conducted. It has fairly demonstrated its right to rank with the noblest civilizing agencies of the age in any state or community, but its work grows faster than its resources increase. Contributions to its treasury, by men and women throughout the state who have not yet given anything to alleviate the misery of neglected and abused dumb creatures, will be gladly received.

The steamer Mystic, Capt. Trefethen, having been furnished with a new boiler and been thoroughly overhauled and repaired, will to day commence running again on her regular time-table.

Mr. R. B. Beaumont, agent in this city for the Portsmouth & York Steamboat Co., has taken the offices formerly occupied by the late Gov. Goodwin on Market street, and fitted them up in handsome style.

Cuticura
THE NEW BLOOD PURIFIER
Resolvent

Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies, used Cuticura Resolvent internally, and Cuticura and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Bullard & Foster, Druggists, Keene, N. H.

MOTHER DIED FROM IT.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicine on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relived or cured until I used the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap externally.

SECRET!
THE ONLY DISSOLVER OF THE POISONOUS URIC ACID WHICH EXISTS IN THE BLOOD OF RHEUMATIC AND GOUTY PATIENTS.
SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.
In has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.
SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent. cures in three days.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most exhaustive work on Physiology ever published. There nothing what ever that the married or single can either require or wish to know but what is full explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

News and Notes.

Mr. Joseph Styles, who died in Pittsfield on the 1st of March, served in Capt. Montgomery's company of New Hampshire volunteers in the war of 1812, when Portsmouth was threatened by the British fleet.

At the present time there are on the books of the pension office no fewer than 117 different grades of pensioners, and some of them are numbered by scores of thousands each. No wonder that there are demands for a large clerical force in this office, and that pensions have become the current burden of the government.

The suicide, at Montgomery, Ala., March 3d, of M. T. Ray, assistant cashier of the Merchants & Planters' bank, led to an examination of the bank's condition, and the money was found to be short $10,000. The officers of the bank discovered, a day or two before Ray's death, that there was trouble. Ray was sick at his home, and being sent for, killed himself.

At a private meeting of the congregational church in West Medway, Mass., last Thursday night, fourteen persons were dismissed, charged with resisting church discipline. The names include some of the most prominent members of the church: Mrs. Anson Daniels, Mrs. Edward Shumway, Mrs. Ezra Pierson, Deacon Anson Daniels, Edward Shumway, E. T. Fisher, Joseph Bullard, Emerson Bullard, A. M. B. Fuller, Newell Fuller, Elihu White, James Combs, Simeon Fisher and Nathan Davenport.

The Hartford *Times* says that there are three seasons in Florida—the orange, the vegetable and the invalid seasons, and that the last pays the best.

Southern democrats favor Abram S. Hewitt as a candidate of their party for president. They could make a worse choice.

David Strouse, Esq., attorney-at-law, of New Haven, Conn., says: "I was attacked with severe rheumatism. I used one bottle of St. Jacobs Oil, rubbing well three times a day, and obtained instant relief and a perfect cure."

—The coat-tail flirtation is the latest. A wrinkled coat-tail bearing dusty toe marks means, "I have spoken to your father."

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

—A Chicago rascal, pursued by the police, succeeded in sounding the electric fire alarm. This set so many people running and drew such a crowd that he escaped.

—"Is Miss Blank at home?" asked a faultlessly attired bore of a new girl. The girl took from her pocket a photograph, carefully scanned it, and after another look at the features of the visitor, answered, "No, sor; she has gone to Europe." He left.—*Philadelphia News.*

Answer This.

Can you find a case of Bright's disease of the kidneys, diabetes, urinary or liver complaints that is curable, that Hop Bitters has not or cannot cure? Ask your neighbors if they can.

—"Now, little children," said the intelligent gentleman, who, having travelled abroad, was asked to address the Sunday school, "now, little children, look at me and tell me where you think I have come from." Without the least hesitation, an urchin shrieked, "From the country."

THAT SETTLES IT.

Brought into Competition with the World, the Best Carries off the Honors.

At the great Centennial Exhibition of 1876, the leading products of all the branches of the World's Industry were assembled at Philadelphia. To carry off a prize in the face of that tremendous competition was a task of no ordinary difficulty. Inventions and preparations for the alleviation of pain and the cure of disease were present in the greatest possible variety, representing the skill and the proudest study of the age, and it may be of vital importance to you, personally, to know that the highest and only medal given to rubber Porous plasters, was awarded to the manufacturers of BENSON'S CAPCINE POROUS PLASTER, by the following jury:

DR. WM. ROTH, Surgeon-General, Prussian Army.

J. H. THOMPSON, A. M., M. D., Washington, D. C.

C. B. WHITE, M. D., New Orleans.

ERNEST FLEISCH, M. D., Austria.

The decision was afterwards confirmed by the medical jury at the last Paris Exposition. Knowing the value of such high and unbiased testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow acting plasters they had been using, and adopted Benson's in their regular practice. That physicians and surgeons of the broadest reputations did this, distinctly proves the intrinsic merit of the article.

It is no more than just to add that the average physician of to-day is not dominated by the prejudices which retarded the progress and modified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endorses and adopts demonstrated healing agents wherever he finds them.

The right of Benson's Capcine Porous Plaster to stand at the head of all external applications whatsoever, for the mitigation or cure of disease, is no longer questioned.

Let the purchaser, however, be on his guard against imitations. The genuine has the word CAPCINE cut in the middle.

VARIOUS QUACKS.

Who--Each with his own Pet Scheme--

Cultivate the Field of Human

Nature.

There have always been quacks:—legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of these have no more electric or magnetic power about them than resides in wooden blankets or in girdles of sackcloth. Only when applied by an expert is electricity at the slightest use as a medicinal agent, and even then its value is grossly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists and chemists, it needs no further apology nor introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

Important to the Sick.

To those who have used Swedish Remedies, they know full well the value of them. To those who from prejudice have not used them, we can say that they are the very best medicines for the diseases for which they are recommended. Swedish Lung Balsam cures coughs, colds, and all diseases of the lungs. When taken together with Swedish Botanic Compound (the great blood purifier), it will cure consumption in the first and second stages.

A YOUNG OLD LADY.

"Yes, Sir! I'm Younger than any of my Children now," said Mrs. Sarah M. Robinson, of 61 William St., New Haven, Conn.--We read about this kind of Noble Ladies, but Seldom See them in Society.

"Yes, sir; I'm younger than any of my children now. I keep up with the times, I read the papers, applaud the victories of old Yale, and don't grow old," were the words of Mrs. Robinson to your reporter when he called at her home. Mrs. Robinson is one of the earnest, go-ahead sort of aged ladies, of whom you read, but whom you so rarely find in modern society. "I've had my share of trouble," she said, "for all my life I've been a sufferer from erysipelas. From this has resulted diseased stomach and inaction of the digestive organs. I've been troubled with dyspepsia, and have had such a weakness of the stomach it has seemed as if I needed something artificial and strengthening. I attribute this to erysipelas, which is constitutional with me. I've been under the physician's care a great deal during my life, but I never received any permanent benefit! I think until I began taking Dr. Kennedy's FAVORITE REMEDY, which has proved a *perfect restorative* in my case. My health is better now than it has been for a long time. I consider Dr. Kennedy's FAVORITE REMEDY an excellent medicine. It is used extensively in this city. I keep it as a family medicine, and rely upon it for I know of the good results of using it."

Your reporter I ft Mrs. Robinson rejoicing in health and renewed youth, and bestowing merited praise on that which is the source of happiness to thousands, viz; Dr. Kennedy's FAVORITE REMEDY. Ask your druggist for it. Kennedy's FAVORITE REMEDY has become a household word. Everybody, sooner or later, gets sick, and sickness is both wearisome and costly. FAVORITE REMEDY stops in at this point. It is not expensive and it is efficient. For all diseases of the Blood, Bilious Disorders, Kidney Complaints, Constipation, and the aches and ills which make the domestic life of women a cross so hard to bear.

In Lumber Camp in Winter.

The men who cut and haul lumber are fearfully exposed in severe weather, and, although hardy and rugged, are sometimes laid aside from duty. Mr. Randall, of Augusta, Maine, who is extensively engaged in the lumbering business, writes that one of his men was attacked with a terrible sore throat, so that they thought he would die. They administered Perry Davis's Pain Killer, both internally and externally. In an hour the sufferer was relieved, and the next day he was at work as usual.

The attempt at robbing a train on the Little Rock & Fort Smith railroad, on the night of the 7th inst., was made by four men, and not forty, as at first reported. One of the ruffians has been caught; he was badly wounded. Crane, the conductor of the train, has died of his wounds, and the wounded brakeman cannot live.

Dr. H. L. Bowker, Massachusetts state assayer, purchased himself from several wholesale druggists the samples he analysed of "G. O. Taylor Old Bourbon" whiskey. It cannot, therefore, be said that the samples were different from the article sold by Chester H. Graves & Sons, Boston. He pronounced it of remarkable purity and excellence. Buy it of your druggist or grocer.

A house, twelve miles south of Helena, Ark., in which were six adults and four children, was upset by the flood and the children were drowned. The others were rescued after they had clung to the roof three days. The St. Francis swamp contains hundreds of horses, mules and cattle standing up to their throats in water. Many carcasses are floating about.

From the cradle to the grave all are subject to coughs and colds. Adamson's Botanic Cough Balsam is a certain cure in the most obstinate cases. New trial size, 10 cts.

The greater portion of the town of Shawneetown, Ill., is now out of water. Railway trains are again running. Many houses that weathered the flood are now falling, either total or partial wrecks.

To Give Housekeepers an opportunity to test the merits of Electro-Silicon, the noted silver polish, we send postpaid, on receipt of 15 cents in stamps, a full-sized box, sufficient for a month's use, and a cook book. Electro-Silicon Co., 72 John street, New York.

A High Compliment.

The Washington correspondent of the Boston *Journal*, writing as to the composition of the national senate, says:

"The south still adheres to its *ante-bellum* policy of re-electing its senators, increasing their usefulness by adding to their experience. In addition to this, the states they represent retain more influence in the senate, as new senators are obliged to commence at the bottom of the committee lists and work up. New England is also making a good record in this respect, and if Mr. Rollins is re-elected, she will send back four senators to the Forty-eighth Congress who are unsurpassed in usefulness.

* * * *

Senator Rollins takes rank second to none in the influence he exerts in the senate. A practical business man, of clear head and sound judgment, he accomplishes more work and makes less fuss about it than almost any other member of that branch of Congress. He has that push and determination about him that gives success to any measure he undertakes, as, for instance, his efforts in behalf of the knit goods bill last summer, when he and Senator Hawley rescued it from what seemed to be irretrievable defeat. He is entitled to the credit of keeping the senate in session during the last Christmas holidays—a week's work that enabled the senate to pass the civil service and tariff bills, and had a healthy influence over the house in expediting its business.

Although not frequently engaging in debate, he showed himself at home on the floor of the senate during the contest a year ago between the appropriation and naval committees over the action of the former in tacking general legislation upon the naval appropriation bill, and he has had the satisfaction at this session of seeing, not only the appropriation committee, but the whole senate put its foot upon the vicious practice of smuggling legislation into amendments of appropriation bills that should properly come before Congress as separate measures.

Mr. Rollins' attention to the wants of his state and the demands of his constituents is proverbial, and it is said that the smallest request receives the same attention from him as the largest. His service to his state is attested by such accomplished facts as a liberal appropriation for a public building at Concord; the removal of the United States courts to a more convenient section of the state; appropriations for the improvement of the Exeter and Cocheco rivers; the relief of the New Hampshire Savings bank of $100,000 unjust taxes, and numerous other matters of local importance. No senator is recorded as in attendance and voting more days of a session than he, and his votes have invariably been on the right side. He has kept clear of credit mobilier and other jobs, and his state never had occasion to fear that a congressional investigation would smirch him. His first term in the senate is creditable to him and his state, and his re-election should follow, as his six years of experience can but enable him to take even higher rank than he has already occupied."

Exit Wiggins.

In November, 1882, a person calling himself E. Stone Wiggins wrote to President Arthur that a great storm would strike New England on the 11th of March, 1883, when "No point outside of harbor, in the whole area of the Atlantic, especially north of the equator, will be a place of safety, for this will be pre-eminently the greatest storm that has visited this continent since the days of your illustrious first president." He had for some time previous been proclaiming to the world through the papers, and writing to prominent personages, that between the fifth and eleventh of March there was to be a storm, "the greatest the world had ever seen." Why in the name of commonsense the president did not toss the fellow's screed where it belonged, into the waste basket, we cannot say; but he did not. He it is stated wrote to Wiggins, thanking him for his predictions, which he afterward submitted to Gen. Hazen of the United States signal office for his opinion. Gen. Hazen made a lengthy reply, giving scientific reasons for discrediting the report and closed as follows:

Too severe rebuke cannot be inflicted upon those who attempt to deceive or needlessly alarm the people by publishing such statements as that of Mr. Wiggins. Their words are totally untrustworthy, and the people should be so informed by those who are familiar with the subjects upon which these prophets presume to speak. Such statements fill lunatic asylums, and those who make them are enemies of society. There publication is a pestilence, and it is the duty of all persons who know the truth to denounce them, and enlighten those who might believe them.

But human nature dearly loves to be humbugged, and the teachings of common sense, backed by the strongest evidence of the most advanced science, count for little when opposed to the mouthings of a noisy mountebank; hence the absurd predictions of this imposter (who seems to have been envious of the fame of Vennor, and determined to "go him one better" as a weather prophet,) were fully believed by thousands of people all over the land.

The Gloucester fishermen, either themselves believing in Wiggins or entreated by their wives and families, refused to leave port during the "danger period," causing a loss estimated at $150,000 to $200,000—a loss that will be felt in many homes for many months, in the shape of scantier meals and poorer clothing than usual. Many big coasting and even foreign-going vessels hung at their anchors day after day, though all cleared for sea, owing to the fear of Wiggins' private tornado, and the steamers which did sail had but meagre passenger-lists; the loss to the commerce of New York is estimated at $1,000,000. Worst of all, it has been reported that several persons have become insane, and some deaths have occurred, through silly fears caused by the direful predictions.

The storm period has come and gone, and Wiggins can now return to the obscurity from which he raised himself by his ridiculous pretences; not only did his big blow not come off, but the only storm which did occur within his specified period, on the New England coast, was but a brief and mild affair for March—a mere "squirt o' wind," which would have attracted no attention whatever but for the fact that so many were watching for something heavier.

It is possible, though it seems hardly probable, that Wiggins was self-deceived, and did actually believe in his own prophecies; if so, he is to be pitied; but if his conduct has been simply the result of an artfully-planned scheme to secure notoriety, he deserves the contempt of every honest man.

NOT A LUCKY CRAFT.

A despatch from Norfolk, Va., last week, said "The tug Nettie and schooner Scud are actively engaged at work on the schooner George L. Treadwell, sunk near Wolftrap light, Chesapeake bay." This schooner was built in Essex, Mass., in 1874, for Mr. Valentine Doane of this city, and was for several years attached to his fleet of bank fishermen sailing out of this port. One winter, after the bankers had hauled up, the George L. Treadwell went into the coasting trade, and was wrecked on Chincoteague shoal while on the passage from Baltimore to New York with a cargo of corn in bulk. She was sold as she lay, raised by wreckers, taken into Baltimore, repaired, and put in the West India trade. After several voyages between the West Indies and Baltimore, she one evening sailed from Nassau, N. P., and next morning was found fifty miles away, on her beam ends and abandoned, having been capsized by a squall during the night. She was again saved by wreckers, and since then has not met with any more serious disaster than having her decks swept or a spar or two carried away, until she hit the Wolftrap one night about two weeks ago. An attempt was at one time made to change her name, and a bill to effect this was passed by the lower house of Congress, but the name was never changed.

The Portland *Argus* of Monday says that the committee of the Eastern and Boston & Maine railroads have agreed to report at an early day in favor of consolidation. To report is one thing; to consolidate is quite another,—perhaps.

Miss Abigail Perkins of Hampton, recently deceased, leaves three brothers aged respectively ninety-four, ninety-two and eighty years.

The Maine legislature has passed the bill to punish by fine or imprisonment, or both, persons using living birds as targets, so the Tremont Gun club of Boston will have to find another place besides Eliot for their pigeon shoots.

During the year ending March 1st, 1883, one hundred and thirty-one licenses to retail liquor were issued by the United States to persons in York county. Of the licensees one resides in Kittery, nine in York, three in South Berwick, one in Berwick, two in North Berwick, and two in Wells.

The Perkins Chair Co. of this city can make from 7,000 to 10,000 of their new patent railroad chairs a day, with their present machinery.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price **25** cents a bottle. codtjan9,84

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. Nothing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

SARAH C. WHITTIEF
